MOBILIZE ARMY OF UNITED STATES MARSHALS TO UPHOLD GOVERNMENT'S RAIL INJUNCTION

CHICAGO, Sept 6—The beginning of the tenth week of the country-wide strike of the railway shopmen found 5,500 United States marshals mobilized to uphold the drastic temporary injunction obtained by the Government on Friday to prevent lawless violence and keep the nation's transportation machinery running.

From Chicago, as a centre of railroad activities, was directed the work of enforcing the injunction pending the hearing to make it permanent on September 11. A mass of complaints and allegations of conspiracy and attempts to ruin property and jeopardize life was being collected today for the use of Attorney-General Daugherty in support of his application to make the injunction permanent.

A thousand writs were prepared in the Federal Building and sent to all parts of the country for service on the Labor leaders named in the injunction. B M. Jewell, head of the shopmen, could not be found and it was reported he was in the East.

COAL MINER IS SEVERELY CRUSHED

SPRINGHILL, N. S., Sept. 7. — Baker Brown, aged 30, an employee of the Dominion Coal Company, is in a serious condition and has both legs broken following an accident in number 2 mine here, today, when a train of coal boxes jumped the track and threw a boom against him.

The bones of Brown's leg came out through the flesh and the jagged ends tore gashes six inches long.

Invitations to the Members of Various Organizations to Hear This Unique Event Have Been Sent Out.

Sir Ernest Rutherford Pres. British Association

(Special to The Guardian)

LONDON, Sept. 7. —Professor Sir Ernest Rutherford, formerly of McGill University, is the unanimous choice as next year's president of the British Association, which will meet at Liverpool.

CENTRAL ALBERTA WHEAT ALREADY IN THE STOOK

EDMONTON, Sept 6—Practically 100 per cent of Central Alberta's wheat crop is in the stook, and threshing has already commenced in many districts, according to last week's report on The Edmonton Journal. In a few isolated districts where the wettest August since 1916 has impeded harvesting operations, binders are still working overtime, but generally speaking the crop has been cut and frost bogey averted.

First threshing returns are encouraging. Threshing has been in progress at Viking for a weeek, where a 40-acre field of ruby wheat yielded 800 bushels.

Reports as to the probable yield vary. Vegreville estimates 25 to 30 bushels of wheat on breaking and summer-fallow, as low as ten bushels on old land and an average of 15 to 18 bushels. It is probably that this estimate will apply in a great many districts. At Lloydminster the estimate for wheat is 20 to 25, and oats 25 to 30 bushels. Many wheat fields in the St. Paul district are expected to yield from 25 to 40 bushels to the acre. Busby expects 20 to 25 bushels.

GERMAN PLANS TO RESTORE WAR AREAS

BERLIN, Sept. 7.—Industrial leaders of Berlin who are credited with being well informed as regards the plans of Hungo Stinnes, Germany's leading industrialist, predict the early conclusion of a pact between Herr Stinnes and a group of French interests represented by the Marquis de Lubersac which will comprehend the scientific working out of a plan for the restoration of the war- devastated areas.

The negotiations, which have been going on virtually over the heads of the German and French Governments, will make it possible for local co-operationists and larger units in the former French zone to contract direct with the Franco-German syndicate for building and other materials which will be delivered chiefly by Germany.

Clean to handle. Sold by all Druggists, Grocers and General Stores

The conference concluded in the evening when a most inspiring meeting was held, with the new president in the chair. Devotional exercises were led by Rev. D. K. Ross of Bedeque and the usual resolutions and courtesies were adopted. The addresses of the evening on the Home Problem, given by Mrs. Jamieson and Miss Sharp of Summerside, were at once intensely interesting and instructive. Closing devotional exercises and the benediction then brought the conference to a close.

Following is a list of the delegates attending the conference.

Mrs. Louis Henry, Malpeque, P. E. I.

To Check Poison Gases Chief Aim Of Conference

(Special to The Guardian.)

LONDON, Sept. 7.— Further international safeguards to limit the use of poison gass in war are hoped for as a result of the conference, of the International Law Association, which was opened in Buenos Aires. British members of the Association regarded this as the most vital subject that it will have to consider and hope that a set of regulations may be drawn which will assure that nothing more than experimental work shall be carried on by any nation in the future.

