Abegweits Win From Saints 9-0

By "Tec"
ABEGWEITS 9; S. D. U. 0.
 "It's an ill wind that blows somebody good"—Summer-like weather with a caressing south west wind that just faintly shook the leaves on the trees, was ideal for the football fans who witnessed last Saturday's inaugural tilt between Saint Dunstan's and Abegweits, age old gridiron rivals. On the other hand the players suffered from the heat more than the bumps.
 To get down to the fray, Abegweits stepped into the University stadium to the tune of 9 to nil, three unconverted tries, two in the first half and the other in the final stanza.
 The game, for an opener was great; both lineups traveling at top speed throughout the sixty minutes of play kept the fans on their toes and cheering all the while.
 Abegweits deserved their win. Their exhibition of football on Saturday was easily the superior of any shown on a local field in many a day. The work of the forwards led little to be desired, and the half and three-quarter lines were splendid—not forgetting "Huck" O'Neill, fullback.
 The Saints were full of stamina and courage, but seemed to lack experience. Their three-quarter line played too close to the scrum, and the forwards showed slowness in breaking after scrum-up. This was glaringly so in the first half. However, in the second stanza the red and white front liners showed plenty pep in the heel-out, with the result that the Abegweits back men were forced to a kicking game in order to save.
 "Hickey" Nicholson, former star of Acadia and well known Abegweits hockey ace, made his presence felt in the first local football tilt. Playing a stellar game on the red and black three quarter line, he was successful in crossing for a brilliant try and figured prominently in the other's Power, Gormley and Larter also showed plenty class in line running and ball handling. The half line composed of the old reliable Glen Partridge, Hib Saunders and Cyril "Rusty" Ryan, were on the job every minute of the play; the former performing brilliantly on the tackling and with Saunders making his presence felt with well directed and timely kicking.
 Murphy, on the red and white half line, seemed to be a marked man and could not get away to any great extent. He was always dangerous however, and on more than one occasion gave the red and black clan many anxious moments. Duffy, on the three quarter line showed speed to burn. He was one of the most outstanding players on his team.

Schooner Race Was Postponed

Thebaud Was Leading Bluenose Less Than Two Minutes When Race Was Called.
GLOUCESTER, Mass., Oct. 12—A second series is due to follow off Halifax.
 The Gloucester schooner, Gertrude L. Thebaud, was leading the Bluenose, her Canadian rival for the Sir Thomas Lipton Challenge cup by less than two minutes at the 12 mile mark in today's race.
 A falling breeze threatened to prevent the schooners from finishing within the limit of six hours, in which event the race will be sailed over next Monday. The Thebaud won the first race on Thursday, and victory today would have ended the series for the cup.
 The Thebaud took the lead at the start today and drew away during the first six mile leg of the triangular course until she was nearly four minutes ahead of the Canadian craft.
 Although the wind was lighter, the boats made better time during the first six miles but the breeze dropped during the next leg and with both little more than drifting the Bluenose picked up two minutes.
FLASH
 The schooner race is postponed.

Protest C. N. R. Service From Points East

Strong protests against the train service between points east and Summerside were made Thursday by a delegation of citizens who waited on Superintendent McNutt on his arrival in Summerside. Attention was drawn to the fact that even with the train had arrived almost three-quarters of an hour late. The previous two days the mail had not been sorted until noon, owing to the late arrival of the train.
 The matter of trains blocking level crossings was also brought to the Superintendent's attention, and one instance where traffic had been held up for a half hour at Ellerslie was quoted.
 Protests had been made by merchants and other citizens to the effect that the jitney had been crowded on Monday and Tuesday last week. The Superintendent was asked regarding the trailer. He stated that any time traffic warranted its use, the local agent had the power to order it attached to the jitney. He promised to take the matter up at once.
 During the discussion, Mr. Clarkin, District Passenger Agent, was of the opinion that local yard facilities were too crowded. He thought that filling more waterfront would relieve this.
 The matter of the three track level crossing at the entrance of the town was also gone into. Opinions were expressed that too much shunting was done to the East. It was pointed out that this was merely from habit and the western track of the "Y" could be used as effectively in shunting to and from the wharf. It was felt that something should be done to remove this menace to the public safety and hinderance to traffic.

