WE WILL BUY live hogs at Grandview on Monday the 17th—current market price. McLeod & Sons, Kitross.

#### "CANTATA IN ST. PAUL'S"

Sir John Stainer's "The Crucifixion" presented in St. Paul's Church, Friday evening to a large audience was one of the notable musical events of the Easter season. Professor Earle who directed this Cantata, is to be most heartily commended on the splendid results of his efforts. The concerted numbers—"Jesu, Lord Jesu," "Fling Wide the Gates," and "God so Loved the World" by the full choir, were admirably rendered. The soloists of the occasion were Mrs. Trainor, Miss Wright, Messrs. Arthur Bruce, Charles Earle and E. Worth. They were all in excellent voice and their interpretation of the sacred theme was most intelligent and effective. Special mention is due the Duet—"So Thou livest Thy Divine Petition" by Messrs. Charles Earle and Arthur Bruce, who fully upheld their reputations for high class work. Miss Lillian Earle, an Organist, did most excellent work both in accompaniment and organ selections. The desire has been expressed by music lovers that this Cantata should be repeated and it is to be hoped that in the near future our people will be given an opportunity of again enjoying this superb production.

#### FOR THE MADAM'S BUSINESS HOURS

Hubby wears a smart suit for business activities; and so does the housekeeper NOW.

Serviceability, of course. Clean, fresh, wholesome; but with the added virtue—they're so smart, becoming, so good-looking as well as businesslike. \$13, \$20 up.

MY OFFICE will be closed from April 14th until April 22nd both dates inclusive. H. T. Colvin, Opt., D., Optometrist and Optician, Summerside, P. E. I.

8TH SIEGE BATTERY BANQUET.—At a meeting of the Committee in charge of the Battery Re-union, it was decided to hold a banquet on Wednesday night, April 19th at the Davies Hotel.

#### PERSONALS

Mrs. James M. Murley was hurriedly called to the home of her parents, Mr. and Mrs. W. A. Ching of Summerside who had received the sad news of the death of their eldest son, Ralph, locomotive engineer on the Concord and Boston express, who was instantly killed by a one-legged passenger train near Lake Umbagog, N. H., on Wednesday the 12th inst. Deepest sympathy goes out to Mrs. Murley, the parents and relatives in their time of sorrow.

#### HID PINT IN WOODEN LEG

SPARTANBURG, S. C., April 13.—The storied "uses of adversity" proved anything but sweet today for Alex. Ballenger, a one-legged Spartanburg negro. When a faint and muffled "splash, splash" was heard to accompany him yesterday as he hobbled down Main street, a policeman took him in. At the station a cache in his wooden leg was found to contain a pint of liquor. The judge imposed a fine of \$100 for transporting intoxicants.

#### What Canadian Navy Is For

OTTAWA, April 13.—There is no agreement between the imperial authorities and the Canadian government to maintain the Canadian warships Aurora, Patriot and Patriote and the three torpedo boats now in service. This information was tabled in the House of Commons in reply to questions by E. C. S. Pierre (Liberal, Hochelaga). Hon. G. P. Graham said that the vessels were of use for naval training purposes and in case of an emergency, for the protection of Canadian marine interests and Canadian ports. The crews were composed largely of Canadian recruits. Only four officers were on loan from the imperial navy. All officers and men loaned from the imperial navy were being replaced by Canadians as quickly as the latter can be trained.

#### CENTURY-OLD PAVEMENTS

Bricks made a hundred and even two hundred years ago are common in Holland, according to a correspondent. The bricks used were vitrified as are paving bricks today. B. E. Stevenson, in his "Spell of Holland," says: "For brick, brick, brick are everywhere overhead and underneath, on edge in the roadway and piled into great walls and massive towers. It would almost seem that the Dutch had dug away most of the ground beneath their feet in order to convert it into paving and building materials."

#### POPE'S WHITE MULE

The coronation of Pius XI, which took place in Rome, was the last solemnity completing the election of a new Pope. Prior to the loss of Temporal power, in 1870, however, the coronation was always preceded by the Cavalcata, or procession in state, with which the new Pope rode forth to take formal possession of the famous Lateran Church. On this occasion only the Holy Father would be seen riding a white mule. Pius VIII, first dropped the custom in 1829, by choosing to drive in a coach drawn by six horses, his white mule being led behind.

A learned English lawyer got stranded at a country town and had great difficulty in finding accommodations, at length being glad to accept a bed in a room with another occupant. When he had made himself comfortable he recognized the man in the other bed as one whom he had been instrumental in getting five years' hard labor (DeLeval) new—1 barrel churn dairy (new); 1 Edison phonograph (good as new) with 40 records; 1 base-burner, no. 10; 1 cream freezer, 10 gal. capacity; 1 ice cream freezer, 5 gal. also 1 doz Brant decoys and goose decoys; 1 wild gander 5 years old well trained; 1 water spaniel dog 3 years old, a perfect duck dog; 1 Enfield rifle.— Terms as per farm ad.

