THE BOOK OF THE YEAR
The GOLDN FUTURE
 of
PRINCE EDWARD ISLAND
 Read What the Halifax Star Says:
PRINCE EDWARD ISLAND

THE Charlottetown Guardian has recently issued a souvenir edition published in book-size form, with the optimistic title of "The Golden Future of Prince Edward Island."

It is an interesting edition. It is one that the native of Prince Edward Island, far from home, will read with a special glow of pleasure, for in poem, and story, in attractive illustration, and advertisement, it tells of the Island's glory, of its progress, and of its contribution to the life of this continent.

There are many excellent articles, but one of the best is the impression of an American journalist who visited the "Garden of the Gulf," and who tells vividly his impressions of its people, their traditions, the well kept homes, the splendid churches, and his amazement at the practical absence of divorce and crime.

His observations are worth noting. "This same little Province, which has no divorce problem, is also without a crime problem. Its crime rate, as indicated by convictions for serious offenses, is less than one-tenth the rate for Canada as a whole, and the Canadian rate is low. The Island hasn't had an execution in forty years!"

"Unemployment? There isn't any on the Island."

"Poverty? It is almost non-existent there."

"This Island has, per square mile, twice as many people, four times as many cattle, and eight times as much poultry, as any other Province of Canada. It has more railroads per square mile, more post offices, more telegraph lines, and more churches, and its people have more money in the savings banks, per capita, than have those of any other Canadian Province."

The publication is one worthy of that enterprising daily newspaper, The Charlottetown Guardian. Price 25 Cents.

—THE CURLING RINK—The curling rink at Summerside is being got ready for the winter roaring game. The rink has already been flooded twice and now that the weather is colder the ice should soon be hard enough for the game. It is expected that the rink will be officially opened on Thursday with a banquet. A good season sport is being looked forward to.—S

—SAD NEWS RECEIVED—Mr. C. E. Strong of Summerside, received the sad news on Monday of the death that morning of his sister-in-law, Mrs. Newton Strong at her home in Belmont, Mass. Mrs. Strong was the widow of the late Newton Strong son of the late Mr. and Mrs. William G. Strong of Summerside, and before her marriage was Miss Annie Farrow of Bedouque. She had resided in Boston and vicinity since her marriage but visited her Island home frequently, her last visit being two years ago. Her husband predeceased her two years. The older residents of Summerside will have kind recollections of Mrs. Strong in her girlhood. There are left to mourn an only daughter, Mrs. Donnell, with whom she resided also one brother, Silas Farrow, of Bedouque, and three sisters in the vicinity of Boston, to whom the Guardian extends sincere sympathy. No further details were received. The late Artemus Farrow, who recently passed away in Bedouque was a brother of the deceased.—S

—FINE FOXES—Dr. J. A. Johnston, Tignish, was in Summerside last week disposing of some of his fox pelts. Some days ago the writer had the pleasure of receiving these pelts as they hung "ward robe fashion" in the doctor's home. Numbering about forty and hanging together in the above mentioned fashion one not familiar with the markets and the wide spread depression which seems to effect greatly anything that is for sale, would be apt to think that a vast fortune was here hidden. He describes these beautiful pelts it suffices to say that they possessed beautiful tips and brushes with bright silver flanks and black crosses. These foxes were raised on the doctor's ranch at Tignish where each year pups have been reared and brought to maturity which at pelting time have brought some of the highest prices realized by local ranches.—T

Some people are wise and others just look wise.

—GALVANIZED special trap nails and all fishing supplies sold right at Brace's. 1340.

—COLEMAN.—Mr. J. A. McDonald Land Surveyor, Hermanville, has been here for the past week working for several parties in this vicinity as well as opening up the obliterated lot-line between Lots 10 and 9. Messrs. Campbell, McWilliams, Reeves, Dignan, McNaught, availed themselves of his services while here. Mr. McDonald left Saturday for Albany.

—WILL ENTER NURSING PROFESSION—Miss B. DesRoches, of Miscouche, who has been the efficient bookkeeper for some time at Gouffles, Ltd., Druggists at Summerside, has resigned her position to enter the nursing profession. Miss DesRoches left on Saturday for a short visit to her home before taking up her new duties.—S

—ADJOURNED UNTIL FRIDAY—The case of Margaret Elizabeth Murray vs. Louis Smith in an action for damages in an auto collision on the road leading from Summerside to Read's Corner on July 5th last, was before the County Court on Monday. At the close of the case for plaintiff, defendant moved for a non suit on various grounds. His Honor Judge Inman, adjourned the case until Friday next in order to allow Counsel to file briefs. The Court adjourned until Wednesday. E. H. Strong, K. C., for plaintiff and Thane A. Campbell K. C., for defendant.—S

—VICAR GENERAL OF EDMONTON—Right Rev. Leo Nelligan, Vicar General of Edmonton Diocese in Alberta, arrived in Summerside on Saturday on account of the serious illness of his father who is a patient in the Prince County Hospital. Father Nelligan is a native of Tignish and was a very brilliant student of St. Dunstons University. He celebrated High Mass at 10.30 on Sunday in St. Paul's Church and preached an eloquent sermon on the feast of the day. He will visit Charlottetown and Tignish before returning to Edmonton.—S

NEW ZEALAND MARKET FOR LEATHER

The tanning industry of New Zealand produces leather from local hides chiefly for home consumption, writes C. M. Croft, Canadian Trade Commissioner in Auckland, in the forthcoming issue of the Commercial Intelligence Journal. Several types of leather are produced but not glue kid or patent leather. The local boot and shoe industry used considerably more than the local production, and consequently leather for that trade to the value of \$159,851 was imported in the last fiscal year. This amount is about half the value of the local production. No particular opportunity exists for increasing the present total value of imports of

leather being but Canada has no share in this trade, as is the case in the trade in bookbinders' leather and chamois leather. There should be some openings in fancy leathers, provided those in fashionable demand are marketed. A wide variety in type and colour is required, Canada participates to some extent in the sole leather trade.

Masterpiece.

Modern Sculptor—What a masterpiece! What strength and feeling! What subtle characterization and tense action!
 Onlooker—Excuse me, sir, but that's the ninth hole of our new miniature golf course.
