# Organization Of Cow Testing Clubs Now Under Way

Tryon And Bedeque Districts Now Receiving Consideration. Farmers Co-operating Actively With Government Officials.

# APPREHENSION GROWS FOR CHILD'S SAFETY

(By Robert L. Harrison, Associated Press Staff Writer)

(A. P. By Guardian's Special Wire) TACOMA, Wash., May 30.—The \$200,000 ransom presumably lay ready for the kidnappers of little George Weyerhaeuser tonight, but apprehension grew as a family source disclosed nothing had been heard from him.

"We had hoped to hear something last night or today," said a close friend of the timber-wealthy clan, "but we are absolutely in the dark about him."

"We haven't heard a thing."

Their fears increasing as the hours dragged by, Mr. and Mrs. J. P. Weyerhaeuser, Jr., parents of the nine-year-old boy missing since Friday noon, sought frantically to effect his safe return.

# ANNOUNCEMENTS COMING EVENTS, MEETINGS, ETC

- Big Depression Show at Montague Saturday night. Admission only 15 cents. L-7531-5-31-31.
- Dr. J. D. Reddin will be at St. Peter's Wednesday, Mt. Stewart Thursday. L-7680-5-31-31

# IS HONORED AT MCGILL GRADUATION

Hon. W. J. P. MacMillan Receives Honorary LL.D.—584 Students Graduate.

(C.P. By Guardian's Special Wire) MONTREAL, May 30.—Hon. W. J. P. MacMillan, Premier of Prince Edward Island and a graduate of the McGill medical faculty, was presented to Chancellor E. W. Beatty by his honorary degree of Doctor of Laws at the convocation ceremonies today by Dr. Charles F. Martin, Dean of the McGill Medical Faculty.

Dr. Martin said of Dr. MacMillan: "Mr. Chancellor, I have the honor to present, in order that you may confer upon him the degree of Doctor of Laws, honoris causa, William Joseph Farrell MacMillan, the Premier, the President of the Council, the Minister of Education and Public Health, and the Provincial Secretary-Treasurer of the Province of Prince Edward Island."

"At our convocation 27 years ago Dr. MacMillan led the graduating class in medicine and received the Holmes gold medal, since then he has added many public obligations to the cares of a successful practice, has taken a leading part in the development of public health and nursing services in his native province, and now for two years has led his province as its Prime Minister."

MONTREAL, May 30.—(C.P.)—Five hundred and eighty-four students were graduated from McGill University here today. They included students in medicine, law, science, arts, commerce, advanced courses, science in agriculture and nursing.

Prominent in the convocation ceremony was the presentation of the honorary degree of Doctor of Laws to Dr. A. S. Eve, retiring Dean of the Faculty of graduate studies and research at McGill. Dr. O. T. Avery, member of the Rockefeller Institute, New York, Hon. W. J. P. MacMillan, graduate of the McGill Medical Faculty, Premier of Prince Edward Island, Hon. Adolphe Godbout, Quebec Minister of Agriculture, and Abbe Georges Lemaitre, distinguished Belgian scientist, who is a close acquaintance of Einstein.

With traditional color, the students formed in line on the university grounds and marched to an uptown theatre, where presentation of degrees and delivery of the convocation address by Dr. A. S. Eve took place. E. W. Beatty, Chancellor of the University, presided.

A feature of the ceremony was presentation of the Governor-General's silver medal to Miss Evelyn

**Compromise Plan Accepted By Strikers**

(A. P. By Guardian's Special Wire) PORTLAND, Ore., May 30.—A compromise plan calling for minimum wages of 50 cents an hour was accepted by 1,000 union mill workers at Longview, a Pacific northwest strike picture followed collapse of the NRA. The vote favored a compromise 9 to 1.

About 2600 men working in the Weyerhaeuser and Long-Bell mills and an additional 400 employed by smaller plants of the vicinity were affected by the decision to end the strike and return to work Monday.

**CONDITION SATISFACTORY**

(C. P. By Guardian's Special Wire) WINNIPEG, May 30.—The condition of John I. McFarland, government wheat agency head undergoing a rest cure in hospital here, was reported satisfactory by his physician today.

# Hitler Offers Europe "Air Locarno" Plan

LONDON, May 30.—Adolf Hitler today offered Europe his draft of an "Air Locarno"—the first specific German proposal for peace bulwarks on the continent.

Copies of the draft were sent simultaneously to Britain, France, Italy and Belgium, the four governments which with Germany signed the original Locarno convention designed to guarantee western Europe's frontiers.

Tonight the Foreign Office was giving the German plan, details of which were kept secret, close study, but authoritative sources said Britain's answer would ask that Germany, simultaneously with the signature of the air convention:

1. Join some general armaments and security agreement, and
2. Return to the League of Nations.

Those with the air pact proposal, were the principal points involved in the Anglo-French security program drafted at London early in February, which also contemplated relaxing the Versailles Treaty's military restrictions upon Germany—something the Reich has done on her own initiative.

