Mammoth Clearing Sale Farm for Sale at Cape Traverse

The homestead of the late J. P. Irving, containing 140 acres Freehold land, free from swamp or broken land, about 110 acres cleared, in good cultivation, balance wood and stumps. The ploughing and fertilizing is complete for next crop. On this farm is the famous Tunnel Trotting Park, with a large grand-stand, and other buildings. This park is conceded by competent horsemen to be faster by 2 seconds than any other in the Maritime Provinces. This is due to heavy loam soil that is free from gravel and perfectly level. The park is a full half mile. It offers an opportunity to horsemen to again train horses successfully, and with possibilities of paying large dividends. It is situated within three-quarters of a mile of railroad crossing.

The farm has good dwelling house and a large barn, piggery, and sheds, also good water system throughout barns and dwelling house. If not sold by private sale the farm will be sold by public auction on

—ACKNOWLEDGEMENT.—The Red Cross Society of Tignish wish to acknowledge with thanks \$25.00 from the Acadian Mutual Benefit Society of Tignish, P. E. I., 3334-12-1M21EII.

—NONE BUT THE BEST.—During the recent visit of the Duke of Devonshire, Canada's new Governor-General, to Toronto he was banqueted by the Toronto Club and nothing was too good for him. To secure the best oysters obtainable in Canada, it is interesting to note that they were secured from Prince Edward Island, two barrels having been sent to the Queen City by Mr. Beloni Gaudet, Miscouche.—Agri.

—FITTING RECEPTION.—On arrival of the train from Charlottetown Saturday night, although late and the weather very inclement, there was a large crowd waiting to give Private Thaddeus Knockwood a fitting reception. Cheers greeted the returned hero as he alighted from the train, and after a hearty handshake and a kind welcome from all who could reach his hand, he was taken charge of by Dr. McPhee and Mr. A. S. McKay, on behalf of the Patriotic Society. He was escorted to the Crystal Cafe where the best that this well known hostelry could produce, was placed before him. He was hospitably entertained until the time of departure of the train for west, by which he proceeded to his home in Lennox Island. Naturally he was glad to be again among friends and doubtless the air of his native land will speedily restore him to his usual health and strength.

—AT KENSINGTON.—The service on Thursday night was well attended despite the bad condition of the roads. The song service was conducted by Rev. J. M. Murchison, who also sang two solos. Mr. Murchison is without doubt specially gifted in this direction and all who heard last week felt the message come home with double force. I.e., through the voice of the Evangelist and through the voice of song. The message from the Evangelist was clear, plain and convincing and centered round the one word "Saved." In the Bible the word saved is used in the Past, Present and Future tenses for example, 1 Peter 1-5; Rom 13-11; 2 Cor. 2-15; 1 Cor. 1-18; Titus 3-5. Eph. 2-5 and 8. Naturally some confusion arises as to which is the right way, but the Evangelist clearly pointed out that to be eventually saved, there must be one "Backward" look at the cross, when our past sins are forgiven, an "Upward" look at Christ as we grow and develop in the Christian life, and Onward, Forward look to the great day when all shall be like Him and when Christ has completed his work in our lives. "It doth not yet appear what we shall be, but we know that we shall be like Him." The Evangelist urged all who had not yet accepted Christ to "give God a chance" at their lives and see what He could do at turning the raw material into the beautiful finished product. The meeting was indeed in the words of the poet, "A feast of reason, and a flow of soul," and the only regret is now that the meetings are drawing so near a close, and that the daily humdrum of life must be taken up without the spiritual uplift of the afternoon prayer-meetings and enemy services. At the close of the meeting several persons took their first stand for Christ.—Com.

—UNITED BAPTIST QUARTERLY CONFERENCE of Prince Edward Island. The 50th session was held at Albany, Dec. 5 and 6th. In consequence of charges in the Railway time table the arrival of the delegates was very late in the evening, and only a very short meeting of praise and prayers could be held, on the first day. But during the next day the meetings were of a very enthusiastic kind, in spite of the state of the weather and roads. Devotional services were led by Rev. W. E. Carpenter, and papers and addresses were given dealing with the Five Year Programme as adopted at the recent meeting of the Baptist Convention of the Maritime Provinces. During the morning the Rev. C. R. Freeman introduced the program as a whole and its evangelistic and financial sides were dealt with in detail by Rev. E. P. Calder, and Mr. J. P. Gordon respectively. In the afternoon the ladies held a meeting in the name of the U. B. W. M. U. under the presidency of Mrs. Glidden, and an instructive and forceful address was given by Rev. L. E. Ackland in the prospects of the Kingdom of God in these times. The missionary side of the program was also ably dealt with in papers specially prepared and sent on to the Conference by Messrs J. A. Clark and A. W. Sterns, the former in regard to Home and Western Missions the latter in regard to Foreign Missions. In the evening the Rev. W. J. Piper read a paper on the Educational Side of the program and Rev. L. E. Ackland preached in Judges 6-14 a sermon which formed a fitting close to this most interesting conference.

