MR. JOHN McPHEE

On Saturday, July 16th, Mr. John McPhee a very highly esteemed resident of Springton passed peacefully away at the age of 84 years.

The deceased had been in his fairly good condition of health until a few months before the coming of the end so that to quite a number his death came as quite a shock.

Although naturally of a rugged constitution when the last illness overtook him it was soon evident that he could not recover.

All that medical skill and loved ones could do was done but all to no avail. His strength gradually waned until on the afternoon of the above mentioned date his spirit took its homeward flight.

20 Inning Ball Game At Hub

Looks Like A New Record

MONCTON, Sept. 8. — Last Saturday afternoon's baseball game, which went 20 innings, has been the talk of the fans in and about Moncton during the week. The game, which was between the Nationals and Athletics, went scoreless until the 20th inning with Bourque hurling for the Nationals, which finally secured two runs in the last frame, while Wall was on the mound for the losing team. The losers had five hits off Bourque and Wall was allowed ten.

The 20th inning without a score is believed to establish a new record in Canada in baseball circles. One game is said to have gone 28 innings, but there was scoring before the 20th. Moncton baseball fanatics, however, are busy just now going through the records seeking information on the matter. The game stood 2-0 at the end of the 20th frame.

The second game was scheduled to start at 5:30 o'clock and fans arriving for this encounter "sat in" and saw about five or six innings of the first contest. The second game had to be cancelled.

IN MEMORY OF RUSSEL COFFIN

"Almost unbelievable" seemed the message that came by telephone on the evening of August 7th, 1927, saying that Russel is drowned, but alas too true it proved to be. He had been bathing in the Savage Harbour stream near the lobster factory, when suddenly he stepped into a hole that had quite recently been dredged out. He could not swim but came to the surface, and the swimmers near by seeing him in trouble, could not keep him from going down. The body was recovered in a very few minutes but he worked in vain to revive him. Dr. Toombs of Mt. Stewart was soon in attendance and is satisfied that heart failure had followed the shock of his sudden plunge which would account for him not being able to put more effort to save himself, for he was the very soul of energy and ambition. He was in the very prime of life, being only thirty-eight years of age, of good character and ability. He had many friends who will long cherish the memory of his cheerful speech and happy laughter, but he will be especially missed in his home of which he was the head, his father Albert Coffin, having died suddenly in March.

He leaves to mourn his untimely death, his step mother and two sisters, Mrs. Albert Webster of Mt. Stewart, and Mrs. Will Crawford of Methue, Mass., who with her three children arrived home in time for the funeral, which took place from his late home at Cherry Hill, on August 11th at 2 o'clock p. m. The services were conducted by Rev. Mr. Muir of Charlottetown, assisted by Rev. Mr. Charman of Mt. Stewart. The funeral procession, one of the largest ever seen in this community, wended its way to West St. Peter's Cemetery, where all that was mortal of Russel was laid to rest beside his mother who predeceased him thirty-five years ago. The pall bearers were Messrs. Ira Douglas, Douglas Coffin, the end so that to quite a number his death came as quite a shock.

The floral tributes included wreaths from his sisters, Mr. and Mrs. Cameron McLaughlin and family, Linda and Ida Coffin, Crests, Mr. and Mrs. J. L. Douglas, Mr. and Mrs. Calvin Cameron and family, Mr. and Mrs. W. Henry Coffin and family, Boquets, Miss Eliza L. Coffin, Mrs. Sarah Coffin, Letters of Sympathy, Mr. Stewart, Donald, Lawrence, Mass., Mr. and Mrs. Everett H. Anderson, South Boston, Mass., Mr. George and Miss Betha Rattary, Methue, Mass., Mrs. Amelia Smith, Cambridge, Mass., Mrs. Beecher Court, Ruston, P. E. Island.

FAREWELL GATHERING

On Friday evening August 27th a number of the friends of Mr. and Mrs. Calvin Wood gathered at their home to spend a social hour with their daughter Miss Hazel, for some years bookkeeper with Cadmore Bros. City, who left the following morning on a well earned holiday for Boston Mass. During the evening an address of appreciation was read by Miss Evelyn McEwen of Charlottetown and Mrs. Jenny Ferguson on behalf of her friends, presented her with a beautiful club bag. To these, Miss Wood, although completely taken by surprise, replied very gracefully and feelingly.

Miss Hazel Wood, Southport, Dear Hazel:

We have gathered here for the purpose of spending one more evening in your enjoyable company. It was with much regret that we learned of your intended departure from our midst, but even though we will greatly miss you we feel confident that the future holds many good things in store for you.

As we look back over the success you have attained here, due to your ambitious, upright and faithful character we are assured that even better success will attend you in your new surroundings.

Your amiable disposition and kindly manner toward all will make hosts of new friends for you, wherever you may go, and lest you should forget your old ones we ask you to accept this small gift as a remembrance of your numerous friends and as a token of the esteem in which you are held by all.

Signed on behalf of your friends gathered here.

DYES CURE DESPERATE BLOOD-POISONING CASES

DETROIT, Mich., Sept. 8. — The capacity of chemists to cure diseases, speed crops and keep automobiles from rusting was discussed today at the 74th meeting of the American Chemical Society.

Dr. Hugh B. Young, of the Brady Urological Institute, Baltimore, told the society that remarkable results have been obtained with dyes in curing what were described as desperate cases of blood-poisoning. Recent research, he said, had uncovered heretofore unsuspected therapeutic properties in hundreds of dyes.

The study of life cells, which may some day yield the secret of cancer and possibly a cure, was passing from biologists to the biochemists and before long, perhaps, chemists would be performing analytical operations. Prof. Treat B. Johnston, of Yale, said.

"It will be by the application of modern chemical technique in the study of cell structure that we will learn the nature of the complicated mechanisms of the human body," Johnston declared.

The application of ethylene chlorohydrin gas in seed potatoes will enable growers of the United States to produce an early crop and emancipate the country from reliance upon Bermuda for early potatoes," Dr. E. C. Denny, of Yonkers, N. Y., reported.

Florida peanut growers, he said would be able to produce potatoes between peanut crops by utilizing this chemical contribution to agriculture.

He also reported on chemical aids in the growing of citrus fruits, celery, bananas, pineapples, melons and others.

Science has doomed the rusty motor car, Dr. Horace W. Gillett, of the Bureau of Standards at Washington, declared at the opening of a three-day automobile symposium. He reported the development of non-rusting materials for use in the making of automobiles.
