## FOREST FIRES DO BIG DAMAGE

Special to The Guardian. NELSON, July 19.—The bush fires which Saturday night were believed to be under control are blazing again with terrible ferocity and already have caused four deaths and enormous damage to property. The town of Whitewater is blotted off the map. The town of McGuffin is also burned and three hundred miners with their families have lost all their possessions. Rescue trains were hurried to Keslo and returned loaded with people, a number of whom were seriously burned. It is feared that more casualties may result.

## STILL SEARCH FOR CRIPPEN

LONDON, July 18.—The first story of what may have been the actual commission of the crime was told today by a neighbor of Dr. Hawley H. Crippen, in the cellar of whose house was unearthed the body believed by the police to be that of the physician's wife, the American woman, who was known on the stage as Belle Elmore. Since the discovery of the body and the disappearance of Dr. Crippen and his typist, Miss Ethel Clara Levee, the Scotland Yard detectives have inquired diligently among those living in the vicinity of the Crippen home in Hill Drop Crescent, North London, for some information that would throw light upon the domestic habits and relations of the doctor and his mistress wife. Nothing helpful was learned until today when the postmaster of the general shop at the rear of the Crippen residence told of hearing a woman's screams and pleas for mercy arising seemingly from the cellar in which the burned and mutilated corpse was later found. Mrs. Crippen disappeared in February last, it was four or five months ago that the screams were heard, a woman said. Her shop overlooks a little garden back of the Crippen home. To the police the shopkeeper said: "I had often heard revolver practice in the garden. One night about four o'clock I saw a man and a woman place the time more exactly. It was midnight. The screams appeared to come from Dr. Crippen's house. I listened and heard a woman's voice pleading, 'Don't do, don't do.' To me it seemed that the screams were heard from the basement of the house occupied by Dr. and Mrs. Crippen. As nothing developed further, I soon forgot the occurrence and did not recall it till yesterday, when I learned of the tragic discovery."

The police authorities were exhauiting their resources to lay hands on Dr. Hawley H. Crippen, the American, and his woman typist, physicians were examining the mutilated remains of his wife with a view of determining the manner in which the finding was done. We gave rise this afternoon to the report that the vaudeville artist had been shot before the body was buried into an unrecognizable mass and buried in quicklime in the cellar of the Crippen home at Hill Drop Crescent, North London. It is reported also that traces of poison had been found by the doctors. The latter will present their theories at an inquest to be held tomorrow. It has been a long time since a murder case in England has attracted such general attention. The fact that the murdered woman and the man who is charged with the crime are Americans has spurred the police to unusual activity. The full force of Scotland Yard, under the personal direction of Supt. Forest, are making a thorough search for the fugitive doctor and Miss Ethel Clara Levee, who is believed to be with him. Miss Levee was employed by Dr. Crippen as a typist. It is stated that Mrs. Crippen objected to the presence of the young woman in her husband's office, and that his refusal to dismiss her led to frequent quarrels between husband and wife. Some time after Mrs. Crippen disappeared Miss Levee appeared in public with Dr. Crippen, who introduced her as his wife. To acquaintances the doctor explained that his former wife had left him following a quarrel and that she had subsequently died.

## EARL GREY ON HIGH LICENSE

Special to The Guardian. LONDON, July 19.—Earl Grey before his departure, urged upon the Unionists the desirability of settling the Irish question as to whether the public house trust movement had yet spread to Canada and said it had.

Mr. Haldane, speaking at a free trade union meeting, deprecated a tariff reform preference as perilous to the unity of the Empire he said. In such things as the Imperial general staff, now accomplished, an Imperial Navy and Imperial Conference and all things that ought the Dominions together, each preserving complete freedom, we had the medium and material within which a real unity of the Empire would be achieved.

## CLARA WARD ASKS DIVORCE

PARIS, July 18.—Clara Ward, formerly Princess Chimay, has formally brought divorce proceedings against her latest husband, Peppino Ricciarini. The court made no customary efforts to effect a reconciliation, but without success. Clara Ward was a Detroit girl. Her wedding to Prince Joseph Chimay was one of the most famous of early American-European alliances. Subsequently she became so notorious for her romantic escapades that the Queen of the Belgians forbade her the royal palace and its court. Her infatuation for the Hungarian gipsy fiddler Rigo resulted in an elopement, and her marriage to Rigo was followed by scandals which sent her to Paris by the cars. Her choice of Ricciarini for a husband was the culmination of several love affairs.

