Plans Now Complete For Demobilization

(Special to the Guardian)

OTTAWA, Dec. 24.—The government has completed the organization of its machinery for the demobilization and readjustment period. Most of the plans were prepared as long as twelve months but the machinery had to be organized and put in operation sooner than anticipated. The result has been that the cabinet has had a most strenuous time and the majority of the ministers are taking a brief breathing spell. That there would be a certain amount of unemployment would seem certain. So far munition labor has been a rate that has astonished Ottawa. Only four per cent report surplus labor at the present time. They are Montreal, Toronto, Hamilton and Brantford.

No better protection against worms can be got than Miller's Worm Powders. They consume worms and tender the stomach and intestines palatable to them. They heal the surfaces that have become inflamed by the attacks of the parasites and serve to restore the strength of the child that has been undermined by the draughts that the worms have made upon it, and that their operation is altogether health-giving.
