HEROIC HARD WORK BY CLERGYMAN AT FRONT. LONDON, Nov. 22.—Capt. Elliott Baker, a Montreal clergyman, has gained praise for heroic and hard work in the conduct of burying parties in the recent push. For three days he looked after the conveyance of wounded and killed amid continuous shelling, and was the last to take cover when the whole party was obliged to desert from work. This was only when he had planted the last cross over the graves.

IN MEMORIAM

MRS. JOHN ACORN.

Dundas was saddened on the morning of Nov. 6, when news of the sudden death of Mrs. Archibald Acorn, became known. She had been confined to bed for a few weeks and hope was cherished for speedy recovery, but the call came suddenly, age 56. Much sympathy is expressed for Mr. John Acorn, who recently was stricken with partial paralysis, from which he is happily recovering, also his daughter Mrs. Bead McKenzie, recently bereaved and utterly prostrated. Mrs. Acorn though not enjoying robust health toiled nobly for her home and family, was always ready to help in any good work. For thirty-two years she adorned the membership of the Presbyterian Church, though she loyally attended Divine worship with her family in the Methodist Church. Rev. Henry A. Brown, assisted by Rev. Mr. Rand, officiated at the funeral service.

Full of good works she will be greatly missed by many friends. Three of her sons are serving their King and country overseas in the C. E. F. viz. Moody, Reuben and Samuel. William resides in Manitoba, Robert and Arthur at home. These, together with her two daughters, Mrs. Webster Van Gerstine and Mrs. Bert McKenzie, have the prayers and sympathy of the whole community. God's unction fills the hearts that bleed;

The best fruit loads the broken bough; And in the wounds our sufferings plough Immortal love sows sovereign seed.

THE FARMER AND VICTORY BONDS

(By President W. Murray, University of Saskatchewan.) How can a farmer double his investment and also increase his annual income fifty per cent? Today 50 bushels of \$2 wheat will enable you to invest \$100 in the Victory Loan. Five or ten years hence, when prices fall, that \$100 will represent 100 bushels of \$1 wheat. Meanwhile you receive \$5 a year interest. That interest today can procure say 10 pounds of 50 cent butter. When prices fall after the war, as they are sure to do, the purchasing power of that \$5 will be greatly increased, and from 15 to 20 pounds of butter could be secured by it. So that 50 bushels of wheat today will yield an annual interest which it would take 100 bushels to purchase five or ten years hence. Moreover, that annual interest will purchase at least one-half more goods after the war prices fall. Your share in the Victory Loan will bring peace—we hope permanent peace. If you can prevent the loss of one life, the injury of a single limb or can lessen sorrow and suffering by ever so little, by the loan of your money you will receive more gratifying satisfaction than any paltry sum of money can give.

party saw was the tomb of the Mother Mary but the spectacle was saddened by the sight of many lepers who crowded through the city and await at the Jerusalem gate pleading for help and "backseesh"—money. The Garden of Gethsemane is just a short distance from the tomb of Mary. It is attended to by monks and is in excellent condition. Mr. Paton plucked one of the flowers from the Garden which he still retains as one of his cherished possessions.

From this point the party was provided with escort of an armed Arabian sheik or Bedouin, who was armed with many lethal implements and dressed most picturesquely. The party visited the Fountain of the Apostles, one of the resting places of Christ on His way from Jericho, and also stopped at the Good Samaritan Inn, marking the exact place mentioned in Luke 10:30.

Mr. Paton touched on his visit to the Dead Sea, which he said was salt and more salt, and also the river Jordan, not "flowing with milk and honey" but rather swarming with flies and fleas.

Leaving Jericho the party came to Bethany and there saw the House of Lazarus, Martha's house and the sepulchre of Lazarus. Mr. Paton touched on his impressions of Jerusalem—the people going through the Joppa gate, the narrow streets, the novelty shops selling hand carved rosaries, etc., the pearl merchants, the money-changers, before the sepulchre, with great piles of gold silver and copper before them, and the natives buying and selling pearls.

clean views—most of them taken by Mr. Paton personally, a vote of thanks for the excellent entertainment was moved by Mr. J. P. Gordon, seconded by Mr. R. H. Jenkins and tendered Mr. Paton by the chairman, Rev. R. G. Fulton.

It is understood the proceeds of the lecture which are for the 98th Siege Battery fund, were of a very substantial nature.

SCORES THE SLACKERS AND THE PACIFISTS

NEW YORK, Nov. 22.—Ninety-five per cent of the men of the United States are loyal and are willing, if necessary, to give their lives for their country, Thomas W. Gregory, United States Attorney-General, declared in an address at a dinner of the Lincoln Memorial University here tonight. Concerning the other five percent he said:

"God have mercy on them for they can expect no mercy from this outraged nation."

He characterized slackers and pacifists as "moral and physical degenerates who believe nothing is worth fighting for," but added that they will be compelled to pay the price of their liberty.

"He who holds the dollar or his personal welfare superior to the welfare of these lands who are fighting our fight," he said, "shoots them in the back and is a traitor."

