THE QUEEN'S COUNTY GUARDIAN

Head Offices in New Prowse Block—Charlottetown.

The latest news, first of all.

Rev. G. E. Ross, City, was a passenger on the mail train returning on the mail train last evening.

Miss Beatrice Binns, Amherst, N. S., arrived in the city last night on a two week's visit at her home in this city.

Mrs. Bridget Kelly, Boston, arrived in the city on the express last night on a visit with friends and relatives at her former home in Port Augustus.

W. E. Callbeck of Tryon leaves this morning by the Northumberland en route to Nova Scotia and will be absent for about two weeks. Mr. Callbeck represents the De Laval Separator Company.

The Teddy Bears increased their lead in the league last night by winning from the Abbies the score being six to two. The Bears were in good form and had an easy victory. Duess made a home run in the last innings. W. Gillespie umpired.

A young lad named Gormley who lives on King St., was seriously injured last evening about five o'clock by being hit on the side of the head by an iron spike. The spike made quite a gash in the side of his head and he was removed to the City Hospital for treatment. The young fellow was playing around where some older boys were playing quoits. His injury was purely accidental.

DR. CRIPPEN'S ARREST

(Continued from page One.)

Chief of Police Gauvreau of Rimouski that it was Crippen all right, adding to the Canadian officer, "There is your man, do your duty, sir."

This was the very word of command Gauvreau was waiting for and he at once rushed up to Dr Crippen and placed both Crippen and Miss LeNeve under arrest in the name of the Canadian law. Of course all was a bustle in an instant. Passengers came rushing up from their cabins and in an instant two score of reporters rushed from under cover, and Captain Kendall will sail the high seas many years to come before he witnesses another such scene.

As for Crippen he was at first like some one in a daze, and although he had a revolver he certainly had no idea of committing suicide, for he did not even make a motion with his hands while the steel bracelets were being attached, and as he was hurried off to one cabin, the woman was given another. It goes without saying that the officer of the law at once warned his prisoner that he was now under arrest, and that he could not be prevented from talking, but that anything said could be used against him. At this the doctor's brow cleared somewhat, and he appeared to be relieved, and Dr. Crippen at the time of writing seems like a man who has been relieved of a great weight of sorrow instead of one who is already withering under the crack of doom. It took the doctor of course longer than the doctor may be taken for granted that she is innocent of any complicity in the horrible crime for which Crippen will be brought to justice.

She was of course surprised beyond measure and wept bitterly from her companion, the officers not giving them a single opportunity to exchange a word or even a glance, both being hurriedly hustled off in different directions. Of course, some papers will be replete tomorrow morning with the alleged sayings of Dr Crippen and his wife, but there was very little that passed from either the lips of the London murderer or Miss LeNeve.

London, Aug. 1.—Scotland Yard officials had not exact information as to whether Crippen will be deported or extradited but they anticipate deportation, in which case Crippen will be placed on trial within three weeks.

Nulife (Red Blood Tablets) is an Unexcelled Blood and Nerve-Medicine

Good blood means good health and poor blood will lead to all the tortures of human existence. Bloodless people live in a state of indifference, always complaining of that tired run down feeling, headaches, backache, fainting fits, nervousness and lack of ambition—their very existence is a prolonged state of misery.

It's all unnecessary, the battles-of-life demand a quick clear brain—a forecast reasoning power and a thorough grasp of the details in business life. In this day of keen competition it's the healthy men—the men with vim and vigor that reaches the top round in the ladder of success.

How is your blood? Ask yourself this question and answer it. The whole matter swings on this one point—"how's your blood?" Good blood nourishes and rebuilds wasted tissues—it sends a ruddy glow of health through your system and gives you that "feeling of fight" for the battles of life.

Nulife (Red Blood Tablets) is a remedy that is renowned for its curative properties and rebuilding qualities. It tones up the system, gives rich, red blood, abounding health and vitality in life. Your blood needs a tonic frequently—a food that feeds the blood and nerves—that tones and stimulates the system. Every Nulife Red Blood Tablet means that much more and better blood—every grain that is absorbed by the system proves its superiority.

Now don't delay taking Nulife (Red Blood Tablets) while it is unexcelled for the blood the earlier it is taken the better. It will save money and start you on the road to better health quicker. The cure begins with the first dose—its toning qualities are instantly felt—the ultimate cure depends entirely upon your case and the promptness with which you have commenced its use.

A box of Nulife Tablets should be in every home—a doctor that is ready to prescribe it, your ailments promptly and efficiently. The people of this Province are indeed fortunate in being able to procure such a celebrated remedy. Price 50c a box—at all druggists or direct from Johnson and Johnson Wholesale Distributors, Charlottetown.

"Sovereign Lime Juice is the pure juice of the lime tree. It is a very healthful drink during the hot weather. We have it in large bottles, at 25¢. The MacKinnon Drug Co., cor. Great George and Kent Sts. drtf.