PAPA JOFFRE MAY BE DESPOSED

PARIS, Dec. 6.—Following the example of England, changes of moment can be foreseen also in France. In fact the coming to a head of the English situation has only hastened in France developments which were practically certain. The secret session of the Chamber of Deputies at which the demands of the French "Knockout" group are being urged has now almost reached its end. It probably would have lasted several days longer and there is little reason to doubt that the result would have been the same, but after the English action, further discussion has become practically impossible. The resolution presented by the "Knockouts" for the consideration of the Chamber of national defence, it is urgent that the secret session of the Chamber of Deputies end as soon as possible, and that in a precise memorandum the peoples' representatives point out to the Government the demand of the country. There is no doubt as to what this means, and there is no doubt as to what will be the result. A complete change of policy, a probable shift in the personnel of the high command, and a few minor changes in the Government are almost certain. The Ministry, however, is likely to remain as it is now constituted.

The New Programme.

Details of the new programme are necessarily incomplete, but the probable steps which will be taken appear to be:

- (1) An extension of state control to other public services—for example, hygiene—which are now administered in part by local authorities.
- (2) An increase in the number of ministers or at least provision for more under secretaries.
- (3) A change in the procedure of the Parliament enabling it to reach decisions more promptly.
- (4) An extension of "civil conscription," which will make no distinction in principle between service in the armies and service in the states.
- (5) A reorganization of the supreme military command.

This programme in whole or in part will undoubtedly be put into effect before many weeks have elapsed. The changes will look to greater action and to getting on with the war. As Pierre Renaudel, who predicts a speedy end of the secret session of the Chamber in today's *Humanite*, "I feel safe in saying that the measures demanded by the Chamber will be adopted. I can even see that we are on the road to a national assembly which if not exactly the same thing as the committee of public safety of the revolution will yet be very close to it."

Far-reaching Consequences.

This concentration of the power to make decision cannot fail to have the most far-reaching consequences in the conduct of the war and of all the charges proposed with the possible exception of the military reorganization, it stands out as the most important. An extension of the prerogatives of

This Ointment Possesses Power to Heal the Skin

TWO CASES WHICH PROVE THE EXTRAORDINARY HEALING POWER OF DR. CHASE'S OINTMENT.

The use of Dr. Chase's Ointment is wonderfully satisfactory because you can actually see the results as they come. It is surprising what change can be brought about in a single night by this great healing ointment. Mr. George Beavis, 119 James street, Peterboro, Ont., writes: "As a healing ointment, I consider Dr. Chase's the best obtainable. I had a large running sore on my leg, and although I had tried all the prescriptions of two doctors I was unable to get any relief from the pain or to get the sore healed. One day my druggist handed me a sample box of Dr. Chase's Ointment, and I used it with such good results that I decided to give the ointment a fair trial. Although I used four boxes, and am glad to be able to say that the sore on my leg is entirely healed up. Since this experience with Dr. Chase's Ointment I have recommended it to many people."

Mrs. W. W. Oliver, Port George, Annapolis Co., N. S., writes "I am going to tell you my experience with Dr. Chase's Ointment. There was a spot came on my face something like a mole, but it kept getting worse, and several doctors whom I consulted said it was skin cancer, and that it would have to be cut or burned out. I intended having this done, but changed my mind when my brother recommended Dr. Chase's Ointment. Before I had finished one box of the ointment this skin trouble had gone, and had no bothered me since. I cannot praise Dr. Chase's Ointment too much, and you are at liberty to publish this letter." If you have never used Dr. Chase's Ointment send a two-cent stamp for a sample box, and mention this paper. Price sixty cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

the French President is now being debated in the press. The deliberations of Parliament are generally felt to be longer than necessary. A shortening of the procedure of both Houses is being considered. These projected changes are typical of several others—the purpose of all of which is to reach decisions in the direction of the war before it is too late to profit by them.

The Tempts tonight says: "We must have—as the resolution of the Radical Socialists shows plainly—results from the secret session and not orders of the day vague and diffusive, and formulas adroitly balanced and carefully calculated to mean nothing. We must have a programme laid down with precision."

This is what will come of the session and there will be a reorganization of the methods if not of the personnel of the Government, which will mean getting on with the war.

TO SET EXAMPLE TO UNITED STATES

(Canadian Press Despatch.)

MADRID, Dec. 7.—The Liberal, in an article on the subject of deportation from Belgium, says it is the duty of Spain, as the first neutral power in Europe, to raise her voice in favor of the victims.

"Spain," the newspaper adds, "has nothing to fear from Germany, whose interests she is protecting. Further, it is for her to set an example to America and lead America to join with her in the defence of right and morality."

If you know a returned soldier, ask him about the need for munitions.

Ask him whether he thinks we can have enough.

Ask him what it means to charge a German trench that has not been blasted away by sufficient shell fire.

His answer should inspire you to any personal sacrifice when the call comes to work in a munitions plant.