FAVORS CONFERENCE TO BRING SOLUTION

BOSTON, Oct. 7—The Boston Traveller, in an editorial, has gone on record as favoring a conference with the Canadian government to solve the problem surrounding such seizures as that involving the ship Fire Light, reputedly taken outside the 12-mile limit.
 "Stephen Deatur, offering a toast many years ago said: 'The Traveller sets forth, 'Our Country! In her intercourse with foreign nations, may she always be right; but our country right or wrong!'
 "We have a good neighbor to the north of us, Canada, and because of our might and because of the fact of 'Granting all this, had we any right to seize her outside our waters? Should we not have entered protest with the Canadian government, which has constantly shown its friendship, even under stress, and reach some agreement honorably to meet the problem."
 That Canada is truly friendly and patiently suffers much of our practices, we are exasperating many of her good citizens. We state that, condition in no apologetic mood. We are dealing with facts. We must realize that we are running this country and Canada is not running it.
 "But we are not running Canada. We take water by drainage from the Great Lakes and Lower the St. Lawrence in Canada. Some of our federal officers invade Canada to enforce our laws. We sink her ships at sea. Now we have another, the Fire Light, outside the 12-mile limit.

THE BAPTIST CHURCH

Yesterday, Rally Day, in the Baptist Church and Sunday School, was an occasion of large congregations and deepened interest. In the morning, the minister spoke on the theme "Why God Cursed them" taking as his text the words from Judges, 5:23 "Curse ye Meroz, because they came not to the help of the Lord against the mighty."
 The words are taken from the triumphant song of Deborah, who in time of bitter need accepted the responsibility of leadership, and even as Joan of Arc in a later day, won victory and peace for her people. Scornful of a lack of support from a source whence she had a right to expect it, she expressed herself in the words of the text.
 The people of Meroz were not antagonistic to Israel. They made no attack, they gave no aid to the enemy, they simply "came not." They did not care.
 The Church of God today need not fear outside opposition. Her danger is not from without, but from within. Unbelief may slay its thousands, dissipation, unrighteousness may slay its millions. Israel under Deborah and Barak won to victory, they did not fall on account of the defection of Meroz, the loss was to those who might have had a part in the great movement for freedom, but through indifference they came not and their name would be forgotten but for the words of Deborah's song. God, through His Church shall be victorious, but what about us upon whom he has a right to count? Shall we be in the ranks when "The Son of God Goes Forth to War" or shall we with a sleek, snug, comfortable indifference be among those who are neither hot nor cold but useless, rejected, condemned, because we came not to the help of the Lord against the mighty?
 To a large congregation at the evening sermon, Dr. Vincent delivered an eloquent sermon on "The Meek," being the third of a series of the beatitudes.
 The music, as usual, was deeply worshipful, and of a high order of excellence. In the morning Himmels "Telling thine ear" and Bernard's "The old Rugged Cross" were sung effectively. In the evening Baldwin's anthem, "Tarry with me O my Saviour," was sung by the choir, with Mr. V. L. Dingswell taking the solo.
 Rally Day in the Sunday School brought out a very large attendance. An impressive order of service was used with Mr. R. M. Bethune presiding. The service of the day was in special recognition of Robert Raikes and the hundred and fiftieth anniversary of the founding of the Sunday School movement.

