The quantities of meats held in storage on May 27 last must be reported on these declaration forms when filled in properly. The forms will show the num- bers of coupons each person must surrender. POTATO CEILING PRICES.—Mrs. E. S. Coffin, Charlottetown, chairman of the Women's Regional Advisory Committee of the War-time Prices and Trade Board, has sent an appeal to all representatives of the consumer branch in this Province to keep a close watch on potato prices during July. As a guide she has forwarded the following ceiling prices for old and new potatoes: a 75- pound lot of Canada No. 1 pota- toes must not go above \$2.40; the maximum price for a bushel of No. 1 is \$1.68 and for the fancy grade \$1.92; a peck of No. 1 pota- toes must not exceed 48 cents, while the fancy grade should not be more than 54 cents. These prices all retail, should be entered in the Blue Book by members of the consumer branch. Should any member of the Branch find prices (higher than those listed above) or have reason to believe that any individ- ual price ceiling has been violated, the matter should be brought to the attention of the War-time Prices and Trade Board, Mrs. Coffin says.

Find Crime Clue In Dance Routines

Although there are no dance numbers in "Sherlock Holmes and the Secret Weapon," latest of a series of Sir Arthur Conan Doyle detective stories being pictured by Universal Johnny Mattison, studio dance director devoted hours of his time to the picture, which comes to-day to the Capitol Theatre. The script called for Basil Rathbone as Holmes, to decode a mes- saging written in characters represent- ing dancing men. But before Holmes could decipher the message, telling of the whereabouts of a bomb which the enemy is trying to steal, a code had to be de- coded.

Director Roy William Nell, a straight thinking realist, decided the man best fitted to work out such a code would be the studio dance director, so Mattison was called in to devise a body position for each letter of the alphabet, plus additional postures for num- bers, characters, etc.

King Promises Fair Election

OTTAWA, July 20 — (CP) — A condemnation of such election irregularities as padding the voters' list was made today in the House of Commons by Prime Minister Mackenzie King after M.J. Coldwell, C. C. F. leader, had presented affidavits in support of a declaration that padding was widespread in Montreal. Carter, where a federal by-election is scheduled for Aug. 9.

"I do not care who the man is, whether he calls himself Liberal, C. C. F., Social Credit, or anything else," King said, "I care who he is, if he lends himself to practices that are wrong, he will be dealt with whatever the offence."

Mr. King assured Mr. Coldwell he would take the matter up with his colleagues immediately, and as far as it is possible for the government to do so, steps will be taken to see that the election in Carter is made as fair and square as it can possibly be.

Mr. Coldwell's allegations were made at the beginning of the day's sitting, when he used the device of moving adjournment of the House for the purpose of discussing a de- finitive matter of urgent public im- portance.

He said that purpose was satisfied after there had been speeches from representatives of all parties, and criticism of Mr. Coldwell for describing Montreal as "a tele- grapher's paradise," and assur- ing the Montreal members that on that election irregularities do not occur in their ridings.

After the discussion and assur- ance from Mr. King that he and his colleagues would take steps, Mr. Coldwell withdrew his motion.

For the remainder of the morning sitting, and afternoon sittings, the House listened to speeches on farm debt, in committee of the whole on Finance Minister Ilsley's bill to re- enact the farmers' creditors ar- rangement act for the benefit of debtor farmers in the three prairie provinces.

It brought expression of sharply-differing views from west- ern members, some to the effect that the debt-ridden farmer never had received a fair deal and would get no relief from the mortgage holders under this measure. Others claimed the situation was exagger- ated and that such legislation tended to undermine the credit of the farmer.
