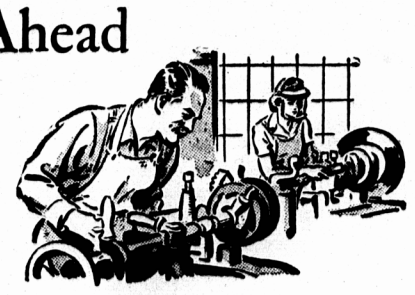
The Right to Get Ahead



In This New World a man has had the right to speak and write and worship in his own way.

He has enjoyed the right, too, to work at what suited him and to get ahead according to his talents.

A real man strives to make his own way in the world.

He takes the rough with the smooth.

He safeguards his own future by his own frugality and thrift.

Energy and Enterprise built Canada's prosperity.

Without these rugged qualities we should never have gained the prestige we enjoy in the world today.

Now we are defending the common man's right to make the most of this heritage of freedom.

The man who is free to prosper is also free to protect himself and provide independence for himself and his family.

For Generations, in good times and bad, the common man has relied on life insurance for protection.

Life insurance has grown into a great co-operative partnership of the whole people.

Only through this partnership can a man create an immediate estate for himself out of what he earns.

Mass enterprise and mass unselfishness of over four million policyholders have provided every man and woman with the means of securing at low cost the certainty of a cushioned future.

It is good citizenship to own

A torrent of water swept across Pujunga Bridge, near Los Angeles, Calif., tearing down fences and washing cars off the road during the worst storm in southern California in seven years. The occupant of one of the two cars shown (foreground and left) was drowned, the other rescued.

Recreational therapy is not being overlooked in helping Canadian soldiers in military hospitals back to health. These scenes illustrate the remarkable scope of the hobbies that patients can develop while convalescing. Taken at Rideau Military Hospital in Ottawa, where the project is under the supervision of the Canadian Red Cross Society, they are duplicated in other hospital establishments both in Canada and abroad. Planned to relieve boredom, patients take enthusiastically to recreational Therapy and turn out hundreds of beautiful, useful and valuable articles, and at the same time learn hobbies they can follow and develop throughout their lives. In the picture, top left, for instance, Pte. Leandre Turcotte of Disraeli, Que., learns cord weaving, from which comes intricately designed bags, belts and many other useful articles. Teaching Pte. Turcotte is Mrs. Edmond McCall of Ottawa, one of the volunteer workers. Top right shows a delightful Habitant scene being worked by Gunner Glifford McNamara, Royal Canadian Artillery, Ottawa. It will make a colorful wall or living room decoration. Bottom, a group of the attractive and valuable articles made by the soldiers. (Canadian Army Photos).
