

CHARLOTTETOWN and QUEEN'S COUNTY

It pays to buy in this Province.

Miss Bessie Proud, Loyalist, is visiting friends in this city.

Miss Carrie Carson, City, has returned after a pleasant visit with her sister Mrs. E. Stone, Cornwall.

The Rev. D. MacLean will preach on Sabbath next, 12th inst., at 11 a.m. at Greenway at 3 p.m.; at St. Peter's East at 7 p.m.

Mrs. Dr. Henderson, Grafton St., returned to the city after a pleasant visit to her sister Mrs. James N. Stevenson who celebrated her golden wedding on the 7th of March.

The game between the Clerks and the Mechanics in Burke's Bowling League, which was to have taken place Wednesday night, has been postponed until next Tuesday night.

Louis Block, City, has purchased the machinery of the "Star" Foundry at the foot of Powell St., for \$300 and not the property as stated yesterday. He also owns the property.

The social for all Oddfellows and Rebekahs in the Oddfellows' Hall tonight promises to give an enjoyable time. A nice program has been prepared, followed with refreshments. All visiting Oddfellows are cordially invited.

"Do you shave yourself? If so we have the very article needed for the pleasurable carrying out of that operation. Fine line of strops, brushes, soaps, after shave in fact every article that conduces to comfort and luxury. See us for supplies. The McKinnon Drug Co., Cor. Gt. Geo. & Kt. Streets.

Palpitation of The Heart.

When the heart begins to beat irregularly or intermittently, palpitate and throbs, skip beats, beats fast for a time, then go slow as to seem almost to stop, it causes great anxiety and alarm.

Many people are kept in a state of morbid fear of death, become weak, worn and miserable, through this unnatural action of the heart.

To all such sufferers Milburn's Heart and Nerve Pills can give prompt and permanent relief.

Mrs. John Thompson, Mill Cove, N.B., writes: "Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I have been troubled with weakness and palpitation of the heart, would have severe choking spells, and could scarcely lie down at all. I tried many remedies but got none to answer my case like your pills did. I can recommend them highly to all suffering with heart and nerve trouble."

Milburn's Heart and Nerve Pills are 50c per box or 3 boxes for \$1.25 at all dealers or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Stanfields Ltd. 6 p.c. Bonds

The Financial Statement for 1910 has now come to hand. After paying the Bond Interest the Company has a Net Profit of \$88 517.70 showing earnings of about four times the interest charge - in fact the surplus earnings after providing for 7 p.c. on the Preferred Stock leaves a balance equal to 14 p.c. for the common stock. An increase in earnings over 1909 of about \$24,000.00

No further comment on the value of this investment is necessary.

Denomination Of Bonds \$100 and \$500. Price 102 1-2 Yield 5 80 p.c. J.C. MacKintosh & Co. Established 1873. Members Montreal Stock Exchange. Direct Private Wires. HAGIFAX, MONTREAL, ST. JOHN.

CHICAGO MARKET.

Table with columns for Commodity, Opened, Closed, and Price. Includes items like Wheat, Peas, Corn, and various bonds.

What would be better than a guaranteed pure wool hose spliced with linen. It is called "Sovereign" brand.

Mrs. Geo. Proud, Loyalist, is visiting friends in this city.

Mrs. Mary A. Offer, City, who had a paralytic stroke last summer, lies in an unconscious condition at her home.

The Philosophy classes of St. Dunstan's College celebrated the feast of their patron St. Thomas Aquinas on Tuesday.

Owing to an accident to one of the typesetting machines The Guardian has not its usual amount of reading matter in this morning's issue.

Seth Jones of the Poultry Department, E. B., will lecture on the Poultry Industry in Afton Hall, West River, Thursday, March 9, at 7.30 p.m.

In the show window of J. A. B. Bayer, photographer, city, are a number of photographs and sepia enlargements taken by W. S. Lounson, City, while making trips to and from the mainland via Picton and Georgetown and the Capes.