The Young Peoples' Conference of the western part of the Province convened in Princetown United Church on Monday, Sept. 6. There were three sessions at 10:30, 2:30 and 7:30. At the morning session, there were thirty-four present, at the afternoon eighty-five, and in the evening about two hundred. The morning session was really an executive meeting. It was opened with worship by the President, Mr. Arnold Henderson, Bedeque. Mr. R. L. Cairns was appointed registrar. There were the usual committees on nomination and resolutions. The morning was taken up with reports from members of the executive and special missionary objectives. The afternoon session at 2:30, worship by the young people of Malpeque. Address of welcome by Mr. William Donald and responded to by Mr. Allison Proffitt. The President's report covered the work of the year, laying special stress on the work as outlined by the executive and the success which they had achieved. Roll call was answered by eleven different societies. The reports of their work was in general very satisfactory, showing a keen and increasing interest on the part of the young people of the United Church in the work of the church and community. The Treasurer's report showed a balance to the good. On motion it was accepted. Some time was then given to the matter of social missionary objectives of the United Church as supposed to raise one-eighth of the Missionary giving of our church. This aim has not yet been reached in general. To help to that end it is proposed to take on some definite missionary project so that there may be an interest in some one definite thing. This will increase interest and also give. It was decided to accept the sum of \$250.00. This to be allocated by the executive, and some project to be decided on. Conference then separated into three groups for the discussion of the following topics: "What it means to be a Christian young person," "What makes an effective young people's society," "How can our young people take a larger share in the work of the church." Their findings which were brought in at the evening meeting are as follows: "What it means to be a Christian young person," "We belong to Christ. We are bought with a great price. We are called to be friends, not servants. We must come to know Christ as a personal friend. We must know Him as Saviour to repair the breaches in our lives. Then He is the silent judge in our lives. If we do not know Him, as the silent Judge that we do not know Him." Resolutions, re the special missionary objectives. \$250 to special objectives, which feel they could raise the sum of \$50 have the privilege of choosing the objective they wish to support. That the societies who are weaker and feel that they can not raise \$50 be subjected to the choice of the executive. That the money be sent to the Executive Treasurer. That the executive determine through what channels the money be sent.

Kensington: Vice-pres. Literature and Recreation, R. L. Cairns, Free-town; Vice-pres. Christian Citizenship, Wm. Donalds, Sea View. Vice-pres. Leadership Training, Miss Selina Myers, Carleton. Resolutions adopted as follows: The usual vote of thanks to those assisting. The Convention regrets the Literature coming into this province containing prominent and attractive liquor advertisements, and we, as young people resolve to discourage the use of such literature whenever and wherever possible. The chief feature of the evening was the address of Rev. Frank Langford. He dealt with the problems that face young people today. War, labor, and capital, leisure relation of races. The need to get the advice of the older folk. Then we need God in our lives. God can do wonderful things with our lives. The world has yet to see what one can do with a life wholly lived for him. For example, look at the life of D. L. Moody who won thousands for Christ. God can lift us like the boat is lifted in the canal, with power from above, like the players are handled by the orchestra leader. The musical part of the program added to the interest of the convention. In the afternoon, a solo "Beautiful Garden of Prayer" by Miss Wright, and a solo "Open the gates of the Temple" by Mr. Huettler, were enjoyed by all present. At the evening service the choir was supplemented by a number of members from Kensington United Choir, and their assistance was greatly appreciated. The following is musical program for evening:
 Preludes—"Serenade de Badine"—Gabriel Marie.
 "At Twilight"—Ryder.
 Offertory—"Melody"—J. Hayden.
 Anthem—"O Lord, our Lord, how Excellent"—McPhail.
 Solo, taken by Mrs. Preston Kennedy.
 Postlude—Tannhauser March—Wagner.
 Mrs. James A. Campbell presided at the organ.—M.

Aitken, Lot 18; and Mrs. S. H. Bishop were visitors here on Monday.

The evening service in Princetown United Church on Sunday, Oct. 6th was under the auspices of the three local auxiliaries. The pastor, Rev. E. H. Aitken presided. Miss Mitchell, Traveller—Secretary of the Women's Missionary Society of Canada spoke at this service. Her message was directed more particularly to those working in and with the Society, but had that high spiritual tone and heart-searching appeal which left its impression on all who heard her. She spoke of the place to be filled by the Society, of how they have been endeavoring to carry on. She referred to several incidents of the splendid type of work that is being done in the different fields by the representatives of the Society. In closing she appealed especially to the young women that they might catch the vision and hear the call to offer themselves to carry on this great work of helping to build the kingdom at a time when the fields are white and the labourers are few.
