Steel Companies Complete Presentation To Committee

By JACK WILLIAMS
Canadian Press Staff Writer

OTTAWA, July 24—The Commons Labor Relations Committee, with evidence of three steel employers showing varying views on what wage increases could be offered to settle the steel strike, today referred to its steering committee the question of whether partis to the dispute should be asked to re-open negotiations before the committee completes taking evidence.

C. M. Anson, General Manager of the Sydney, N. S., steel mill of the Dominion Steel and Coal Corp., appeared before the committee and said flatly his company could not afford to pay wage increases.

Representatives of the other two companies involved in the steel strike had appeared previously. The Steel Co. of Canada, Hamilton, had put its top offer of a wage increase at 10 cents an hour. Algoma Steel Corp., Sault Ste. Marie, Ont., said it could not afford more than eight cents. The union is demanding 19½ cents.

There appeared little likelihood tonight of a conference between the employers and the United Steelworkers of America (C. I. O.) being called for at least a day or two.

Mr. Anson made his statement to the committee from notes and members said they would like to have the transcript of his statement before they questioned him.

As a result Mr. Anson will stand aside tomorrow morning and it is expected Mr. Justice W. D. Roach of Toronto, acting as industrial disputes commissioner in the steel case, will testify. Mr. Anson will be recalled later.

Meantime the steering committee will meet. It also has for consideration a proposal of David Croll (L-Toronto Spadina) that two workers from the union ranks and two from non-union employees be brought to Ottawa from each of the three plants to put their views before the committee.

Labor Minister Mitchell today recommended the committee complete evidence before it took a stand on the steel dispute.

Clarence Gillis (CCF-Cape Breton South) and Arthur Smith (PC-Calgary West) had suggested the employers and union might be asked to go into conference in Ottawa while the committee continued taking evidence.

Mr. Smith recalled that H. G. Hilton, president of the Steel Co. of Canada, had expressed opposition to discussing wages at a joint meeting with the other two companies.

"I doubt if the management of any steel company can refuse a request of this committee," Mr. Smith said. "If they do public opinion will put the responsibility squarely on their shoulders."

Both Algoma and Stelco have expressed opposition to general negotiations involving all three companies simultaneously on the ground that they have little in common. Mr. Anson was being questioned on that point, but he made it clear that Dosco's position in numerous respects deferred

Oil Causes Friction Among Three Countries

By HERMAN MOSEN

ROME, July 24 — (AP) — Oil, instead of acting as a lubricant, is gumming the wheels of Anglo-American co-operation with Italy and causing friction in relations among the three countries.

High-level politics, which can embrace Soviet Russia, are involved in the battle

United States petroleum officials, who could not be quoted, said Italy has recreated a government monopoly — originally organized by Mussolini and the Fascists 20 years ago—to control prices and distribution of gasoline and all other petroleum products in Italy.

What Britain and the United States want is free competition, with direct sales to consumers, instead of being forced to sell to the monopoly.

Since Italy has no oil of its own, they can simply decline to deal with the government organization, cutting off petroleum supplies, just as "oil sanctions" were once proposed. In reply, Italian officials have "delicately hinted" that Italy would necessarily turn to Russia for help. The Russians control large oil fields in the Balkans and Austria.

In principle, the British and United States governments agree with the companies' position—that is, for free trade in oil for Italy. But in practice, they have warned the company that oil "sanctions" might pull the props from under the newly-formed Italian republic and dislocate the rickety Italian economic structure.

