TOURING PROVINCES.—Dr. Holbrook, superintendent of the Mountain Sanatorium at Hamilton, Ont., with his wife and family, is on a motor tour through New Brunswick and Prince Edward Island. They spent yesterday in Saint John and were guests of Dr. H. A. Fairis at the County Hospital. They have very greatly enjoyed their visit in New Brunswick, and were loud in their praises of the things to be seen in this province.—Saint John Telegraph Journal.

SEND CONGRATULATIONS.—The only newspaper man in active work to-day who was in harness in the days of Confederation, is Mr. J. E. B. McCready, of the Charlottetown Guardian, says the St. John's Nfld. Daily News. After sixty years his hand is still busy, and he contributes a daily column to his paper. Newfoundland journalists will unite in salutations and congratulations to the Grand Old Man of Canadian Journalism.

DUFFY-McINNIS.—A charming June wedding was celebrated in St. Patrick's Church, Grand River on Wednesday, June 29th, 1927, when the Rev. John A. McDonald united in the holy bonds of matrimony Miss Addie C. McInnis and Mr. Edwin J. Duffy. The youthful bride looking most winsome in white satin with conventional veil and orange blossoms and carrying a bouquet of white carnations and maiden hair fern, was given away by her uncle, Mr. Leo Praught. She was assisted by Miss Mary Duffy, sister of the groom who was daintily attired in maize georgette with hat to match and carried pink carnations. Mr. Emmet Praught, cousin of the bride, ably supported the groom. Following the ceremony a wedding breakfast was served at the home of the bride's mother, Mrs. Priscilla McDonald, where forty invited guests sat down. After spending the day most pleasantly with their Grand River friends, the happy couple accompanied by numerous relatives and friends left for Iona, the home of the groom, where the festivities were to be continued. We wish Mr. and Mrs. Duffy a long, happy, and prosperous life together.—N.

VAST AREA OF SAXONY SWEEP BY FLOODS

Hundreds Have Perished and Incalculable Damage Done. Troops Rushed to Scene.

DRESDEN, July 11.—A vast area in Saxony is deep under water; hundreds of people are believed to have perished and incalculable damage done by the floods which followed cloudbursts on Saturday.

So great was the sweep of the waters that they came down the valley at a height of from five to seven feet, carrying all before them.

Official figures on the catastrophe issued by the Bergeshubel Municipality place the known dead at 93 in that district alone. But this is not thought to be the full extent of the casualties as many of the inhabitants are still missing. Half of the population of this popular spa are homeless and only a small grocery store is left to supply the survivors with the necessities of life.

The town's main street is practically demolished, and many bodies repose in the ruins of the church and the town hall.

Bergeshubel is one of the greatest sufferers in the disaster, the effects of which are assuming such dimensions that 450 additional emergency workers were recruited from the surrounding townships to aid in the salvage.

The property damage today was estimated at 12,000,000 marks (about \$2,800,000) while the bodies of hundreds of cattle drowned in the flood were reported to be menacing the health of the population in the inundated regions.

The suddenness of the flood, which occurred in the middle of the night, is illustrated by the fact that three men engaged in a game of cards at Glashuetz were surprised and instantly drowned by a gigantic wave. Most of the victims were drowned in their beds, or swept away still alive by the rushing torrent.

The inhabitants assert that all the bridges between Bergeshubel, Glashuetz, and Lauenstein, where the catastrophe originated, have been destroyed though it is difficult because of lack of telegraph and telephone communications, as well as the frantic state of the entire populace, to conform these reports. It is not yet possible to estimate even approximately the loss of life in the flooded areas, as the roads have been turned into lakes and marshes.

Federal troops with camp kitchens are being rushed to the inundated districts, while food supplies are being requisitioned from the neighboring country. For once harmony prevails between republicans and nationalists "steel helmet" organizations, which hurried to the flooded districts, where the two factions are co-operating to alleviate the sufferers.

(Canadian Press) DRESDEN, Saxony, July 11.—The total number of dead and missing in the cloud burst in Saxony today was placed at 186, most of Saxony presents a strange scene of wreckage, as relief squads and emergency forces are at work to aid the homeless and alleviate suffering caused by the floods following the cloudburst. At least half the population of Bergeshubel were thrown on the mercy of the elements when the raging waters washed place the known dead at this place at 93. The food situation is acute as only one provision store was left standing. Relief parties are finding it difficult to get supplies to the scene.