In the Court of Chancery before the Vice Chancellor yesterday in the case of Donald McQuarrie and others vs. Laidlaw, McKinnon and others brought before the Vice Chancellor for the purpose of having declared the trusts under which the church property at Canoe Cove are held and for an injunction to restrain certain of the adherents of the church from closing the doors against the pastor of the congregation, which case has occupied the Court during the last two days upon a demurrer to the complainant's Bill of Complaint, after Mr. Johnson and Mr. Stewart, counsel on both sides addressed the court the learned judge intimated that he thought it was a suit of such a nature that the parties should go to get together and endeavor to effect a settlement. In compliance with the request of the court the counsel on both sides met and agreed upon a basis of settlement upon which the parties undertook to endeavor to arrive at a settlement, leaving the matter open for further proceedings in case it became impossible to carry out the settlement effected. The Court then adjourned the case with leave to either party to apply again in case they found that the settlement could not be carried into effect. Stewart, K. C., and McPhee for the defendant.

After quite a period of semi-quietness the Police Court of this city yesterday assumed bustling propensities in the administration of civic justice. Seven fast drivers, five drunks and six arrests on cases of larceny and assault were disposed of. Those for driving at an excessive rate of speed were, with one exception, fined dollars and cents. The Magistrate remarked that a proposition had been made to have a speed way along the Park Roadway. No doubt those fined might consider these fines in the nature of a contribution to help out the city towards providing the speed way. The wards Wallace Carr, who is charged (1) with assault and battery on his wife (2) with larceny of goods from the premises of R. E. Mutch and Co., was remanded on both charges till the 11th. He was admitted to bail in the sum of \$500, \$100 of which was furnished by himself. The police on Tuesday under power of a search warrant searched the premises of Wallace Carr, Geo. Carr sr., Wm. Carr, David Carr and Bert Carr. As the result of the search they secured at Wallace Carr's a pair of lard, six bottles of pickles, a pair of soap, and a quantity of pork. At George Carr's they secured a twenty pound cadd of tea and at Bert Carr's they got a 26 lb box of biscuit, a bag of sugar and a box of dainty wafers. Malcolm Beaton teamster for R. E. Mutch & Co., was also arrested as a witness in connection with the case. Five appeared charged with being drunk. E. Crosby was fined \$4 or 15 days; J. Gallant got \$10 or 30 days; James McIsaac was fined \$10 or 30 days and Les Larter and A. Hennessey were dismissed.

Jordan's Emulsion is clean, pure and tasteless—none better. 3-9d21.

"Bronchitis"

This is an acute inflammation of the mucous membrane lining the air tubes in the lungs. The disease begins with a tightness across the chest, difficulty of breathing, hoarseness, and there is a dry, harsh, croupy cough. After a few days mucous begins to be raised. This is at first white, but later of a greenish or yellowish color and is occasionally streaked with blood. Cure the first symptoms of Bronchitis by the use of Dr. Wood's Norway Pine Syrup and thus prevent it becoming chronic and perhaps turning to Consumption. Mrs. D. J. McCormack, Cleveland, N.S., writes: "My little boy, two years old, caught a bad cold which developed into Bronchitis. He was so choked up he could hardly breathe. Reading about your wonderful medicine, Dr. Wood's Norway Pine Syrup, I decided to try it and with such good result I got another which completely cured him, without having a doctor. I cannot say too much in its praise and would not be without it in the house as I consider it a sure cure for Colds and Bronchitis. Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, three pine trees the trade mark; price 25 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

A LIGHTHOUSE KEEPER'S STORY

From the lighthouse at Lobster Cove Head, Bonne Bay, Newfoundland, Mrs. W. Young sends an experience of Zam-Buk, which should certainly act as a true beacon light, guiding all sufferers from skin disease to a safe harbor of refuge. Mrs. Young says: "I suffered with eczema for seven years, and to my great delight Zam-Buk has cured me. The disease started on my breast, and spread until it extended over my back. The itching and burning—especially when the affected parts were warm—was terrible; and yet when the eruption was scratched or rubbed, it turned to bad sores, and caused great pain. I went to a doctor, and tried various prescriptions, but seemed to get no benefit, so tried another doctor. Again I got no relief, so tried a third doctor, and then a fourth. Although they all did their best for me I got no relief from my pain. "Seven years is a long time to suffer, and I had got used to the thought that I never would be cured when I saw a report in 'The Family Herald' telling how beneficial Zam-Buk was in cases of skin disease. I thought there would be no harm in giving his balm a fair trial, and bought some. "Well, from the use of the very first box I saw Zam-Buk was going to do me good. I persevered with it, and the improvement it worked in my condition was really wonderful. It assuaged the irritation, stopped the pain, and the sores began to dry up and disappear. In short, I found Zam-Buk all that was claimed for it, and within a very short time it worked a complete cure in my case. "Not only for eczema, but for ulcers, diseases, varicose veins, bad leg, poisoned wounds, cuts, cold sores, chapped places, piles, ringworm, children's eruptions, burns, scalds, and all skin injuries and diseases, Zam-Buk will be found unequalled. All druggists and stores sell at 50c per box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations.