Coming Events

**Talkies — Crapaud, Saturday.

**Talkies — Canoe Cove, Friday.

**Movies at Victoria tonight.

**Dance — Peake's Road School, Thursday night, July 25th.

**St. John's Church Picnic, Crapaud, Wednesday, August 7th.

**Ice Cream Social, Cherry Valley School, Saturday, July 27th.

**Talkies — Thursday, Cape Traverse.

**Dance, Vernon River Hall, Wednesday, July 31st by C. W. L. Millview Orchestra. D. S. T.

**Dance and Refreshments, Wood Islands West School, Thursday, July 25th, in aid of school.

**Big Dance, Corran Ban, Friday, July 26th. Rollie McKenzie's Orchestra. Dancing 9 to 1. D. S. T.

**Reserve Wednesday, August 7th for Annual Chicken Supper, in grove of St. John's Church, Belfast.

**Regular Hospital Dance, Curling Rink, Montague every Tuesday and Saturday. 5-22-tfThutf.

**Dance of the season, Cardigan Hall, Friday night, July 26th. Sale Pies and Coffee. Webster's Orchestra.

**Dance, Saint Peter's Hall, Thursday, July 25th. Rollie MacKenzie's orchestra.

**Loading Hogs at Montague Stationeach Thursday for Davis & Fraser Ltd. S. C McLean, Phone 17. 1-2-5-ths-sat tf

**Big Carnival, Tracadie. Meals, Games and Attractions. Wednesday, July 31st. Rollie McKenzie's Orchestra. Meals served from 3 D. S. T.

**To arrive shortly, Wheat and Oats, Bagged. Order immediately. In stock Binder Twine and Spray material. J. R. Driscoll, Mt. Herbert.

**Loading hogs at St. Peters for Davis & Fraser Ltd. each Tuesday. For truck pickup service from farm to car, phone Roddie Pratt. 2-15-16-17-mt-s-tf

**Collecting Hogs for Davis and Fraser's every Friday. Souris Rollo Bay, Fortune Bridge, Baw Fortune Annandale, Duncas, Bridgetown, Strathcona, George Dingwell. 5-23-hu-fr-tf

**Loading Hogs at Peakes Station each Thursday for Davis & Fraser Ltd. Merlin Devine. 1-2-5-ths-sat tf

**Loading Hogs at Cardigan Station each Thursday for Davis & Fraser Ltd Norman McKenzie, Cardigan. 1-2-thus-sat tf

**Collecting Hogs each Tuesday for Davis & Fraser Ltd., for trucking service through Earnscliffe, Cherry Valley, Vernon, Orwell and Newtown, phone Walter Crane, 11-12. 5-31-t-s-tf.

**Driving wagons going at reasonable prices; a limited number of used truck wagons; buggy wheels as good as new; nickle-mounted driving harness; box carts; a number new car trailers. All sizes in belting to 18" rubber traces. Clinton Morrison, Fredericton.

MISSED VITAMINS

The tomato originally was believed to be poisonous, and was grown only as a decorative garden plant.

White Paper Presented To Parliament

Jewish Leaders Charged With Planning Program Of Sabotage.

By ROMNEY WHEELER

LONDON, July 24 — (AP) — A British white paper tonight charged leaders of the Jewish agency for Palestine with ordering underground acts of violence in a carefully planned program of sabotage which forced the British government to take firm measures.

The 10-page document, presented by the colonial secretary to Parliament, said evidence gleaned from intercepted communications showed that Hagana, a huge Jewish underground organization, and its permanent military arm, known as Palmach, worked under political control of prominent Jewish agency members in the program of violence in Palestine carried out "under the guise of the Jewish resistance movement."

Since last autumn, the government charged, the lesser underground organizations—the Irgun Zvai Leumi and the extreme Stern gang which originated as dissident Jewish factions—worked in co-operation with Hagana's high command on certain of such operations.

A spokesman for the Jewish agency in London said the Jews had no immediate comment

The government said the intercepted telegrams linked the Jewish leaders Moshe Shertok, Bernard Joseph, David Ben Gurion and others with armed attacks by the three Jewish "illegal para-military organizations," Hagana, Irgun Zvai Leumi and the Stern Gang

Shertok, Joseph and other arrested leaders of the Jewish agency still are in confinement in the Latrun detention camp.

The Jewish agency consists of both Zionists and non-Zionists and is recognized by the British and Palestine governments as the agency for the Jewish people in matters pertaining to Jewish immigration and the Jewish national home.

