NEW GLASGOW

From the Toronto News

Scotia and Eastern Car Company

Sir Henry Pellatt has in his mind a dry dock and shipbuilding yard at Sydney, but as soon as he has his ships ready for commission, Mr. Thomas Cantley will be prepared to equip the vessels with the finest guns in the world. In that day possibly every province in the Dominion will be represented in the Imperial Navy by a vessel bearing its name. And what is more, every vessel can be built in Canada and armed in Canada.

Mr. Cantley entered the services of the Nova Scotia Steel & Coal Company twenty-seven years ago as a sales agent. At that time the capitalization of the concern was less than $10,000, there is now invested in it over $12,000,000. Mr. Cantley, who has been with the company in all the important stages of its growth, has been the chief administrative officer for the past eleven years.

OTTAWA, Nov. 17—A proposition to establish a reserve military force in Canada by giving each regiment a reserve battalion is now before the Militia Department.

By this means, it is claimed, the Canadian military force will be greatly strengthened by very little expence.

The new battalions may take the forms of rifle clubs in times of peace.

It is also under consideration to have cadet corps attached to each of the regiment.

PRINCETON, Nov. 17.—Princeton and Yale played each other to a six to six tie on the university field Saturday. Princeton scored first but Yale evened up in the last few minutes of the play.

LONDON, Nov. 16.—Bulgaria's terms of peace to Turkey as reported at Vienna and sent from that city by the correspondent of the Daily Telegraph consists of seven stipulations included in the first is the surrender of the Tchatalja army and its withdrawal, guarded by the Bulgarians.

The second provides for the evacuation of Adrianople, Scutaria, Monaster and Janine.

The third calls for payment of a war idemnity.

The fourth demands the surrender of the conquered territory.

The fifth calls for the internationalization of Constantinople.

The sixth provides for the opening of the Dardanelles and the making of Saloniki a free port.

Since Bulgaria already has expressed her willingness to leave the status of Constantinople and Dardanelles to the Powers says the correspondent, the fifth and sixth clauses of the terms reported here appear improbable.

CONSTANTINOPLE, Nov. 17.—The Bulgarians and Turks were locked in all day during a battle along the lines of the Tchatalja fortifications. Three Bulgarian batteries were destroyed. The sound of firing was distinctly heard in Constantinople.

CONSTANTINOPLE, Nov. 17.—A number of refugees saw the portion of Rodost that has been destroyed by fire. The cholera epidemic has also largely increased.

WINNIPEG, Nov. 17—James Carruthers, one of the most prominent grain men of Montreal, predicts a great congestion in the hipment of Canada's export wheat this winter. Bufialo is already ten days behind and all American railways have more orders for grain than they can handle.

Great quantities of grain moved by railways in western Canada this season has had the effect of reducing rates and today the grain is moving to the head of the lake much faster than it can be taken from there to its destination. There is also a scarcity of ocean tonnage.

VIENNA, Nov. 21—Emperor Francis Joseph expressed his admiration at the way the Bulgarian troops had behaved during the war in the course of a speech to the Hungarian delegates at a banquet last evening. On the other hand however, His Majesty declared he could not understand why the fortunes of war were so unfavorable to Turkey.

Referring to the despatch of the Austro-Hungarian consular official to investigate the situation at Prisrend, the Emperor expressed the hope that the reports published regarding Servian treatment of the Austro-Hungarian consul there would prove exaggerated and that the incident would be settled peacefully.

While staying at Nish Lieu't Wagner reports he heard well nigh incredible details of barbarities committed by Servian troops on Albanians. The Red Cross doctor with the Servian army told him, "The Servians gave no quarter. All Albinians armed or unarmed as well as women and children who fell into their hands were mercilessly killed. General Stephenovitch the Servian commander had Albanians captured at Knatova formed into two rows and shot dead with machine guns. The General remarked, we must extirpate these Austro-Hungarian favorites.

KINGSTON, Nov. 21—An official estimate of the dead in the hurricane and tidal wave which visited the Western part Jamaica places the number at more than a hundred inthe coast towns alone. Details are gradually coming in to indicate a great devastation in the western section where the sugar factories and buildings, almost without exception, were unroofed or wrecked and the banana fields recently planted wiped out. Practically all the lighters, coasting sloops and small craft in the harbors of Montego Bay Lucia and Savanna La Mar foundered and a large proportion of the crews were drowned. Many persons in these towns lost their lives by the collapse of buildings. The tidal wave at Savana La Mar was the highest in this century. One coasting vessel was washed half a mile up the main street. Ninety per cent. of the houses were blown down and two of the principal hotels unroofed as were all the churches and railway depots.

TORONTO, Nov. 21.—In response to an urgent message informing him of the serious illness of his father L. C. Owen, local manager of the Bank of Ottawa, left to-night for Charlottetown. Mr. Owen, Sr., who is in his 92nd year, was at one time Lieutenant Governor of P. E. I., where for many years he has been a figure in public life.

SACKVILLE, Nov. 21—At a meeting of the Mount Allison Board of Regents today James Paton, Charlottetown, was appointed a member to succeed the late Dr. J. R. Inch.

A Wonderful Case

Three Months in Hospital and came out Uncured.

ZAM-BUK CURED HIM IN A FEW WEEKS.

Mr. Fred Mason, the well-known upholsterer and mattress manufacturer of St. Andrews, N. B., says:—

"I had eczema on my knee, which caused me terrible pain and inconvenience. The sore parts would itch and burn and tingle, and then when rubbed or scratched, would become very painful. When the knee got warm, it burned worse, and the itching and burning and smarting were almost unbearable. I tried various remedies, but got no better, so I decided to go to Montreal and take special treatment. I received treatment at the Montreal General Hospital for thirteen weeks, but at the end of that time I was not cured, and almost gave in. A friend advised me to give Zam-Buk a trial.

"Almost as soon as applied Zam-Buk stopped the itching and the irritation. I persevered with the balm, and it was soon evident that it would do me good. Each day the pain was reduced, the sore spots began to heal, and by the time I had used a few boxes of Zam-Buk I was quite cured.

"Since then Zam Buk has cured blood-poison in my finger, and at a time when my finger was in such a terrible condition that I feared it would have to be amputated."

For eczema, blood-poisoning, piles, ulcers, sores, abscesses, varicose ulcers, bad leg, cold sores, chapped hands, cuts, burns, bruises and all skin injuries and diseases, Zam-Buk is without equal.