Sir Alfred Hopkinton, K.C. belies that concerted action will have a tremendously powerful effect in preventing future wars and if this goal cannot be reached that at least the war will not be the horrible one pictured recently by Thomas Edison.

"A committee of the International Law Association has drawn up a report on the subject, which will be presented to the conference at Buenos Aires, and has drafted certain suggestions for possible agreement on the subject, which will, at all events, afford a basis for discussion,' he said ina recent interview.

"In addition to the moral effect of general agreement not to use such gases, it is suggested that the manufacture of them might be forbidden entirely and that a system of inspection might be introduced by the experts, who would have the right by international agreement to enter works, where such manufacture was suspected and report, of course, under pledge of strict secrecy, as to any other operations for industrial objects which they might see.

"The number of works where poison gas could be made on a large scale would be few, and there is evidence to show that in order to use poison gas effectively experiments on a large scale would have to be carried out to ascertain how they were capable of diffusion and how far a gas might be made to remain for a longer period in any place and so increase its deadly effect by avoiding dispersion before its fatal object was accomplished.

"The problem of making a gas at once more permanent and more deadly might soon be solved by experiments on a large area, and the results of such a discovery, if used, would be too horrible for imagination. It is also proposed that the use of poison gas in war by any person, whether under superior orders or not, should be made a war crime punishable as such, not only during the war by enemy court-martial, but after the conclusion of peace by an international court with criminal jurisdiction. A paper by R. H. Bellot, secretary for the conference in England, will be read on the subject at Buenos Aires.

"No doubt there are objections to all the suggestions made which ought to be considered, but the questions involved are of such vital importance to mankind that no stone should be left unturned to find out by any means of preventing the unspeakable horrors which threaten the world through increased knowledge of the art of destruction if war on a large scale ever breaks out again between civilized nations."

NORWEGIAN VAULTER SETS RECORD, 13' 6"

COPENHAGEN, Sept 6—Charles Hoff, Norwegian holder of the British pole vault championship, made a new world's record in the Scandinavian athletic meet here today, clearing the bar 4 metres 12 centimetres (13 feet 6.20 inches).

The old record of 13 feet 5 inches was made by Frank Foss of the United States at Antwerp in the Olympic Games of 1920.

FILIAL PIETY.

Visitor—"Are your children doing anything for you in this your last illness?"

Old Man—"Oh yes; they are keeping up my life insurance."—Western Christian Advocate.

A ROAST.

Waiter (to guest who has been waiting a long time)—"Did you ring the bell, sir?"

Guest—"No, I was merely tolling it; I thought you were dead."—Boston Transcript.

Horse Breaks Neck In a Running Race

TORONTO, Sept. 6. — Ravanna, owned by R. Herron, the favorite in the first race today at Dufferin Park half-mile track, crossed her legs, fell and broke her neck. Three or four other horses with their jockeys went down in the crash, but none were seriously hurt. Jockey Stirling, who was riding Ravanna, had a narrow escape and was put out of action for the day.

SETS DATE TO HEAR CASE OF RAILWAY SIGNALMEN

CHICAGO. Sept 6—The Railroad Labor Board has set September 26 for hearing the application of the International Brotherhood of Railway Signalmen for increased wages. The signalmen's petition follows closely the lines of the maintenance of way men's petition now before the board. The wage increases would affect about 15,000 signalmen.

AUSTRALIAN LABOR PARTY IS AGAINST "GO-SLOW" POLICY

LONDON, Sept. 7.—The Australian Labor Party has officially repudiated the scheme involving a "go-slow" and "measure-for-measure" policy as a means of opposing reductions of wages and altered working conditions says a Reuter respatch from Sydney. This scheme was advocated at the recent conference of 62 trade unions.

Abegweits Track Team Leave Today For Halifax

The members of the Abegweit track team who will compete in the championship sports at Halifax, on Saturday, Sept. 9th, leave today and the best wishes of the sporting fans goes with the boys.

On former years the Abegweits always acquitted themselves creditably and there is every reason to believe that they will add fresh glory to Prince Edward Island.

The results of the championships will be given out at the Two Macs Store Saturday night. The following comprise the team.