This government, it was stated, has no intention of loosening the Anglo-Italo-French common front evolved at Stresa and subsequently, by cooperating with Germany in bringing about separate consideration of an air convention,

# Encouraging Reports Received From The London Fur Sales.

Resiliency of the Silver Fox Market was shown by the sale of Tuesday and Wednesday. The Hudson's Bay Sale on the first named day found a willing crowd of purchasers who took 88% of the offering at a conservatively estimated average advance of 7 1/2%.

In some colorings 14% advance was registered. The darks, which were weak in the March sale were strong in this sale with the quarter silvers best of all, although, of course, not highest in price. The full silvers which had been so strong on the other sales did not advance, but remained firm. The probability is that the Italian buyers were not present in great numbers or these would also show an advance.

Hudson Bay Company's sales as received by wire to McLaughlin and Mackinnon from Ralph Parsons, Fur Trade Commissioner, Winnipeg, says: "At Company's sale 86% sold at average advance of 7 1/2%. Darks advanced 7 1/2%; quarter silvers 14 1/2%; half silvers 10%; three-quarter silvers 5%. Full silvers firm."

A cable to the Charlottetown Fur Sales Company yesterday afternoon from Anning & Cobb, said: "The sale fully equal to yesterday, especially four to six pound goods and best grades, very few withdrawals. In view of the disturbed conditions in France, the splendid comeback in prices for the Island's chief product is news that will be received with the greatest pleasure. The probability is that the pelts remaining unsold will be easily disposed of on or before the next sale as at good prices. Then once again, as in 1933, the market cleaned up and eager and ready to absorb the new offerings which will be pelled this fall."

# Financier Dies

(C. P. By Guardian's Special Wire) OTTAWA, May 30.—Charles J. Tulley, former controller in charge of Ottawa's finances, died today in Ottawa at the age of 57. He had undergone an operation for a kidney ailment.

Tulley came to Ottawa in 1912 from Picton, Ont., and entered the civil service in the new defunct forestry department. He was elected a controller in 1924 and served for seven years.

He was recently acquitted of fraud in connection with the sale of securities. The case against Tulley was brought by Col. D. F. Pidgeon, chief investigator for the Ontario Securities Commission.

# FINE CONCERT BY CH'TOWN MALE CHORUS

Choristers and Assisting Artists in Inspiring Performance At P. W. C. Hall.

A programme of exceptional interest was given in the Prince of Wales College Hall last night by the Charlottetown Male Chorus and assisting artists. The choral number of the performance were varied in theme but of a consistently high standard, and were rendered with admirable effect by this talented local organization which is now in the third year of its existence.

Opening with a rousing Viking Song, the choruses ran the whole gamut of the emotions "from grave to gay, from lively to severe." The old favorite "John Peel" again proved its enduring popularity, as did the Perkins arrangement of "Carry Me Back to Old Virginia." "The Wreck of the 'Julie Plante'" with Dr. Robbins as soloist, was given with fine dramatic effect. So too was "The Martyrs of the Azores" (De Rille), a magnificent chorus, which has something of the sweep of a Beethoven symphony. Each number, indeed, met with warm appreciation and applause. By request, the chorus sang as a concluding number the majestic Hallelujah Chorus from Handel's "Messiah."

The Serenaders, consisting of Miss Berna Huettis, director, Mrs. F. M. Nash, Miss Lillian MacKenzie, Miss David Baker, Miss Pearl Burns, Mrs. Robert Holman, Miss Doris Tait, and Miss Margaret Sterns, with Mrs. G. Elliott Full as accompanist, appeared in two delightful part songs which were very

# Plan Mass March On Ottawa

(C.P. By Guardian's Special Wire) VANCOUVER, May 30.—Rifled camp workers congregated here today voted 623 to 270 to continue their strike in protest against existing camp conditions and they were almost unanimous at a mass meeting here today in their approval of proposals for a massed march on Ottawa of all relief workers in Canada.

The plan is that the men start east Monday, employing any available mode of transportation. Word would be sent ahead to all relief camps for the inmates to meet the main body and join in the march on the Dominion capital to present their demands there.

"I think we have properly laid out our case and grievances against the relief camp system before the people in Vancouver and British Columbia and we intend to take our case ourselves direct to the Federal authorities," a spokesman said.

# Will Be Asked To Accept Lower Interest Rate

(C.P. By Guardian's Special Wire) VANCOUVER, May 30.—Vancouver's bondholders will be summoned sometime in June to another meeting at which they will be asked to accept a refunding plan at lower interest rates. Mayor G. G. McGeer announced today.

The refunding proposal, designed to bring taxpayers relief from a load of \$5,539,000 in annual fixed charges for interest and sinking fund, will be patterned after a plan advised by Vancouver members of the British Columbia legislature at the last session, the Mayor said.