The paper concluded:—

"1. That the Hagana and its associated force, the Palmach (working under the political control of prominent members of the Jewish agency) have been engaging in carefully planned movements of sabotage and violence under the guise of the 'Jewish resistance movement.'

"2. That Irgun Zvai Leumi and the Stern group have worked since last autumn in co-operation with the Hagana high command in certain operations.

"3. That the broadcasting station 'Kol Israel,' which claims to be the 'voice of the resistance movement' and which was working under the general direction of the Jewish agency, has been supporting these organizations."

Commissioner Baugh To Head Salvation Army In Dominion

LONDON, July 24—(Reuters)—The Salvation Army tonight announced changes in its senior command, affecting Canada, the United States, Britain and Australia.

Commissioner Charles Baugh, chief-of-staff and second in command of the Army for the last three years, is giving up that post to take over command of the Army in Canada, and will leave for the Dominion in mid-October.

He will be succeeded by Commissioner John Allan, one of the four Army commanders in the United States.

Command of the Salvation Army in Britain, vacated when Alberta Osborn was elected international leader, will be assumed by Commissioner William Dalziel, now territorial commander for South Australia.

Picard Prepares For Ocean Dive

BRUSSELS, July 24 — (CP) — Professor Auguste Piccard, Swiss scientist who with his brother Jean was the first to ascend 10 miles into the stratosphere, now is preparing for a four-mile dive into the sea in a steel sphere six feet, four inches in diameter with walls 3 1-2 inches thick.

Prof. Piccard's attempt to explore the sea bottom, sponsored by the Belgian National Scientific Research Fund, will be made early next year, probably in the Gulf of Guinea.

He already is experimenting with a steel model of his undersea "balloon" under pressure ranging up to more than 3,700 pounds to the square inch. The device has a 15-ton spherical cabin topped by a buoy containing a supply of gasoline. An electromagnet underneath holds the ballast of iron filings.

Released from a mother ship, two small motors will propel it along the bottom. When ready to rise, the professor will cut an electric current to the electromagnet, disengaging the ballast.

The elder Piccard said he expected the experiments conducted four miles below water would be of great value to biologists and geologists. "Each dive will last about 12 hours and will take us about 15 miles away from the conveying vessel," he said.

Discrimination Between Maritimes And Quebec Charged

OTTAWA, July 24 —(CP)—Alleged discrimination between the Maritimes and Quebec province regarding taxation regulations was charged in the Commons today by two Maritime members during discussion of the budget resolutions.

D. King Hazen (PC—St. Johnalbert) called for revision of regulations covering the taxation of domestic servants. In the Maritime provinces for taxation purposes servants were charged $26 a month for board and room. In Quebec they were charged $15 a month in accounting for income earned during the year.

Gordon Isnor (L—Halifax) said he wished to support Mr. Hazen's representation.

Mr. Abbott said he agreed there should be no discrimination between persons in the Maritimes and elsewhere and added that he would look into the matter.

Transportation Commission Holds Interim Meeting

(By The Canadian Press)

MONCTON, N.B., July 24—Representatives from Nova Scotia, Prince Edward Island and New Brunswick are in Moncton today for an interim meeting of the Transportation Commission of the Maritime Board of Trade. The meeting opened this morning in the Brunswick Hotel with D. R. Turnbull, of Halifax, in the chair.

R. H. Matheson, of Moncton, transportation manager of the Commission, addressed the gathering on various problems concerning the Maritimes. The meeting will continue this afternoon.

Attending the meeting are C. J. Burchell, E. A. Saunders, and A. T. O'Leary, of Halifax; Johnston Shew, Glace Bay; N. T. Avard, Sackville; J. P. McKenna, Saint John; A. R. Brennan, Summerside; R. E. Mutch, Charlottetown and S. S. Miller, of Fredericton.

Atomic Explosion Throws Up Huge Column Of Water

Waterspout Ascends To Height Of Two Miles—Many Ships Survive Blast.