CAMPBELLTON WAITS FOR GOVERNMENT'S ANSWER

CAMPBELLTON, N. B., July 31.—The late of fire-stricken Campbellton still hangs in the balance, for just what governmental assistance is to be given the town remains a matter of uncertainty.

Hon. William Pugsley, Lieutenant-Governor Tweedie and Premier Hazen arrived here Friday on the Ocean Limited, after having held a consultation of two hours' duration. Interviewed by the reporter for the Telegraph, they all declared that they had certain plans under consideration, but would divulge nothing until something definite had been decided upon. They were accompanied here from Newcastle by Judge McLatchy, G. G. McKenzie, chairman of the relief committee, and Frank Blackhall, who laid before them a statement of the civic requirements to put the town on a running basis.

The town representatives requested the government to make a grant of \$25,000 and pay the interest of their bonded indebtedness for fifteen years as well.

Hon. William Pugsley left immediately for Ottawa and the governor and premier will return to their respective homes by this evening's Maritime Express. They both made an inspection of the ruins and were thoroughly impressed with the signs of immediate want that are everywhere evident here.

The cause is one, says Governor Tweedie, that demands the immediate financial assistance of all the citizens and municipalities of Canada. Too much stress cannot be laid upon this fact, for the situation is daily growing more serious.

"I notice a marked change here since my last visit," said Premier Hazen, "and the citizens of Campbellton are to be congratulated for the way in which they are thriving. Their enterprising spirit should certainly be backed up."

Speaking to Judge McLatchy, the premier asked him to accept a personal donation of \$500 from the members of his cabinet. "You may draw on me at any time for that amount."

The governor and premier had a conference with Mayor Murray, at which the mayor informed them that the relief committee were at present feeding between 1,500 and 2,000 people. Assistance, his worship said, was also being given to many of the townspeople who were being housed by poor farmers located on the outskirts of the town.

The mayor also informed the premier that the cancelling of liquor licenses brought excellent results.

NO SETTLEMENT OF STRIKE YET. MONTREAL, July 31.—There is every indication that the dispute between the Grand Trunk and its trainmen will continue for some time. Settlement as a result of today's negotiations. Although conferences were held between Hon. MacKenzie King, Minister of Labor, with both sides it was intimated that the result of these talks was practically nil.

The Minister of Labor is still continuing his efforts to bring the matter to a settlement, and it was stated that Messrs. Garretson and Lee, the presidents of the two International unions, had left Toronto tonight to come to Montreal to make further efforts toward a settlement.

As to what has been done or will be done both sides are decidedly secretive. But it is probable that Messrs. Garretson and Lee will meet Hon. MacKenzie King and Mr. Hays tomorrow for a further discussion of the matter, but unless the representation

Every Store Requires a 'Phone

A country merchant without a 'phone is standing in his own light, looking for openings to success and building brick walls against it. The very appearance of telephone connections to any country store speaks progressiveness, and the enterprising man is the man who will get financial assistance, credit and the better class of customers.

The merchant with a 'phone is not guessing; this day is not the age of guesswork; it's hard, cold, competitive figures that count. The public will not stand for "near as I know" methods, they value time and appreciate system, both are recognized factors in 20th century competition.

The very fact of any merchant not having the executive capabilities to figure his loss shows a lack of business ability, and this inefficiency will prove detrimental to any business.

Now we are sure that if you consider the telephone question from all sides you'll see the fallacy of not having the telephone as your partner in business, your guide and source of information.

Better write us and we'll suggest a plan that will suit your particular locality, but call or write right now.

RAILWAY PROBLEM OF CANADA

ANTIGONISH, July 31.—M. J. Butler, G. M. G., general manager of the Dominion Steel and Coal Corporation, delivered an exceedingly interesting and instructive lecture before St. Francis Xavier's summer school of science tonight. The ex-deputy minister of railways had for his subject "The transportation problem of Canada." With the use of a map of the Dominion, Mr. Butler gave a very clear description of Canada's great resources, through her wonderful railways and waterways. He said "The Grand Trunk Pacific railway is the solution of the great transportation problem of connecting the west with the east." He further remarked, "Canada has one mile of railway for every three hundred head of her people, which exceeds that of any other country on the globe," and that "one important line which the west is determined to have is the Hudson's Bay railroad which they take for granted will be their salvation."

Speaking of Nova Scotia's transportation, he said, "The reason why the exports of Nova Scotia are much greater is because mining and other industries are robbing the farms of their farmers, leaving old men to look after this, our most important industry. Nova Scotia's soil is rich, and we should have large numbers of cattle, horses and sheep as well as grain crops."

After the learned speaker had concluded, William Chisholm, M.P., and C. F. McIsaac moved and seconded a vote of thanks for the interesting discourse.

NEW YORK, July 31.—Bradstreet's state of trade today says: Trade in many parts of Canada is still adversely affected by the strike on the Grand Trunk Railway.
