LONG AUTO TRIP—Mr. Ed Butler of Rainy River, Ontario, arrived in the city yesterday on his way to Murray Harbour where he will spend ten days visiting. He is accompanied by Mrs. Butler. They motored all the way from Rainy River, and made the run from Borden down today in two hours. This is the first tourist car to the Island this year.

ROTARY MEETING—"Scientific medicine and how it can render the best service to the public" was the subject of an interesting address delivered before the Rotary Club yesterday by Rotarian Dr. T. B. Acker, of Halifax, who has been on the Island for a week conducting clinics for crippled children. In the course of his remarks he stressed the need of annual health examinations by the family doctor, as the human body, just like an automobile, requires overhauling from time to time. He pointed out that the improvement in Hospitals and the development in general of scientific medicine is done for the protection of the public and not for the benefit of the medical profession. The importance of the public health movement and the part which Governments play in this were also stressed. Dr. Acker was introduced by Hon. Dr. MacMillan, who spoke of Rotary's contribution to the crippled children movement and referred to the clinic which is now being held under Dr. Acker's direction. The work is growing on the Island and the present is the largest clinic yet to be held. Rotarian R. E. Mutch presided, the guests being Dr. W. H. Soper of Charlottetown and Mr. Evan Parry of Ottawa. President Hornby announced the officers for the incoming year as follows: President, Wilfred Boulter; Vice President, G. F. Hutchison; Secretary, C. N. Bissett; Directors, Mark Calder, E. W. Coffin, A. B. Fisher and Past President Hornby. The musical programme included a vocal solo by Miss Margaret Stern, who was encored.

ROAD CONDITIONS GOOD—Hon. G. S. Sharp, Minister of Agriculture, Mrs. Sharp, Mr. and Mrs. Harry Stewart of this city left Charlottetown on Saturday at 2 o'clock by motor car for Bidford. They returned to the city Monday evening, having proceeded by way of New Haven, Clyde River, and the Canoe Cove road to Bonshaw. Mr. Sharp reports the travelling good, the trip being made to Summerside in two hours and ten minutes. West of Summerside the roads are all clear and better time was made. On the return journey, however, owing to the rain the roads were skiddy and the time made was not so good.

Predict Cut In Judges Salaries

OTTAWA, May 2—Yielding to pressure of public opinion, voiced through Conservative members of parliament, the government plans to reduce the salaries of admirals, generals and judges by 10 per cent, the same amount as the civil service generally, according to information given to The Star tonight from authoritative sources.

PERSONALS

Messrs. Charles and William Batt left Monday morning for Churchill.

The friends of Mr. Lorne Good will be glad to know he is doing fine after his operation for appendicitis in the P. E. I. Hospital.

BIRTHS

CURRIE—At the P. E. I. Hospital on April 29, 1932, to Mr. and Mrs. Vernon D. Currie, a daughter.

BROWN—At the City Hospital, April 24, to Mr. and Mrs. Thomas Brown, City, a daughter.

MURRAY—At the City Hospital, April 27, to Mr. and Mrs. Samuel Murray, Vernon Bridge, a son.

GALLANT—At the City Hospital, April 28, to Mr. and Mrs. John J. Gallant, City, a son.

OZEN—At French River on April 10th, 1932 to Mr. and Mrs. William R. Ozen, a daughter (Frances Irene).

DEATHS

MCNEVIN—At Argyle Shore, Monday, May 2nd, 1932, Alexander McNevin, aged 63 years. Funeral Wednesday, May 4th, at 2 p.m.

RIE—In the City Hospital on Monday, May 2, 1932, after an illness of four weeks Evelyn Jean Rie, Souris, East.

NICHOLSON—At 120 Prince Street, Sunday, May 1st, Donald Nicholson in his 83rd year. Funeral from Baptist Church, Wednesday, May 4th, service starting at 2.30, funeral leaving at 3 o'clock. Interment People's Cemetery. Please omit flowers.

Cornwall

The service of the United Church were held as usual on Sunday. At Sunday School in the morning Bertie Miller was the leader with a choir of boys and girls. Etta Ross as organist. In the evening Miss Helen Crosby sang very acceptably "The Old Rugged Cross." Mrs. Frank Howard presiding at the organ. Rev. D. K. Ross preached from the fifteenth chapter of Joshua, where Caleb's daughter asks for a blessing from her father and receives the upper springs and the nether springs with the southland.

Installed As Dean

FREDERICTON, N. B., May 1—(By The Canadian Press)—Rev. J. H. A. Holmes, of Rothesay, was installed as Dean of the Church of England Diocese of Fredericton today.

Dean Holmes preached the sermon in the cathedral this evening. He succeeded the Very Rev. Dean Scovill Neales, who resigned because of ill health.

Dean Holmes was rector of the Anglican Church at Rothesay. He will receive an honorary degree of Doctor of Divinity from University of King's College, Halifax, this week.