By HOWARD BLAKESLEE

ABOARD THE U. S. S. APPALACHIAN OFF BIKINI, July 25—(Thursday)—The submarine atomic bomb was detonated against a fleet of 75 ships today, churning up a white water column a half-mile wide.

The column shot up with incredible speed for nearly a mile, and then started to mushroom to two miles at the top with millions of stalactites of spray hanging down and plunging toward the sea. As seen across 10 miles of sea these streamers were momentarily a light pink near the tips.

The steam base of the waterspout spread over the entire target fleet in less than a minute—a half-mile high and pure white.

It spread faster than the waves, and the target ships did not appear to move as the misty curtain fell on all except the battleship New York. Bow on to this press ship, the New York visibly began to careen to starboard. Then the fog hid her.

Waves were still small when they reached the beach.

The mist of the clouds lost its whiteness after five minutes and began coming down as slightly dun-colored fog.

The cloud height in one minute and 12 seconds after the blast was 7,800 feet high. The greatest height at 2½ minutes was about 8,400 feet.

The water descended in the form of haze which turned slightly brown as seen from the angle of the Appalachian. One after another each of the big target ships appeared out of the clearing mist.

At 8:35 a.m. today Dr. Marshall Holloway touched off the explosion by radio control from the Cumberland Sound eight miles outside the lagoon.

The young Cornell University physicist was among a small group of scientists who boarded a barge in the lagoon shortly before Wednesday midnight to arm the bomb. This act was performed after the task force commander, Vice Admiral W. H. P. Blandy, had decided to proceed with the test as

(Continued On Page 5 Col 5)

Committed For Trial On Two Murder Charges

WINDSOR, Ont., July 24 —(CP)—Ronald George Sears, 18, of Windsor today was committed for trial on two charges of murder and three of attempted murder arising out of the slayings of two men and the wounding of three others in the Windsor waterfront area during the past year.

The hearing was highlighted by the testimony of Joseph Gelenscer one of the men wounded by the "slasher" who terrorized the city last summer and again early this summer.

He said he was walking near Government Park when a voice behind him said: "Good evening, it is a nice night to walk." Gelenscer said he thought nothing of it and replied: "Yes."

They had walked to the park and the young man had thrown himself on the grass. There had been further conversation and Gelenscer had turned to leave when "all of a sudden I felt a sharp pain in my back."

He said he made a half-twisting turn, pulled out a knife from his back and saw the young man running away. The injured man struggled to the top of an embankment and was taken to hospital by a passing motorist.

Mrs. Dorothy Sears, sister-in-law of the accused youth, identified the knife as one that had been given to her. She said she had given it to her sister and later had seen it in the Sears home.

Sears was committed on the following charges:

Attempting murder through stabbing of Gelenscer; murder through stabbing of Sgt. Hugh Blackwood Price Aug. 17, 1945; murder through stabbing of Frank Sciegliski Aug. 8, 1945; attempted murder through stabbing of Alexander Voligny June 22, 1946, and attempted murder through stabbing of George Mannie July 24, 1945.

Russia Building Strong Navy

MOSCOW, July 24 — (Reuters)—Russia is building a "mighty navy" and already "hundreds of new vessels" have been added to the post-war fleet, the central committee of the Soviet Communist party said today.

"Our people want a strong navy, and the Communist party is seeing to it every day that our navy will be strong," the committee said in a publication known as "Agitator's Notebook."

Making Economic Survey Of Island

A comprehensive economic survey of the Province is being made by Mr. J.W. MacKinnon, Toronto University law student, at the request of Premier J. Walter Jones, it was learned yesterday.

Mr. MacKinnon, who majored in the subject of economics at Acadia University and who for two summers was an assistant to Dr. J.E. Lattimer, dean of agricultural economics at MacDonald College, Montreal, when the latter was making his industrial survey of the Province, has paid special attention to the Island's trade relations with Newfoundland.

