We still have an abundant stock of Shur Gain Mixed Feeds and Concentrates. Canada Packers Shur-Gain Feed Service Mill, Kensington. 1-8-2i.

Quebec Villages Complain Of Noise

OTTAWA, Jan. 6 —(CP)—Train whistles and bells are annoying, and the little Quebec village of St. Hilaire, on the Richelieu River, has four stations, one level highway crossing and a swing bridge over the river—but it will have to put up with the noise.

The village applied to the Board of Transport Commissioners for consideration of the question of prohibiting the sounding of engine whistles, the ringing of bells and "other noises" created by the engines and trains of the Canadian National Railways.

The Board, in a judgment made public tonight, was sympathetic. "It will be seen that the residents of the village are in the unenviable position of being subjected to a most unusual amount of whistling," the judgment said.

"This would appear to be the case at anytime, but owing to the war traffic on the railway has greatly increased, and, consequently, intensified the amount of whistling with its accompanying discomforts."

But it appears there is no specific order which the Board can make to reduce the sounding of whistles, since there are statutory obligations to sound them. However, the Board's chief operating engineer has inspected the locality and is conferring with railway officials to see if any change of operations might be achieved which would lessen the annoyance to residents of the village.

Overseas Airmail Is Satisfactory

OTTAWA, Jan. 6 —(CP) —Defence headquarters said today the air transport mail service from Canada to Britain and the Mediterranean areas via R.C.A.F. and Trans-Canada Air Lines routes has been "very satisfactory."

The R. C. A. F. service, inaugurated about a month ago, operates from here to the United Kingdom, thence to Italy and the Middle East. Trans-Canada planes operate between Montreal and the United Kingdom.

Headquarters officers issued a reminder on what postage should be used to ensure fast delivery.

Rates of postage for mail to troops in the United Kingdom or Mediterranean are:-

Air mail, 30 cents per half ounce, blue letters, 10 cents; airgraphs, six cents and ordinary letters, three cents.

If there is space on the planes, some letters bearing three cents postage will be flown to the troops instead of being sent on surface vessels.

U. S. Built 65 Carriers In Year

NEW YORK, Jan. 6 —(AP) — United States shipyards, working at high speed and doubling the size of the navy in a year, built 65 aircraft carriers of all types in 1943.

James Forrestal, undersecretary of the navy, disclosed this record figure on carrier production today in a speech for a hospital fund drive.

The undersecretary reported that six 27,000-ton carriers of the Essex type were included in the total. In addition nine light carriers of the 10,000-ton converted cruiser type were built and 50 escort carriers were turned out. The escort carriers are the small ships which have been doing such a big job in beating off the Nazi submarine menace in the Atlantic.

Polish Premier In Broadcast

LONDON, Jan. 6—(CP)—Premier Stanislaw Mikolajczyk said in a broadcast to Poland tonight that a fully-organized Polish government exists underground in Poland, headed by a resident Deputy Premier answerable to the Polish Cabinet in London.

Speaking in connection with the Russian advance against the Germans across the Polish frontier, the Premier did not refer to the Polish-Russian disagreement over where that border may be but simply treated the whole disputed area as if it always has been and still is part of Poland.

"We should have preferred to meet Soviet troops not merely as Allies of our Allies fighting against the same common enemy but as our own Allies as well," said Mikolajczyk in the broadcast, made public by the Polish Telegraph Agency.

Regardless of how the territorial question is settled, however, he had this to say about the Soviet advance:—

"It inspires us with hopes of prompt liberation and brings nearer the moment of our final reckoning with the Germans, which will come irrespective to the political situation."

Soviets Do Not Welcome Talk About Borders

By Eddy Gilmore
Associated Press Staff Writer

MOSCOW, Jan. 7 — (AP) —The Soviets do not welcome any discussions from abroad or from foreigners here about Russia's borders.

The Russians consider that the borders of the Soviet Union are their own business and, as stated once before, are no more a subject for discussion by Americans than are the borders of California by the Soviets.

