

Air Force Recruiting Officer leaves

Plt. Lt. H. A. S. Molyneux, D. F. C. yesterday relinquished command of the Royal Canadian Air Force Recruiting Centre in Charlottetown. He has been posted to the Recruiting Office at Toronto.

Flying Officer A. M. Dunstan, Halifax, whose home is in Toronto, succeeded him as Commanding Officer here yesterday.

Lt. Molyneux arrived in the city one year ago this week and opened the recruiting office for this province. During his sojourn here his genial personality has won for him many friends in all parts of the island. It is with genuine regret that he and Mrs. Molyneux, who arrived here recently, leave here today. They look forward to returning to the Garden of the Gulf again at the first opportunity with their family to spend a vacation here.

Flying Officer Dunstan is favorably impressed with what he has already seen of the province and looks forward with pleasure to his stay here.

Higgins of Arlington, Mass. Although Mr. McCabe is in his 88th year he is taking great pleasure in travelling about with his guests, visiting old friends and relatives. Mr. and Mrs. McCabe are very grateful for a telegram telling them of the safe arrival of their son Byron in Scotland. Another son, Stanley, is awaiting the orders for his company to sail.

MINOR ACCIDENT—Two minor accidents occurred in the city yesterday. The first occurred early in the afternoon at the corner of Great George and Euston Streets when a car and truck were in collision. The latter was coming down Galloway Hill, Euston Street, and it is believed a horse-drawn vehicle cut across the street to Elm Avenue obstructing the view. As a result the car coming up Euston and the truck were in collision. Both vehicles were damaged. The other accident took place early in the evening when a car going up Grafton Street and Church Street collided. There was slight damage. Nobody was injured in either case.

VISITED SUMMERSIDE—Hon. Malcolm MacDonald paid a brief visit to Summerside yesterday. He arrived in Summerside shortly before nine o'clock, accompanied by Premier Campbell at whose summer home at Stanley he had spent the night. Before being driven out to the airport he was taken for a drive round Summerside and was shown the principal places of interest. Mayor John E. Campbell accompanied the party to the airport. They were met at the airport by Wing Commander Mitchell and Flight Lieut. Carnegie. He was shown over the airport before returning to Charlottetown. In the party were E. P. Foley, M.L.A.; E. W. Neilson, M.L.A.; Dr. John F. MacNeill.—S.

binet of fewer ministers than usual to wield concentrated power to place Japan on a full wartime basis. A widely expressed demand for exclusion of all former members of the now defunct political parties emphasized expectations that the new government be more totalitarian than its predecessor. It was noted, however, that Kono'e had no conference with foreign minister Yosuke Matsuoka, who is suffering from a cold and was absent from the emergency cabinet session which preceded the resignation.

(Matsuoka has received chief blame for Japan's involvement in two accords which Hitler's invasion of Russia made irreconcilable.) The choice of Matsuoka's successor was awaited as a clue to any new direction in foreign policy.

Need Faith

Mr. L. Howatt, Wiltshire, charged that the people wanted the Board to take the pigs, pay for them and do the business for nothing. It was necessary to increase business and "we sought to do it." A scheme, which was proposed, is now in the works.

He stressed the need of having faith in the directors.

Mr. Macdonald said that as Mr. Howatt said probably the constitution has "tied the hands of the directors." He cited the need of having the directors responsible to the patrons. This was necessary for co-operation. He asked the meeting to consider changing the constitution to allow the directors to do what they are at the present time.

Mr. Howatt advised awaiting the decision of the Courts regarding the Marketing scheme. In the meantime the Associated Shippers could carry on.

Mr. J. J. Trainor, Bedford, said the farmers are concerned with the price they get for their pigs. The directors should have some freedom of action. He asked the Manager if they were meeting competition and cutting their price.

Mr. Gilles said they were sending out more money. The farmers are not paying anything for trucking hogs now. To do this the contingent fund was cut out. Freight rates have been reduced and the trucking service given.

Formed Shipping Club

Mr. Gilles said that the directors had decided on the shipping club and save the board. Practically all the former shipping clubs are still operating but additional shipping agents were appointed, however.

