The Guardian will be delivered to any home in Summerside by carrier boy at 2c per day or 10c per week. Phone 289 for this service. Give your order to the boy responsible for deliveries on your route.

Column is reserved for news of local interest, but advertising of any nature may be inserted at cents a word, strictly payable advance.

**ARRIVES OVERSEAS.**—Mr. Miss W. G. Ellis, Sunnyside, received word from their son, Hume Ellis, stating that he has safely over seas.—S.

**CAN YOU BEAT IT?**—Yesterday while strolling through the department of Messrs. Blair and Stewart Ltd., the Guardian representative was amazed by an amazing display of scales which were grown on the farm of Arthur McEwen. Six of the mangos weighed 123 pounds, the largest of which tipped the scales at 24 lbs. Also on display at Messrs. R. T. Holman were several of the same mangos, one of which weighed 100 pounds, which all speak well for brand of seed sold over the borders of local stores.—S.

**POLISH MINISTER SHOWN**—Mr. Podolski, Polish Minister to Ottawa, was given an opportunity to see some of the industries of the island last Saturday previous to his departure after lecturing in Summerside on Friday evening through the courtesy of E. P. Foley, M.L.A. Mayor Stone and Major T. H. E. Ingham were driven through some of the farming sections of the island. Most of the crops, have of course, been harvested but the potato industry during pick-time. At the farm of McEwen and Driscoll at Lot 16 he saw a beautiful crop being harvested. As his own country is very agricultural he was naturally much interested in our methods of farming, and he expressed the machinery used in digging. Later he was taken fishing on Malpeque Bay by Mr. Brenton Clarke, and had the opportunity of fishing with him in Poland. There are no fish of this kind and he enjoyed himself immensely. On Sunday afternoon Mr. Podolski left for the mainland.—S.

**PERSONALS**  
—Miss Shirley Calbeck, student at Mount Allison University, spent the Thanksgiving week-end at her home in Summerside.—S.  
—Shirley and George Woodside of Mount Allison University spent the Thanksgiving holidays at their home in Malpeque.—S.  
—Lac. W. E. Kavanagh, R.C.A.P., recently spent a few days visiting at the home of his wife's parents, Mr. and Mrs. Arthur McEwen, Summerside. Lac. Kavanagh has been transferred to Nova Scotia where he and Mrs. Kavanagh will make their home.—S.

**Loan Committees Hold Meeting**  
The various committees of the Prince County Victory Loan Organization held a meeting in the Clifton Tuesday to receive reports of the committees and to discuss the questions of priority.

**Monthly Meeting Of Summerside Town Council**  
The regular monthly meeting of the Summerside Town Council was held yesterday evening with the Mayor in the chair and Councilors Orrill, Mollison, McNeill and Morrison present. The town bills were reported as follows: Paid bills—\$14,457; Unpaid bills—\$1,028.68. A.R.P. Unpaid bills—\$478.16. Electric Light: Paid bills—\$1,191.99; Unpaid bills—\$1,822.21. In reference to the amount for A.R.P. bills it was stated the town had made a grant of \$200 and it was expected the Provincial A.R.P. Committee would pay a portion.

**CONSERVATION**  
A WEEKLY COLUMN OF PRACTICAL OPINIONS OF THE VITAL ISSUES AFFECTING THE USES AND ABUSES OF NATURAL RESOURCES BY MR. LUDLOW JENKINS MARSFIELD.

**OSPREY**, or fish hawk (Pand-halaeetus) breeds all along the coast and winters in the Middle Atlantic States. It is a rather large bird, 21 to 25 inches long, with a spread of 50 to 72 inches. It is dark above and pale below, with a white patch on the head. Its tail and wings are chiefly brown, dusky and white. The legs are often appear argled in flight. The bulky nests are frequently built on tall stumps but sometimes on a variety of other sites. The eggs, usually three, are reddish brown, heavily spotted with deep brown. In feeding the parent hawk hovers over the nest and plunges in after its prey. This consists almost entirely of fish. As a rule chiefly noncom- healthy wildlife arrow is a magnificent bird, a master of the air, and the embodiment of freedom. It should be preserved both for its own sake and because it is the food from the water and will national emblem. It is now protected by Federal law.