One is unable from here to say, of course, how much discussion there has been in the United States about these matters but there is no doubt that the Soviets consider raising the question unfriendly. The Soviets do not consider that the Red Army has moved across any frontier or border in advancing towards Sarny or other points in Rovno province—and their maps, which have been hanging on my wall since I arrived in this country in 1941—do not show any border there. I have two large maps, and the Polish border does not begin on either until a considerable distance west of where the Red Army now is fighting.

When the Red Army crosses that frontier, plenty will be announced in Moscow about it, but right now the fighting is regarded just as it has been—for liberation of the fatherland from the German invader.

Post-War Labor Problems Discussed

OTTAWA, Jan. 7 —(CP)— D.W. Foster, Associate Director of National Selective Service, expressed belief today that an "efficient" government employment service would do much to help solve post-war labor problems.

Addressing a meeting of the Canadian Restaurant Association, Mr. Foster said that in his opinion a post-war employment service modelled on present-day selective service, should be set up.

"We have solved a lot of manpower problems but we will be called on to solve a lot more of them," he said. "In future we will have 100,000 men after jobs, instead of jobs available for 100,000 men. Lots of people say "we won't let unemployment happen again,' but it can happen again.

"I think the best thing to do is to talk little about it and do as much as we can to avoid it.

"I think that maintenance of the present-day system of handling labor would do much to help solve the problems we are going to have to face."

Mr. Foster spoke before Kenneth W. Taylor, Foods Administrator for the Prices Board, told delegates Canada's 1944 food supply will be about the same as in 1943 but that there will be greater demand for available supplies.

Mr. Taylor said one-quarter of the manpower on farms prior to the war has joined the armed forces or entered war industries.

"Yet with three-quarters of pre-war manpower, farmers boosted their production 42 per cent. That is a remarkable achievement and I make that point to show that we cannot expect any great increase in production this year."

Gen. Smuts Sees This A Year Of Destiny

PRETORIA, South Africa, Jan. 7 — (CP — Reuters) — Prime Minister Smuts predicted today that this year "is going to be a year of destiny."

Addressing the Transvaal head committee of the United Party, Smuts said:

"Unless something unforeseen happens and unless we make some incalculable blunder, this year is going to be a year of destiny and of decisions which will affect the fate not only of South Africa but of the whole world for generations to come."

Chaplain Comments On Unfaithful Wives

WASHINGTON, Jan. 7 —(AP)— The unfaithful wife of a husband in service overseas, says Chaplain Major John S. Garrenton, is "the lowest thing I know."

Back on temporary leave after 22 months with the India-China wing of the Army Air Transport Command, Major Garrenton, a Baptist Minister, observed that marital problems claim an important place on the list of things which men in service discuss with their Chaplains, and commented:

"My own personal opinion is that the woman who has a husband overseas wading through hell sweat and blood and is playing around over here with another man is about the lowest thing I know. And the next lowest thing I know is the man who runs around with her."

Proposed Dominion Provincial Conference on Post-War Planning

OTTWA, Jan. 7— (CP)-Federal Government authorities expressed interest tonight in a proposal made today by the Ontario Cabinet that a Dominion-Provincial conference be held on co-operative planning for post-war reconstruction, but there was no immediate indication here that the suggestion would be adopted.

Actually, the proposal announced in Toronto today, has not reached Ottawa in any official form but federal authorities have for some time been seeking the views of Provincial Government on post-war reconstruction planning. It is understood the recommendations of the James Committee on reconstruction; now before the cabinet, propose close coperation between all governmental authorities—federal operation between cipal.

The committee meets again Jan. 24, a few days before the reopening of parliament, to prepare a report for presentation to the House through its chairman, Gray Turgeon (Lib. Cariboo).

MILEAGE HEAVY

Aircraft of Coastal Command have flown more than 80,000,000 miles More than 25,000,000 miles were flown in 1942 mostly on anti-submarine raids.

DEATHS

COUSINS —At Kensington on January 9, 1944, William H. Cousins, aged 73 years. Funeral from his late residence Tuesday at 2 p. m. Interment Kensington Cemetery.

