McCutcheon Gregory, a ranch owner from Lafayette, Indiana has been on the Island for the past week looking for breeding material for his farm. He was unable to find any mares with breeding to suit him but he found one stallion just to his liking in the Bay Stallion Parkwood 221 11/4 owned by George Handrahan. Parkwood is a grand horse having a dash of thorough bred, which Mr. Gregory was very desirous of obtaining, to cross on his trotting bred mares. The other stallion he purchased from Jenkins, Georgetown and will be bred to pony mares to raise polo ponies of which there is a great demand for at present in the United States. In the removal of Parkwood the Island loses what is probably the best horse ever raised in this Province. It is most regrettable that such a magnificent animal should not be retained here.

THE August Vermonter contains the conclusion of the Educational History of Vermont by Walter E. Ranger. The other leading article, on Vermonters Abroad, is by Delmar J. Vail, United States Consul at Prince Edward Island. Mr. Vail is from Orwell and his subject is the Island in which he represents his country. Mr. Vail's article will be extremely interesting to those who do not know this great little Island, the "Garden of the Gulf." He tells briefly something of the history, the governments, the people and the industries of this prosperous Island in the Gulf of St. Lawrence. He gives praise to the people and says the "unbounded hospitality of the Islanders is proverbial." That statement is indeed true. But Mr. Vail dwells particularly on the glorious summer climate of the Island and its delights as a summer resort. In this respect Prince Edward Island is superb and no one who once gets acquainted with its restful quiet ever wants anything better. Mr. Vail likes the people. We may say also that they like him and hope that he will long be the courteous and efficient representative of Uncle Sam in Charlottetown. Vermont's Fair Women in this number are Misses Mellich of Woodstock and Foss of Vergennes, both fair enough to represent the state in its pages. Dr. E. A. Smith contributes an article on Spiritualism in Vermont.

The holiday handicap took place on the beautiful Belvidere Links yesterday afternoon. Many members drove out to witness the sport, but owing to the heavy shower just at the hour not so many players took part as were expected. Those who bravely faced the rain quite enjoyed the game and cared little that the sun withheld his radiance for a time. That few made the holes in Col. Bagg's score was attributed to the rain and other causes, but no sound was heard of the ancient charges. Mrs. Angus MacLean for the second time carried off the Ladies' handicap in a score of 65 points, and R. G. Wallace captured the gentlemen's, scoring 53 points. Both had close competitors who were but few points behind. Fred Hyndman brought to the Club the beautiful challenge cup presented by the Standard Life Assurance Company of Toronto. The Company's only request is that the cup may remain in Charlottetown. A hearty and unanimous vote of thanks was tendered the Standard Company for the beautiful trophy which will be competed for yearly by the "scratch" players in the Club. Each winner for the year will have his (and her) name engraved thereon. On the side of the cup is beautifully engraved the words, "Standard Golf Cup," while above the inscription are two figures representing golfers, and on the opposite side are the words "1903"—leaving space for the names in future to be inscribed. Tea was served by Mrs. H. Fitzgerald, Mrs. G. A. Longworth, Mrs. J. K. Rose, Mrs. A. Alley, Mrs. MacCreedy, and Mrs. J. A. Mathieson. The next match will be played on the 19th inst. when it is expected a number from the warships will take part, and make the scoring keen.

Owing to a decided advance in the price of pure Cream of Tartar (which composes over 50% of Johnson's Baking Powder) and the probability of a still further advance, and also an advance in the price of the tins in which the Powder is packed, we are obliged to raise the price of our Baking Powder, the new prices to take effect immediately. In future the one pound tin will retail at 30 cents instead of 25 cents as before, and the half pound tin will retail at 20 cents instead of 15 cents. If we sold all the Baking Powder we manufactured at retail in our own store the price would not have to be raised, but as the great bulk of the Powder is sold at wholesale prices to Grocers and General Merchants throughout the Island, our margin of profit is very small, and with the increased price of Cream of Tartar makes this step necessary in order to keep up the quality of the Powder. Even at the advanced price of 30 cents, it is the cheapest Cream of Tartar Baking Powder on the market to-day. All others at any price near this price are composed chiefly of Alum or other harmful ingredients and are injurious to the health.—Johnson & Johnson, Druggists, Cor. Kent & Prince Streets.
