Thin Weak, Nervous Headaches, Indigestion

Was Easily Worried and Excited, and Generally Run Down—Marked Benefit From Use of Dr. Chase's Nerve Food

Thinness and nervousness usually go together and arise from the same cause—thin, watery blood. The digestive system is failing to supply the required nourishment to the tissues and the nerve cells. A concentrated, easily digested tonic treatment such as Dr. Chase's Nerve Food is necessary in order to get the required nutrition into the blood stream. It is truly wonderful what this great restorative will do for thin, weak, nervous men and women. Mr. Fred Carstens, farmer, Laird, Sask., writes: "I was very thin and nervous, and as I was continually growing worse, decided to give Dr. Chase's Nerve Food a trial. I would suffer from headaches and indigestion, was easily worried and excited and felt generally run down. The benefit obtained from this food care has been very marked, and I can recommend it with the greatest confidence to persons who are thin, weak and nervous." Paralysis, locomotor ataxia, and even insanity result from neglect to heed the warnings which tell of an exhausted nervous system. Nervousness, irritability, frequent nervous headaches, tendency to worry, indigestion; such are the danger signals which come to warn you of approaching trouble. While Dr. Chase's Nerve Food is frequently successful in curing nervous prostration, partial paralysis and locomotor ataxia, it is wise to avoid these very serious diseases by keeping the nervous system in good condition at all times. Dr. Chase's Nerve Food will help you as nothing else can. Fifty cents a box, 6 for \$2.50. All dealers, or Edmondson, Bates & Co., Limited, Toronto.
