A WESTERN correspondent writes: "The west is not at all impressed with the 42 oz. potato in Weeks & Co's. window. They don't consider that weight worth mentioning. In St. Louis Rosmond Bernard put in J. B. Gaudet's store, a Dakota Red which sent up the beam of the scales to 49 oz. and on the Duver Road Prosper Ga'lant has a little tuber, Dakota Red also, which weighs 51 oz. OUR GENERAL PRICES ARE NOT SO HIGH

that we have to use a bait to induce customers to enter our store. It does not take much of a reasoner to see that it would not pay them to deal at that sort of store. Our prices all round are so low that we could not, unless we had stolen the goods, cut say 25 per cent off an already cut price. It is against sound business principles, and if we did it we would have to take it out of our customers in some other way, should we get the opportunity. It is up to you to avoid us, if you think we are quacks in the furniture business, as you would a quack doctor. Trade where you are sure of honorable and honest treatment—where you are sure of a low price on everything all the time—that is at

Saving Teeth is Dentistry

Everyone has seen the sunken cheeks and marred appearance of the faces of those who have lost their teeth. Beauty, a thing so much desired is often destroyed by the ruthless use of the forceps; and health a priceless treasure, is often lost from the extraction or decay of the teeth. Everyone knows of, if they have not experienced, the tortures of indigestion arising from the improper mastication of food dependent on the loss of the teeth.

SAVE YOUR TEETH!

Because a tooth is decayed or aching is no reason why it should be extracted. By proper treatment it can be restored to health to do the work nature intended it for. Give your teeth attention before it is too late. Remember

SAVING TEETH IS OUR SPECIALTY. All work done in the most durable and most up-to-date manner. A Ten Year Written Guarantee with all work.
