Some nine or ten witnesses, mostly all boys, who had been keeping company with the accused, were examined, but the evidence was conflicting, and not strong enough to connect him with the stealing and e was therefore discharged.

His many friends will sympathise with A. E. McEachen the well known shoe dealer, Queen St., in the loss of his son Harold. He was a bright manly little fellow and a great favorite with everybody, about six weeks ago, he slipped on the ice and fell striking his head with great force. Nothing serious was anticipated at the time, but it appears the result of the shock was to bring about, the terrible malady from which the little fellow who was in his ninth year, suffered so much. Death ended his sufferings yesterday morning. His funeral takes place this afternoon at 3.15 from his fathers residence 61 Pownal St. The magnificent display of floral offerings testify to the popularity of the little chap. The pall bearers will be six of school companions, Fred Kelly, Wilfrid Maddigan, Wm. Purcell, Wm. Byrne, Cyril McDonald and C. Arsenault.

The following note which we have received from a thoroughly reliable source, ought to open the eyes of girls from country homes, as well as their unsuspecting parents, to the snares laid for the innocent by deceivers and seducers in our cities:

"One evening last week a nice looking girl from the country arrived in Halifax by train. A stranger and alone she fortunately asked information from a railway official. He asked her where she wished to go, when she produced a piece of paper on which was written in a good hand without a signature the street and number of one of the gates of Hell. The girl had evidently no idea of the kind of place to which she had been directed, and to which she might have gone had she sought information from another than the gentleman to whom she spoke. He asked her if she had any luggage. She said no, she had been told that the people of the house would provide her with clothes.

The official promptly sent her to Mrs. Egan, the faithful and large hearted agent of the S. P. C. So this girl, for the time at least, was delivered from the snare. When will decent people in the country awake to the danger, and cruelty, of sending girls unguarded to the city?"

A meeting of the executive of the New Haven branch of the Liberal Association was held at the residence of Hugh McMillan on Saturday evening, the 20the ult., H. McMillan, convener, presided. Nearly ll the members were present. The object of the meeting was to appoint a new convener in the place of Mr. McMillan, who was about to take his departure from the poll to his new home in Cornwall. It was moved by J. G. McFadyen and seconded by James Wynne, that the hanks of the meeting be tendered to Mr. McMillan for the very faithful manner in which he discharged his uties as convener of New Haven Poll for the last number of years. The motion was carried unaminously. In reply, Mr. McMillan thanked them for their very kind words, and assured them that any time his services were needed at New Haven that he would very willingly come and help along the cause of Liberalism, which stands for good, honest and economical government. It was then moved by James Wynne and seconded by William Auld, that Angus McPhee, of New Haven, be convener. The motion carried unanimously. After partaking of a sumptously lunch repared by Mrs. McMillan and daughter, the meeting closed.

SPRING BLOOD IS BAD BLOOD

How Best to Get New Health and Strength in Spring.

The winter months are trying to the health of even the most robust. Confinement in-doors in the over-heated and nearly always badly ventilated rooms—in the home, the office, the shop and the school—taxes the vitality of even the strongest. The blood becomes thin and watery or clogged with impurities. Sometimes you get up in the morning just as tired as when you went to bed. Some people have headaches; others are low spirited; some have pimples and skin eruptions. These are all spring symptoms that the blood is out of order. You can't cure these troubles with purgative medicines, which merely gallop through the system leaving you still weaker. What you need to give you health and strength in the spring is a tonic medicine and the one always reliable tonic and blood builder is Dr. Williams' Pink Pills. These Pills not only banish spring ills but guard you against the more serious ailments that follow, such as anaemia, nervous debility, rheumatism, indigestion and kidney trouble. Dr. Williams' Pink Pills make new, rich blood which strengthens every nerve, every organ and every part of the body. Try this medicine this spring and you will have strength and energy to resist the horrid heat of the coming summer. Mr. J. R. Johnson, Loch Broom, N. B., says :—"Some two years ago I began to feel that my constitution was weakening. I could not stand any exposure or knocking about. I finally sought the aid of a doctor who said my system was very much run down, and that the trouble might end in nervous prostration. As his medicine did not help me I decided, on the advice of a friend, to give Dr. Williams' Pink Pills a trial. I had used less than a half dozen boxes when my health was fully restored, and I think no other medicine can equal these Pills when one is run down and out of health."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Mr. nd Mrs. Huestis will live in the room's residence on Torrance Aveune Mr. Huestis, above referred to, is a native of Albany and now a successful contractor and build?r of Leithridge.

Marshfield, April 3rd.

