HEALTH NOTICE

Owing to the fact that there are at present a number of cases of Small-pox in the province immediate vaccination of all unvaccinated persons is urgently recommended.

J. S. JENKINS, M. D.
Provincial Health Officer

3518-1-26-101

Above is shown a unique portrait of King's College student, noted speaker, Dr. H. J. Hallam, which has just been completed by S. Soboloff, well-known Russian portrait painter, at present living in Toronto. The portrait shows Dr. Hallam in his robes as a D. C. L. of King's University, Halifax, the oldest university in the Dominion. The portrait is to be presented to him by a group of university friends as some recognition for the assistance he has given in forwarding education at different university centres.

King's College Students Hear Noted Speaker

(From the Halifax Herald)

The King's College course of lectures in connection with the Laurier Memorial Trust, opened in happy and hopeful conditions Monday morning. One heard most favorable comments on the fine quality of the service given by Dr. Hallam in St. Paul's on Sunday. The subject for students, clergy and friends interested, at 9 a. m. in King's College was "Primitive Christianity."

The devotional service was conducted by Archdeacon Vroom, Archdeacon Armitage, D. D., chairman of the Laurier Memorial Trust gave happy introduction to the original Hallam, explaining the origin and purpose of the Trust.

Dr. Hallam expressed his pleasure at being asked to deliver the present lectures. He said his inquiry that morning would be "How we got the New Testament." The lecturer first dealt with the papyrus discoveries which give us a cross-section of the period of the writing of the New Testament. The most recent discoveries confirm the old, and this is reassuring. There was a universal language at that time and you could travel round the world with Greek then. This was a product of the conquests of Alexander the Great.

At the same time there are traces of bilingualism in the New Testament. In moments of great emotion our Lord and the writers of the Gospels lapsed into the Aramaic.

In regard to the style of the New Testament, Dr. Hallam showed that it was written in the living language of the people rather than in the scholastic style. The illustrations from the New Testament given by the lecturer to support and illuminate for students of the Scriptures. The lecturer then dealt with the subject of the distinction between a letter and an epistle. A letter is equivalent to a pamphlet. An epistle is a literary composition. The question is: what are the pieces of the New Testament? Letters have a limited publication but epistles have the widest interest. We have both letters and epistles in the New Testament.

Take St. Paul's letter to Philimon the 2nd. Corinthians, which have all the marks of letters. So in Galatians which was written in white heat and is manifestly a letter. Many problems would be solved if we treated such letters as Collections and Philipians as letters rather than literary epistles. So in second and third John we have delightful letters. In the epistle to the Hebrews we have a distinctly literary production, one of the earliest examples of artistic literary productions. So in first John we have a literary production.

In the Gospels Jesus spoke in the language of the people, not as a literary character. Now the letter is written naturally would be more private in their circulation. When we come to the question of the cause of the New Testament, it is a misstatement to say that it was the church that gave us the New Testament. The New Testament was circulated among the people and settled by common usage and the testimony of the people became the testimony of the Church. This was marvellously providential.

This view makes the New Testament a living book, written in the language of the people and for the needs of the people.

Science Is Summoned To Balster Home Life

CHICAGO, Jan. 27.—Science can find out what is the matter with the American family, relieves Ernest F. Mowrer, professor of sociology at the University of Chicago.

If there is to be less home disruption of family ties, it will be because the social sciences are developed to an equal degree with the physical sciences and so throw light on the ills of homelife, he contends.

The church, the courts and the community, he asserts, have not met the problem.

"The right combination has not been found in court control," Mowrer says, "and the church has not succeeded because it places emphasis on sins rather than needs."

"There is no reason to assume other than that the social sciences can develop schemes and techni-

C. N. R. Arrange Trip Over Trap Lines In Winter Woods

(Special to the Guardian)

MONTREAL, January 28.—An important development in the tourist trade of Eastern Canada was launched in the inauguration of the Blanc Bee Trails, winter woods journey over trap lines and through hunting and fishing territories in Ontario and Quebec, according to Mr. E. G. Poole, fish and game representative of the Canadian National Railways, who has just returned to Montreal after conducting the first of such parties.

The Blanc Bee Trails, Mr. Poole stated, have been developed to meet the demands of hundreds of winter visitors to Canada who find the winter sports within easy reach of cities. Insufficient for their enjoyment and demand opportunities of getting out into the forests of northern Canada under winter conditions.