All export and import tariffs have been fully tabulated and it is estimated that Mr. MacKinnon's findings will enable the Provincial Government to deal more intelligently and more aggressively in its future bids for wider outside markets.

It is understood Mr. MacKinnon has also made a survey of the Province's present production in fishing, farming, fox-ranching, live stock and poultry raising and that the complete report will be available to the Government within the next few weeks.

No Improvement In Newsprint Situation

WASHINGTON, July 25 — (AP) —No improvement is expected in the tight newsprint supply situation in the near future, nor any immediate let-up in the shortage of paper and paperboard, the United States Commerce Department said today.

Between 185,000 and 190,000 tons of domestic newsprint-making capacity is scheduled to be diverted to output of other classes of paper by the end of this year, the Department statement said.

Haggis Will Not Be Rationed

LONDON, July 24 — (Reuters)—In this ration-ridden land, Haggis —that Scottish dish which baffles all non-Scots—will remain unrationed.

Dr. Edith Summerskill, parliamentary secretary to the Minister of Food, gave that assurance to Parliament today — and then brought applause with what a Scottish member said was the first real definition of haggis ever given:

"The decision that haggis will remain unrationed was not taken to prevent an uprising in Scotland. Haggis contains the heart, lungs and liver of sheep, chopped up with suet, onions and oatmeal."

Resigns As Health Deputy

Maj.-Gen. Chisholm

(By The Canadian Press)

OTTAWA, July 24—Resignation of Maj.-Gen. G. Brock Chisholm, 48, as Deputy Minister of Health was announced today by Acting Prime Minister St. Laurent. He is being succeeded in the health post by Dr. G. D. W. Cameron director of health services.

Mr. St. Laurent made the announcement in the Commons when he tabled a document concerning the establishment of the International Health Organization of which Maj.-Gen. Chisholm has become executive-secretary.

Before becoming Deputy Minister Maj.-Gen. Chisholm was director general of medical services in the Canadian Army. Public addresses which he gave concerning the training of children recently aroused widespread controversy.

Soviet Writer Attacks Caste System In U.S.

By REMBERT JAMES

MOSCOW, July 24 — (AP) — Soviet journalist David Zaslavsky today assailed the Federal Bureau of Investigation as the "American secret police," and charged its prosecution of the Lieut. Nicolai Redin spy case was "a criminal conspiracy" aimed at injuring Soviet-American relations.

Redin was acquitted July 17 in Seattle of espionage charges.

Journalist Ilya Ehrenburg, writing in the Soviet government newspaper Izvestia, told the Russian people that "America, which never knew feudalism, had established another hierarchy—a racial one."

Continuing a presentation of his impressions of his recent visit to the United States, he said Americans had a caste system "entirely unofficial in the case of Jews, Italians and Chinese, but legalized in the case of Negroes."

Zaslavsky's article angrily attacked F.B.I. Chief Edgar Hoover "and his accomplices" for the conduct of the Redin case.

"This conspiracy of secret police and bandits had as its goal the infringement of those friendly relations which the American and Soviet peoples had during the war against the common enemy and which still remain at present, despite all efforts of the American pro-Fascist and reactionary," the article said.

The article said the F.B.I. handling of the case "was not only brutal, but clumsy and inept," but that the arrest of Redin became "a signal for a fierce anti-Soviet campaign by the reactionary press."

Ehrenburg's Izvestia article described what he called the American racial caste system as puzzling in a country which fought to defeat Hitlerism.

"The English, Scotch and Irish are the aristocracy," he wrote. "After them come the Scandinavians, the Germans, and then the French and Slavs. The Italians are many times lower. The Jews are even lower. The Puerto Ricans are below them, and last, at the bottom of the ladder, are the Negroes."

Long-Term Wheat Agreement Signed

OTAWA, July 24 — (CP) — The Anglo-Canadian long-term wheat agreement was signed here today between British and Canadian government officials and will be announced simultaneously tomorrow in London and Ottawa, it was learned today.

