

OPENING SPEECH

(Special to Guardian)
FREDERICTON, N. B., Jan. 9.—
H. F. McLeod, the new M. P. for
York, has accepted an invitation to
make an address in reply to the
throne at the opening of parliament.

THE CENTRAL GUARDIAN

IT PAYS to buy in this Province.
(From yesterday's Evening Guardian)
FISHING POOR.—Eel fishing is
not very good in Rustico streams
this winter, although a great many
fishermen are engaged in it.

SHORT COURSE.—The meeting of
the Short Course this evening will
be held in the annex to the Agricul-
tural Hall, on Fitzroy Street, at 7
o'clock instead of in Prince of Wales
College Hall.

EXAMINATION.—The semi-annual
examination of Long Creek School
was held on Tuesday the 23rd of
December. The pupils were examined
in the different branches by their
teacher Mr. Laughlin MacKinnon as-
sisted by Miss Addie MacNeill the
efficient teacher of New Argyle School
and by the ready answers showed
their knowledge of the different sub-
jects. Favorable comments were
made by the visitors on the improv-
ed condition of the school, and also
on the general efficiency of the pupils.
All were treated to candy, etc., by
their teacher and all was brought to
a close by the singing of "God Save
the King."

SERVICES HAZELBROOK FIELD
—Sunday Jan. 11th are as follows:—
Cross Roads, 11 a. m., Subject, A
Trying Time. Alexandra, 3 p. m.,
Subject, The Paths of Righteousness.
Hazelbrook, 7 p. m., Subject, Im-
mortality.

ACADIA BULLETIN.—A copy of
the Acadia Bulletin of January, 1914,
issued from Acadia College, Wolf-
ville, has been received. The maga-
zine deals with the work of the aca-
demy and with social events among
the present students and among for-
mer ones, whose present careers are
being followed up.

FLOURISHING LODGE.—Har-
mony Division, S. of T. No. 244,
Lower Freetown, is still adding
members to its ranks. At the last
regular meeting the following officers
were installed:—W. P.—Alex. Cairns;
W. A.—Edith Reeves; R. S.—Bertie
Deacon; A. R. S.—Mabel M. Burns;
F. S.—Eva Drummond; Treas.—
Pearl Reeves; Chap.—Ernest Taylor;
Con.—Martha Cairns; A. Con.—Alice
Cairns; I. S.—Scott Cairns; O. S.—
Walter Burns; P. W. P.—George
Jardine.

NEW GLASGOW.—The people of
New Glasgow and vicinity are taking
advantage of the splendid roads to
get their wood home. The youth and
school children are fully enjoying the
excellent ice for skating on the
"Bonny Clyde." Mr. and Mrs. H. M.
Bell have returned to East Point,
after a pleasant vacation here. The
neighbors are delighted to hear that
Mr. and Mrs. Melvin McLeod intend
residing in the village in the near
future. The popular Post Mistress
spent Wednesday in Bay View visit-
ing her sister, Mrs. H. Simpson.
Misses Evelyn and Esther Stevenson
students P. W. C. have been spend-
ing their holidays at home.
W. J. McLeod, B. A. student, Pine
Hill College, Halifax, who has been
visiting his parents returned Tuesday
to resume his studies.

FUNERAL TO MT. STEWART.
The remains of the late Daniel R.
Gunn, whose death occurred at Som-
erville, Mass., on December 31st,
1913 arrived at Bradabane on Sat-
urday, Jan. 3rd, and remained at the
home of his brother Hugh till Mon-
day when they were conveyed to the
cemetery at Mount Stewart for
burial beside those of his father,
sister, and brother. Mr. Gunn was a
son of the late Angus Gunn of the
Head of Hillsborough and was in the
employ of the P. E. I. Railway for
three years. About eight years ago
Mr. Gunn moved to Somerville, Mass
and entered the employ of the Boston
and Maine Railway where he remain-
ed at work till almost a year ago
when his health failed. His remains
were accompanied home by his moth-
er who had been with him since
August, also his sister Jeanette and

a Grand trainman, Conductor C.
Goland of Somerville, Mass., with
whom Mr. Gunn lived for the last
number of years.
(Other papers please copy).

COOKING CLASSES.—Great in-
terest is being shown by the ladies
attending the cooking classes in con-
nection with the Short Course. On
Tuesday afternoon twenty-two en-
rolled and after discussing the first
steps to be considered in cookery,
dishes illustrating the different meth-
ods involved were prepared by the
class. Wednesday afternoon's lesson
was soup making with accompani-
ments. Full directions were given for
the making of all kinds of soup and
cream and vegetable soups were pre-
pared together with accompaniments
—some which illustrated the uses of
stale bread. Frying in deep fat was
the subject for Thursday afternoon
and the same success attended the
students in their results as was evi-
denced in the two previous lessons.
The classes are being visited by
ladies who are not enrolled, but ex-
press themselves delighted with the
work which is being undertaken by
the department of Agriculture in the
interest of the women of our rural
sections along the lines of House-
hold Science. The work of the Short
Course gives them opportunities of
learning not only through their own
efforts but by the observation of
class work.