Sqd. Leader Hill Among Famous Air Instructors

OTTAWA, Jan. 8— Every night when Canadian airmen are over Germany, all across Canada a picked group of fliers keep their fingers crossed They have a personal interest in each mission . . the backbone of successful operations . . They are the instructors of the British Commonwealth Air Training Plan.

Denied a whack at actual combat by their exceptional flying ability, in spirit they are still the guiding hand of their once-fledgeling students, on every raid or sortie.

Royal Canadian Air Force instructors have qualified more than 50,000 fully trained aircrew men . . enough to man over 15,000 fighting aircraft They are operational air fighters in a non-combatant theatre of war, yet they have been largely instrumental in knocking out the once-touted Luftwaffe The 1,200 and then some decorations won by their students for gallantry, courage, devotion to duty and flying ability are tributes to the patient skill of these instructors . . coaches of one of the greatest teams in the world today.

Rating high among Canadian air heroes is Group Captain John Fauquier, DSO, DFC, of Ottawa, Ont. This officer trained under the Commonwealth Air Plan. He spent many months as an instructor at Camp Borden and Trenton before going overseas in June, 1941.

Wing Commander Ralph Christie, DSO, of North Bay, Ont, is a former bush pilot who joined the RCAF and became an instructor. He was stationed for months at the Service Flying Training School at Brantford.

The late Wing Commander C Fee, DSO and Bar, of Calgary, Alta, was another Canadian flying instructor who procuced spectacular results on operations. Wing Commander Fee, before going to Britain, instructed at a number of Canadian training schools and was Chief Flying Instructor at Hagersville and Saskatoon.

Squadron Leader George Hill, DFC and Two Bars, of Pictou, N. S., who recently returned to Canada, is another who has become famous. An instructor at Uplands, near Ottawa, and Summerside, P. E. I., he eventually got overseas, became a Spitfire pilot and led a squadron in Africa, Malta and Sicily.

Members Appointed to Historic Sites and Monuments Board

OTTAWA, Jan. 7 —(CP)—Resources Minister Crerar announced today appointment as members of the historic sites and monuments board of Dr. Walter N. Sage of Vancouver and Professor Morden H. Long of Edmonton.

Dr. Sage; born in London, Ont., is head of the Department of History at the University of British Columbia. Professor Long, born in Brantford, Ont., is Professor of history at the University of Alberta.

Other members of the board, all reappointed for a further period of five years, are: Dr. J. C. Webster, Shediac, N. B., chairman, Professor Fred Landon, London, Ont., Dr D C Harvey, Halifax; Hon. E. Fabre-Surveyer, Montreal; Rev. Antoine D'eschambault; St. Boniface, Man.; J. A. Gregory, Liberal member of parliament for North Battleford, Maj. Gustave Lanctot, Ottawa; and W. D. Cromarty of the National Parks Burea, Ottawa.

Tributes to Former P.E.I. Railway Man

Signal honour was paid recently to a former Prince Edward Island. er, Mr. Norman A. MacPherson, on his retirement as assistant superintendent of the Canadian Pacific Railway at North Bend, B.C. Born at Dundas, P.E.I., Mr. MacPherson is a son of Mr. S. McPherson who went west with his family to Vancouver many years ago. He is a cousin of Mr. J.P. MacPherson, Charlottetown. He revisited in Prince Edward Island some years ago, and renewed many old friendships.

The Kamloops (B.C.) Sentinel, paid Mr. MacPherson the following editorial tribute on his retirement:

"Not to many men has it come to be paid such honor by his fellows as it has to Norman McPherson. Representatives of the railroading fraternity came from Vancouver and as far as Alberta to attend the banquet arranged by the railwaymen of Kamloops to mark his retirement. Messages of goodwill came from those whom circumstances prevented attending, to add to the outpouring of respect and effection.

"Expressions of tribute were not empty flattery; they were from those best able to judge a man's worth—those with whom he works.

