It's a Pure Soap

Wool Soap is an absolutely pure soap, and contains no alkali or adulteration or filling of any kind. There is no purer soap than Wool Soap, no matter at what price, and there is no better soap for toilet and bath purposes. The most expensive soaps, such as the highest grade of French and other imported soaps, cost more to make, and are more carefully moulded or milled and of finer texture, perfumed with costly perfume, enclosed in expensive wrappers and handsome boxes, paying high duties, but none of these expensive soaps are intrinsically better than Wool Soap. 15 cents a box of three cakes.