HOUSEHOLD SCIENCE.—On
Thursday morning Professor Ross
gave the first of a series of Lectures
on Bacteria to the students of the
Household Science Course. He indi-
cated their position in the Plant
Kingdom and then proceeded to take
up their life history. Their remark-
able powers of reproduction under
suitable conditions was of greatest
interest to the ordinary person. They
reproduced by dividing into two, so
that in twenty-four (24) hours one
Bacterium may give rise to seven-
teen (17) millions and in five (5)
days to sufficient to fill all the
Oceans. They must, however, have
plenty of food and a favorable tem-
perature. They are very hard to de-
stroy. If the temperature gets too
low, they wrap themselves up until
more favorable climatic conditions,
when they start up as vigorously
again as before. They do the same
thing when the food supply gets
scarce, so that it is almost impos-
sible to freeze them out or get rid
of them by starvation. They can,
however, be killed by high tempera-
tures. None of them can resist boil-
ing water for any considerable
length of time. This Lecture was
preliminary to a series on Bacteria
in milk, Bacteria in water, and Bac-
terial diseases, both by plant and
animals.

P. E. I. FISHERIES.—The report
of the Marine and Fisheries Depart-
ment for the year 1913-14 has been
issued. The total value of the fisher-
ies of the Island for that period was

\$1,379,905, an increase of \$188,509
over the previous year. A greater
lobster catch, together with enhanc-
ed prices, added much to the increas-
ed total. The yield of smelts, not-
withstanding unfavorable weather
conditions, was also greater while
the take of clams and quahogs, on
the other hand, was smaller and re-
sulted in the value of these being
diminished. There were 29 vessels
employed in the industry, 3,298 men,
1,365 sail boats, 609 gasoline boats
and 13 tugs. \$11,119 was spent in
bounties, \$2,649.23 in official salar-
ies and \$3,714.16 in wages to guar-
dians. A total of 1,026,000 Atlantic
salmon fry and 7,000 speckled trout
were distributed from the Kelly's
Lond Hatchery. 75,000,000 lobsters
from the Charlottetown Hatchery
and 100,000,000 lobsters from the
Georgetown Hatchery, 1912-13 was
the most successful fishing season in
the history of the province and 1914
bids fair to follow in its wake.

PROFITABLE MEETING.—What
has proved, undoubtedly, to be the
most interesting and profitable meet-
ing of Meadow Bank Women's Insti-
tute was held on Jan. 6th, at the
home of Mrs. Pope Crosby, when Mrs.
M. E. Roper, trained nurse, gave a
talk and demonstration, with little
Miss Helen Crosby as her patient.
Mrs. Roper first showed the proper
way to bandage a badly sprained
ankle, after which the members were
invited to the "sick room" where
the same little lady had been un-
dressed and put to bed. Here Mrs.
Roper explained and demonstrated
how a bed-fast person may be given
a refreshing sponge bath, the hand-
ling of hot applications in cases of
sudden and severe pain and, also, the
easiest and quickest way of changing
the sheets on the sick bed. At the
close of the meeting a vote of
thanks was tendered Mrs. Roper for
her instructive entertainment and
Mrs. Crosby for her kind hospitality.

DAILY SELECTIONS FOR
GUARDIAN READERS
Furnished by W.S. Louson

WAITING ON GOD
"Waiting on God?" It is sitting
down
By the way to rest awhile,
And learning the secret of perfect
peace
In the light of a Father's smile.
It is ceasing to look with anxious
eye
On the trials of coming days;
alone
It is leaving the present to God
With a heart overful of praise.
It is never a thought of "how" or
"why"
In the matters of daily life;
It is simply letting Him take His
way
Through the midst of all care and
strife.
It is leaving everything in His hands
To do as He seeth best;
Assured that He never can make mis-
takes,
Ah, this is the perfect rest!

GUARANTEED.
satisfaction is something worth while
thinking over when having your teeth
attended to.
We GUARANTEE SATISFACTION
in crown and bridgework, platerwork,
inlays and fillings at reasonable
prices. Examination Free, Extracting
without pain.

Crescent Brooches
You will be particularly proud
of that pearl brooch if you select
it here.
Our best styles are shown in
crescent design, a wide range of
grades, ranging in price from
\$2.75 to \$14.00.
W. N. Tanton
Sunnyside

Shiloh
The family remedy for Coughs and Colds.
Small dose. Small bottle. Best since 1870.

Red Blood
is good blood—blood that nour-
ishes the whole body, and enables
every organ to perform its func-
tions naturally. Many people owe
it to HOOD'S SARSAPARILLA,
which relieves scurfula, eczema,
psoriasis, and all blood humors.
For catarrh there is nothing bet-
ter than Rexall Catarrh Jelly put up
in a collapsible tube with patented
nozzle opening, a pungent, aromatic
preparation that will relieve the
most obstinate case of catarrh.
Guaranteed to cure or money will be
returned. Price 25c. The MacKinnon
Drug Co., Corner Great George and
Kent Sts. Mt.

MOLASCUIT MEAL
(Hughes' Patent)
THIS CATTLE FOOD is a pure product of the Sugar Cane,
the richest grass in the world, only the digestible pith of the
cane being used to absorb the molasses, 20 p. c. of this pith will
absorb 80 p. c. of concentrated molasses. Molascuit is pure cane
molasses, minus the water, which is dried out, and replaced by
the digestible pith.
It is the most easy, practicable and economical means of
handling molasses, and in the best form for feeding to all stock.
When fed to cows, it will increase the quantity and quality
of the milk.
When fed to horses it improves their condition and working
powers. Give them a handful or so with their other food when
they come in tired after a day's work, reducing the oats by the
amount of MOLASCUIT added.
MOLASCUIT is extensively used in Demerara, Argentine,
Africa, South Murttius, India, Australia and of course in
England.
The Canadian farmer will not be slow to grasp its value.
MOLASCUIT is the richest sugar food, containing as it
does over 50 p. c. of sugar.
