Notes From Boston

Guardian Special).

Arthur Brisbane, one of the foremost American writers on current and timely topics, describes a dinner recently given at a function in the Ritz-Carlton Hotel, New York City. Melon, large and red, cold chicken jelly with tomato in it, baby lobster taken out of the shell, chopped fine and put back again. Young Guinea hen with four kinds of vegetables, plate of fat goose liver and truffles and calves foot with jelly shivering on top or it. Lettuce salad with choice goose liver, ice cream, white and dark shaped like a shell fired from a gun, another kind of ice cream and fresh ripe figs soaked in rich fruit syrup served with the ice cream. Plenty of cup made from cider, with fruit and mint and slices of oranges in it.

The above is a very good dinner, indeed, and a good breeder of the germ of Bolshevism, social unrest, anarchy, strikes, highway robberies and general profiteering. Fried pork, hake with plenty of butter, boiled calicoes with their jackets on, a cup of tea with a good fistful of home-made bread and butter would very likely be more conductive to good, sound, intelligent thinking.

I saw a young man (an eighteen dollar a week fellow) go up town a few days ago, he paid eight dollars for one shirt, three dollars for a pair of socks, two dollars for a necktie. This left him two dollars to provide for good fuel and rent. The public and Mr. Consumer are largely to blame for our present high prices; they simply want to get rid of their earnings by the airplane route.

This reminds me of the new airplane called the "Texas Wild Cat" whose owner and designer makes the claim it can attain the wonderful speed of three hunired miles per hour. A man with such a machine could start from the tip of East Point at sunrise, scout along in a straight line for Kildare Cape, make a landing there, wake up his mother-in-law, kiss her in good terms, say goodbye to her, start his machine again, take a whirl over the Magdalene Islands, get a feed of lobsters, skip back again to starting point and be on time to start the hay cutter about the time the dew is risen from the grass and white daisies.

The airplane is still only a creeping baby; when it reaches speedy youth a man and wife can take their modern air cutter, leave the shores of P. E. I., come to Boston, do their shopping, take in a cabaret show, return home and be on time to milk Bossy and get the kindling before sunset, and incidentally, call us by wireless telephone to inform us they arrived safely in Souris.

A woman by the name of Blair about a year ago took her little boy down to one of the piers that stretch out into the ocean at Atlantic City, N. J., tossed him madly and wildly over the pier into the angry, surging ocean. The boy's body was found next day, the mother was arrested. It has been recently discovered by clever medical men that the mother was insane from absorbing poisons into her system and blood, that generated in the mouth from improper care of the teeth. The teeth and mouth are no doubt, the breeding pens for many of our high pedigreed diseases. Medical Science is proving it day by day and the good, honest doctors are also proving that pills, powders and pillets never cured the measles, chiblains or mumps. Keep the mouth and teeth clean by all means.

I see that our clever Ponzi stretched his magic paw across the Straits of Northumberland and scooped up a few hundred dollars from the land of foxes and pretty women. Ponzi fooled the public, and that took in bankers, lawyers, doctors, dishwashers, coal heavers, teamsters, misers and hog reeves; and, if I can guess right, he also fooled Ponzi. He will go to jail, but that won't help the poor people he made dupes of. If a new venture started tomorrow with fresh bait, the silly fish will nibble again and get hooked up by the gills, and get strung on the Ponzi gad.

I notice a good many of your good-looking girls on P. E. Island want to be stenographers, nurses, and typists. These vocations are going into the scrap heap as far as p[illegible] goes. Why not take up bread-making, meat-cooking, trouser mending and keeping gallus in order? There is a wide field in these lines of endeavor for ugly ones, as well as the good-looking. There are plenty of jobs of this nature for all, if they will only use a little diplomacy and plain common sense. Hunt up the employment manager, he is looking for you and he sleeps with his weather eye open. Girls, both young and old, please make a mental note of this first of al lbe sure you know how to keep the galluses in order and buy your fall bonnet before the prices goes down.

JOHN D. McINTYRE.

Minard's Liniment for Burns, etc Lachute, Que. 7oth. 1918.

Minard's Liniment Co., Limited.