## TELEGRAPHERS ON GRAND TRUNK WILL NOT JOIN STRIKE

MONTREAL, July 18.—The G. T. R. telegraphers will not go on strike with the trainmen and conductors of that system to settle their wage dispute. A conference was held this afternoon between the trustees of the Victoria hospital to look into the matter of enlarging the hospital. A committee will report to a public meeting. It was considered by some of the meeting.

FREDERICTON, N. B., July 18.—At a public meeting tonight a citizens' committee was appointed to act with a committee of the trustees of the Victoria hospital to look into the matter of enlarging the hospital. A committee will report to a public meeting. It was considered by some of the meeting.

## SUMMER SCHOOL OF SCIENCE

The interest in the Summer School of Science becomes greater day by day, not only is there a daily increase in the numbers, but the attention given to work, and the eagerness to get the most out of the school increases as the days go by. The instructors in many cases are obliged to divide their classes and give two hours instead of one, the classes being too large for successful handling. This is especially true in the case of those who are taking the course in the physical sciences. In this subject it has been found necessary to form twelve (12) classes. In this subject there are (12) instructors, each having three

## PROMINENT MAN DEAD IN MINE

Special to The Guardian. ST. JOHN, July 19.—Among the four victims of fire in the abandoned zinc mine in British Columbia was Alonzo Chesley, for many years one of St. John's most prominent citizens. Mr. Chesley was formerly proprietor of an important iron working industry here and was prominent in civic matters. Mr. Chesley and his companions while fighting forest fires sought refuge from the flames in the old mine, but the shaft acted as a chimney and asphyxiation followed. His brother is Canadian Trade Commissioner to South Africa and members of his family reside here.

## TO TELEPHONE UNDER ATLANTIC

Special to The Guardian. LONDON, July 19.—Telephone communications between London and New York may be looked for before long if the submarine cable recently laid across the English Channel by the British Post Office answers expectations.

## FIRST BOY IN ALL ENGLAND

LONDON, July 9.—Prince Edward of Wales, who has been "the first boy in England" for sixteen years, has gone to join his ship at Dartmouth and take his place as Cadet Edward of Wales. At the funeral ceremonies of his grandfather, King Edward, he was a prominent figure, not only because he was heir to the throne, but because he is highly popular. A typical Anglo-Saxon lad is Prince Edward, now formally made the Prince of Wales. He is fair haired, blue eyed and sturdy of limb; the picture of health, strength and good temper. From babyhood he has been popular. His doings and sayings have been chronicled, and half the mothers of England put their sons into white sailor suits like those chosen by the Queen of England for her son. Yet admiration does not seem to have spoiled him at all. He is still a frank simple English boy with a bright smile, a pleasant manner and an infectious laugh.

Not only is Prince Eddie a public favorite but he is a hero in his own family. His three small brothers and one sister look forward to his holidays as festive occasions. His father and mother, King George and Queen Mary, although they are quite strict with their children as a rule, often relax discipline for their oldest son and are as proud of him as any middle class parents of their first born. Even at school Prince Edward is popular, and you must be more than a prince to be a favorite at an English school. You must be an all round expert at games and sports, a generous, open handed fellow, with plenty of courage and a love of fair play.

## COMMISSION ON EDUCATION WORKING

HALIFAX, July 18.—The royal commission on industrial training and technical education began work this morning putting through preliminary formalities. ly reasoned discourse, he spoke that man was a religious being, and that as he increased in knowledge and in civilization his religion became a larger conception, his God was a more beneficent one. In essentials religion was unchanged and unchanging but that the outward expression of it was continually changing. When the geologist first read from the story of the rocks the "great age of the world, the pulpit denounced the statements made; today the statement of the world's age is accepted by the church universal. Geology does not prove the scripture story false but helps us to understand it. When Evolution was first propounded, it was fiercely attacked by the pulpit; today it is accepted. In the religion of the future there will be a firm and unshakable belief in God—a large faith in Christ—a belief in, and acceptance of the doctrine of conversion—an earnest endeavor to procure a reign of righteousness—love for man as man—an acceptance of the brotherhood of men. The Bible will become a book to give a vision of duty—the future state will be one of separation the righteous from the unrighteous. The enrollment of the school has reached the 230 mark and there are more to follow. Liverpool knows how to entertain. The Mayor is unremitting in his attentions to the school and the members of the Town Council and School Board are also attentive, each trying to outdo the other in the attentions they show. Public spirit like this is creditable to the people and gives to strangers a favorable impression of this place.

