

Central Guardian

THE W. M. S. of the Presbyterian Church at Preetown will hold their Thank Offering service in Birch Grove Hall, Sunday Nov. 21st, at 3 p. m. Rev. Frederick Williamson will conduct the service. Everybody welcome.

THANK OFFERING SERVICE.—The W. M. S. of Long River Presbyterian Church will hold their Thank offering service Thursday evening, November 18 at 7.30. Rev. Mr. Williamson, Rev. R. H. Stavert and Rev. J. C. Harrison, will be present. Special music.

MARSHFIELD.—Preparatory Service will be held in the Marshfield Baptist Church, Friday evening, Nov. 19th at 8 o'clock. Communion Service will be held Sunday, Nov. 21 at 3 o'clock. Rev. W. Bruce Muir will conduct both services.

WELL KNOWN RESIDENT.—News was received in this city last night of the death of Miss Mary A. Wilson, daughter of the late William Wilson of West River, at the home of her niece Mrs. James McKinnon, Rollo Bay. Funeral takes place Thursday morning at Rollo Bay cemetery. May her soul rest in peace.

DEAD AT 24.—Lovers of horses here, says the St. John Times-Star will regret to learn that a noted Clydesdale gelding owned by Thomas Barrett, of East Saint John, is dead, at the age of 24. This horse won a special cup, donated by the Bank of New Brunswick and valued at \$200, at the Dominion Exhibition here in 1910. John, as the horse was known, won over a big field, taking first place for general purpose and agricultural horses. He was raised on Prince Edward Island and was eight years old at the time he won the cup. At the time of the award, another exhibitor took the judge to task for giving John first place over this entry. The judge, who was Mr. Standish, of Ottawa, replied, "Your horse will be under the sod many years, while this horse will continue to give good service." The judge's words were borne out.

INSIDIOUS EYE STRAIN

We use this adjective advisedly. Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any eye defect.

The motive power of the entire human organism is Nerve Energy. Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eye-strain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy may seriously affect the functioning of other organs of the body, and produce ill health.

Thousands Converted To New Pain Relief

Through ignorance, many have suffered aches and pains, long thought incurable. But doubt quickly turns to belief when sciatica, lumbago and neuralgia are healed with Nerviline. Its soothing, healing powers are really wonderful. Nerviline sinks in quickly; it penetrates into the sore muscles and brings grateful relief. The hundred and one minor ills that come to every family yield quickly to Nerviline. Try it. 35c at all dealers.

Do You Know How to Buy "B" Batteries

Out of the multitude of "do's" and "don't's" which tend to confuse the radio owner, three simple rules for buying "B" Batteries may be followed with confidence born out of the experience of the leading engineers of the radio industry and thousands of set owners. On 1 to 3 tubes—Use Eveready No. 772. On 4 or more tubes—Use the Heavy Duty "B" battery No. 770. On all but single tube sets—Use a "C" battery.

EVEREADY Radio Batteries—they last longer. Manufactured and guaranteed by CANADIAN NATIONAL CARBON CO., LIMITED

Hunter River And Vicinity

Miss Dorothy Teed has returned to her home in Charlottetown after spending the week-end with Miss Esther D'xon.

Mr. and Mrs. Donald Andrews were visitors to the city on Tuesday. Mr. Andrews attended the Liberal Convention. Others from here attending were Messrs. John MacLeod of P. J. No. 1 and Co., A. B. Cutcliffe and D. M. MacLeod.

Mr. and Mrs. Jas. E. Andrews left on Wednesday morning for New Hampshire and other States where they will spend the winter among friends.

Mr. and Mrs. A. B. Cutcliffe motored to Springfield on Sunday and Mr. and Mrs. Murdoch Cutcliffe spent the day with friends in Fredericton.

Mr. William Watts and family, Hampshire have removed here and taken the house owned, and until recently, occupied by Mrs. Rodgerson.

Recent visitors to the city included Mr. A. Silliphant, Mrs. J. W. Patterson, Mrs. Willard Sellar, Mrs. J. MacLeod, Mrs. R. H. Campbell, Mrs. William McMillan, Mrs. Allan Wyand, Mayfield; Mrs. Geo. S. MacLeod, Fredericton.

