WEDDING BELLS.—A very pretty October wedding was solemnized on the 12th at St. Joachim's Church, Verdon River, when Rev. P. D. McGuigan with Nuptial Mass, united in holy bonds of matrimony, Miss Bertha C. Donnelly, youngest daughter of Mr. and Mrs. M. J. Donnelly, Summerville and Mr. Martin H. Hynes, son of Mr. and Mrs. M. Hynes, Alberry Plains. The bride was charmingly attired in coral satin with rhinestones and silver trimmings and hat to match, and carried a bouquet of bridal roses and maiden hair fern. She was attended by her cousin, Miss Alice Driscoll, Mt. Herbert, who wore pink crepe de chene and black picture hat. The groom was ably supported by his brother, Mr. Francis Hynes. The wedding ceremony being over the bridal party motored to the home of the bride's parents, where a sumptuous wedding breakfast was partaken of, after which they proceeded to Charlottetown and had dinner at the Victoria Hotel. In the evening they returned to the groom's new home in Summerville, where a reception was held, about seventy invited guests, including Rev. P. D. McGuigan, were present. The house was tastefully decorated for the occasion. The bride was the recipient of many beautiful gifts, as she was tendered a miscellaneous shower, before her departure from U. S. A., at the home of Mrs. M. Kennelle, Melrose, Mass., and another a week previous to her marriage at the home of Mrs. Harold Dunn, Summerville. The groom's gift to the bride was a diamond ring, to the bridesmaid a string of pearls, and to the groomsmen gold cuff links. Their numerous friends wish Mr. and Mrs. Hynes many happy years of wedded bliss.

COLDS COST MONEY FORTIFY YOURSELF AGAINST COLDS, GRIPPE DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

The Public Forum This column is open for the discussion by correspondents of questions of interest. The Charlottetown Guardian does not necessarily endorse the opinions of correspondents.

HOME READINGS Sir,—Some time ago you suggested that families and friends should meet in the evenings to read and discuss the works of those who are recognized as the best authors of English literature. I am glad to hear that your suggestion is being adopted in some communities throughout the Province. As a means of mental culture and social uplift such meetings and readings are second only (if second) to our schools. Intelligent young people, whose parents or friends cannot afford to send them to college and who are employed in farm or household during the day, cannot do better than sit around the table in the evenings to read the best and most interesting books available in prose and poetry. Fortunately there is no part of our Province in which such books cannot now be easily obtained at little cost. The tendency of the youth of these days is towards rather rough fun and frolic. Yet there is a saving remnant whose desire is for higher and better things, and I am glad that your suggestion is being adopted by them. I am, Sir, etc. WELL-WISHER Charlottetown, Nov. 8, 1927.

PRIZE COMPETITION Sir,—The number of prizes won this year by P.E. Islanders at the Amherst, Toronto, Fredericton and other exhibitions will, without doubt, encourage farmers and stock raisers throughout this Province to go on toward perfection in respect to their products. It is now known, it has been demonstrated, that P.E. Island farmers can compete successfully with those of the most advanced of the other Provinces of Canada. There ought to be no feeling of mere pride on that account; but rather a general and active desire on the part of all our farmers to cultivate breed and feed for the production of the very best. As Denmark is to Europe, so may P.E. Island become to Canada and the North American Continent at large. This province may be a centre of interest to Canadians and Americans who are ambitious to improve their products and who are ready and willing to pay high prices for seeds and breeds by which to do so. Farmers and breeders here who have "what's wanted," will consequently in the future have no difficulty in disposing of their surplus, in each year at profitable prices and so enriching themselves and their province. I am, Sir, etc. AN OBSERVER Charlottetown, Nov. 9th, 1927.

A PROTEST Sir,—Premier Saunders is not, it appears, in accord with his brother Premiers of Eastern Canada in respect to changes in our Constitution. He is, with some of the Premiers of the West, in a demand for liberty to be altogether independent of the Mother Country and for the right to make any change in the Constitution of Canada which the majority in power in Canada, at the time, may deem to be expedient. The wisdom of the Fathers of Confederation—if they are to have their way—to go for nothing, the constitutional tie which binds Canada to the British Commonwealth of Nations is to be cut. We are to be free, and in time of danger to depend wholly upon the good will of the government of the great Republic.

CLOTHE FOR WARMTH LONDON, Nov. 8.—Air is the warmest kind of garment, the Institute of Hygiene declared in holding an exhibition of clothing and garment materials from antiquity to the present day. The Institute pointed out that it meant cloth should be made so that it holds air. Such cloth will have two advantages: It will ventilate, and it will warm better than closely woven cloth. The curlier the wool is, the better it is in this respect, the experts declared.
