CITY COUNCIL REGULAR MEETING

The regular monthly meeting of the City Council was held last evening. His Worship and all the Councillors except Coun. Taylor were present. After routine business and the disposing of some minor matters, it was decided to sell by public auction on Tuesday, 26th July, the property known as the City Pound. It was ordered to advertise for tenders for street and commercial lighting. A communication re Spring Brook Stream was, after discussion, referred to the City Recorder for his opinion.

FREE FIGHT AT COBALT CAMP

COBALT, Ont., July 10—Wild with whiskey and a desire for vengeance, five Finns chased William James, foreman at the Flynn property in South Lorraine, into the bush and kept him there for the night. The trouble began when James put on a number of Italians, and the Finns objected and James fired them. The men demanded that their pay cheque be cashed, but James not being empowered to do this refused. One of them then came at James with a knife. James got the storekeeper to get a cheque, and stealing up stairs secured a revolver. When he came down he found four other foreigners waiting for him with knives. James managed to get out of doors by pointing a revolver, though he dodged a bullet in the chin. Then he ran to Silver Centre and telephoned for assistance. In the meantime the foreigners had terrorized the whole camp and when a constable and four deputies came down on a special boat sent over the dynamite, which they were afraid the insurgents would capture. Five foreigners have been arrested and are now in jail here.

EARL GREY'S NORTHERN TRIP.

OTTAWA, July 10—Major Moodie, of the Royal Northwest Mounted Police, has arrived here to consult with the controller in regard to the projected trip of Earl Grey overland to Hudson Bay next month. It is not improbable that Major Moodie will have charge of the expedition. He is thoroughly acquainted with the Hudson Bay country and familiar with both the overland and ocean routes, having been in command of the expedition in 1907, when he established police posts at Port Burwell, Cape Furber and Cape Churchill, on the shores of Hudson Bay. For a couple of years Major Moodie administered the district as commissioner of the Canadian Government, being stationed during the latter part of his incumbency at Port Nelson, which is to be the objective point of the vice-regal tour.

MOURNING NEW FASHION.

ST. LOUIS, July 10—You must wear mourning next fall or content yourself with that included in the smart set. Advance and authentic information from London is that all patterns for suitings will be of black, with just a sprinkling of white spots through it to remove in a slight degree the deep mourning effect. The styles will be on an exhibition at the annual fashion show of the Merchant Tailors' League, which will be held in September at the Coliseum. Tailors from the South and central West will attend. London is mourning the death of King Edward, and London is the place where styles are created for men.

SUPREME COURT.

Before Mr. Justice Fitzgerald and a jury: Samuel Locke vs. George Coombs, Sheriff of Queen's County and Samuel Sherrin, one of his bailiffs. This case was called yesterday morning and engaged the attention of the Court until late in the afternoon.

The action was brought to recover damages for a wrongful seizure by the Sheriff and his bailiff of a barack of grain owned by the plaintiff under an execution issued out of the County Court of Queen's County at the suit of Samuel Beaton against Thomas Locke. The plaintiff claimed that the barack of grain in question belonged to him and not to Thomas Locke and that neither the Sheriff nor his bailiff could seize it under the execution in question. The barack of grain was sold by the Sheriff and bought by Benton's son for thirty dollars (\$30). The plaintiff claimed that the oats was worth \$40, the straw \$10 and he had sustained other damages amounting in all to \$75.

The jury gave a verdict to the plaintiff for \$70. Johnson, K. C., for the plaintiff, McLean, K. C., and Gaudet for the defendants. This being the last jury case of the plaintiff, the case was called on last evening and is now before Mr. Justice Fitzgerald without a jury. This is an action for wages, Johnson, K. C., for plaintiff, Matheson, K. C., and Stewart, K. C., for the defendant company.

PICTURE THEATRES IN HALIFAX WON'T HANDLE THE BIG FIGHT FILMS.

HALIFAX, July 10—The excitement over the moving pictures of the John son-Jeffries fight appears to have been unnecessary so far as Halifax is concerned. The Mayor on Friday, asked the City Solicitor for a legal opinion as to whether exhibition of the pictures could be prohibited. But His Worship hardly needs the opinion now as the managers of the picture theatres have no intention of putting on the pictures and have so intimated to the Mayor. The theatre proprietors realize that the exhibition of the pictures might create undesirable conditions which they do not intend to exhibit them.

MONTREAL, July 10—A final quietus was today given to the rumors that Count De Lesseps was going to essay a flight from Montreal to Toronto in his transatlantic Blériot monoplane, when work was started loading his two aeroplanes on to flat cars for transportation to Toronto. Count De Lesseps will not fly to Toronto, but will travel thither by the Grand Trunk, while his machines will go no higher in the air than freight cars will take them.

WAS AFTER JOHNSON'S LIFE WITH RIFLE—CHICAGO MAYOR ON RECESSION

CHICAGO, July 10—Richard McGuirk, a St. Louis machinist, was arrested today after he had attempted to force an entrance to the home of Jack Johnson, negro pugilist. McGuirk was armed with a rifle. The police were called by excited neighbors of Johnson. They feared that McGuirk intended to kill the heavy-weight champion. McGuirk is held in jail pending an investigation. When examined at a police station McGuirk said he had lost \$25 as a result of the prize fight at Reno. He denied he intended to harm Johnson. On further questioning he said his home was in Bransford, Canada, but that he had been working in St. Louis for several months.