Adam Livingstone, Clyde River, was recently injured by being hooked by a cow in the woods. He was injured by the accident the name was incorrectly given as Boyd.

The fire alarm rang last evening for a slight blaze in the rear of the blacksmith shop of T. Carroll, Grafton St., City. The fire was but little damage. The fire was caused by heated coals left in his forge.

In the second game of hockey between the Montague hockey team and the second Vics for the intermediate trophy, played in Montague, resulted in a victory for the Victorias by a score of 8-2. The Vics had much the better of the game, especially in the first half, and scored six to their opponents' nothing. The second half saw better hockey. The Montague boys played hard but could not overcome the lead, the best they could do was score twice while the Vics added 'ew penalties being handed out. S. Doyle refereed. About forty supporters accompanied the Vics on a special train. The Montague boys entertained the Victoria team after the game.

The annual concert of the MacDonal Consolidated School took place last evening. A large number went by special train from the city and together with those from the surrounding country, taxed the assembly halls to their utmost. The feature of the evening was an overture in three acts. This depicted a happy day spent in the woods by a "merry company" of young cadets and their school friends. The tastefully decorated stage made a most appropriate setting for the games, choruses and drills with which the bright young people so ably entertained their friends. "When Ye Gang Awa," were well sung. Miss Hazel Bremner sang "The Swallows," and as usual captivated her audience, responding gracefully to a hearty encore. Messrs. Pupper and Hooper's solos were sung in good voice, while Prof. Wright played his comical "Musical Sketch," brought down the house. All three were encored. The twelve young ladies who gave the Recreation Drill went through the different complicated motions with ease and grace, but the "Babies," on their way to bed, with dolls and canies, appeared to be the pupils who took part in that great credit upon those to whose painstaking training the great success of the evening was due. The accompanists were Misses Moyses and Stanley and Prof. Wright. Home-made candy was sold during the intermission.

LYNN MURDERERS ELECTROCUTED

BOSTON, Mar. 6.—For the murder of Thomas A. Lundregan, a wealthy shoe manufacturer, of Lynn, and Patrolman James H. Carroll, of the Lynn police force, in a bold daylight robbery on a busy city street, Wassil Ivankowski, 22 years old, and Andrei Ipsen, aged 19, were electrocuted at the Charlestown state prison shortly after midnight today.

On Saturday, June 25, Mr. Lundregan, accompanied by Patrolman Carroll as a bodyguard, was returning from a Lynn bank to his factory, carrying the factory's weekly payroll, about \$4,500, in a bag. On Oxford street, three men approached the manufacturer, and the policeman from behind. Without a word of warning, Lundregan and Carroll were shot dead in their tracks and the murderers, seizing the bag filled with money, started on a dash through the streets toward High Rock, an eminence overlooking the city.

Within a few moments after the murder police and citizens in automobiles surrounded the brigands. One man, whose name has never been ascertained, was shot dead in the fight which followed. Ivankowski and Ipsen were tried in November.

AGED 101 GOES TO POOR FARM

SAUGUS, March 5.—Probably the oldest shoemaker in the United States today is now a tenant at the poor farm here. He is Geary A. Hawes, whose life has practically been spent in manufacturing hand made shoes. He has just passed his 101st birthday, and is exceptionally hearty for one of his years. Mr. Hawes smokes a pipe steadily. He has never used intoxicating liquors, and until a few years ago was able to do a good day's work in the shoe shops of Lynn, where he has worked for the past 60 years.

He was born in Halifax, N. S., in 1810 and 65 years ago came to Lynn. He had the reputation of being one of the best workers on hand turned shoes, and for many years did practically all of the special order work for one of the large shoe manufacturing concerns of Lynn.