It was understood the agreement will be announced in the Commons here tomorrow morning by Trade Minister MacKinnon at the same time as it is announced in London.

Authoritative sources said the agreement would run for four years, with the price for the first two years fixed at $1.55 a bushel and the price for the next two years subject to negotiation in the light of world conditions then prevailing.

BUYERS' STRIKE SUCCESSFUL

DETROIT, July 24—(AP)—Describing the United Automobile Workers (C.I.O.) meat buyers' strike as successful, President Walter P. Reuter said today the union will shift its attention soon "to some other commodity." The union-sponsored strike against meat buying lasted one week.

Russia Rejects U.S. Plan For Control Of Atomic Energy

By LARRY HAUCK

NEW YORK, July 24—(AP)—Soviet Russia today rejected the principle points of the United States plan for global supervision of atomic energy and reiterated a demand that full control be vested in the United Nations Security Council, where five powers hold the right to veto.

Andrei A. Gromyko, Soviet delegate to the U.N. atomic energy commission, categorically refused to accept the proposals of Bernard M. Baruch, American delegate, for elimination of the veto in atomic matters and for setting up an atomic development authority outside the council.

Regarding the veto, he said:

"I should like to make again clear the position of the Soviet Union that we cannot accept any proposals that would undermine in any degree the principle of the unanimity of the permanent members in the maintenance of peace and security."

He then noted that it would be dangerous and possibly fatal to undermine this principle.

Under the U.N. charter, Russia, the United States, Great Britain, France and China hold the power of veto in the council, of which Canada is a member.

In discussing the plan for an atomic development authority which would make decisions relating to control, Mr. Gromyko said the Security Council should make all final decisions.

Mr. Gromyko also objected to a United States statement that all matters relating to atomic energy were of international and not national importance and jurisdiction.

"When the charter of the United Nations was prepared by the conference at San Francisco the question of sovereignty was one of the most important questions considered," he declared.

The Soviet delegate added that this principle of sovereignty was one of the cornerstones on which the U. N. structure lies and if it were touched the whole existence and future of the U. N. would be threatened.

The United States' stand on the veto was clearly set forth by Mr. Baruch when he offered the American plan. Mr. Baruch declared:

"There must be no veto to protect those who violate their solemn agreements not to develop or use atomic energy for destructive purposes."

After hearing Mr. Gromyko's long statement, which he delivered in English, committee No. 2 of atomic commission adjourned until Friday afternoon.

Many Priests Executed In Yugoslavia

By William B. King

ROME, July 24 (AP)—A Vatican source said today that an estimate that more than 200 priests had been executed in Yugoslavia since the end of the war was "not, according to Vatican information, exaggerated."

He commented in reply to questions about a New York Times dispatch quoting travellers from Belgrade as saying Premier Marshal Tito's anti-Catholic campaign of terrorism had resulted in the death of 230 priests, 198 without trial, from April, 1944, to May 15, 1946, which includes both war and post-war periods.

Churchmen inside and outside Yugoslavia said a minimum of 400 Roman Catholic priests had been tried since the war ended. Because of secrecy surrounding most of the Yugoslav court hearings, it was impossible to say precisely how many had been put to death.

(The writer of this dispatch left Belgrade recently for Italy.)

A ranking Vatican prelate, in close touch with church affairs in eastern Europe, said his information was that conditions were unchanged in Yugoslavia and that persecutions of the church are continuing.

Msgr. Ritiz, a Catholic priest who sided with Tito's partisans during the occupation and now is minister in the Croatian government, told newspapermen in Belgrade recently he did not know how many Catholic priests had been executed, but that most of those convicted were accused of collaboration with the Germans.

The persecution of the church has been based on the government's assertions that Catholic priests were organizing and supporting armed bands of underground warfare against the Tito regime.

The Yugoslav government has based its attacks against the church on assertions that the clergy supported units which fought against the partisans during the war. Church schools are not allowed to operate. Church lands have been confiscated. The work of priests has been hampered.