They used it here—they use it there—Thorobread used everywhere

#### CARD OF THANKS

To the many kind friends who sent me flowers and bouquets during my recent illness, I take this opportunity of expressing to them my heartfelt thanks and gratitude for their kindness and thoughtfulness, which I very highly appreciate.

MRS. H. DINGWELL, Proprietress Oakley House, Summerside, P. E. I.

#### CARD OF THANKS

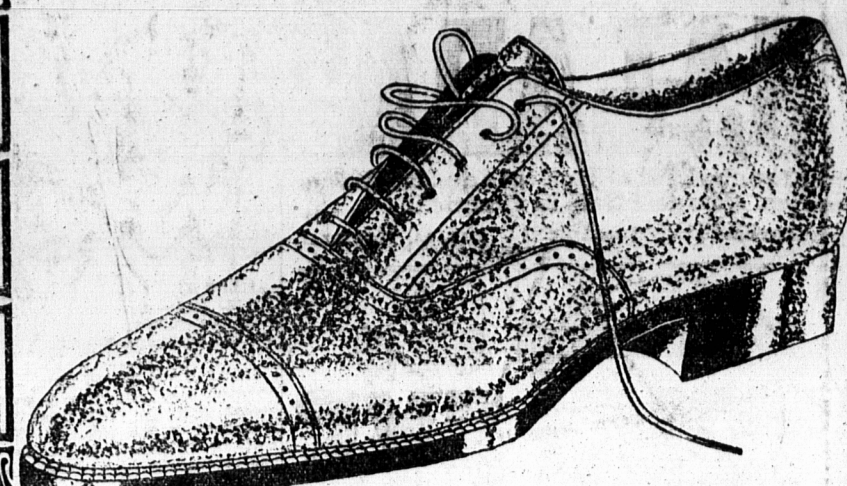

The family of the late Mrs. Catherine Beagan of Mount Ryan desire to express their thanks and appreciation for the many kindnesses shown to them on the occasion of the death and funeral of their mother; also for the floral tributes and spiritual bouquets sent by kind friends.

#### Save the Children Fund

An appeal is being made through the Canadian press and pulpits for the relief of the famine-stricken children of Russia who are perishing every day by thousands on account of the terrible drought, war and famine, that have visited that country.

An organization has been started in Charlottetown to give an opportunity to every one to assist in saving the lives of the children. The movement is general all over Canada and thousands of dollars will be contributed to this worthy purpose. Our Canadian government has endorsed the work and will co-operate with the British Save the Children Fund committee in distributing the money through British volunteer relief workers, some of whom have given their lives in rescue work for the children. Dr. Nansen, the famous Norwegian explorer, is chairman of the International Committee for Russian Relief. Dr. Nansen has guaranteed the safe delivery of every consignment to the children in the famine area. Col. W. J. McKie, the president of the Canadian organization, visited the Volga provinces last autumn and has retired from political life to devote his time to the Russian Relief Work. He is undertaking the administration of the "Save the Children Fund" for Canada and every reasonable precaution is assured that the funds will be effectively distributed.

A chain of Canadian kitchens is being established in the famine area. The children come to the kitchen to be fed one meal a day. A subscription of \$500 makes it possible to establish a kitchen to feed 100 children until next harvest. Individual donors of \$500 or multiples of \$500 can have their names placed on the Canadian Fund named after them. Many of the British cities and towns are maintaining kitchens in the Volga provinces, clubs and other institutions, as well as by families and individuals. Photographs of the towns are posted in the kitchens for the individuals. Mr. Harry Stewart of the DeLoraine Savings Bank, Charlottetown, is the local treasurer, and Elean Building, Ottawa.

## Alley's Oxfords for Men

Most for your money is what we are offering you in these Spring Oxfords. They look good and we promise you that they are good. Your associates will tell you how good looking they are, and you will tell them, "They're mighty comfortable too."

### When Champlain explored the Ottawa in 1613

Maple and Oak trees were growing then which are serving to-day as beams and floors, wainscoting and doors in our homes, or as useful wagons and implements on our farms, as solid and strong as the day they were felled. Because they are protected from the weather and air by paint or varnish.

And much of the wood that might still be in use has rotted and disappeared because it was not protected by paint or varnish—it is gone, lost to the use of man just as though it had been burned up.

All wood, all metal exposed to air should be preserved with paint—paint and varnish do preserve because they Save the Surface and when you SAVE THE SURFACE, YOU SAVE ALL

"Save the surface and you save all" - Paint & Varnish

TODAY it costs less to paint than it did. The cost of materials has led in the downward economic trend of manufactured products. But no matter what it costs, the fact remains that it always costs more not to paint than to paint. Rust and rot go on till you check them. The logical time to paint and varnish is NOW.

He was crusty and rude, but as a quired, "what is your idea of making a celebrity was entitled to indulgence in these matters. And his pretty hostess was not one to shirk and conversational encountered with him. "Tell me, Mr. Highbrow," she in-

The celebrity frowned. "Madam," he replied, "my idea of marriage is very much the same kind of vague but inarticulate protest as a dog's conception of a tug can that is tied to his tail!"
