The Public Forum

NOT SO GULLIBLE

(Continued from page 4.)

have been treated very generously by the present government, while other equally deserving parts of the public highway have been treated with contempt. I refer in that part of the public highway that passes through the school districts of South Lake, East Point and North Lake. The people residing in this part of the province contributed as generously to the upkeep of our roads and to the Public Treasury as any equal number of people on Prince Edward Island, and I think it is unfair to these people that the Honorable Commissioner of Public Works did not allow a grant to be made for the building of a permanent road through their districts. During the summer of 1922 the Government spent some money on the improvement of the Portage Road through Elmira. Now, nobody has any criticism to offer the government for repairing the Elmira Road, but why did they not treat everybody alike? Why did they not do the same amount of work around East Point and vicinity? That is a question that will be put to our Liberal representative when he appeals to the people next summer. It is apparent that the whole business has been badly bungled and that there is a lack of efficiency somewhere, and the government will learn to their regret that the people will not stand for such tom-foolery.

We are told that we are fortunate in having such a "good" government as that led by the Honourable John H. Bell, that we should meekly pay our taxes and leave it all to the gentlemen of the government The fact is that the people are not so gullible as the government organ seems to believe. The taxpayers of the country are fully possessed of the facts of the case, and are aware that" there is something rotten in the State of Denmark." We, in this part of the country are thoroughly disgusted with the state of affairs and are determined to obtain our rights. The Opposition candidates will receive 85 per cent of the vote formerly cast in favour of the Liberal candidates at the next election.

We do not ask for too much. We simply ask our representatives to bring our case to the attention of the Commissioner of Public Works. Surely he will, in justice to the taxpayers, in justice to the travelling public, in justice to the overseers who are responsible for the condition of our roads, endeavor to give equal justice to all. This will be a very important matter next summer when the government will face an indignant electorate.

I am, Sir, etc.,
ELECTOR.

March 28, 1923.
East Point, P. E. Island,

Do You Want Relief From Bronchitis

BOSTONIAN AND McINTYRE

Continued from Page 4

them with three fine scholarly ones heretofore written in defence of our Island province and note the difference in the laguage. Now, does he think there is any sense in looking back fifty years? Why not look ahead? We can't travel over the past again, the future only is open to us, so therefore, it is up to us to prepare for it, and if he has any suggestions to offer for the betterment of the place out with them for planting time will soon be here and no doubt many farmers are anxously waiting to hear what he has to say. Get those trump cards he spoke of out of the back of his brain; that is no place to keep them while the benighted people of his native province so surely need his guidauce.

Now, Sir, for the enlightment of people other than Islanders who may have been misled by John D's writings I will say that I too, have lived away from the Island for many years, but I make frequent visits there and each time I go I note a decided improvement in things there. I know a whole lot about farming conditions in New England, and they are not to be compared with P. E. I. with its beautifully laid out farms the equal of which is not to be found on this continent. Splendid dwellings fitted with all modern improvements all kinds of up-to-date machinery on the farms, tractors, gasoline engines, binders, planting machines and diggers, in fact everything is up to the minute, telephones in nearly every house, radio, pianos, phonographs, automobiles and even the electric smoothing irons J. D. spoke of There are beautiful churches, up to date preachers, teachers, journalists, lawyers, doctors and politicians the equal of any in the world brave soldiers, VOLUNTEERS at that, who helped to save the world for democracy by not being afraid to go over in the dark days of 14, 15, and 16 to face the most powerful fighting machine the world has ever seen. The sons and daughters of our fair province have gone abroad and distinguished themselves and brought honor o the land of their birth. That hey have succeeded is true and ot all bunk as he would have people believe, some few are backward but that must be, for did not our Saviour say "the poor ye have always with you". Dare we contradict His words?? There will always be some poverty everywhere but there is less in P. E. I. than any place I know of. If John D. goes down there next summer I am very much of the opinion that it won't be the crow and the hawk he will find in conference at the wood pile but the squirrels planning how best they can carry him off for squirrels as you now are fond of nuts.

Now, Sir, I could say a whole lot more for I along with your other 40,000 readers are highly indignant at the insulting things Mr. McIntyre has written about us.

We all love beautiful Prince Edward Island, the Garden of the Gulf, the only Island there is, and we are not going to allow John D. McIntyre or any one else to throw us down. I consider that he owes us an apology. No doubt it will arouse his ire not to see my name signed to this article but I am not seeking noteriety, so thanking you for your valuable space.

I am, Sir, etc,
NURSE.
260 Clarendon St., Boston.

A Sure Relief For Women's Disorders
