THE KING'S COUNTY GUARDIA

Offices in Montague, Capt. W. A. Johnstone, Manager; and in Souris, M. S. Acorn, Manager.

...Lester Robertson, Chester McNeill and Harry Stewart of Red Point have left for the Maine lumber woods.

...Mrs. Thomas and two children of Amherst are spending the summer months with her aunt Mrs. S. S. Robertson, Red Point.

...Mrs. Lot McMahon, an old resident of Elmira passed away last Monday. Born in Waterford, Ireland, some eighty five years ago, she saw many changes during her long life.

...The death occurred at Gowan Brae on September 22nd of John Mallard aged seventy-five. The deceased was one of the most respected residents of that locality. He was formerly a ship carpenter and the latter part of his life was devoted to farming in the district where he resided at the time of his death. He had been in failing health for some time and his death was not wholly unexpected. He survived his wife, who died some four years ago. Ten children are left to mourn. The sons are Henry, George, Thomas, and John residing in Brighton, Mass; William at home. The daughters are Mrs. Cameron and Mrs. McQuarrie both of Victoria; Mrs. Quinn of South Boston; Mrs. Bishop of Wakefield and Agnes at home. The funeral took place at Souris West, on September 23rd. The pall bearers were Thomas Kickham, Thomas Perkins, James Cantwell, Syril White, William McCabe and Patrick Manning.

...Fishing still keeps discouraging near Red Point. One of the worst seasons on record has about finished.

...Oliver and Percy Stewart and William and Joseph Ford have returned home to Red Point from the west. They don't give the usual account of the verdure of far away pastures.

...The starch factory on Baltic Road is running to its full ... utterly unable to ... quantities of potato... day recently some eighty-... teams were waiting for their turn to unload. Now the district is divided into sections and each section gets a day for itself. By present indications potato growing will rank among one of the most important industries of this province. Roads good as midsummer facilitate the delivery of the crop.

MAN WITH MONEY-BAG OVERWHELED BY LAVA.

NEW YORK, Oct. 9—A cable despatch from Naples says:—Pompeii is still yielding remarkable "finds." The latest, unearthed near Porta Nolano, is a man's perfectly preserved skeleton. By its bony hand lay a little bag of coarse cloth containing fifty ancient coins, uninjured by 1,829 years of burial. The coins are nearly all of silver and beautifully minted; nothing like them is produced by the scientific appliances of to-day.

The skeleton's posture proves that the living man, fleeing with his money, was overwhelmed by the lava and mud from Vesuvius.

The place where the skeleton was excavated is a new field for exploration, and other important discoveries are expected there, but the fruits of Dr. Waldstein's new explorations at Herculaneum are awaited with even greater impatience, for Herculaneum is incomparably richer in art treasurers than Pompeii.

NEW D&A CREST CORSET

HAS THE UNBREAKABLE HIP CAN'T BREAK AT THE WAIST LINE

This charmingly shaped model will enable you to be *chic* and *stylish* without transgressing the laws of health.

A radical departure in corset construction—it is equally adapted to figures varying from average to over-stout and deserves the attention of every woman.

Abdominal bands on each side gently distribute the excess flesh at hips giving the *straight back* and *flat hip* effect, while **elastic gores** positively **prevent** any **breaking** at the **waist line**—thus practically doubling the life of this corset.

Price $2.25

Of imported coutil, best quality obtainable; 20 to 36. Superlatively chic and dainty as well as hygienic.

DOMINION CORSET CO. MFRS. — QUEBEC, MONTREAL, TORONTO.

SALTING THE BUTTER.

OTTAWA, Oct. 15.—It is needless to say that nothing but the best grade of salt should be used in salting butter. An experienced Dairyman says "I would prefer the flake salt, as it desolves more readily and it is not so liable to make mottles. Salt adds flavor to the butter and materially increases its keeping quality. Buttermakers differ as to the amount of salt which should be used in butter. Very high salting, however, has a tendency to detract from the fine, delicate aroma of butter, while at the same time it tends to cover up slight defects in flavor. Salt very readily absorbs odors and must therefore be kept in a dry clean place, where the air is pure. It should be of the same temperature as the butter when used."

"Travelling from the Atlantic to the Pacific I have had an opportunity of trying various preparations for the hair but I must award the palm to Macs' Hair Food" as the best remedy for dandruff and itching scalp—So said a commercial traveller—Try Macs' Hair Food. Price 25 and 50 cents. The Two Macs' Druggists.