**VULTURES**  
Vultures, or buzzards, as they are commonly called in this country (the European buzzard being a different species), have no particular connection with salt marshes, but they are found in all marshes. They are chiefly black, with the skin of the head and neck bare like that of the osprey, being 30 to 40 inches long, with a wingspread of 45 to 65 inches. The adults are black with white on the head, neck, and tail white. The young are black with white head and neck red, is common north of New Jersey but only a straggler beyond the turkey buzzard, or turkey vulture (Cathartes aura), is named, and the black vulture (Coragyps atrax), with those parts black, is common north to Maryland. Both the osprey is specialized to get own sake much time. The osprey is a larger and more powerful bird than that and as both feed chiefly on car-

**BALD EAGLE**  
The bald eagle (Haliaeetus leu- phthalmus) lives almost throughout North America and breeds in great numbers in the salt marshes. It is chiefly a coastal bird. It is black, with the skin of the head and neck bare like that of the osprey, being 30 to 40 inches long, with a wingspread of 45 to 65 inches. The adults are black with white on the head, neck, and tail white. The young are black with white head and neck red, is common north of New Jersey but only a straggler beyond the turkey buzzard, or turkey vulture (Cathartes aura), is named, and the black vulture (Coragyps atrax), with those parts black, is common north to Maryland. Both the osprey is specialized to get own sake much time. The osprey is a larger and more powerful bird than that and as both feed chiefly on car-

**"I'M THE GAL THAT 'KEEPS 'EM FRYING"**  
Bob's away—'keeping 'em frying' and I'm the gal he left behind to take care of 'em at home! In with all the other extra jobs, I like to see that his buddies here get a good home-cooked meal...so it's open house...and it keeps me on the jump cooking and baking...but it doesn't leave my complexion certainly no time for fussing over my complexion like I used to!

But I take that in my stride, too—just before dinner I scoot upstairs, and in two minutes I'm fresh as a new pin—thanks to Palmolive. Why, it's simply marvelous how that creamy Palmolive lather cleans and tones up my skin...leaves it velvety soft and smooth...without the slightest irritation. That's because Palmolive...and everybody knows they are two of Nature's finest beauty aids. And Palmolive gives my skin such a soothing fragrance—I feel as though I'd spent two hours over my complexion instead of just two Palmolive minutes.

**NOW MORE THAN EVER YOU NEED PALMOLIVE TO KEEP THAT SCHOOLGIRL COMPLEXION**

...and everybody knows they are two of Nature's finest beauty aids. And Palmolive gives my skin such a soothing fragrance—I feel as though I'd spent two hours over my complexion instead of just two Palmolive minutes.

**CAPITOL SUMMERSIDE**

being rung and he thought no purpose would be served by dwelling on it longer. The telephone officials said they had never received written instructions on how to handle a fire alarm any further than that the switch button did not seem to work and he suggested it be checked. The Telephone Co. further wished to be relieved of the obligation of advising those interested when a fire occurred. They were not required to do this but had been doing it as a courtesy.

Councillor MacNeill said that when the fire alarm switch was turned on it took a little time for the motor to turn over and sirens to sound. He further said he thought that instructions had been issued originally but due to the passing of time and the changing of help, no doubt, they were lost. The Telephone Co. had always given good service in connection with fires up to this time.

Moved by Councillor Mollison and seconded by Councillor Orrill that following instructions be issued to Telephone Co.:  
1. When called report take name of party calling and location of fire.  
2. Turn in alarm from phone office.  
3. Phone fire station 32 and advise location of fire.

Motion carried unanimously. Councillor Mollison moved, seconded by Councillor Orrill, that Clarence Doyle and W.K. Llewellyn be appointed to investigate the town of Summerside. Motion carried.

The following police report of Chief of Police Peter White was approved:  
Drunkness: 23 convictions. 23. D.U.N.K. and disorderly: 1 conviction. 1. Intoxicated: 1 conviction. 1. Interfering with a peace officer: 1 conviction. 1. Assault: 1, dismissed. 1. Town by-law re using abusive language: 1 conviction. 1. Milk Licenses collected \$234.00. Dog Licenses collected \$39.50. Dog Licenses collected \$15.00. Truck Licenses \$16.00. Arrears taxes collected \$14.00.

Chief White's report continued: "I have gone around to all the little stores and have warned them not to operate on Sunday or they will be prosecuted. Also other places that have been operating under the name of restaurants but have not been granted a restaurant license this year. Find attached to this report of the milk test taken on Sept. 15. You will take notice that all milk come up to the required test but that the bacterial test in five cases as pointed out by the laboratory technician is high. I may say that I was instructed to warn these particular vendors and that said warning has been carried out."

Then followed the President's address in which the true purpose of Christian education—virtuous living as opposed to lust for power and wealth—was shown to be best imparted in a school with a religious atmosphere. There was also stressed the need for more careful training of children in the home to prepare them for the dangers outside of the home to-day when they must leave it.