The Serb Orthodox church, with its spiritual centre in Belgrade, is affected no less by the Yugoslav anti-church program. But the charge of collaboration seldom is levelled against priests of the Orthodox Church.

GERMANS EXPELLED

LONDON, July 24 — (Reuters)—Approximately 900,000 Germans have been expelled from Polish territory up to July 17, the British news service in Germany reported today. Of these, 670,000 came from Lower Silesia and 230,000 from Western Pomerania

Heirens Denies Knowledge Of Kidnapping

CHICAGO, July 24 — (AP) — State's attorney William J. Tuohy said today he would seek murder indictments tomorrow against William Heirens in the kidnap-killing of Suzanne Degnan and the "lipstick" slaying of Frances Brown and released a lengthy statement from Heirens denying the Degnan crime.

In the statement, taken from the youth June 30, a few days after his arrest, Heirens denied any knowledge of the Degnan kidnapping and asserted he was drinking with friends the night she was abducted, last Jan. 7

Informed by Tuohy that his fingerprint had been matched with one found on the Degnan note, Heirens said in the statement "George Murman" had taken some writing paper from his room a few days before the abduction.

The prosecutor said previously that "George Murman" was a fictitious character.

Increase In Western Coal Production

(By The Canadian Press)

OTTAWA, July 24—E. J. Brunning, Dominion coal controller, said today a trip through western Canada coalfields had left him "encouraged" that their increased tonnage would enable coal-short central Canada "to pull through the winter."

"I'm not saying that western coal will be able to end the shortage here," he said, "but it should go a long way towards curtailing it."

Mr. Brunning said arrangements had been made for all transportation to ship a definite 750,000 tons from the western fields and that figure might reach 1,000,000.

"Transportation will be a big problem—particularly if the wheat crop is large," he said.

METEOROLOGICAL OFFICE

Toronto, July 24 — (CP) — Minimum and maximum temperatures: Vancouver 51, 72; Edmonton 41, 72; Regina 46, 70; Winnipeg 40, 69; Toronto 63, 81; Ottawa 60, 78; Montreal 62, 81; Saint John 56, 64; Moncton 64, 84; Halifax 63, 74; Charlottetown 66, 77; Sydney 61, 84; Yarmouth 60, 67

(By The Canadian Press)

HALIFAX, July 25—(Thursday)—Official inland weather forecasts issued by the Dominion Public Weather Office here today.

Forecasts valid until midnight tonight:

Prince Edward Island: Clear except cloudy with showers and scattered thunder showers during the early afternoon. Much the same temperature. Southwest winds 20 m.p.h. Thursday morning shifting to northwest 15 m.p.h. during the afternoon. High Thursday at Kentville 88. New Glasgow 86, Charlottetown 82.

Summary: Warm with afternoon showers.

High tide this morning at 7.40 and tonight at 9.31.

Sun sets this evening at 8.36 and rises tomorrow morning at 5.37.

New moon July 28th 7.53 A. M.

Summerside tide eighteen minutes later than Charlottetown.

AIR SCHEDULE

Charlottetown—Moncton — Leave Charlottetown 8 A. M., 10.30 A. M., 5.15 P. M

Arrive Charlottetown 12 P. M. 3.55 P. M., 7.35 P. M.

Charlottetown—Halifax — Leave Charlottetown 12.55 P. M. Arrive Charlottetown 4.55 P. M.

Charlottetown — New Glasgow — Leave Charlottetown 12.45 P. M Arrive Cnarlottetown 5 P. M.

Standard Time throughout.

CAR FERRY "PRINCE EDWARD ISLAND" Standard Time

Leave Borden at 9.05 A.M., 1 P.M. and 4.30 P. M

Leave Tormentine 10.30 A. M., 3 P. M., 7.30 P. M.

Extra trips are made between, on which automobiles are carried.

SUNDAY SERVICE

From Borden, 1 P. M., 6. 45 P. M.
From Tormentine, 3 P. M., 8 P. M