APPLES, ORANGES FIGS AND PRUNES

The God-given Cure for All Diseases of Bowels, Liver, Kidneys and Skin.

Few people seem to realize how important—how absolutely necessary—it is to keep the Bowels, Kidneys and Skin in proper working order.

They wonder why they have Sallow Complexions — Indigestion — Headaches—Rheumatism — while all the time their systems are clogged and poisoned with waste tissue and indigestible food which these organs should have removed.

What they need are Fruit Juices—nature's provision for keeping the eliminating machinery of the body working right. "Fruit-a-tives" are the concentrated juices of fresh, ripe fruits, combined in such a way that their medicinal action is greatly intensified. They stimulate and regulate the action of Liver, Bowels, Kidneys and Skin, thus clearing the system of the accumulated waste and poison, purifying the blood, and banishing those distressing troubles that make life miserable.

No other remedy has ever been discovered that does this so effectively as "Fruit-a-tives." 50c. a box — 6 boxes for $2.50. Trial size 25c. Fruit-a-tives Limited, Ottawa.

WOMANHOOD OF AMERICA ARRAIGNED BY DR. MACPHAIL

LONDON. October 8—The Spectator publishes a remarkable article by Dr. Andrew MacPhail, of Montreal, on the American Woman. Though both Dr. MacPhail and the editor of The Spectator both disclaim any intention of giving publicity to a general attack on the women of America the article probably would have been neither printed nor written if it had not been for the recent discussion regarding New York society.

Dr. MacPhail, who writes vividly and suggestively, recognizes the soundness of the American woman as a rule, and suggests that "the American woman" of his indictment is found throughout the modern world in England, Canada and France, as well as in the United States, only she is more visible in America, because she is more adulated and more advertised there.

EYE-OPENER SAYS HE'S BEEN LIBELED

CALGARY, Alberta, Oct. 8—Dan McGillicudy, editor of the ... News Calgary, and former editor of the Goderich Signal, was arrested yesterday on a charge of criminal libel. The warrant was sworn out by R. C. Edwards, editor and proprietor of the Calgary Eye-Opener, after publication on the front page of the News of an article attacking Edwards on his personality, his morals and his antecedents, and branding him as a man unfit for human society.

McGillicudy was taken to jail but afterwards released on one thousand dollars bail.

THE CHOIR SINGER.

A play that is said to be entirely out of the ordinary and full to the brim with attractive features including the introduction of various musical numbers is The Choir Singer which comes to this City fresh from its New York triumph.

The Choir Singer tells the story of a young Virginia girl of aristocratic ancestors who is forced through the scheming of a New York stock broker to abandon her ancestral home and go out into the world to earn her living as a public singer. This task is made the easier for Alice Leighton, the young heroine, by the fact that she is the professor of a highly cultivated voice which has gained for her at her home the sobriquet of The Virginian Nightingale.

An interesting complication is the heart story which is centered in the heroine and the young Parson of the old church in which Alice has for many years led the choir is most naturally brought about through the jealously of the Parson's elderly sister who, a spinster herself, does not propose to allow any other woman to take her place at the head of her brother's household. On her enforced departure from Virginia for New York Alice is led to believe that the young curate has only been amusing himself at her expense and it is with a heavy heart that she takes up the battle of life for which by her early training she has been so little prepared. In a most ingenious and yet perfectly natural way the author, Carroll Fleming, who gave to the stage Sis Hopkins and other successful plays of the so-called 'rural' sort, brings his Virginia Characters to the Metropolis, whereby their contrast with New York types, their humorous qualities are brought prominently forward. A number of convulsingly funny situations are thus logically brought about so that those who like a large portion of laughter combined with their dramatic feasts are certain of finding what they want in The Choir Singer. The introduction of the musical numbers which is deftly done is an especially pleasing feature to lovers of good vocal selections, artistically rendered.

PLAN IMPROVEMENTS FOR POSTAL SERVICE

OTTAWA, Ont., Oct. 9—Two officials of the British post office department were in Ottawa today discussing the improvements in the distribution of British Canadian mails in this and the mother country.

The officials are Robert Bruce, comptroller of the London postal district and William Pugh, of the same department. The reduction of postal rates on both letters and printed matters passing between Britain and Canada has resulted in a great increase in the amount of mail matter handled and has given rise to problems of distribution at either end for which these two gentlemen and the heads of the Canadian post are working out a solution. It is expected that an improvement in the trans-Atlantic service and greater expedition in the forwarding of mail matter to its destination will result.