The annual Sunday School Convention in connection with the Maritime Religious Education Council was held in the United Church here on Friday, Nov. 12. There were both afternoon and evening sessions at which Mr. D. M. McDonald, the President of North West Queens district presided. Rev. R. H. Baxter, the local pastor and Rev. David Abbott, Bradalbane were present and took part in the service. The Conference in the afternoon was led by Rev. Waldo C. Machum, Field Sec. St. John, who also addressed the evening meeting on "The Value of the Child in Religious Education" and showing how the child presents to the church today the greatest opportunity. During the business routine, the following officers were appointed for 1927: President, Mr. Hugh F. McKay, Bradalbane; Vice-Pres: Mr. D. M. McDonald, Hunter River; Sec. Treas.: Miss Margaret Coburn, Bradalbane; Children's Sec.: Mrs. (Rev.) R. H. Baxter, Hunter River.

HOLDS OUT NO HOPES OF WORLD WHEAT POOL. CALGARY, Alta., Nov. 17.—No hope of a world wheat pool under central management was held out by H. W. Wood, United Farmers of Alberta president, on his return from Australia and the Orient today, but he did declare that the pool system would be world-wide and dominating in separate grain marketing operations. The Australian pool will be said ultimately achieve the fullest measure of success despite many difficulties that they have to contend with there, difficulties not met with by the Canadian organization.

The ladies of the W. M. S. of the United Church are to be heartily congratulated on the success of the Home Cooking Sale held on Saturday afternoon in the store of Messrs. Cutcliffe & Cutcliffe. A large and tempting array of good things to eat was supplied by the members and those in charge found it difficult to supply the demand. The auxiliary is sincerely grateful to Messrs. Cutcliffe & Cutcliffe for the use of their store and to other courtesies extended, and to all who so kindly assisted in any way making the affair an unqualified success.

Mrs. Green, Hampshire, has returned to her home in Hampshire after spending the week-end with her parents, Mr. and Mrs. Donald Andrews.

EGG LAYING CONTEST

NOTES ON THE 9th PRINCE EDWARD ISLAND EGG LAYING CONTEST, FOR THE WEEK ENDING NOVEMBER 14, 1926.

Eight pens have contributed to the total of 64 eggs for the past week. Two other pens have started but the pullets eggs are disallowed on account of being under 20 ounces.

The Community Hatchery lead for the week with 11 eggs. The Experimental Station pens were second and third with 10 eggs and 6 eggs respectively. Mr. Charles McKenna's and Mr. M. Cutcliffe's tied for fourth place with 4 eggs each. Mr. H. C. Muttart was fifth with 3 eggs and Mr. Harold Laird was sixth with 2 eggs.

The Community Hatchery leads the Contest to date with 19 eggs, (13.4 points), Experimental Station Barred Rocks are second with 16 eggs (9.6 points), Experimental Station White Leghorns are 3rd with 11 eggs (6.6 points), Mr. Charles McKenna's are third with 7 eggs (7 points).

The total number of eggs laid to date is 64 eggs, with 44.9 points. The number of eggs disallowed 55.

Erect Aquarium As Memorial

CHICAGO, Ills., Nov. 16.—An aquarium, to stand in Grant Park Chicago's downtown lakefront playground, as a memorial to the late John G. Shedd, chairman of the board of Marshall Field & Company, will be under construction in the spring. Major phases of the plans for the \$3,000,000 project have been announced.

The structure, for which Mr. Shedd increased his gift from \$2,000,000 to \$3,000,000 shortly before his death last week, will be of Greek architecture. It will be octagonal in shape, 300 feet in diameter and 100 feet high.

Can't Eat Acid Foods, Too Much Gas

"I suffered from gas and acid stomach, and could not eat anything that contained acid. Since taking Adlerika, I feel fine." James Fest.

Adlerika gives the system a REAL cleansing and brings out old poisons which may have caused trouble for a long time. Unlike upper and lower bowels. Just one spoonful relieves GAS and takes away that full bloated feeling so that you can eat better and sleep better. Even if bowels move daily, Adlerika brings out much additional poison which you never thought was in your system and which caused sour, gassy stomach, nervousness, sleeplessness, headache. No matter what you have tried for your stomach and bowels, Adlerika will bring you. Hughes' Drug Co., Ltd., and other druggists.

Islanders on Tour

The following interesting letter has been received by Mr. F. R. MacLaine of the MacLaine Garage, this city, from Mr. H. E. Croshaw of Bonshaw, Mr. Crosby accompanied by his wife left Charlottetown about two months ago on a motor trip to the Pacific Coast, and in the following letter recounts some of his experiences:

Portland, Oregon Oct. 25th, 1926

Dear Mr. MacLaine, I intended to write you an arrival here but seemed pretty busy somehow. Well I had a splendid trip and the little Overland behaved beautifully, rolled into Portland, working just as smooth as oil.

