SOUTHERN NOTES

On May 10th, 1926, that is four years ago I took note that frogs had given the first intimation that in their view spring had begun. They began then to sing their first notes that year. This year I noted their first cry on the 9th day of April, a full month earlier than in 1926. It is usually held that herring are schooling in these waters when frogs come out and therefore we may soon expect the fish vendor. I note that they are silent tonight because there is a sharp nip of frost in the air.

Mr. Norman MacPherson, of Hopefield, was a recent visitor to the city.

On account of the bad condition of the roads there have been no pastoral services in Wood Island Hall during the past three Sabbaths.

Mr. Daniel Martin of Caledonia West, was last Saturday on a business trip to Hopefield.

Mr. James Cook, of Belle River recently carried out his contract to move the dwelling house bought by Mr. D. A. McLeod from Mr. Magnus Fraser of Hopefield. It was moved a distance of about 25 chains from Mr. Fraser's place to its present site a few feet north of Hopefield Station. It will make a pleasant and cozy home.

Mr. John T. Morrow, we are pleased to see has greatly improved in health and he is much better than he was a year ago and is now not only able to go about but to do considerable work.

Mr. James Hume, of Iris, is working under high pressure to execute orders for blacksmith work. His father Mr. Peter G. Hume co-operates with him in doing the wood-work and both are neat and competent mechanics.

Mr. Levi Morrow of Iris, has made considerable progress in the occupations of the season, especially in fencing and cutting firewood.

Iris at the present time is the scene of many activities.

When reminiscences of Charlottetown come to be written I presume the gas works will be mentioned and the manner in which the gas was forced into the big gas mains thence into smaller pipes and ultimately into the houses. A reference to the iron hitching posts (made out of obsolete cannons I presume) will be made and what became of them, the pound for cattle and its location, the grazing of horses and cattle on the streets, sidewalks and squares, the pigs, their soles and glue clubs, their table manners and their swan

Simple Remedy For Bad Stomach Gives Swift Relief

No Need of Strong Medicines or Diet. Safe and Simple Home Recipe Keeps Stomach in Fine Condition.

If you are a victim of Stomach Troubles—Gas, Sourness, Pain or Bloating—you may have quick and certain relief by following this simple advice.

Don't take strong medicines, artificial digestants or pull down your system with starvation diets. For within reason most folks may eat what they like if they will keep their stomach free from souring acids that hinder or paralyze the work of digestion.

And the best and easiest way to do this is to follow every meal with a little Bisurated Magnesia—a pleasant, harmless, inexpensive, and handy to use preparation that all reliable druggists can supply in either powder or tablet form. Its use promptly neutralizes acidity and keeps your stomach sweet and clean.

A week's trial of Bisurated Magnesia should quickly convince you that 90 per cent of ordinary stomach distress is absolutely unnecessary. Be sure to get Bisurated Magnesia and give it a good trial.