Mr. Seaman, reporting for the Central Shipping Club, referred to a drover from Hunter River who paid, at one time, as high as 30 cents a hundred more than the Livestock Marketing Board. Patrons of another club were paid ten cents a hundred more than the Central Club, he charged, because of competition from drovers. He complained that returns for hogs were sent directly from Moncton to Mr. Gilles. Truckage was not paid for. He charged that the Board was not showing any cooperation. There was an increase in shipments of over 25 per cent in Central Club this year. The business on Fitzroy Street was done in the name of the Marketing Board according to figures obtained from the City Clerk's office.

Mr. Gilles explaining that an item of \$864.20 for advertising which appeared in the financial statement said that previously each club paid for their own advertising. However this resulted in much duplication of effort. It was decided that an advertisement allowance be had up. When the clubs advertised themselves the amount in some years totalled \$2,000.

Lower Overhead

Mr. Seaman claimed that other firms did the work for smaller cost than the Marketing Board. He wanted to know if there was any way to do the business more cheaply. He asked that the financial statement be let lie on the table and the meeting be not asked to approve or disapprove of it.

Mr. B. MacLellan, Alma, said that Mr. Seaman had no grounds for most of his statements. He told out the Marketing Board was out of commission in his district. However, the Board was able to pay better returns despite the fact that they paid for bringing in the hogs whereas the drover did not.

Mr. George MacKay, Albany, said he probably had some claim against Mr. Seaman as he was loading also nearby. He said he would guarantee Mr. Seaman that he did not get 50 cents a hog for hauling as had been insinuated by him. It was no secret what was being paid for hauling but it was not his place to divulge it.

Mr. Donald MacDonnell, Glenfintona, wanted to know the nature of the relationship between the Associated Shipping Club and the Livestock Marketing Board.

On Competitive Basis

Mr. Gilles said the money received from the shipping association came to the board. The organization was on a strict competitive basis as it was driven to it. The organization was in competition with other businesses whose books were closed. Those of the Board were open. For this reason the Shipping Club was formed. Every section in the province today is working on its own merits—there is no such thing as pooling. The agent is given a fee which is agreed on. He charged that the former Secretary of Albany Club had tricked hogs to a competitor and claimed he could produce more. Mr. Seaman, now acting secretary of Albany, had asked a mainland firm to appoint him their agent, he added.

The Marketing Board's policy from now on would be to meet competition—cooperation or not. "If we are going to exist I got to get the volume of hogs—and we're getting it," the Manager of the Livestock Marketing Board declared. He added that from now on he was going to get hogs his own way and give the farmers as good a price as they could get anywhere else; nor was he going to give his competitors any information. Business has "gratifyingly increased."

Mr. Earl Ines, wanted to know where to get the financial report of the Associated Shipping Club which he called "the left-hand wing" of the Board. Mr. Seaman said that the former secretary had been hauling hogs for a Mr. Green referring to Mr. Gilles' charge that he had hauled to a competitor. He challenged any man to say he was not working for cooperation.

"If I understand the Associated Shippers is a private company," Mr. Ines said. They are making a commission on shipments.

Good Satisfaction

Mr. Geddie MacLeod, Long River, stated that he was getting good satisfaction from the Club. However, the trucking system was not working right in his section.

SECRETARY'S REPORT

The following report of the year's work was submitted by Mr. J. A. Gilles, Secretary-Manager of the Board:

"This evening we are holding our eighth annual meeting of the Livestock Marketing Board and shall forthwith present a resume of our activities during the year ending May 31st, 1941. Realizing the time at our disposal for the transaction of business would be rather brief, we endeavored to condense our observations, so that only a minimum of time would be required to place the picture before you.

During the period under review, we handled the second largest number of hogs of any in the past eight years, during which period we have been operating, and only a few less than the previous year, which was a banner one in our organization. A considerable decrease in the number of lambs sold through the organization is evident, but this was only in line with our experience for the past number of years. We are not today an important factor in the marketing of lambs, and until such time as radical changes take place in lamb marketing practices, producers must content with the competitive system now in control and accept what traders choose to pay them. In the larger lamb producing centres of the Province, producers have been weaned away from the "co-operative" way of selling, and the marketing leverage created by volume control, has been rather effectively neutralized. Calf marketing is still a "side issue" and under prevailing conditions cannot be carried on with any degree of satisfaction.