The speedometer registering 4,671 miles from Charlottetown. We settled over all kinds of roads. In Iowa the dirt roads were awful, one stretch of 26 miles taking 3 1/2 hours to negotiate. There was over 30 cars in the procession, and the little car swam and wallowed through it with the best of them. Reached Denver Colorado with the speedometer registering 3003 miles and not even a flat tire, and no engine trouble. We left Denver (3 in the party) now for Portland. Did not take the usual route by Cheyenne, Wyoming which has the Lipcon Highway and is comparatively level, but went through a new mountain road over the Cameron Pass opened for traffic in July, 10,300 feet and Rabbit Ear Pass almost 10,000 feet high. Encountered snow in both passes. The mountain scenery is perhaps the grandest and wildest in U. S. A. The climbing and winding up on the sides of the Rockies was hair lifting in places. One time on the summit of the Cameron Pass we encountered a fall of rock. We tried to move it but could not, it measured the distance from the brink and found I had about a foot to span to, and I made passage successfully. One lock over and I felt I saw all the scenery I wanted in that locality. I had my first flat tire just after I came down over Rabbit Ear Pass, and was entering Steamboat Springs a small town in the Valley, a slow leak from a tack. After several days of mountain roads we got again on paved road 50 miles south of Salt Lake City. We rested in Salt Lake City for a day or two and then started on the last lap of our journey through Utah, Idaho and Oregon. Some of the roads through Utah and Idaho are very bad but Oregon roads were beautiful especially the Columbia Highway into Portland over the Old Oregon Trail. I think that it was a record trip when you consider the roads and country the little Overland came over, and the small amount of trouble. No blowouts, no engine trouble, flat tire 3 times resulting from tacks picked up. I drove the entire distance, though I might have been relieved at the wheel on several occasions. I intend going up to Vancouver in a few weeks about 300 miles from here. But will have a paved road all the way. Hoping this finds you and Joe doing a flourishing trade at the MacLaine Garage.

Yours H. E. CROSBY

Railwaymen Convene In Montreal

(Canadian Press) WINNIPEG, Nov. 16.—Ninety representatives of conductors, trainmen and yardmen employed on the Canadian Pacific and Canadian National railway systems in western Canada will leave for Montreal Saturday to attend a Dominion-wide conference of union delegates. Announcement will be made at the conference of the strike vote now being taken in protest against the rejection of a wage increase by a conciliation board to which the dispute has been referred.

Mrs. CELIA DENNIS

The sad news was received by wire of the death of Mrs. Celia Dennis on Nov. 3rd, 1926 at Kerrville, Texas. Mrs. Dennis was formally Miss Celia Inglis of O'Leary, P. E. I. but resided for a number of years in the U. S. A. Mrs. Dennis suffered a great sorrow when on Dec. 24th, 1923, her husband was accidentally killed in New York City. She never seemed to fully recover from the shock and shortly afterwards developed heart trouble, which gradually grew worse until she passed away on the above date at the early age of 35 years. More than a year ago, thinking a change of climate would improve her health, Mrs. Dennis moved to Shreveport, La. where her sisters, Mrs. C. E. Britt and Mrs. Spencer Eanford reside. These two sisters did everything

American Watches Slow Down in English Air

LONDON, Nov. 16.—American visitors to England must set their watches ahead at least three minutes as soon as they land because of the effect of the enervating climate on the works. Many visitors find it necessary to adjust their watches at least twice a week.

Inquiry among watch makers disclosed that change of altitude was more likely to affect watches than change of temperature. "It is likely however that the watches of American visitors, used to a dry crisp climate find London a trifle enervating and react accordingly," one manufacturer said.

Editor Writes News Heads In Rhyme

WEBSTER, S. D., Nov. 16.—There is an editor in Webster who has connived with the muses. Will A. Wells, of the Journal, writes his heads in rhyme.

For all ordinary stories, Mr. Wells uses a rhyming head of three decks a single cross-line, followed by two pyramided lines. Where a head in verse is not appropriate Editor Wells resorts to a prose caption which flows in continuous thought.

When the owner of an illicitly operated still was arrested, the Journal said: "A great big still and a hot gin mill, were found the other day—Sam and Sol made quite a haul, and put the man away." At the beginning of school: "The class of 1939, a bonny bunch of kiddies fine—The start to school, which is the rule; you ought to see their faces shine."