SAW OFF COFFIN TO GET IT IN GRAVE.

STROUDSBURG, Pa., Oct. 9—Several dozen negroes from this town were chief mourners at the funeral of Mrs. David Smith, of near Bangor. When the party arrived at the grave the pallbearers found it impossible to lower the coffin into the outside box, which was shorter than the coffin itself.

After a consultation between the relatives and undertaker it was decided to saw a piece from each end of the coffin and proceed with the burial which was done. One woman fainted when she heard the sound of the saw.

GARBED SELF AS A MAN TO EARN A LIVELIHOOD.

NEW YORK, Oct. 9—The Ellis Island immigration authorities, who had detained Miss Mary Johnson a Canadian women, when she arrived here on the American liner New York, under the assumed name of "Frank Wood Hull," and wearing men's clothes, to day decided to allow her to proceed to her destination, New Orleans, still garbed in masculine attire.

Miss Johnson, fifty years of age, and of masculine appearance, had declared to the authorities that having been born unprepossessing as a woman, she had found herself practically shut off from earning a living and that only as a man had she been able during the past fifteen years to earn a regular income as a book agent and maintain her respectability.

WOODMAN DIDN'T SPARE THAT TREE.

NEW YORK, Oct. 9. — The big English oak, known as the "Prince of Wales tree" which grew from an acorn planted in the mall in Central Park in 1861 by the then Prince of Weles, now King Edward, has been cut down by a park foreman, on the order of Park Superintendent Beatty. The stump was pulled out and the spot covered with sod.

Since 1903, the tree has been rotting. It was close to the bandstand, and many persons wrote to the newspapers suggesting that it be removed. Several attempts have been made to save the oak by filling the rotted place with paraffin. The acorn from which the tree grew was brought by the Prince of Wales from England.

CORNS CURED IN 24 HOURS

You can painlessly remove any corn, either hard, soft or bleeding, by applying Putnam's Corn Extractor. It never burns, leaves no scar, contains no acids; is harmless because composed only of healing gums and balms. Fifty years in use. Cure guaranteed. Sold by all druggists 25c. bottles. BRAVE ENGINEER DIES AT HIS POST

WINNIPEG, Oct. 9.—Charles Livingstone, an engineer on the National Transcontinental railway, was instantly killed and thirteen persons had a narrow escape through an engine running off the track about fifty miles east of Winnipeg yesterday afternoon.

The train was carrying supplies to J. D. McArthur's camps, and consisted of the engine, a flat car and the caboose. Four miles west of Whitemouth river, and while running at about fifteen miles an hour, the engine left the rails and went over on its side. The firemen, Fred Smith, jumped and escaped with trifling injuries, but Livingstone remained at his post and had put on the brakes when he was hurled against the steel of his cab and instantly killed.

NAVIGATING THE AIR.

BERLIN, Oct. 9.—Eighty-six balloons have assembled here to take part in the series of airship contests that begin tomorrow and continne throughout Suuday and Monday. Among the piolts are several army aeronauts of world-wide reputation. The races will start from the suburb ef Schnargonborf. The principal event will be the contest for the International cup which will take place cn Sunday. Great public interest has been aroused by this event, for which there are 23 entries representing eight nations.

"THE COMING KINGDOM."

Splendid attention was accorded Evangelist Brenneisen, in Kindergarten Hall yesterday afternoon and night by large audiences made up of representations from all denominations, including Roman Catholics, Episcopolian, Presbyterians, Methodists Baptists and Desciples. He made frequent and apt reference to a large colored chart of the ages, and explained how to study the Bible dispensationally glowingly alluding to the prospect of the fulfillment of the Lord's prayer.

"Thy Kingdom Come, thy will be done in earth as it is in heaven."

Tonight at 7.30 p.m. Mr. Brenneisen promises to explain the Divine Justice of God in harmony with his other principal attributes of Divine Love Wisdom and power.

He assures his audiences that the object of these meetings is not to organize or form any new church, creed sect or denonination, of which they are already enough in existance, but merely to encourage a more active and reverent study of the Bible, (the admitted torch of civilization and liberty) by all classes. The services are all free and collections or solicitation for money are not made. All are welcome but thinking christians and honest skepties are especially urged to be present. From 7.30 to 8 p. m. this evening written Bible questions from anyone will be answered followed by the advertised lecture. Undenominational and non sectariam The following is a miniature reproduction of the large colored chart used by the evangelist:—

Bible Chart of the Ages.