## NIobe WILL NOT BE HERE TILL OCTOBER

OTTAWA, July 18.—Word has been received at the Naval Department that the Admiralty will not be ready to formally hand over the cruiser Niobe to the Canadian Government until about the middle of September. The repairs and alterations now being made at Portsmouth will take another month to complete. Consequently the cruiser will probably not reach Halifax until October.

A report received at the Trade and Commerce Department today says that the apple crop in the Annapolis Valley of Nova Scotia will not exceed 400,000 barrels, and may not reach 250,000 barrels, as compared with 700,000 last year. ## ROBLIN TO THE FEDERAL HOUSE, ROGERS PREMIER.

OTTAWA, July 18.—With his political reputation now vanished as a result of the Manitoba provincial elections, Premier Roblin is now, according to reliable Conservative people in the capital, looking for new fields to conquer and incidentally for escape from certain embarrassing questions which the Manitoba opposition would like to propound to him when the new legislature opens. On the invitation of Mr. R. L. Borden, the Manitoba premier is coming to join the opposition forces in the federal house as soon as an opposition seat can be found for him. Hon. Robert Rogers, who has also ambition, will be promoted to the premiership in Manitoba. Mr. Roblin's political craft and experience of practical politics are desired by the opposition here, and Mr. Roblin, with ambitions, is anxious to come as the Conservative western leader in the commons. Whether or not arrangements can be made to find him a seat for next session is as yet problematical, but it is regarded as practically certain that before another year passes Mr. Roblin will be sitting among Mr. Borden's chief lieutenants in the commons.

## BETRAYED BY WOMAN, MAN WANTED FOR BIG THEFT IS TAKEN.

PHILADELPHIA, July 18.—Eldred the police of several cities and pri- vately detectives for more than two months. J. Howard Lowery, alias James H. Johnson, wanted in Utica (N. Y.), on a charge of embezzling more than \$100,000 from the Utica City National Bank, was betrayed into the hands of a detective here today by a woman and taken out of the city to New York state before the local authorities were aware of what was going on. His arrest is the reward of perseverance on the part of Daniel J. Kellner, a detective in the New York office of the American Bankers' Association. Lowery was a note teller in the bank and disappeared last April while an examiner was going over the bank's books. He occupied a little third story room, having asked for a room at \$1.25 a week when he went to the place two months ago.

## U. CUNNINGHAM WAS ARRESTED

Special to The Guardian. ALBERTON, July 19.—Lord Cunningham was arrested at a late hour last night by county constable Gough. Cunningham is charged with the willful murder of Wm. J. Skerry, Alberton, on the night of the 28th of June last. The preliminary hearing opened in the court house there this morning before Stipendiary Henry Wright but no evidence was taken as the prisoner on hearing the charge against him, asked time to obtain counsel for his defence. ## ASK GOVERNOR TWEEDIE TO PREVENT SHOWING OF PRIZE FIGHT PICTURES.

SUSSEX, N. B., July 18.—At a recent session of the U. B. Association the resolution introduced by J. H. Colpitts stating the advisability of amalgamating the N. B. and N. S. Home Mission boards evoked much discussion. The association finally laid it on the table indefinitely. The ordination of W. C. Machum took place this afternoon. Rev. P. G. Francis, of Salisbury, delivered the ordination sermon from 2nd Cor 2:14 and 2nd Cor 3:5. His practical discourse was listened to with great interest. Rev. A. A. ## DISCUSS THE BONDED DEBT OF CAMPBELLTON

CAMPBELLTON, N. B., July 18.—It is now almost an every hour occurrence to see new buildings in the ruins of the fire stricken town of Campbellton. Like magic they are springing up in all sections of the desolate town, causing the optimistic inhabitants to have most buoyant hopes for the future of their formerly prosperous and pretty commercial center. Buildings for many purposes are being fairly pushed into the air, and a great hum of activity prevails in all quarters. Not only dwelling houses, but business establishments are being erected and toward the next day will see the opening of stores selling general merchandise by wholesale and retail, dry goods, groceries, drugs, tinware, boots and shoes and in fact almost every article desired in the home. With cheerful complacency the destitute people gaze on the scenes of bustle and animation surrounding them, and seem to take it as a matter of course that such should be the case, for they entertain a remarkable degree of confidence that the barren stretch of charred wood and cinders is to give way to new and costly buildings, both public and private.

## GREAT STRIKE ON GRAND TRUNK