U. S. PLANS TO DECIMATE LAST HERD OF BUFFALO

SALT LAKE CITY, Nov. 17.—Once more civilization is taking its toll of the American buffalo—this time reaching across a stretch of water so salt that Mother Nature with all her wiles and with her million forms of life could not produce a body hardy enough to live in it—a stretch of water so salt that ordinary boats become top-heavy and useless in it—a stretch of water so salt that man cares nothing for it except to gather the mineral residue from along its shores.

More hunters have signed up to participate in the virtual eradication of the animals than there are animals, available, but not more than twelve will be allowed to participate at one time. Only 25 buffalo of the herd of 350 will be left alive. The Antelope Island herd was gathered in the early 80's by William Glassman.

The buffalo are being killed because the owners have grown tired of the expense of keeping them and because the general public has never shown any special appreciation of the fact that a herd was being maintained in such an ideal place.

In eight or ten years the buffalo herd will be back up to about 100 head, it is predicted. possible to comfort her and stay the messenger of death. A short time before her death, Mrs. Dennis wished to take a trip to Kerrville, Texas, hoping to benefit in health. Hearing she could not survive the trip, yet wishing to grant her every request, Mrs. Britt accompanied her on the journey. The burial of Mrs. Dennis took place in Shreveport, La., on Nov. 7th. Mrs. and Joe doing a flourishing trade at the MacLaine Garage.

ITCHY ECZEMA ALL OVER FACE

In Pimples and Blisters. Healed by Cuticura. "Eczema broke out in pimples and blisters and spread all over my face. It itched and burned causing me to scratch which made it worse. I could not sleep on account of the irritation, and could hardly talk because the sore eruptions were all around my mouth. The trouble lasted several months. "I tried everything I could get but nothing helped me. I began using Cuticura Soap and Ointment and got relief. I continued the treatment and in about eight weeks I was completely healed." (Signed) Wm. J. Romanchuk, Samburg, Sask.

FREE ALCO-METER SERVICE

All Maple Leaf Dealers give Alco-Meter service free. Have your mixture tested once a week or oftener. It only takes a few minutes.

CANADIAN INDUSTRIAL ALCOHOL COMPANY LIMITED Montreal Toronto Corbyville Winnipeg Vancouver

7 out of 10 doctors said laxatives are harmful. Doctors Advise Nujol. Unlike Laxatives Laxatives and cathartics actg irritating the intestinal tract. They cause the bowels to frantically expel the contents of the intestines and thus rid the system of the drugs that pills and potions contain. Nujol acts entirely differently. It contains no drugs, no medicine. Its action is mechanical. It merely softens the dried waste matter in the intestines and lubricates the passage so that the muscles of the bowels can expel the waste matter regularly, naturally and thoroughly.

Bring the Kiddies in. "Children, don't get your feet wet"—but boys and girls, playing and romping, do not always heed the warning. Wouldn't it be wiser to bring them to our store, and let us fit them with NORTHERN rubbers, overshoes or goloshes? Wearing them, the kiddies can't get their feet wet if they try! THE NORTHERN RUBBER CO. LIMITED. DISTRIBUTORS BRADY FOOTWEAR CO. FOR SALE BY ALL FIRST-CLASS SHOE RETAILERS THROUGHOUT PRINCE EDWARD ISLAND.

SCIENTIFIC RADIATOR PROTECTION. LET THE SERVICE MAN SHOW YOU. Dealer: "It's the only scientific freeze protection there is, sir. With the Alco-Meter and this chart any Maple Leaf Anti-Freeze dealer can tell you at any time exactly what degree of frost your mixture will withstand, and the exact amount of Maple Leaf required to give you the protection you wish." START early with MAPLE LEAF ANTI-FREEZE and ALCO-METER service—the safe, economical, worry-free, SCIENTIFIC RADIATOR PROTECTION against freezing. Experimenting with Anti-freeze mixtures of unknown ingredients is dangerous. You should know what the mixtures you buy contain, remembering that Calcium Chloride, Chlorin, Saline, Kerosine and other chemical solutions are in the car wrecking class and mean huge repair bills in the spring. If your dealer can't or won't tell the ingredients of the Anti-freeze he is selling, he is asking you to take chances with your car and does not deserve your patronage. Be safe and sure. Insist on MAPLE LEAF ANTI-FREEZE. All dependable dealers and filling stations sell MAPLE LEAF and give ALCO-METER service free. Sold at all leading Garages and Service Stations.