BUILD A GREAT SHIP FOR A SINGLE VOYAGE. A record of a 3,000-ton ship which was 50 per cent bigger than any then afloat, and which was built to make a single trip only, being launched with timber before she was launched in 1824, nearly a century ago was brought to light yesterday by Superintendent Bundy of the Maritime Exchange.

In searching the library Mr. Bundy came upon a copy of The London Mechanic's Register, published in 1824, which contains a description of this vessel, which created as great a sensation in its day as any Titanic Mauretania of the present. The ship was called the Columbus and it rightly may be called a marine monstrosity.

It was an immense 4-master bark of 3,800 tons larger than any ship which, up to that time, ever had been launched. A woodcut of the vessel shows her to have been what sailors would call "an ugly brute of a ship," heavy and unwieldy, and how she ever managed to navigate the seas was then and still is a wonder.

In the stern the Columbus carried single topsail's single top-gallant in the magazine, said she was 300 feet long and 50 feet in beam, nearly 1,000 larger than any ship in the British navy at that period. She was built on the St. Lawrence River, and her first and only passage across the seas, but no royals. Newspapers of that day, quoted by the writer ocean or anywhere else, was to London carrying what was then a record cargo of timber.

The Morning Chronicle of the time quoted by the magazine writer says regarding the Columbus. Her timbers are principally of elm, but her beams and planking are chiefly of red pine. For greater security the upper beams are carried on the side of the ship. From the bottom three rows of pillars of stanchions, placed fore and aft, one in the middle and one on each side come through the upper deck beams and are there secured. There is therefore a sort of framework of a ship within a ship, and the use of this is to secure the cargo, divide its weight equally over every part and prevent its touching the side of the vessel.

Within this inner ship, we think we may call it, except a small space reserved for the accommodation of the crew, for the cables tier, &c., she is a complete mass of timber. Her masts pass up outside her stern like a Dutch galliot or river barge, and, notwithstanding her vast bulk, she steers or obeys the helm, remarkably well. One man and a boy were sufficient to manage the wheel nearly the whole of the passage home. She ran sometimes at the rate of nine miles an hour.

Another description of the Columbus, quoted by the writer says she was perfectly flatbottomed and sided. "She looks as if she is, and is, a mass of lumber, packed together for the purposes of commerce without regard to beauty and little attention to the principles of naval architecture."

As might have been expected this method of building had its drawbacks, and, according to the writer she sprang a leak two days after she sailed out of St. Lawrence, and it required the efforts of the entire crew of ninety-five men to get her free and in a condition to navigate. Fortunately the weather was of the best all the way across and she succeeded in reaching the Downs. At that time she had 11 feet of water in her hold, and by the time she reached the Thames this had increased to eighteen feet, with a result that she was drawing 23 feet of water.

"Lying thus deep in the water, it was with the greatest difficulty that the Columbus was towed to Folly Point, Blackwell's Beach," says the old Chronicle. "There she lay in the mud while her cargo was jettisoned and towed to the shore. As the cargo was removed and the ship lightened, she was towed along and unfit to make another voyage and it became necessary to break her up."

The Columbus was built by order of a Scotchman of Port Glasgow and her crew was almost entirely composed of Scots. It is said that the Columbus entirely fulfilled her owner's expectations and that it was solely with the idea of bringing a good load of lumber that she was built.

"It seems strange," said Capt. Williamson, one of the veteran members of the Maritime Exchange, "to think that such a great ship should have been built nearly a century ago. The description, however, should me to believe, as it did the old writer, that when you consider the lack of care in regard to all detail built for just that one voyage with the idea of breaking her up and selling her massive beams as rough timber after her arrival on the other side."

GIRLHOOD

are linked together. The reason is that at a period when a girl's digestion is weak

Scott's Emulsion provides her with powerful nourishment in easily digested form. It's the food that builds and keeps up a girl's strength.

CHANDLER & REDDIN.

Lynch's Biscuits

THERE'S A TASTE, tickling, satisfying deliciousness to Lynch's biscuits that others have tried to imitate—but never successfully. The reason is soon discovered for Lynch's leave nothing undone that will improve the fine quality of their biscuits. The best ingredients that money can buy and the most adept cooks in Eastern Canada are responsible for the purity and goodness of Lynch's baked goods—besides our kitchen is the cleanest, best ventilated, lighted, and scientifically conducted in the Province. Ask your grocer for Lynch's biscuits—see you get what you ask for.

Lynch's, Ltd.