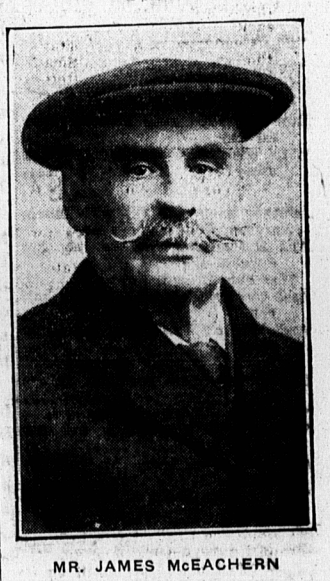
Wm. Halpenny (Capt.)
F. P. Hennessey.
E. B. Ellis.
Frank Kilfoy.
Phil McDonald.
Elliot McGuigan.
Barney Francis.
Geo. Francis
Lorne Wedlock.
J. Doyle.

MR. W. H. HALPENNY

Champion pole vaulter, and member of Abegweit track team to compete at Halifax in the championship meet on Saturday. "Bill" wants a few more medals or cups to add to his already large collection.

MR F P HENNESSEY

Champion shot putter and hammer thrower and member of Abegweit track team, which leave today for Halifax to compete in the Maritime Championships on Saturday. Frank is determined to hang up a new record or make the fellow do so that beats him.



MR. JAMES McEACHERN

Mr. James McEachern, the well known sport promoter and one time all-round athlete, now member of the Abegweit Executive, who will accompany the track team to Halifax today.

A NURSERY OF POETS.

"As a commercial city engrossed in trade London has always been accused of materialism," says Mr. A. Wyatt Tilby, in the Edinburgh Review. "Never was slander more gross nor untruth more palpable; it has been the very nursery of poets.

"Chaucer, a true Londoner, in his kindly tolerance of nature and deep interest in man, was born in Hhames street, by Walbrook, Spenser at Smithfield near the Tower, Milton in Bread street, Cheapside, Pope in Lombard street, Blake the mystic in Golden Square, eKats in Moorfields, and Browning and Swinburne were both Londoners. The list would easily become almost a catatlogue of English letters. Ben Jonson and Bacon were both sons of Westminster, but Defoe was a true Cockney of St. Giles, Cripplegate. Newman was born in Broad street in the heart of the City. Lamb in Crown Office Row, Ruskin in Brunewick Square, and Sir Thomas Browne, off Cheapside. Huxley and Trollope, and Gilbert and Sullivan, were all Londoners. No other city in the world can show so long a roll of famous names in literature.

"London has indeed been monstrously libelled and too little praised; even the Cockney holds a deprecating tone, as when speaking of his wife—but in both cases too long separation makes him miserable. For forty years of active work he dreams of a cottage in the country; but when the time comes, the mellowed judgment of maturity often prefers the busy pavement.

The birthplace of poets, no poet has sung London adequately, for Johnson's labored verses are deservedly forgotten, and only Wordsworth's lines to seeing the sunrise from eWstminster Bridge have obtained general currency. But Wordsworth was only a countryman, and naturally preferred London when it was asleep, and therefore most like the country. The majesty of London deserves an epic on the gigantic model of 'The Dynasts,' not a sonnet; and the beauty of its physical garment, like the life it covers and in part reveals, is wholly its own—yet it must not be sought, for it reveals itself in strange times and in sundry places."

George F. Lyon Golf Championship

TORONTO, Sept. 7.— George F. Lyon is assured of the senior championship of Scarboro Golf Club, went out in 35 this morning. His score for the first nine holes was 4, 3, 4, 3, 4, 3, 5, 4. Two fives at the tenth and eleventh making possible for him to lose several strokes to par on the remaining seven holes and will still win easily from C. P. Wilson, with whom he was paired and who with an 80, was second low scorer yesterday, took 43 for the first nine holes this morning.

A SWIMMING FEAT

A few days ago a swmming feat was accomplished by three young lads of this city, which no doubt will go down as a record for a long distance swim in Charlottetown. Masters Cyril Ryan, Harry Connolly and Arthur Butler, completed the feat of swimming across the Hillsboro River, from the Railway wharf to Southport, the young fellows were closely followed by two boats.
