# "My Girls are the real Glamour Girls"

"I've never been one to think that clothes make the man — or the girl either, for that matter. That goes for uniforms too.

"It's what they represent that's glamorous to me. And that's why I say my three girls — and all the other girls in the armed forces — are the real glamour girls today. They know there's a war on.

"Those uniforms of navy, khaki and air force blue are smart — but they tell the bigger story of women doing an important job.

"I'll never forget how proud I felt when I found that my girls were eager to do their share, and were not content to stay at home and let others do it for them."

**HOSIERY HELPS**

Hang your hose, don't pin them on the clothes-line. Squeeze them out of the rinse water; don't wring them. Dry them in a warm place; Not in direct sunlight or over a radiator. These are a few suggestions from the price board's consumer branch on stocking preservation. On the basis of a recent survey, the branch said that office workers are washing their hose out at night and putting them on again the next morning. This says the branch, is fatal to the lifespan, for damp rayon hosiery is 50 per cent weaker than when absolutely dry. The branch advises a 36 hour drying period.