Revenue and Expenditure

"You will notice from the financial statement placed in your hands that our annual turnover was hogs, 21,972, lambs, 134,444 less compared with 22,432 hogs and 64,444 lambs in the previous year. This justifies the reference made earlier in the report. The financial turnover is \$685,652.28 as compared with \$403,283.75 the previous year. This slight decrease is accounted for by the correspondingly small decrease in the number of hogs, lambs and calves. Our expenditure was \$254,824 less, and our surplus balance on operating account \$134,434 as against \$246,609 a year ago.

Wearer Pigs

"During the year we handled weaner pigs on a scale comparable with that of last year, but the rather large number offering in the fall met with a very restricted market. However, we succeeded in marketing a fair percentage on the mainland and also transferred a large number from one section of the Province to another, thus rendering a double service.

"There was a larger number of winter and early spring litters in evidence this past year than we can recall on any previous occasion, but it was rather difficult to dispose of them to advantage, due mainly to the unfavorable outlook for hog production as a profitable agricultural pursuit. However, with the strengthening of hog prices, as the summer approached, the demand for sucker pigs within and without the province, became exceedingly keen and at much higher prices; in fact we could have sold twice the number we actually did handle, had they been available.

Breeding Pens

"Our experience in handling bred sows was somewhat in line with that encountered in the suckling activities. The lowering of values agreed upon in the renewal of the Bacon Trade Pact with the British Government last Fall, proved a severe shock to the hog industry in this Province. A big reduction in the anticipated breeding program took place. Our experience was that not over one quarter of the previous year's business was transacted during the fall and winter months. However, like the weaner pig business, there was a comeback following the improvement in the hog markets, and the generally optimistic outlook thereof. During the past three months or so, we have

been besieged with enquiries, requests and orders for bred sows. We have not been able to satisfy the demand, due mainly to the fact that suitable young sows were not available in sufficiently large numbers. Despite these handicaps our hog pens have shown a modest net revenue.

Regulated Marketing

"A year ago in our report, announcement was made to the effect that your directors had a Marketing Scheme or Plan prepared, in accordance with instructions issued at previous annual meetings. The plan was drawn up under the terms of marketing legislation passed by the Provincial Legislature at the session immediately preceding. The plan was before the Provincial Marketing Board for scrutiny and recommendation. It is not necessary for me to go into detail as to its experience since that time, as we have all had opportunity of keeping acquainted with its rather tortuous course. Our objective has not been realized, and notwithstanding the strenuous efforts put forth by the sponsors, who acted on your behalf, it will without an appealing plan for the sale of hogs, sheep and lambs in this Province.

New Move For Increased Business

"The Livestock Marketing Board's source of revenue is determined in the main part by the fixed fee it is allowed to deduct from the sale of stock. Its existence and continued operation, therefore, depends upon the volume of stock sold through its channels, and the price at which the stock is sold.

"For the past number of years it has become evident to your directors, and our patrons at large, that under the rapidly changing conditions with which we were being gradually proving detrimental to the cause of co-operative marketing of livestock—and by which we would sooner or later be engulfed, some drastic move, if necessary, must needs be made, for our protection.

Marketing Act

"The Agricultural Products Marketing Act and the Sheep and Swine Marketing Plan (thereunder) was the remedy to which we first resorted. Conditions continued to become more and more aggravated as time went on and early last Spring a picture of the possibilities that faced your organization—not sometime in the future, or semi-future, but at that time presented itself for consideration. The sponsors of the "Marketing Scheme" had become convinced that hope for relief through that avenue would be more or less doubtful, especially as a measure for immediate application, and at a meeting on April 4th resolved to take other action. A larger volume of sale of stock in support of the Marketing Board had been served by the Shipping Clubs and had served as a useful purpose in the past, were they not ineffective in this respect, especially in the motor transportation season. A new Livestock Assembling Association, that would act as a "feeding agency" to the Marketing Board, was brought into existence. The sponsors decided that the mountain would not come to the mole, but the mole would have to go to the mountain, and so a "trucking of stock from farm to shipping point service" was decided upon. Agents were appointed in addition to the Secretaries, to round up and transport stock each week and ever since road conditions permitted, this method of assembling has been in operation. This service has been carried on under the auspices of the Livestock Marketing Board, and the experience and results obtained during the past few weeks, amply justifies the move made, and the action taken.

"In nearing the conclusion of this report, I wish to express, on behalf of our Board and patrons generally, appreciation of the Provincial Government, for its continued faith and, and particularly to the Hon. Mr. Dennis, who has in his official capacity and otherwise proved himself to be a real friend and helper.