THE FEDERAL PARLIAMENT

OTTAWA, May 2—(By The Canadian Press)—The total estimated cost of works to be carried out on the trans-Canada highway under the Unemployment and Farm Relief Act, 1931, approved to May 2, amounts to \$9,999,972, of which the Dominion Government has agreed to contribute 50 per cent or \$4,999,986.

This information was laid on the table of the House of Commons today by the Government in answer to a question of Sir Eugene Fliset, (Lib., Rimouski). The Federal Government has paid to date to each province the following amounts: New Brunswick, \$60,376; Ontario, \$1,175,000; Manitoba, \$251,934; Alberta, \$102,429; and British Columbia, \$287,427. These grants, made in connection with the highway, total \$2,547,169.

Exchange Rate

OTTAWA, May 2—The rate of exchange for New York funds, governing international train traffic, from May 1 to 14th, inclusive, will be eleven and seven-eighths percent premium, the board of railway commissioners announced today. During this period the rate of surcharge on international freight and express shipments will be seven percent; passenger surcharge will be based on a twelve percent exchange.

Conference Suggested

OTTAWA, May 2—A conference between the Dominion and the provinces, at some future date when normal times return, to clear up difficulties respecting operations of companies was suggested by Prime Minister R. B. Bennett in the House of Commons today. Uniformity as between the Dominion and the provinces in regard to granting incorporation, better control of the reorganization of companies and consideration of the question of "watered stock" were matters which could be considered, Mr. Bennett stated.

Approval of Trade Treaty

OTTAWA, May 2—The House of Commons today approved the recently negotiated trade agreement with New Zealand. Before coming into effect the approval of the Senate will be necessary. After the agreement has been finally approved a date for bringing it into effect simultaneously in Canada and New Zealand by proclamations, will be decided upon.

Rapid Progress In House

OTTAWA, May 2—Daylight saving became effective in the House of Commons today, and members fell in line with the time-saving idea by making exceptionally rapid progress during the first hour of the afternoon sitting. After approving without discussion the bills ratifying the New Zealand treaty and respecting the eastern bank, the House ran through the sixty odd clauses of the bill respecting unfair competition in trade and commerce. This is an involved measure, which

Tuesday night Jack Crosby acted as leader. It was decided to continue the music lessons by Prof. Kendall and everyone is eagerly looking forward to these lessons, a large number of young people attending last fall. Practices were held this week for the plays "When Father Goes on a Diet," and "The Spinners' Convention." As Cornwall is noted for its enjoyable plays, we know that this will prove no exception.

Mrs. Donald McPhail of Cornwall, has returned from Charlottetown where she was spending a few days with her son Bruce McPhail.

The many friends of Mrs. W. W. Crosby will be glad to know that she has recovered from her recent illness. C.

SCIENTISTS SPLIT ATOM

LONDON, May 2—(A.P.)—Lord Rutherford, one of the world's foremost scientists, today disclosed that two young Cambridge physicists had achieved one of the greatest goals of all scientific research. They split an atom.

(This is not to be confused with the accomplishment of Dr. Carl Anderson at the California Institute of Technology, who devised an electromagnet, last year which made possible the photographing of an atom's nucleus while it was being disintegrated by the cosmic ray.)

In revealing the details of what he termed a "discovery of great scientific importance," Lord Rutherford said the successful investigation of the atom were Drs. J. D. Cockcroft and E. T. S. Walton, both of whom have been working on their problem for several years with special apparatus erected under the supervision of Lord Rutherford himself.

Optimistic scientists long have hoped for the split atom, some contending that when this feat was accomplished a boundless source of energy would be made available to the world.

On the other hand there have been some timorous extremists who feared that man's accomplishment of splitting an atom would mean the hurling of the world to destruction.

"It is difficult to say to what this discovery may lead," Dr. Rutherford explained today.

"Up to the present the experiments have not yielded anything which will be of immediate commercial value. I have seen it stated that this discovery means we shall be able to produce an immense accumulation of added electrical energy for commercial purposes.

"But we can not claim that for our experiments up to the present for the simple reason that for every particle of energy we get it requires millions of particles to make it effective.

"The experiments, however, are of great scientific interest and are likely to be powerful agents in extending our knowledge of the atom.

Lord Rutherford did not refer to the fears expressed in the past about dissolution of the world, presumably feeling that they were answered by the fact that the world is still intact.

The atom is a part of the molecular theory of physics, which contends that all matter is composed of molecules, which are in turn composed of atoms and which eventually lead back to the simple idea that electric energy forms the basis of all matter.

This has been vastly revised in recent years until it has been made certain that atoms do exist and are composed of several particles.

Lord Rutherford is a native of New Zealand and is director of experimental physics at the Cavendish Laboratory, Cambridge, a post he had held since 1919.

