The Beauty Of Health

Newspapers and magazines are devoted columns to magic or overnight beautifiers. There is a beauty in health that is far more attractive to men than mere regularity of features or a made-up complexion. Health should be the first essential of women who want to win and hold admiration, respect and love. At the first indication of ill health as indicated by dark circles under the eyes, a sallow complexion, headache, pain in the side, nervousness, irritability and melancholia, women should take Lydia E. Pinkham's Vegetable Compound, the standard remedy for women's ills, which has been proven to help 98 out of every 100 women who try it.
