PURINA FOX CHOW BEING SHIPPED TO EUROPE

Reports come from the Purina Feed Mills that their feeds are proving so indispensable to the raising of Silver Foxes that the European fox breeders are now ordering Purina Fox Chow to be shipped across the Atlantic to them. Many of the breeders became familiar with these feeds while over in this country and they feel they cannot raise foxes successfully at home without it irrespective of the increased cost of shipping. These Purina Feeds may

be obtained from the following local representatives.
