FIRST decide what improvements you wish to make to your home—then get an estimate. Plumbing, heating and electrical contractors; builders, painters, decorators, architects and supply firms all stand ready to help you determine the cost.

With your estimates ready, call at any branch of The Royal Bank and discuss your plans with the Manager. Loans to finance home repairs, improvements or extensions can be arranged by anyone of good credit standing, able to repay out of income. No security or endorser is necessary and repayment can be made by monthly instalments spread over one to three years.

Ask at any branch for free booklet "Loans for Home Improvements." It gives full information about the Home Improvement Plan of the National Employment Commission.

MORNING STOCK LETTER

(Received over Pitfield and Co's Private Wire)

NEW YORK, March 30—Chrysler conference will be resumed at 11 o'clock this morning. John L. Lewis is expected to return to Detroit soon to be present at these conferences. Dividend meetings scheduled for today are Allied Chemical and American Can. There will probably be more volume today in the market than there was yesterday. Small volume was no doubt influenced by the holiday in Europe and in Canada and also by the fact that traders are probably holding back awaiting the Wagner Labor decision. The fact, however, that volume was so small on the reaction yesterday is rather favorable and continuance of small volume on further irregularity with a resumption of the advance in a zig-zag fashion would be bullish.

MONTREAL, March 30—Canadian rail strike averted. Parties to the railway wage dispute have reached an amicable settlement. Chrysler and miners deadlocked new peace proposals to break deadlock of Chrysler strike and also that of the coal diggers under consideration.

C. P. R. earnings up gross for February up 4.8 per cent and net up 14 per cent over 1936. Two months ended February 1937 gross up 7.1 per cent and net 28.7 per cent.

Canadian Fairbanks Morse with 1936 sales up 30 per cent over 1935 last years earnings were equal to 53 cents on the common after dividends of subsidiary company against loss of 11 cents common share in 1935.

McColl Frontenac reports earnings year down sharply to 45 cents per common share compared with 1.16 previous year due to higher costs of crude oil increased taxes and lower selling prices. The payment of an 80 cents dividend resulted in a deficit of $229,379. Working capital decreased from four million and a half to three million with liquidity ratio 1.96 to 1 against 3.88 to 1 a year ago.

Newsprint MacLaren Company, St. Regis Paper and Anglo Canadian adhere to 50 dollar price.

Winnipeg Electric net income for February down 11 cents per share against February 1936 cumulative earnings first two months show increase nearly 3 per cent same period last year.

Packard earnings doubled at 47 cents per common in Loews against 22 cents.

Standard Oil of Indiana earned $3.08 in 1936 against $1.98 in 1935. Con. Edison of New York excluding subs. 12 months ended February 28th net income $39,922,000 equal after allowing for dividend requirements on $5 cumulative preferred to $2.56 a share on the common.

MARKET BULLETIN

(Received over Woods- Reade and Company Special Wire)

MORNING MARKET LETTER

In an extremely dull trading session yesterday afternoon the market appeared to be characterized by a widespread disposition to await a Supreme Court decision on the Wagner Labor Relations Act. When, after giving a number of decisions, the court recessed until three o'clock it was thought that a decision on the Wagner Act would be handed down then. This not being the case, the market may show disappointment in lower prices today as the waiting attitude may now be prolonged until next Monday.

In the meantime, however, current business activity continued at a high level with the steel industry in particular operating at a very high rate and some hope has developed recently that Union Labor may voluntarily end the sit-down strikes which, as the novelty has worn off, have been losing in public favor.

The setback in the market from the early March top has been accompanied by a slackening of volume which we think will be important to watch as a clue to the immediate course of prices.

Laidlaw and Company.

BARING MORNING LETTER

October Cotton closes higher again and should be held. Stocks were extremely inactive and it is really a waste of time to write about it, as there is no change from our last two or three letters.

The motor stocks sold off again and I would not buy them yet.