Gentlemen,—Ever since coming home from the Boer war I have been bothered with running fever sores on my legs. I tried many salves and liniments; also doctored continually for the blood, but got no permanent relief, till last winter when my mother got me to try MINARD'S LINIMENT. The effect of which was almost magical After two bottles the sores completely disappeared and I have worked every working day since.

Yours gratefully,
JOHN WALSH.

You can't always tell a milk train by the cowcatcher.

Every family tree has more or less dead wood.

"A skin you love to touch"

You, too, can have this charm

No matter what other charms you have, they count for little unless you have the greatest of all charms—a clear, fresh skin.

An authority on the skin has said: "Whatever your difficulty is, you *can* remedy the trouble, if you will only give your skin intelligent care and attention."

The following treatment brings the blood to the surface and stimulates the small muscular fibres. Begin it tonight and see how it will improve your skin.

Just before retiring, wash your face and neck with plenty of Woodbury's Facial Soap and warm water. After rinsing your face with warm water, rub a fresh lather of Woodbury's into your skin, using an upward and outward motion. Do this until the skin feels just a little sensitive. Then rinse the skin well in warm water, then in cold, finishing by rubbing for thirty seconds with a piece of ice. Always be careful to dry the skin thoroughly.

Make this treatment a regular habit, and in a much shorter time than you would imagine, your skin will take on the greater loveliness that it can have.

Get a cake of Woodbury's Facial Soap and begin tonight the treatment your skin needs. You will find Woodbury's on sale at any drug store or toilet goods counter in the United States or Canada. A 25 cent cake will last a month or six weeks.

PROMOTION FOR PRINCE EDWARD ISLANDER

(The following is taken from the "Oregonian" of Portland, Oregan:— Mr. McLean is a brother of Mr. A. A. McLean of Ottawa and formerly of Charlottetown.)

Announcement was made yesterday of the election of Charles A. McLean to the position of vice-president of the Ladd & Tilton bank. The election took place at the regular meeting of the board of directors of the institution held September 2, and the new official, now manager of the Seattle branch of the federal reserve bank will enter upon his new duties October 1.

With the addition of Mr. McLean to the roster of its officials, the Ladd & Tilton bank will have four vice-presidents. Owing to the rapid growth of business and plans for further expansion, enlargement of the official family was deemed essential in carrying forward the programme of the organization.

Mr. McLean is thoroughly familiar with the inland empire territory through long connection with institutions in Spokane, and has an intimate knowledge of banking affairs in the western section of that state as well as throughout the district by reason of his service in the federal reserve bank. He began his banking experience at Charlottetown, Can., in 1892, with the Merchant bank of Prince Edward Island.

IN 1897 he became endeared with the Traders National bank, of Spokane, with which institution he served with the exception of six months, until it was consolidated with the Spokane & Eastern Trust Company in 1914.

The six months was occupied as cashier of the Farmers & Mechanics bank of Spokane. Starting as bookkeeper in the Traders National. He worked up to the position of cashier in 1908, and retained that position until 1914, when he resigned to become examiner of the Spokane clearing house association.

When the Federal Reserve bank opened its Spokane branch in July, 1917, Mr. McLean was selected as manager. He remained in that position until March, 1920, when he was transferred to Seattle as manager of the branch bank in that city.

A New Character

When, four years ago, KING COLE ORANGE PEKOE TEA first appeared, something more than a *new tea* had been produced—a *new character* in tea had been created. Only after most searching experiments in flavor-blending were we at last able to develop that *peculiarly mellow richness of flavor* so delightful to the taste, which has won for KING COLE ORANGE PEKOE the high place it holds. The total annual sale of KING COLE ORANGE PEKOE has *doubled twice* in the last two years.

We are confident that you will say that it is *different* to any tea you ever tasted.

"THE *EXTRA* IN CHOICE TEA"

Prized by Men of Action

THE hunter or trapper—the outdoor worker—the business man who, in cold weather, takes delight in a brisk, bracing walk to and from his place of business.

To all men who love healthy exercise ATLANTIC UNDERWEAR makes a strong appeal.

The weighty, chill resisting fabric from which it is knitted; its correctness of cut, ensuring absolute comfort to the wearer; and its moderate price makes it unique among winter underwears.

Sold in five different weights and qualities. Each line is guaranteed to be the best value of its class.