# Cabinet Concludes Work On Price Spread Measures

(C. P. By Guardian's Special Wire) OTTAWA, May 30.—Ascension Day was a holiday for members of Parliament but not for Ministers of the Government who sat in Cabinet council morning and afternoon, putting finishing touches on final measures arising from the report of the Royal Commission on Mass Buying.

Details of the main bill arising from this legislation have not been revealed and will not be until it is presented to Parliament, probably on Monday next. This refers to the interest plan, a federal Commission's recommendation for the establishment of a federal agency to regulate business and industry in such a manner as to assure fair competition and equitable treatment of consumers.

Prime Minister R. B. Bennett, who presided over Cabinet council

# French Cabinet Resigns Following Defeat In Chamber

Flandin Fails To Obtain Support In Measure To Curb Speculation Against The Franc. Bouisson Mooted For Premiership.

(Copyright 1935 By The Havas News Agency) (C. P. By Guardian's Special Wire) PARIS, May 31.—(Friday)—The cabinet of Premier Pierre-Etienne Flandin resigned early today after it had met a decisive defeat in the Chamber of Deputies on its demand for sweeping powers to deal with speculation and save the franc.

The adverse vote was 353 to 202. Fernand Bouisson, presiding officer of the chamber, immediately attempted to form a new government. M. Bouisson is committed to support of the franc.

Defeat of the Flandin administration came after the young premier had risen from a sickbed to make an impassioned plea for support. A wide split in the Radical Socialist party, bulwark of his government, resulted in the defeat of the six-months-old administration.

Crisis Looms

A national crisis loomed as the result of the government's defeat, with observers gloomier over further chances of the franc to resist the pressure brought upon it by international speculation in recent weeks.

It was forecast Bouisson would attempt to form a National Union government.

President Albert Lebrun accepted the resignations of the members of the Flandin cabinet, and then called Bouisson into conference. Subsequently Edouard Herriot, leader of the Radical-Socialists, and Francois Pietri, naval minister in the defeated cabinet, were summoned to the Elysee Palace to confer with Lebrun.

The vote followed a historic session of the Chamber in which Premier Flandin desperately defended the bill, despite a painful broken arm, and former Premier Edouard Herriot, chief of the Radical-Socialist party, had made a

# Bright Crop Prospects In Saskatchewan

(C.P. By Guardian's Special Wire) REGINA, May 30.—The merry patter of rain on Saskatchewan's drought-ravaged farm lands tonight promised a big reduction in the 163,000 relief recipients in the dry area—possibly 100 per cent in the view of Hon. R. J. M. Parker, Saskatchewan Minister of Municipal Affairs.

Better crop prospects—the best in five years for some of the affected areas—may mean the removal of all farmers in the area from relief aid, Mr. Parker said when he issued the latest survey on the drought situation, relief conditions and crop prospects.

Mr. Parker announced there were 45,000 families, numbering 163,000 persons on farms in the southern Saskatchewan drought areas. The number on relief was 4,000 more than the highest figure ever reported before.

The area covered in the survey has been hit by drought and grasshoppers for four and five consecutive years. Early spring rains and additional moisture, with seeding nearing completion, gives the brightest outlook since the drought attacks started.

# Anniversary Of Great Sea Battle

Written for The Canadian Press (Copyright 1935, by The Canadian Press)

Nineteen years ago today was fought the greatest sea fight of the War—and the controversy as to who won rages on. The Battle of Jutland bigger guns and more combatants than ever before struggled on heavy waters provides the classic problem for the naval tactician. But on the greater questions there is no argument.

It is written in history that the German High Seas Fleet after inflicting heavier damage on the British Grand Fleet than it received itself, retired to the base where it had already lain nearly two years, and never emerged again until it surrendered.

More light has been shed on Jutland in the passing years. It is known now that the German Grand Fleet sailed forth in hopes of meeting, not the British battle fleet, but a scouting force or at least no more than 101 portions of the main fleet. Once the titans collided, the British fleet was unable to get a square grip on its elusive adversary. Twice the High Seas Fleet blundered into the teeth of the main British battle force, and twice it escaped; the third time it hacked its way through the tail of the British line in the darkness and found shelter.

In supreme command of the British fleet was Jellicoe; of the Germans, Reinhard von Scheer. It was end Jellicoe was right. In ships and men he could afford to lose more than Von Scheer, and he did, heavily. But it has been said often and it remains true, that Jellicoe was the only man who could have lost the Great War for the Allies in the space of hours.

The Grand Fleet put to sea from its Scottish bases the night of May 30, warned of an impending German demonstration of some sort. The British had 28 battleships, nine battle-cruisers and eight armored cruisers; 26 light cruisers and 80 flotilla leaders and destroyers. The Germans had 22 battleships and five