The meeting of the Marshfield Farmer's Institute which was held in Heartz's Hall on April 1st at 7.30 was a very interesting one from start to finish. The President, W. Godfrey called the members to order, and the minutes of the 29th inst were read by the secretary and on motion adopted. The procurring of seeds occupied the first half hour and following this the Poultrymen had the floor.

J. W. Ryan, President of the P. E. I. Poultry Association, was the first speaker, and ably defined its object among other things stating that the poultry farmers were the originators of the organization, and that when joining themselves together they had a practical point in view, which is till held, namely the establishing of standard bred poultry in P. E. I. the tandard bred hen being a much better layer than the cross breed, has more vitality, and is of a far more lasting nature, which points an absolutely essential to successful breeding.

The system of score judging was then defined by the learned lecturer and following this he estimated that the profit from one hundred hens was equal to five acres of potatoes, and that they were capable of yielding one hundred per cent profit to the owner.

The definition of an uptodate hen house was given, and Mr. Ryan stated that this kind of a building should have nothing but a cotton door, a floor perfectly dry, and covered with about six inches of but straw, on top of which 3 inches of sand should be placed. This with careful feeding could not but produce good results.

The farmer, he continued was the most practical man on the face of the earth and the time must come when he followers of this profession would e obliged to cooperate for their mutual benefit. In conclusion he extended hearty invitation to all the members of the institute to join the P. E. Poultry Association.

C. B. Thorne, a director of the aritime Poultry Association spoke bout the Monorco breed of hens, and he advantage of the trap nesting ystem as a special factor in the improving of the breed. He also showd that the standard of the egg record could be raised if the male deendant of a family of even an one undred egg strain was mated with pullet of an equal family reputation, as the offstring would be still more valuable.

G. Lightizer, dealth with the Winecoote Breed, stating that this breed was the best to keep for the reason that this fowl was an earlier maturing bird, and a first class layer, being better in the second year than in he first. In conclusion he described his own hen house as being one with an open front, of one inch wire netting. This and good feeding would make hens lay all the winter.

A hearty vote of thanks of the Institute was tendered by the President to the good friends from the city for their kindness in coming and the excellence of their most instructive and njoyable addresses.

Back strained by heavy lifting

Lay Helpless in Bed for Four Days, Crippled, Suffering Agony and Torture

"While engaged with a large construction company," writes Amos E. Wilbur, from Concord, "I wrenched my back while lifting a steel beam. I realized at once that I was hurt, but finished the day out. I was so lame when I reached home that my wife insisted on my going to bed. I applied poultices, hot water bags and other remedies, but at the end of the fifth day my suffering was more intense than at first. A fellow workman brought me a bottle of NERVILINE, and rubbed my back twice during the evening. This gave me relief. Rubbing with Nerviline was continued the next day, and by night I was much improved. Nerviline must have penetrated right into the muscles that were sore, because it took out the stiffness, cured the pain, and had me well in four days' time. Of course, to strengthen my back, I put on a Nerviline Porous Plaster and find it a wonderful help to a working man."

Not a liniment on earth today that compares in pain-subduing, healing and curing power with Nerviline. Fifty years record has established its unusual merit. Look out for the substitutor, insist on "Nerviline" only. Large 25c. bottles at all dealers.

The Blood is the Power That Defends the Body

This is the greatest and most important discovery of modern medical science.

It ranks with the discovery of the circulation of the blood, which was made centuries ago.

The blood protects the organs and tissues from disease, but it does so only when it is healthy itself.

Healthy blood is pure blood, and at no season is it more necessary than

In the Spring

when there is so much exposure to disease germs.

Hood's Sarsaparilla makes healthy blood.

It is the medicine that purifies and enriches the blood and makes it normal in red and white corpuscles and all other constituents.

It cures all humors and eruptions, catarrh and rheumatism, relieves that tired feeling, restores the appetite, cures paleness, weakness, nervousness, and builds up the whole system.

"I have taken Hood's Sarsaparilla for a great many years, and I think it the

Best Blood Medicine

in the world. I use it both spring and fall.

"This last winter and spring I was in very poor health.

"I was weak and had lost all my appetite and I was all run down. As soon as I began taking Hood's Sarsaparilla my strength came back and my appetite returned.

"I am now a well woman and can go about doing my household duties. I no longer have that tired feeling." MRS. MARION BRUCE, Cumberland, Me.

Hood's Sarsaparilla effects its wonderful cures, not simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than 20 different ingredients, each greatly strengthened and enriched by this peculiar combination. These ingredients are the very remedies that successful physicians prescribe for the same diseases and ailments. There is no real substitute for Hood's Sarsaparilla. If urged to buy any preparation said to be "just as good," you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

Begin taking Hood's Sarsaparilla today. 100 Doses One Dollar.
