Dental Notice !

During the thirty years which I have devoted to the practice of Dentistry in P. E. I. I have kept fully abreast of the times by a close study of the progress made in the science, by testing every apparently desirable new feature introduced, and by adopting all such as have commended themselves to me as conducive to painless treatment, as time saving, or as productive of more artistic and comfortable results. In pursuit of this course I have from time to time visited the large American dental institutions and centres of supply. During a recent visit to New York I secured the latest and most approved labor saving appliances and studied the most advanced methods of Crown and Bridge work making. I am therefore in a position to do this class of work at less than half the price hitherto charged in this Province. I also purchased some

Entirely new Appliances

for regulating childrens teeth, a branch of the profession very much neglected here.

I am administering NARCOTILE for the PAINLESS EXTRACTING OF TEETH, a safe, pleasant, anesthetic, occupies only from one to two minutes, no unpleasant after effects, NO EXTRA CHARGE. I have had thirty years experience giving anesthetics. Prices for Crown and Bridge work, Gold Crown 22k, $1.50 to $3.00. teeth tipped with Gold $2.00 to $2.50. I guarantee all work and will be glad to show specimens.

ENGLISH CAMPHOR MARBLES

Are used extensively by all the large fur manufacturers and merchants. They are a sure preventative and protection against

MOTHS

and insects, not only in furs but all woolen goods carpets, rugs, etc. They have all the virtues of moth balls, etc., but in a much greater degree. The odor is not so persistent as moth balls neither do they stain the most delicate fabric. Price 10c for giant boxes.

THE MORNING GUARDIAN

THURSDAY, APRIL 30, 1903.

DISFIGURING NIAGARA FALLS.

The Engineering News rightly protests against the multiplying of power plants and manufacturing industries close to Niagara Falls, to the ruin of the beauty of the place. "When the first power house was built at Niagara" says the News permission for the utilization of the water was obtained only on the plea that the power house was situated so far away from the falls (over a mile) that it and the accompanying industrial development would not injure in the slightest the natural scenery around the great gorge. Had other power developments proceeded on similar lines, no objection could rightly be raised; but when it was demonstrated that Niagara water power enterprises would pay, plenty of persons were ready to undertake them by the easiest and cheapest plan. Before that time, local sentiment in the vicinity of Niagara had been strongly opposed to anything tending to injure the beauty of the falls and make them less attractive to visitors. This local sentiment disappeared when it was seen that the industrial utilization of the cataract promised greater profits." It is argued in other quarters that the flow of water over the falls will be much reduced as the power plants multiply. On the Canadian as well as on the American side plants are being placed close to the falls. A great power house is being built in the gorge, near the foot of the Horseshoe fall, and another great power house is to stand close by the upper rapids. Legislation to stop this sort of thing is demanded.

THE DAY OF MIRACLES NOT PAS

A Toronto "Star" reporter investigated the case of Mr. Geo. Warner, and found that after thirteen years of almost total deafness, he had been cured by inhaling Catarrhozone.

This proves that where Catarrhozone treatment is employed, impaired hearing and deafness can be cured. Catarrhozone always brings quick relief, and is warranted to give lasting satisfaction. All sufferers from Impaired Hearing, Deafness, Head Noises and Ringing in the Ears are advised to inhale Catarrhozone and derive the great benefit it is capable of affording Price $1.00, small size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont.

DR. HAMILTON'S PILLS CURE CONSTIPATION.

At a banquet to the German minister in New York last week Senator Depew paid this tribute to the press:—"Frederick the Great did not know what a newspaper was. If he had, he'd have locked it up. Those were happy days. (Laughter.) Today there is no legislature or congress that can withstand the power of the press. You see bills careering through the legislature which have no reason to pass, and under the fire of the newspapers they die, because the statesman does not want to die with them."

The Canadian troops in South Africa have received the highest praise from Lionel James, the Times war correspondent in South Africa who has fought in seven campaigns although only thirty-four years of age. He is joint author of the Times history of the war. He says:

"The Canadians did splendid service at the front, and our history gladly gives them their due. I saw several Canadian commands, and considered their chief characteristic to be their cheerfulness, which put heart into other regiments. I heard the greatest British general say that he considered the best of all the Colonial troops."

Montreal Witness: A pastoral letter by Archbishop Bruchesi, read in all the churches of his diocese yesterday, on the subject of labor disputes, was not only timely but contained some profoundly wise and just observations on the mutual duties of employers and workingmen. The difficulty in bringing about a settlement of such disputes except in the cases where there is compulsory arbitration, as in New Zealand, is that there is no authority which both sides will agree to accept for the adjustment of their differences. In his position, however, the Archbishop, commanding the spiritual allegiance of a large section of the people in this city, can, as he has wisely done, define principles and lay down rules of conduct which appeal to the common sense of all, and should ensure their observance. He recognizes the right of workingmen to combine for mutual support and protection, while, at the same time he places himself in line with the best thought on this much-vexed question by condemning resort to violence and interference with the rights of other men to work when they are willing. A point of some importance on which he insists is that Canadian working men should preserve their independence of foreign control, that is, from the control of labor leaders in other countries. It is manifest that there can be no permanent or satisfactory adjustment of industrial affairs in this country if men who are not amenable to its laws can command the obedience of the labor unions. The practical irresponsibility of such men, and the fact that they regard labor movements from an outside class viewpoint, unfit them, if there were no other reasons, for exercising so dangerous an authority. It is to be hoped that the men now on strike and those who are threatening to go on strike will calmly and carefully study the Archbishop's pastoral and give heed to its wise recommendations.

Neuralgia

is Rheumatism of the face. Uric Acid left in the blood by disordered kidneys lodges along the nerve which branches from the eye over the forehead, and across the cheek to the side of the nose. The cause is the same as in all Rheumatism—disordered Kidneys. The cure is likewise the same—

Registered Draft Stallion
Young Goldfinder
Weight 1

Young Goldfinder was imported by Messrs. Stockman and McMillian direct from Scotland, sired by the famous McGregor, the stallion that was never beaten in the show ring and prized and admired by all horsemen in Scotland and England. His dam was 1st Nancy by Lord Lyon, 2nd dam Trim by Sir Colin 3rd dam Nell by Robert Burns. Young Goldfinder is but coming 5 years old and is the very type of his sire—McGregor.

Young Goldfinder will stand at Mitchell's stables, Grafton Street, opposite Court House, Ch'town, for the season of 1903 except on the following dates when he will be at W. G. Simpson's, Kensington, all day. Wednesday of May 6, 20; June 3, 17; July 1, 15; and at W. G. Smith's, Hunter River for the afternoon of Thursdays of May 7, 21; June 4, 18; July 2, 16, when he will return to Ch'town by evening train.

His owners, Messrs. Stockman & McMillan will give $25.00 in prizes every Provincial Exhibition for the exhibit of Goldfinder's get colts. Prizes to be awarded as follows $10, $7, $5, $3.