ALARM IN FRANCE OVER COLD AND WET WEATHER.

PARIS, July 10—Continuous cold and wet weather is beginning to cause serious alarm. There has been little rain for six weeks and the precipitation since the first of January has already exceeded the average annual rainfall. A recurrence of floods is threatened, many streams are full and some are out of their banks. The grape crop is suffering heavily and midew has made its appearance in the champagne district. The hay crop is almost destroyed. Meteorologists attribute the rainfall to continental hot westerly winds from America which absorb moisture in crossing the Gulf Stream that is precipitated as soon as it comes in contact with the cold land of the continent.

WARM.

Special to The Guardian. TORONTO, July 12—Light winds, fine and warm.

CURIOUS ADVENTURE OF JAMES MADDEN.

NEW YORK, July 10—James Madden, a young man of Blackdin, was floating down the North River shortly after his attorney's moving company was enjoying a cool refreshing sleep when the crew of the tug Interstate sighted him. Naturally thinking it to be a dead body, they thrust a boathook into Madden's body and hauled him aboard. He was apparently unconscious at the time, but Capt. Moorehead says that Madden came shortly before the tug reached her pier and began to abuse him for having spoiled his (Madden's) sleep. His language was so violent that he was arrested.

CLEVELAND, Ohio, July 10—John D. Rockefeller celebrated his 71st birthday on Friday in the same manner he spends practically every other day of his summers in Forest Hill. In the morning he took a short automobile ride and during the afternoon he played the golf.

Two others clung to the hydroplane until rescued.

NEW HAMPSHIRE MAN IN KIDNAPPING CASE

PLYMOUTH, N. H., July 9—Herbert Archibald, the Plymouth, N.H., young man who figured in an alleged kidnapping of his daughter at Charlottetown, P. E. I., this morning has been a resident of this section of the state for 25 years. He is a saw mill operator and farmer. About 20 years ago he married Miss Effie M. Jackson of Thompson, N. H. Their marriage was not particularly happy and in November, 1908, Mrs. Archibald secured a divorce. There were three children, 2 boys and a girl, the latter aged about 5 years. No order for the custody of the children was given and under the New Hampshire law when no such order is made the custody of minors is with the father.

Mr. Archibald consented that the mother should have the care of the little girl so long as she remained within the jurisdiction of the courts of New Hampshire. Mrs. Archibald did not see the child for several months and country with the little one. Returning to Plymouth some few months later Mr. Archibald secured the girl and took her to his home to live. At this stage of their difficulty Mrs. Archibald obtained a temporary injunction restraining Archibald from taking the child from her again. She however failed to appear in court to prosecute her injunction and obtain a permanent one. Consequently, the temporary injunction was dissolved.

As a matter of course this left the custody of the child as it originally stood in the father. The past week Mr. Archibald secured copies of the court records and identification papers and started for Prince Edward Island to secure his possession of his child. His friends here are his attorney's making him the custody of the little girl is in the father and that in going after her he was acting within his rights.

Work on these elevators will start at once. 580 MILES OF CATACOMBS.

The catacombs at Rome were the burial places of the early Christians. They are about 580 miles in extent and are said to have contained 6,000,000 bodies. During the persecutions of the Christians under Nero and other Roman emperors, the catacombs were used for hiding places. Under Diocletian the catacombs were crowded with those for whom there was no safety in the face of day. The art of the catacombs is unique and most interesting. Simple designs are etched in the slabs which seal the tombs. Now and then are small chapels where paintings are to be caught. All are Bible illustrations, so that the catacombs may be said to be a pictorial Bible in effect.—The Christian Herald.

OUR DUMB ANIMALS

to tell you in words when I am sick; so watch me, and I will try to tell you by signs. Pet me sometimes; I enjoy it and I will learn to love you. Protect me in summer from the hot sun. Keep a blanket on me in winter weather, and never put a frosty bit in my mouth, but hold it in your hands a moment first. I carry you, pull you, wait patiently for you long hours, day or night. I cannot tell you when I am thirsty; give me clean, cool water often in hot weather. Finally, when my strength is gone, instead of turning me over to a human brute, to be tortured and starved, take my life in the easiest and quickest way, and your God will reward you in this life and in Heaven, know, is very painful. I am unable Amen.

PRAYER OF THE HORSE.

(Translated from the Swedish.) To Thee, My Master, I Offer My Prayer: Feed me and take care of me. Be kind to me. Do not jerk the reins; do not whip me when going up hill. Never strike, beat or kick me when I fail to understand what you want. All I want is to please you. Watch me, and if I refuse to do your bidding, see if there is not something wrong with my harness. Do not give me too heavy loads; never hitch me where you want. Examine my teeth when I fail to eat; I may have an ulcerated tooth. That, you would you in this life and in Heaven, know, is very painful. I am unable Amen.