Anaconda reacted a point, but if you bought it around 60 a week ago, would hold it and even buy more in case it reacts below 59 which is probable.

American Hide & Leather closes higher. Buy it below 10 and the pfd. in case it reacts to about 48 or so.

Guantamo Sugar Pfd rose another point, to 53. It should be bought in case it reacts to 49 again.

Brooklyn, Manhattan Transit remains a purchase around 42 and will sell again at 55.

Lockheed also remains a purchase anywhere near 13.

Superior Steel may be bought anywhere between 42 and 40.

Phillip Morris rallied a point, to 74 3-4 closing 74. It is always a purchase anywhere between 73 and 70.

Hollander closes slightly lower and may be bought 29 to 28.

Eitington Schild sold at 15 and can be bought around 14.

Worthington Pump remains a purchase below 36, Warner Brothers around 14. Simmons should be held even if it reacts a point or two.

American Smelters and Refining reacted two points and I repeat my recent advice to start buying it back from 91 down. Remember we sold that out around 105 with a profit of about 25 points.

Baring.

NOON COMMENT

The market's action is moderately encouraging. The situation is still too uncertain to conclude that the present lull is a buying level, but a satisfactory outcome of the Chrysler situation might provide the impetus for a technical rally, in our opinion.

Laidlaw and Company.

BANON AFTERNOON LETTER

The manner in which prices hold suggest that the market will move somewhat higher before any serious opposition develops.

Several airplane disasters are factors behind the reaction in the aviation shares. A definitely bearish attitude toward such shares as United Aircraft and United Airlines is not, however, justified. Later resumption of the advance may still be anticipated.

Higher loadings of coal, steel and iron are largely responsible for the sustained demand for Baltimore and Ohio. In the week of March 13 the company's loadings rose 25 per cent.

Superior market action of Loews is traceable to prospects of higher earnings.

Marketwise, Distillers Seagram continues to build up a base from which a worthwhile advance will ultimately start.

This morning's additional bulge in Price Common places trader in a position to accept half profits and place the proceeds in St. Lawrence Corp. around 37. If you haven't any St. Lawrence Corp. Pfd. I suggest that you do so immediately.

Banon.

Flash—Governor Murphy's conference with Chrysler U. A. W. officials probably will recess this evening until Thursday, when John L. Lewis is expected to return from New York where he is negotiating with coal operators over mines contract.

Dow Jones.

Bulletin—President of Intl. Nickel at annual meeting states company is strongest financial position in its history. Has no interest bearing debt and on Dec. 31, 1936 had cash and Govt. securities amounting to $47,113,426 vs. $32,720,024 on Dec. 31, 1935. Declared company's further progress depends on world trade which is currently improving and hence, barring any serious political disturbances, it would seem outlook today is favorable as at any time in recent years.

Dow Jones.

BANON MORNING LETTER

Closed exchanges in financial centres of Europe contributed to the extreme dullness present in New York where prices in general drifted fractionally lower.

While some additional testing of recent lows remains a probability there is a strong likelihood that the worst of the correction has been seen and that after either a dip or some additional dullness, the market will renew its advance.

The anticipated upswing could easily start before the current week is over.

I suggest that you avoid selling on weakness and use any additional sell off which may appear as an opportunity for adding to present positions in stocks with promising possibilities on the upside, including Republic Steel Corp., American Rolling Mills, Baltimore and Ohio, U. S. Smelting and Refining, Aanaconda, Chrysler, General Motors, Kennecott, New York Central, Goodyear Tire, Electric Power and Light, Public Service of N. J., National Distillers, Southern Railway, American Can, Crown Zellerbach and Celanese Corp.

THE AGE OF COLOR

Don't tolerate dark, dingy, dirty rooms

JAP-A-LAC

will brighten your home at small cost and make it a place you will be pleased to show your friends, and happy to live in.

Let us help you with your color scheme.

The famous "Simms" brushes assure a smooth job, without streaks or loose hairs to mar the perfect finish of Japalac.
