James F. Roper, of Roper Bros, left Monday morning for the Halifax Exhibition accompanied by John Westwood and Mr. Rockwell. He took with him thirty head of Guernsey cattle. He was also accompanied by Howard Corning of Chegoogin, N. S., Sec of the Canadian Guernsey Breeders Association, and Emmerson Servant who have been here to the Exhibition with sheep. While here Mr. Corning has been the guest of Roper Bros. He spoke in great praise of this Province.

At the Police Court in this City yesterday James Donovan and John Carrol appeared on the charge of drunkenness. The former was fined four dollars or fifteen days and no fine was imposed on the latter. Eight or ten subpoenas are out in the case of the recent regrettable disturbance on the square when two vendors lost considerable property and money by the unwarrantable and destructive onslaught of a number of the younger and more inconsiderate element. The case comes up this morning.

A young man named McKenzie belonging to Murray River was brought to this city last evening on the Northumberland suffering with paralysis. He was accompanied by a friend, Mr. McWade of Bonwell, Lot 65. He has been stricken with this disease for the past four months and is being brought home where it is hoped that some change for the better may be accomplished in more familiar surroundings. The young man is but nineteen years of age and bears his affliction courageously. He has been in the Hospital in Sydney for a considerable period and previous to being attacked by paralysis was employed in the Steel Works there and worked with his companion who accompanies him home.

The work of E. E. Griswold, designer of boats, Babylon, Long Island, N. Y. has been exciting most favorable comment at home and abroad. His exceptional skill, which enables him to turn out motor boat models along lines which made for speed and seaworthiness, has won for him a reputation to be envied. Right in Charlottetown there are two concrete examples of Mr. Griswold's ability—the Imperial I and Imperial II—both of these crafts having as principal features the two qualities named above. Speed especially predominates in the latter and in both of these boats there is the happy and effective combination of a skillfully designed hull and an engine—Bruce Stewart & Co's. Imperial—which has reached almost the highest mark of perfection. The two together are emblematic of success—such success as has been attained by the boats referred to in tests at sea and in speed contests. Mr. Griswold is exclusively a designer and in waters all along the Atlantic coast are to be found the products of his genius.