WESTERN GUARDIAN

—BAIL ESTERATED—A drunk and disorderly who failed to appear in the Summerside Police Court on Monday had his bail of ten dollars estreated—S.

—SUCCESSFUL RUMMAGE SALE—The rummage sale in aid of the Crystal Hockey Team was very successful and helped to make up the deficiency of the club's books. The public responded handsomely to the call for clothing—S.

—FIRST STEAMER IN PORT—The first steamer to come into Summerside this season was from Georgetown, where she had taken on a part cargo of potatoes. She will finish loading here and sail for New York. Mr. Donald McFarlane made the trip from Georgetown to Summerside on the boat—S.

—ORGAN RECITAL—Mr. Binney, organist, of St. Giles United Church, Fairmount, Montreal, played the organ at the evening service in Trinity United Church, Summerside on Sunday and after the service gave several very fine classical numbers, which were much appreciated by those of the congregation which remained behind. The program was broadcast—S.

—PANTRY SALE—The pantry sale sponsored by the Boy Scouts of Summerside to make funds for necessary equipment for their troop, held in the Fur Pool office on Saturday was a great success. The boys were very grateful to those ladies who baked cakes and cookies for them—S.

—WILD SHOOTING—Some poor marksmanship was displayed down at the east end of the Island during the middle of the week, according to reports reaching here. A man by the name of Carpenter of East Point on a shooting expedition shot himself in the foot. At Little Harbor a man by the name of MacDonald went out to shoot a cat and the gun discharged accidentally killing his horse. — Summerside Exchange.

—FIRST CAR THROUGH FROM CHARLOTTETOWN—The first car to come through from Charlottetown to Summerside arrived on Saturday. Mr. Pope Clark of Clark and McDonald was the driver and reported the road good. He came by the shore road and said the only mud he got was after they left Victoria. Water Street was lined with cars from the country on Saturday night and made things look more lively—S.

—PASSING OF MRS. ELIZABETH CANNON OF SUMMERSIDE—There passed away at the home of her daughter, Mrs. W. W. Baker, Pleasant Street, Summerside, yesterday at noon, Mrs. Elizabeth Cannon at the age of 73 years after an illness of nine weeks. The deceased lady was born in Augustine Cove and married Thomas C. Cannon of St. Eleanors, who passed away about 45 years ago. After his death Mrs. Cannon entered the nursing profession and devoted the remainder of her life to that noble calling. Her sweet disposition and devotion to her duties won for her many lifelong friends who will be deeply grieved.

OTTAWA, May 2—(By The Canadian Press)—Third reading was given by the House of Commons today to an act authorizing the refund of moneys received in connection with the administration of the natural resources. The legislation, it was explained, was necessary to cover matters of departmental routine.

to learn of her passing. Mrs. Cannon was a devout member of the Anglican Church and a member of the W. A. of St. John's Church, St. Eleanors during her residence there and later of St. Mary's, Summerside. There are left to mourn an only daughter, Mrs. W. W. Baker, one granddaughter, Mrs. Ewen Nicholson and a great-grandchild, John William Nicholson; also the following step children, Mrs. Hudson Montgomery, of Summerside; Mrs. J. W. Cresswell, Alberta; Mrs. John Porter, Dorking, Man.; Mrs. Lawrence, Insmore, Man.; and Arthur R. Cannon of Massachusetts, to all of whom much sympathy is extended. The funeral will take place on Wednesday at 2.15 p.m. from St. Mary's Church—S.

PERSONALS

—Mr. J. Henry Gaudet of Summerside left Monday morning on a business trip to St. John, N. B. S.

—K. W. H. Engrl of the Mounted Police was in Summerside for the weekend—S.

—His many friends are pleased to see Mr. Joseph McDougall of Bruce and McKay out again after his recent illness. —S.

—Messrs Benjamin and Claire Tanton who have been attending college at Halifax arrived home to spend their holidays with their parents Dr. E. T. and Mrs. Tanton of Summerside—S.

PULPWOOD FIRE

PORT ALFRED, Que., May 2—(By The Canadian Press)—Fire which has been raging through a huge pile of cut wood here since Friday has begun to present a more serious aspect than at any time since its outbreak.

This evening the fire was progressing rapidly and anxiety was felt for the big mill owned by the Port Alfred Paper Company, a division of Consolidated Paper Company, situated a little over a quarter of a mile from the burning wood pile.

Over 500 firefighters recruited from all over Lake St. John district were centring their efforts on the side nearest the mill in an effort to prevent the flames from reaching that structure.

Famous Players Order Wage Cut

TORONTO, May 2—(By The Canadian Press)—Affecting operators and stage workers in 40 district theatres, an agreement embodying a 10 percent wage reduction for Canadian employees, was signed today by Famous Players Canadian Corporation and the Toronto branch of the international alliance of theatrical stage employees and moving picture operators.

The agreement, which also settles disputes over working hours and conditions, covers a period of sixteen months.