To meet these demands the tourist department of the Canadian National Railways have arranged with outfitters across the entire stretch of territory from the Gulf of St. Lawrence to the shores of Hudson Bay to conduct parties through the haunts of big game and fur-bearing animals on snow-shoes and with dog sleighs. The parties travel under the direction of experienced guides and trappers, who explain to the visitors en route the different methods of setting the traps and lures for different animals teach them a considerable amount of woodcraft and forest lore en route and see that the fullest possible extent of the capabilities of the most experienced woodsmen of the party. As the newcomer to the Yukon became known by the title of "Cheechako" so the novice in the woods of northern Quebec and Ontario has been referred to as "Blanc Bee". The term "Blanc Bee" was chosen to title the new winter trails which are laid out to provide the utmost pleasure and comfort for the travellers while at the same time they are enjoying their outing in the woods. There is no reason why Canada should not capitalize her winter climate to the fullest possible extent. Mr. Poole stated on his return from the inaugural trip. In our ten days journey over the first of these outings which commenced from Roverville in the lake St. John area the thermometer only showed a below zero temperature on one occasion and that early in the morning. During the rest of the time it was above zero and for the most part so warm that we were compelled to doff our heavy coats and mittens while travelling. Certainly there is no hardship to be feared if the visitors provided himself or herself with plenty of woolen stockings, mittens and warm clothing. The north country is no place for summer clothing during the winter months but if one dresses warmly there is no need to fear hardships. The outfitters who are handling these trails trips have plenty of equipment to care for the warmth and comforts of their guests. During the hunting and fishing parties and have cabins erected at frequent intervals along the trail where the visitor is assured of his night's rest in comfortable surroundings. As most of these cabins have either one or two bedrooms, a dining room both men and women can be accommodated on the trail parties and conditions of travel and rest are such that neither need fear any undue hardships or inconveniences. While the first of the Blanc Bee trips was started from Roberval and covered nearly one hundred miles of trail through the bush Mr. Poole stated that practically every one of the outfitters in the territory along the transcontinental line of the Canadian National Railways from Quebec to Winnipeg was prepared to take parties out into the bush on these journeys and as a result new outdoor attractions have been provided for winter visitors to the Dominion. The visitors are taken through the haunts of game animals of all kinds and a dog team and guide is set aside for the use of each of the Blanc Bees making the journey. Snowshoes of the type used in the district visited are provided by the outfitters so that the visitor has nothing to worry over beyond his personal clothing and equipment for the trip.

DECEMBER'S FISH CATCH

During Last Month 54,817,700 Pounds Were Landed In Canada.

OTTAWA, Jan. 26.—A total catch of 54,817,700 pounds of sea fish was landed on both coasts of the Dominion during the month of December with a total value of \$921,591 to the fishermen. The catch compares with 54,832,600 pounds of fish valued at \$922,917 in December, 1925.

On the Atlantic Coast the total catch of cod, haddock, hake and pollock was 5,622,600 pounds in December, 1925. Increased catches are recorded in cod, haddock and hake.

There were 2,401,700 pounds of smelts caught and landed during the month as compared with 2,561,900 pounds in the same month of the year previous.

Two thousand six hundred and twenty-nine barrels of scallops were taken during the month as compared with 1,481 barrels taken during the previous December.

There were 255,600 pounds of lobsters taken during the month, compared with 268,600 pounds taken in the same month of the year previous. The catch was all shipped in shell. Since the opening of the season there have been 454,700 taken compared with 422,700 pounds in the same period of the preceding season.

WEST COVEHEAD SCHOOL CHRISTMAS CLOSING.

This year the West Covehead school closing for the Christmas holidays was spread over two days, with an examination on Tuesday, Dec. 22, 1926, and a Christmas concert the following evening. The examination which was well attended by parents and visitors was conducted in a very thorough manner by our very efficient teacher, Miss Pearl Vessey, assisted by Mrs. Ramsay Auld and Mrs. T. A. Wilson. The children's progress was evident in the remarkable way in which they answered all work in all grades. Everyone present felt grateful to Miss Vessey for her painstaking care with the children.

For the evening Christmas concert the schoolhouse was filled to capacity. The children carried through the extended programme given below very creditably. A sale of candy during an intermission added materially to the fund for school fair prizes for the district. A presentation to the teacher, Miss Pearl Vessey, was made by the scholars, as an expression of their regard and appreciation. The address to Miss Vessey was as follows:

West Cove Head.
Dear Teacher:—We, the pupils of West Cove Head School feel that we cannot allow this Christmas closing to pass without expressing in some way our gratefulness and thanks for the pains you have taken in forwarding our welfare. We have spent many happy days together and although we have no doubt been more or less obedient at times, yet we trust that those unhappy hours may be forgotten, and only bright and cheery memories remain. As a token of our indebtedness to you, we ask you to accept this small gift, not for its value, but for a remembrance of the pupils of West Cove Head School.

We wish you a Merry Christmas with our blessing and good wishes for the coming year.