"The name of Abraham Lincoln is often taken in vain by those advocating anarchy, Socialism and disregard for the law," he added, "but of all the men in the history of the nation, there were none who had a more deep-seated determination to make this a country of law and not of men. He always insisted that the law must be maintained."

MAN OF MYSTERY SAYS HE IS FROM NEW BRUNSWICK

ATTLEBORO, Mass., Nov. 22.—The fact that he fell in a faint caused a well dressed stranger who gives the name of Harry Reek to be rushed to the Sturdy Memorial Hospital, where a suitcase which he carried, was searched by the police.

They found a novel, and between the pages were pieces of ordinary white writing paper on which was written, in indelible ink, a story in words that are evidently coded. The police tried all evening to fathom out the writing, but were unable to do so. Persons familiar with almost every known language were summoned, but no one was able to determine what the note contained.

The man recovered and said that he came from New Brunswick a week ago, but would not name the town. He gave no explanation of his appearance in Attleboro. He added that he did not know how the strange papers got into his suitcase.

Lieut. Terence E. Flanagan got in to communication with United States Marshal Mitchell, and the latter gave instructions that the man be held pending an investigation.

Your co-operation will be appreciated. WALTER S. GRANT, President F. I. Motor League.

WILL POPE BENEDICT LEAVE ETERNAL CITY?

ROME, Nov. 22.—The question is being asked in various quarters here, especially in Vatican circles, if Pope Benedict intends to leave Rome and Italy. If the Pontiff should take this step it would be due to the difficulty of taking the attitude he desires to take with regard to the war as long as he resides in a belligerent country, despite all the efforts made by the Italian government to guarantee his complete liberty and independence.

It is asserted that four parlers have taken place with regard to the Pope going to Spain as a guest of King Alfonso.

EULOGY ON LATE GEN. MAUDE

LONDON, Nov. 22.—Premier Lloyd George, in announcing Gen. Maude's death to the House of Commons yesterday, characterized him as a "great leader of men and a commander of the first rank."

The Premier briefly reviewed General Maude's career and told of the difficulties he overcame, which resulted in the capture of Baghdad and other successes in Mesopotamia.

"Now, in the hour of triumph," said the Premier, "he is stricken down by fell disease. The country mourns the loss of one of its most valiant sons."

CONVALESCENTS BRUSH UP ON CITIZENSHIP

Canadian Soldiers Would Make Them selves Capable Peace Time Citizens During Convalescence. Classes have been arranged in English for Russians, Indians, Roumanians, Swedes, Poles, Italians, and French, by the officers of the military hospitals in Charlottetown, and the boys are making ready for a new citizenship during their convalescence.

In addition to instruction in English many other avenues of knowledge to them have been arranged to which all the boys are eligible. This is regarded as a semi-social feature for winter evenings and was inspired by the general interest shown by the men in the subject.

Lecture courses have also been arranged in which writers, professors, public men of note, scientists and specialists in all other lines of endeavor will appear.

That they may exercise this new knowledge, the boys have arranged debating clubs and lively battles in wit are being staged every week among the men themselves. The effect upon all the inmates is magical, and the physicians in charge regard this swift moving current of interest of high therapeutic value in their recovery.

RUSSIA'S FOOD PROBLEM SERIOUS

LONDON, Nov. 22.—The food problem in Russia suddenly has become more pressing than the question of revolution or counter-revolution not only in Petrograd and Moscow, but also at the front, according to a series of telegrams which reached London yesterday from Petrograd, Moscow and Odessa.

The spectre of famine appears to have done more than the forces of armies to bring about quiet. At many places the Bolsheviks and Bourgeois, and the Kerenskyites and the Leninists have joined forces against the common enemy—hunger—in a concentrated effort to stave off disaster, which seems almost inevitable in transportation and widespread destruction of stores and supplies.

MORE CURES IN CHARLOTTETOWN

The good work of the Farador is daily spreading because of the superior merit of this form of drugless healing. Here is another link in the long chain of evidence. Charlottetown, Nov. 12, 1917. Dear Sir:—I am indeed glad to be able to say some very good things concerning the Farador, for I am sure it was the means of saving my daughter's life. She began the treatment over four years ago when her health was despaired of. For over eight months she could do no work and she had been in poor health for several years previously. She had severe pains and numbness in her head, her nerves were badly shattered and she had palpitation of the heart. She is now entirely cured. We knew that the Farador treatment cured her for she did not begin to improve until she began its use as a last resort.

By means of the same treatment her husband's health was greatly improved and her only child was cured of asthma after several doctors had given him up.

About two years ago I suffered terribly from a sore eye which kept running continually. By means of the Farador I obtained quick relief and in a few weeks was entirely healed. My son suffered greatly from an injured spine and for many months could not work. We did not think the Farador could do much for a case of that sort, but thought we would try it as it could do no harm. Though the Farador did not effect a perfect cure it helped him wonderfully, so that he can now walk almost straight. He enjoys excellent health and is able to work every day.

Because of these great benefits we think the Farador is the most reliable remedy in existence and that every family should own one. MRS. SARAH CLARKIN, 212 Richmond Street.

The foregoing letter is addressed to W. E. Emanuel, Farador Agent, 225 Richmond Street, Charlottetown. Interesting literature given to all applications. 1238-11-23M11.