Leipzig reports that the high waters of the Elster and Pleisser Rivers as well as their tributaries, threaten to cause further floods in towns along their lower courses. Railway communication between Leipzig and Hof, on the regular Bevin-Munich route is being maintained by delaying trains by round-about routes.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attacked their power in hundreds of cases and at all times are thoroughly trust worthy.

Crop Report

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with crop conditions in all sections of the districts mentioned.

GENERAL

With ample moisture and favourable weather, crops in the Prairie Provinces are growing rapidly. No damage has been reported during the week. A heavy hay crop is assured. In Quebec good growing weather has been beneficial to all crops. In Ontario a decided improvement to all grain crops has resulted from warm weather. A heavy hay crop is being gathered. In the Maritime Provinces there has been sufficient moisture and all crops have benefited. Warm dry weather is now needed. In British Columbia weather generally is favourable, but warmth is now required. Grain and field crops are doing well.

PRAIRIE PROVINCES

IN ALBERTA—While conditions generally are favourable and moisture ample, warmer weather would be welcome. All crops are progressing rapidly. ALBERTA WESTERN AREA—Crops are still about ten days late but growing rapidly. Winter wheat is heading out. Sugar beet thinning is near an end. Alfalfa is ready for the first cutting. The range is excellent. ALBERTA NORTH-EASTERN AREA—Conditions are satisfactory and all crops are making rapid progress. ALBERTA SOUTHEASTERN AREA—Conditions continue favourable and all crops are making satisfactory progress. SASKATCHEWAN NORTH-EASTERN AREA—Rains have been frequent and all grains are growing rapidly with much of wheat in shot blade. SASKATCHEWAN SOUTHERN AREA—Rains have been general and crops are advancing satisfactorily although growth is still about ten days behind last year. MANITOBA—Weather conditions continue favourable and growth rapid.

PROVINCE OF QUEBEC

Although backward in some districts crops are doing well. Corn is especially late, but is now showing better growth. The hay crop is progressing satisfactorily, but warm dry weather is needed. Root crops on high lands are making good progress. Pastures are in excellent condition.

PROVINCE OF ONTARIO

Fall wheat is filling well and in the southwestern part of the Province is beginning to turn. The crop should be a good average one. Spring wheat, barley and oats are growing fast and with continued favourable weather heavy crops are assured. Corn has improved with the warm weather. Hay operations are now general and a heavy crop is being gathered. Root crops are good. Beans and tomatoes have improved and the tobacco crop is promising. Raspberries will be a fair crop but cherries and plums are light. Apples are reported to be a heavy crop over the whole province. Pastures are good but heavy rain in central Ontario would be beneficial.

MARITIME PROVINCES

In New Brunswick potatoes show few misses and plants are growing strongly. Pasturage is good and hay prospects excellent. In Nova Scotia apple trees continue to give promise of a large crop. A large crop of potatoes is expected. Pasturage is excellent, and hay prospects good. Sufficient moisture has been received and warm dry weather is now required. In Prince Edward Island potatoes show few misses and plants are growing well. All crops are showing satisfactory progress.

PROVINCE OF BRITISH COLUMBIA

Grain and field crops promise heavy yields. Given dry weather haying which has been delayed by heavy rains should be general by the end of the week. Potatoes, roots and other vegetables are making a satisfactory showing and good average crops are expected. Fruit is sizing rapidly. Apples, plums and prunes are about 75 percent of average; pears 60 percent; apricots 45 percent; peaches 63 percent and cherries 35 percent. Small fruits are a good average and hops 110 percent of average. Pasturage is abundant.

Mt. Stewart Notes

Mr. R. C. Clark, one of our general merchants is having his fox ranch enlarged. Mr. Clark had the number of his foxes increased by forty-one pups this spring, not forgetting Mr. Stewart McEachern who had his number increased by one hundred—and one pups this spring.

The R. R. Spreader which spreads the clay at either side of the track to the standard width of the road-bed, is at present working here.

A new water tank for filling the R. R. engines is rapidly getting under way. The present tank is filled by a steam engine which pumps the water from a distance by suction but the one under construction is of a much different type. The tank is by the side of the R. R. track and a line of piping laid to what is known as Grant's mills which lie a few hundred yards from it, but is on a higher level. The mills have passed with time, leaving nothing but the old dam which is to be put in order and the line of piping connected to it which with its own pressure will keep the tank filled.