Signed on behalf of the pupils of this school:

Nan Auld
Erma MacMillan
May Hughes

The programme was:
Opening School—Santa Claus is coming—Chorus. Recitation, We'll come—Veda MacMillan. Recitation, School.

Selfish Billy Green—Belle Marshall. Recitation, Hanging up Stockings—Reta Maye. Exercise, Merry Christmas—14 pupils. Recitation—Xmas Tree Farm—Cyril MacMillan. Recitation, Merry Christmas—Florence MacMillan. Dialogue—Painting a chair—4 pupils. Recitation, Christmas Secrets—Helen Wilson. Recitation—Allison MacMillan. Motion Song, Merry Xmas Time—4 girls. Recitation—Doll Ross's Bath—Ivy Hughes. Monologue, Trials of School Life—Lawson Hughes. Reading, A Melting Story—Bessie MacMillan. Recitation—The Best Claus—Eric MacMillan. Monologue, A sewing Lesson—Jean MacMillan. Reading, The Bald-Headed Man—Rowland Bearstaro. Recitation, The Two Stockings—Ella MacMillan. Dialogue, At the Photographers. Recitation, Christmas Questions—Dorothy MacMillan. Star Drill and Song—7 girls. Recitation, A boy's Complaint—Grove MacMillan. Reading, Uncle Skinfins Christmas Gift—Eric Wilson. Dialogue—A capable Servant. Monologue, An Aspiring Warbler—Erma MacMillan. Chorus—Bell Song—

Beautiful New Fisher Bodies

On The Most Beautiful CHEVROLET in Chevrolet History

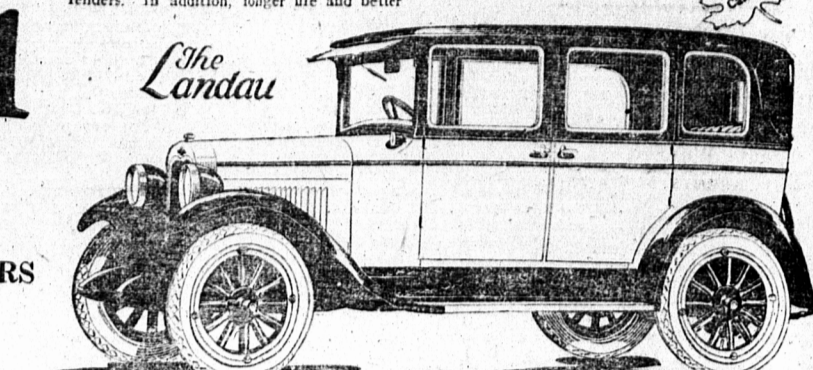

A. HORNE & CO. | PRINCE MOTORS
CHARLOTTETOWN | SUMMERSIDE
Dealers For Prince, Edward Island

BRILLIANT in their modish new colors—Alluring in their distinguished smartness, the new Chevrolet models disclose that individuality and perfection of silhouette you would expect to find only in the costliest of custom-built creations.

One of the most revolutionary advancements ever made in the development of the low-priced motor car, the Most Beautiful Chevrolet in Chevrolet History introduces marvelous new bodies by Fisher with beauty emphasized by bullet-type lamps and full-crowned fenders. In addition, longer life and better operation are assured by a host of mechanical improvements including an oil filter and an air cleaner.

Endowed with such pronounced refinements as these, the modish new Chevrolet models are unquestionably the fashion leaders of their field—full worthy of being identified as companion cars to larger and more costly makes. Visit our showrooms. There a single inspection will reveal how successfully the world's largest builder of passenger automobiles is maintaining leadership with new models of delightful beauty and amazing value!

The Most Beautiful Chevrolet in Chevrolet History is selling at the lowest price for which Chevrolet has ever been sold in Canada.

Address And Presentation

On Wednesday night, January 12th a representative group of members and adherents of the North Bedouque Congregation met at the North Bedouque Congregation and presented the Minister and wife with an address and New Year gift of money. Mr. Frank Deacon acted as chairman and Mr. H. Brewer Auld read the address and the gift was presented by Mr. Wilbur Stavert. A very pleasant social evening was spent and a splendid lunch was served by the ladies. The address was as follows:

Rev. D. K. and Mrs. Ross:
Dear Friends:—We the members and adherents of the North Bedouque Congregation at this the beginning of the new year have felt that we could not go on without some acknowledgment of the faithful and loving service which you have given to us since we last met here. Thus we have gathered tonight, not to read a formal address but to try to convey to you by our presence the hearty good will which each one of us feels for you. We have on other occasions expressed our appreciation of your pastoral work among us and at this time we wish only to emphasize what has already been said.