"From call-boy to superintendent, his fellow railroaders have found Mr. McPherson to exemplify those qualities which mean the most: Fairness, without fear nor favor; thorough ability in his job, an understanding heart, which, as one speaker put it, made his creed not "live and let live" but "live and help live."

"The railroad will go on; but Mr. McPherson's personality will be missed. The gap will be felt all the more, too, because he had become practically a fixture For 43 years he had served the Canadian Pacific Railway between Kamloops and Vancouver, and at the time of his retirement was No. 1 man on the seniority list of the Brotherhood of Railroad Trainmen.

"His memory, both in bright anecdote and hard railroading history, will remain alive for many years to come, refreshing those who toil on, and inspiring in others those stirling qualities so esteemed among men."

Banquet Proceedings

Reporting the banquet proceedings, the Kamloop paper says:

"Railoaders up and down the Canadian Pacific, from as far as Vancouver and Calgary, gathered here Monday evening for the banquet and dance in honor of Norman A. McPherson, who retired at the end of November as assistant superintendent at North Bend. The program was arranged by a committee representing all C.P.R. men in Kamloops. Chairman for the evening was G.D (Don) Robertson, local chairman of the Brotherhood of Railroad Trainmen, the organization to which Mr. McPherson has belonged for over 40 years.

"It was a happy affair, with tributes being paid to the guest of honor by company officials and fellow employees; tributes that revealed the sincere affection and respect in which Mr. McPherson is held by all who know him. Honored, too, were Mrs. McPherson and their family, who were all present for the occasion—Beryl (Mrs. M. Pedoborozny) from Armstong, Muriel from Vancouver, and Norman from Spences Bridge. With Mrs. Pedoborozny was her husband, whom Mr. McPherson welcomed as an additional son for the family.

When a telegram was read from A.H. MacIsaac of Spences Bridge regretting his absence, Mr. McPherson stated the only reason Mr. MacIsaac did not come was that he had stayed on duty in order that Mr. McPherson's son Norman, a telegrapher there, could attend.

Many Present

"Speakers during the banquet were G. H. Baillie, general superintendent of the Alberta district; George L. Phillips, superintendent, Vancouver; Mayor G.R. Williams of Kamloops; Dr. R. W. Irving, local practitioner of the C.P.R. Medical Association; D. C. Gough, superintendent, Canadian National Railways, Kamloops; A. R. Everts superintendent, Revelstoke; J. R. Bromley, yardmaster, Kamloops Mrs. Harry McIsaak, Kamloops and T. J. O'Neill, M.P., Kamloops. Travelling to Kamloops with their husbands for the occasion were Mrs. Baillie, Mrs. Phillips and Mrs. Everts.

"At the conclusion of the banquet Chairman Robertson, presented Mr. McPherson with a table and radio, from all men on the road from Vancouver to Revelstoke. As a special mark of esteem, Mr. McPherson was also presented with a table lamp from the wives of the men in train service in Kamloops. On behalf of the railway "boys" Mrs. T. J. O'Neill handed Mrs. McPherson flowers in token of the high estimation in which she is held, and in appreciation for the way she "stood beside their beloved Norman McPherson, helping him over the rough spots."

"Later, during the dance, there were more presentations. From all on the C.P.R. at Vancouver, North Bend, Kamloops and Revelstoke, there were handed to Mrs. McPherson a handbag and contents, and to Mr. McPherson a document holder. Also given the honored couple was an autograph book in which all in attendance had signed their names. This book had been embellished with appropriate words in verse by W. E. Pollard, with art work by Mrs. Dorothy Williams. These presentations were made by Gordon Kenward, president of the Brotherhood of Locomotive Firemen and Enginemen, and W.H Pollard, local chairman of the Brotherhood of Locomotive Engineers.

"Mr. Baillie, former official on B.C. divisions and now general superintendent of the Alberta district, came from the neighboring province to attend Mr. McPherson's retirement banquet.

The Kamloops paper reports in detail the banquet speeches, which included many loudatory references to Mr. McPherson.
