BRIDAL SHOWER—On the night of Sept. 28 over one hundred people gathered at the home of Walter Curran to tender a miscellaneous shower in honour of his niece Agnes Curran who is about to enter into the bonds of matrimony; about 9 o'clock a huge basket beautifully decorated and filled to overflowing with valuable gifts was carried into the living room, after which the bride-to-be arrived accompanied by Mrs. Lester Buell and Kathleen Curran. The gifts were opened by Kathleen Curran while Miss Mary Donovan read the verses which caused much laughter. The bride-to-be then thanked all for their useful and valuable gifts. Lunch was then served by the hostess assisted by Mrs. C. Curran, Mrs. W. W. Clow, Mrs. John Caswell and Mrs. Garfield Clow. When everything was squared away and the floors well waxed for use, Messrs J. J. McInnis and Lawrence Smith of Tracadie arrived with their violins and wound up some pretty good music which enlivened everybody to wile away the night in dancing. When all was over and every one had enjoyed themselves they all dispersed to their homes wishing the bride-to-be, loads of future happiness.

IN MEMORIAM
MRS. WILLIAM B. HICKEN
 Entered into rest on Sept. 18th, 1936, following a painful illness of long duration. Mrs. William B. Hicken (nee Katherine Ella McKinnon) of Allston, Lot 63, aged 69 years.
 The passing of Mrs. Hicken although not altogether unexpected caused deep gloom in the community especially in the home and among the large circle of relatives and friends by whom she was so long and favorably known.
 No pains were spared, every care by her loving family and friends was bestowed with the best medical skill but could not avail, and on the above date, calm and resigned to the Divine Will her spirit took its flight to God.
 The deceased was a woman of estimable qualities, thrifty in her home yet kind and generous to all who were in need of help.
 She loved to converse with the many friends who came to see her and had a glad welcome for all.
 During her long illness, she was often visited by her pastor, Rev. Mr. Stirling and other ministers of the Gospel, who were all able to testify that she possessed firm trust in Jesus, her Savior and Redeemer. She was a consistent member of the United Church at Sturgeon. Besides the bereaved husband one son Albert and his family survive. (A boy and girl died in infancy). The following are the brothers and sisters: Mrs. Elizabeth Campbell, Allston; Mrs. Mary Duke, Montague; Neil McKinnon, Milltown Cross and James A., Attleboro, Mass.
 The funeral services at the home and church were largely attended. The services at the home were conducted by Rev. Mr. Stirling, assisted by Rev. J. H. Douglas. Both

land the question of unemployment is of outstanding importance, more so today than at any time in the past because of the inability of our young people after leaving school and college, (more than 2,000 annually) to obtain work of any kind on the mainland.

Apart from the direct and indirect employment that the canning industry would provide in our urban centres, the production of the raw materials for the industry, under intensified farming, would give work to large numbers on the land. It is quite common on this Island at present for a farmer to care for 100 acres without hired help except for a few days in the Spring and Fall, but with veget-

ables and fruit growing from five to ten acres should keep one man busy, while in the picking season such lines as berries, currants, green beans, etc., would give employment to large numbers of women and children.

In the above I have made no reference to fish. There is, however, an enormous scope for canning, smoking, drying, etc., of fish such as are plentiful around the Island. Not only should the canning, industry working in conjunction with the farmers and fishermen, absorb all our unemployed who are able and willing to work, but I believe that our population would be very materially increased within a decade, if this question of the production of high grade foods for export is taken hold of seriously.

A point of special significance in this connection is that the opening up of the industry is not a question of the investment of local money. Once convince the financial men of Montreal, Toronto or New York that we mean business and all

money required will be forthcoming.

Has there ever been at any time on this Island such a splendid opportunity for a government to do really great things for its people as that now awaiting action by our Provincial cabinet?

H. K. S. HEMMING
PREMIER KING'S COAXING POLICY

Sir—Premier King may not have intended to do so, nevertheless he has betrayed himself as firm believer in the efficacy of that faulty, ineffectual, and often disastrous system of making peace and order by coaxing. How many children have been spoiled and parents brought to ruin by the coaxing system of government? How many fathers having lost patience with the kissing, sugaring, promising treatment of mothers, have taken almost ruined scamp by the collar to the woodshed and treated them with

an application of the "birch"? And how many today have reason to thank their stern fathers for the drastic but effectual treatment?

From time to time we hear complaint that school children are being ruined by the system of coaxing, promising and even bribing! The sad consequences of such a system carried to extreme is too well known to need dilating upon.

Coaxing, to my mind is just another method of bribing. Have we any reason to believe that the system used in these days will be any more satisfactory than when used to pacify the Danes?

How would Premier King's policy have worked with the Kaiser? With Napoleon? With Mussolini? How did coaxing work in that humane and Godly deed the freeing of the slaves? No the British Empire was not established by such a system, nor will it continue to stand by it.
 I am, Sir, etc.

Naval Program Well Advanced

MOSCOW, Oct. 5 (AP)—Russia's naval construction program, which will give the Soviet Union's navy comparable strength with the army and air force, already is well advanced, the Kremlin disclosed tonight.

The announcement did not give specific details of tonnage. The authorities, remembering the lesson of 1904 when the Japanese cut and divided the Russian fleet in pieces, are building separate and independent fleets for the Baltic and the Pacific and lesser units for the Black, Caspian and White seas.

Laborer Faces Murder Charge

(C.P. By Guardian's Special Wire)
KINGSTON, Jamaica, Oct. 5 (C. P. Cable)—Charged with the murder of Alexander Johnson, 55-year-old laborer, John Codrington was held in jail here tonight.
 Johnson's body was found by police yesterday after his nine-year-old son Cyril reported being attacked while he was searching for his father near Hope reservoir.
 The young boy was carrying lunch to his father when, he told police, a man attacked him and attempted to drown him in a canal. The boy feigned unconsciousness and when he was freed by his assailant, he swam under water and climbed to safety farther downstream.

MISS FLORENCE MACDONALD

On September 23rd the death occurred at Bristol Lot 40 of Miss Florence Macdonald daughter of the late Rodrick and Ellen (Coffin) Macdonald aged 66 years.

DREAM GIRL
 You trampled on my heart and left it bleeding,
 I tried to laugh and say I didn't care.
 When I was ill and for you I was pleading,
 You passed me by and left me lying there.
 Time heals all wounds?—'tis false
 'tis not an axiom,
 My heart still pains and sears me as I write.
 But still I have one meagre consolation—
 I meet you in my dreams most every night.