To you Mr. Ross we would say that your faithful attendance at the different sections of your congregation has not been unnoted, as well as the cheerful spirit that you have shown in the face of every difficulty and discouragement. We cannot help but see as you discharge your many duties as pastor a direct manifestation of the spirit of the man of Nazareth who spent His life in loving service for others.

To you Mrs. Ross who have done so much in connection with the Missionary activities of the Church we would extend our sincere appreciation; your genial smile has cheered those about you on many occasions.

It is the sincere desire of you, people that God's richest blessings may rest upon you both as long as you are permitted to minister to us.

Please accept this New Year's gift of money as a token of our good will to you.

Signed on behalf of the North Bedouque Congregation:
CLEMENT CARRUTHERS
ROBERT C. AULD
ALEX. CAIRNS
F. DEACON
NORMAN MONTGOMERY

Survey appears to show that women in the service of the empire are paid lower than those in the United States. There are of course, exceptions. Queen Mary, assuming that the King splits the annual royal grant of \$550,000, is the highest paid woman in the empire. The Duchess of Athlone, LEFT, receives \$6,000 a year as parliamentary secretary to the board of education. Miss Margaret Bondfield, CENTRE, former shop girl, and first woman to hold British ministerial rank, was paid \$6,000 for the tenure of the MacDonald government. Of Lady Astor, RIGHT, it is interesting to note that she might aspire to the premiership at \$25,000.

Salem Helped Modern Phone Wizardry

SALEM, Mass., Jan. 27.—This city, where witches were burned in days past, and citizens, have contributed generously to the development of that bit of modern wizardry, the telephone.

The contributions began with the experiments a half century ago on the first practical telephone, and culminated in Salem's share in the recent inauguration of transatlantic radiophone service.

Alexander Graham made in Salem the experiments that resulted in discovery of the principles that govern telephone transmission of the human voice. Thomas G. Watson, a Salem man assisted Bell's experiments, and was the first to hear a voice, that of Bell, carried over a wire.

Salem citizens helped Bell in his experiments, and Salem was among the first communities to use the telephone commercially.

When the transatlantic radiophone between New York and London was put into operation, Walter S. Gifford, a Salem man, and president of the American Telephone and Telegraph Company, opened the service with the first official conversation across the ocean.

Elephant Hide Need Patching? See Zoo

LONDON, Jan. 27.—The London Zoo has developed a brand new business—elephant hide patches—which is flourishing.

The best customers are museums having stuffed elephants and which desire additional pieces of skin now and then for repairing the old exhibits. It is astonishing, say the taxidermists, how rapidly elephant hide wears out, even though it stands high and dry and is used only for ornamental purposes.

The hide of Indrani, an elephant that died at the Zoo, is being cut up in squares to supply standing orders for patches.

Another Reduction in Fertilizer Prices

CHAMBERS WHITE ACID PHOSPHATE re-milled, MURIATE of POTASH, and NITRATE of SODA both reground prior to shipment, and SULPHATE of AMMONIA the Chemicals used for fertilizer will be delivered in car lots by the POTATO GROWERS ASSOCIATION to every Railway Station in the Province at prices below those of 1925. MEMBERS and NON MEMBERS supplied at the same PRICES.

The Association buys in large quantities direct from the manufacturer and delivers direct to the grower, eliminating all middlemen and their necessary expenses and profits.

Wholesale prices to dealers and institutes handling two hundred tons or more.

Steamers will discharge at Souris, Georgetown, Charlottetown and Summerside, thereby reducing cost of distribution.

We can supply high grade mixed goods for those who prefer it but they are no better than the farmers own mixing and cost much more.

We will make winter deliveries to those who will pay the extra cost.

PRICE LISTS, and ORDER FORMS will be mailed to all members the latter part of February, and too all non members who ask for them.

Women's Handicap

is curbed this new way of solving oldest hygiene problem; gives true protection—discards like tissue.

BY ELLEN J. HUCKLAND—Registered Nurse

THERE is a new way in women's hygiene that ends the insecurity of old-time "sanitary pads" and their unhappy days.

Eight in '10 better-class women now use "KOTEX."

Discards as easily as a piece of tissue. No laundry. No embarrassment.

Five times as absorbent as ordinary cotton pads. Deodorizes, thus ending all danger of offending.

Obtainable at all drug and department stores simply by saying "KOTEX." Be sure you get the genuine. Only Kotex itself is "like" Kotex. Ask for it without hesitancy.

Costs only a few cents. Proves old way a needless risk. 12 in a package. In fairness to yourself, try it.

KOTEX
No laundry—discard like tissue

To Stop a Cold in One Day

Take **Bromo Quinine** Tablets

The tonic and laxative effect of Laxative BROMO QUININE Tablets will fortify the system against Grippe, influenza and other serious ills resulting from a cold. Price 30c. (Made in Canada.)
