HUSBANDS LOSE WIVES' LOVE WHEN THEY BECOME CARELESS Slovenliness About House and Failure to Show Interest in Family Affairs Often Wrecks Home Happiness

Dear Miss Dix—I was very much interested in your article on how wives should act if they want to lose their husbands. A good way to begin is to open their mouths except to put food into them.

Be a scatterer. Be a scatterer. Be a scatterer. Go around in your stocking feet. Don't waste a clean shirt on a mere wife. Wear your soiled one with the collar open and no necktie when you are home.

Never be on time for your meals. Stop by the poolroom for a few games on your way home of an evening or drop in at Berny's for a drink and an argument with a caddy over the political situation.

Always be phillandering around with some pretty young girl. It will make her mad enough to wish you off on her.

Over Mothering Child Is Dangerous Dear Miss Dix—I am a widow 28 years old. Have a 5-year-old daughter. I live with my parents and my mother takes care of my little girl.

My oldest sister thinks that I should give up these outside interests and devote all of my time and energy to raising my daughter, as she is my responsibility and not my mother's.

We have all known such unhappy little creatures whose mothers stood perpetual guard over them and held them by their hands when they walked. These mothers kept a clinical thermometer in their children's mouths to be sure they weren't running temperatures.

Never show her any sympathy when she feels badly. When she is really sick, let her be a complainer and a whiner and spend your evenings downtown. She will do a lot of serious thinking about whether she is lying up there in her lonesome bed.

Always talk about how much you admire the get-up-and-go type of woman who smokes and drinks, but give her hell Columbia and threaten to leave her if she even looks at a martini every time a member of her family comes to see her. Treat her mother as if she were an interloper and snub her old father. If that doesn't make her feel better, she will.

There are plenty of brilliant men and women who fall in the race for success because they are handicapped by having mother on their backs. There are plenty of marriages that end in divorce because mother insisted on living with a son-in-law or daughter-in-law who didn't want her.

The old idea that a mother should sacrifice for her children and have no interests outside of them is as passed into the discard. Now we realize that a woman has her children only for a few years and that she should be forward enough to look to build up a life of her own; to make friendships and keep up social contacts; to have as many interests and amusements as possible, so that when her children grow up and marry and leave her she will have something to go on. It is best for her and best for her children.

J. P. Clarke, Mrs. E. M. Bagnall, Mrs. H. S. Henderson, Mrs. W. R. Adams, Mrs. A. C. Bell. The members of the Summerside club are coming down this afternoon for the Provincial Championship games.

Wilfred Bovey, of Montreal, is president, and Dr. E. A. Corbett, director. The Earl of Athlone took an active part in the work of this association during his term of office.

The Little Mountain Park area of Vancouver is Queen Elizabeth Park now, named in memory of the royal visit to Canada last year.

Miss Marjorie MacFarlane of Philadelphia is home on a visit to her mother, Mrs. Nathan MacFarlane, of Summerside.

Mrs. George Lewis, Moncton, is leaving today for home after a holiday in Summerside with her mother, Mrs. E. W. Manson and friends in Charlottetown.

A Morning Smile

The Briggs family were in need of a little ready cash, so decided to raffle the wheelbarrow. Neighbors and friends around had tickets. A few days later Mrs. Briggs called to one of the neighbors: "Oh, Mr. Smith, our little Charlie has won the wheelbarrow—ain't he lucky? By the way, Mr. Smith, you ain't paid for your ticket yet."

When a young mother was bathing her baby, a neighbour's little girl came in and watched the process. This child was holding a doll minus an arm and leg, and much knocked about generally.

Living & Leisure - The Woman's Realm

Three Gates of Gold If you are tempted to reveal a tale to you someone has told. About another, make it pass. Before you speak, three gates of gold.

These narrow gates, first "Is it true?" Then, "Is it needful?" In your truthful answer. And the last and narrowest, "Is it kind?"

Checked gingham and polka-dotted cottons to the sun as they relax and stretch. And then we rub in oil or cream to soothe the burn and of course they stay relaxed, and probably fill up with blackheads. The sun is like a flicking jade. She lures us out to sit and enjoy her soft warm rays, and then when we merely feel nice and cozy she gives us a good scorching. Preventing is very much better than cure, so think twice before you start sunbathing this season.

Danger Wasps use tools. A flat stone is held in its jaws to pat down the earth, to hide the place where the nest is made. Other kinds use a little stick as a broom to sweep the soil smooth.

Starfishes potatoes have been grown successfully. The potato is the only two-toed bird in the world.

Don't discard dirty tennis balls. Don't discard these dirty tennis balls if they've plenty of "bounce" left in them. Here's a simple way of cleaning them. Prepare some warm soapy water and add a teaspoon borax. Then using a nail-brush or a piece of coarse sand, give each ball a good "wash and brush-up." Rinse through in tepid water and put in the sun to bleach. Finish by giving each ball a coat of white shoe cleaner and then put again to dry.

Concrete Sidewalks Need Good Drainage Concrete sidewalks should be laid with great care. A proper drainage bed or gravel, broken stone, or coarse cinders, free from sulphuric acid, should be prepared before the concrete is placed.

Practically a Neighbor The planet Venus when between us and the sun is in conjunction is 134,000,000 miles closer to the earth than when it is on the other side of the sun at superior conjunction.

Wasp Paralyze their prey by stinging, and seem to know the vital spots of each type of victim.

Make Bed Over into Couch-Style If you have put up with an old-fashioned heavy high-boarded bed left over from Grandpa's time for a number of years just because you felt you could not afford to replace it, why not change it into the modern couch-style bed and get rid of all that heavy wood?

Have the head and foot pieces sawed off just leaving the frame, even having the legs shortened if the bed seems too high.

Make an attractive cretonne or glazed chintz cover for the couch and cover several small pillows with the material to stand along the wall.

You will add many feet of space to your bedroom in so doing.

Take It Easy! Of course every girl knows that sunshine is excellent for health, but at the beginning of your sunbathing days we advise every girl to take it in easy stages.

Sunburns have sometimes very disastrous effects and a severe one may leave you with a sun fever for life. Beauty specialists, too, particularly when you are against tanning your skin to a chocolate brown, they say it takes months to recondition skin which has been tanned too deeply; your skin can get too dry and too tough to be reconditioned. Pores

It is so easy to make this attractive sunbuck frock and so much fun to wear it. Yours will have an even tan this Summer. Slip the contrasting bolero on when you want to cover up. The big patch pocket is a handy place to store your handkerchiefs, hand cream. Contrasting stitching adds a gay note to sparkling white sharkskin or pique. Perhaps you'll choose red for your flash of bright with white, so you'll make the handy jacket solid red. A gay but useful costume for your Summer vacation and weekends.