Barber: "Shall I cut your hair close?" Coed: "No—stand off as far as possible."

Jempting to every palate Note the new shape! Taste the new flavor! YOU'VE never tasted anything quite so good as Cowan's new Maple Buds. They are so utterly different from any other chocolate confection. COWAN'S Maple Buds 60c the pound also in 5c, 10c and 25c packages RICHER - SMOOTHER - BETTER THAN EVER

ALL GOES WELL WITH PARTY DECLARES

HON. ROBERT ROGERS TORONTO, July 12.—"After our convention in October everything will be restored and we'll win the first chance we get," declared Hon. Robert Rogers, who was in town last night en route to Winnipeg.

Hon. Mr. Rogers stated that everything in this part of the country, as far as the Conservative party is concerned is in the best of shape. "We're going to have a fine convention, I think, and there'll be no jockeying for place or control. The Tory situation in Canada is better now than it has been for a long time," said Mr. Rogers.

"We had a good meeting in Ottawa on the fourth, almost the whole of the convention committee being able to attend. The Conservative situation in the West is looking fine, the Manitoba elections reversed the state of things there for us," concludes Mr. Rogers.

MRS. TIMOTHY HEALEY DEAD

DUBLIN, July 12.—Mrs. Timothy Healy, wife of the Governor-General of the Irish Free State, died at Abbey and the subsequent reception at Canada House.

AS AID TO AVIATORS WOULD LABEL TOWNS ON BUILDING ROOFS

WASHINGTON, July 12.—Marking the names of towns "on 150 ft. of tall buildings by local aeronautics and civic organizations to assist air navigation has been suggested to William P. MacCracken, Jr., Assistant Secretary of Commerce for Aeronautics, as a most inexpensive and practical tribute to Colonel Charles A. Lindbergh.

In forwarding the suggestion, W. C. M. Robertson Jr., of Birmingham Ala., a civilian flier, said the thought was not original, as the civic pride of some towns had already been awakened toward providing such assistance as a supplement to the existing air navigation data. Mr. Robertson told Mr. MacCracken the suggestion was prompted by his experience on a recent flight from St. Louis to Birmingham on a route where absence of such markings necessitated low and dangerous flying in an effort to check location with the aid of railroad station signs not visible at a distance.

Voluntary action by cities and towns in providing such aids to air navigation, Mr. MacCracken said, would be in keeping with the rapid strides now being made in other branches of commercial aviation.

DESTROY 13,000 DOGS IN MONTREAL CITY

MONTREAL, July 12.—Some 13,000 dogs were destroyed during the rabies epidemic in Montreal, which lasted about one year, and has been brought under control. It was made known here to-day at a meeting of the Society for the Prevention of Cruelty to Animals, at which those pound the animals were killed.

In order to prevent a recurrence of the outbreak, the muzzling of dogs, which was made obligatory during the epidemic, is still in effect.

KIPLING SPECULATES ON NEXT 60 YEARS

LONDON, July 12. (CP)—All things considered, "it isn't bad," writes Rudyard Kipling of a Canada he describes as "awake, aware and resolute in her mother's house."

"As a race, he explains, "we pretend that the little we are always doing is always done badly." This sentiment he expressed to Hon. P. C. Larkin, Canadian high commissioner, with reference to the jubilee service in Westminster Abbey and the subsequent reception at Canada House.

Nurse Tells How To Relieve Eczema

Lady had face disfigured with Eczema. Skin now clear.

Mrs. Wm. Campbell, a graduate nurse of Morden, Man., reports a very interesting experience she had recently with a distressing case of eczema. The patient was a lady who had suffered keenly both mentally and physically because of the way her face was disfigured and by the itching, burning sensations of the skin. She had become discouraged because doctors considered her case incurable.

that the doctors considered it incurable and could do nothing for it.

I decided to try Dr. Chase's Ointment and never found anything like it for the first application stopped the itching. By continuing the use of the Ointment, the eczema was entirely removed and the complexion greatly improved. No one would ever know that my patient had previously been so disfigured by this annoying and torturing ailment.

Dr. Chase's Ointment is the recognized standard treatment for eczema. It should never be confused with ordinary salves for it is a medicinal ointment of proven merit and effectiveness. 50 cents a box, all dealers, or The Dr. A. W. Chase Medicine Co., Limited, Toronto.
