

# Those who should be using Heavy Duty

ALL those whose tires are heavily burdened—due to kind of car or truck, speed or mileage, kind of road or kind of load.

	Cars which run high mileages per day, such as taxis.		Trucks which are often overloaded.
	Trucks which must go where no truck should go.		Cars driven a lot at more than ordinary speed.
	Cars used when six or seven seats are not too many.		Cars with heavy bodies on small tires.
	Buses or trucks with fast time schedules.		Trucks or cars which travel rough roads.

Goodyear means Good Wear

# GOODYEAR MADE IN CANADA HEAVY DUTY

## Rovers And Stars Tonight

What is expected to be the best baseball game of the City League, so far this season, takes place this evening at the Abegweit Grounds at 8 o'clock, when the Rovers and All-Stars clash.

The second section of this league is still tied-up with both teams having won one, with a tie game; last Monday's game was no contest, as the game didn't go the full five innings. Both teams are determined to win tonight and thus go into the lead, so come along fans and see who does win.

## MISS M. I. PENWARDEN PASSES AT BOSTON

WINDSOR, Aug. 3.—The hearts of the community of Kennetcook, Hants county, Mt. Stewart, P. E. I. and also of many friends elsewhere are going out in sympathy to Rev. B. H. and Mrs. Penwarden and family in the loss of their daughter, Margaret I. R. N., whose remains were brought from Boston yesterday by her father who had been called suddenly to her bedside in the Boston hospital a short time before the end.

Margaret I. Penwarden was born in Post Mills, Vermont, U. S., September 18, 1904, while her father was the minister at that place. She graduated from Superior School at Harbort, N. B., in 1922 and from Windsor academy in 1925 under Principal Osborne. She entered the MacLean hospital at Waverly, Mass., the same year to train for the nursing profession, graduating with honors in 1928. She had made such an excellent record and was such a favorite with all that she was invited to remain at the hospital on the permanent staff. Last December she resigned to take up private practice. She was taken ill about three weeks ago and was obliged to enter the hospital at Boston for surgical treatment. She was doing well when peritonitis set in. Mr. Penwarden arrived back yesterday with the remains of his daughter. The funeral service, largely attended, was held Wednesday, Rev. George B. Gough of Mattland, officiating. He was assisted by Rev. L. B. Campbell, of Stewiacke United Church and Rev. J. K. McInnes of Mattland.

Besides her parents the survivors are two sisters, Mrs. J. M. Lyons, of Brighton, Mass., and Madeline at home.

Besides being a clever nurse, Miss Penwarden was gifted in literature and frequently wrote verse for her home circle.

## NATURE'S TONIC

(By James Westaway McCue)

Nature has a tonic or a cure which surpasses many other cures discovered by man. Whether one has consumption or nerve trouble the sea shore is nature's great tonic.

To try nature's tonic one should live near the sea for a few months in the summer away from the rush and tear of every day life. There the company of waves, the gulls, the smell of the salt air and the sand are to be found. The waves have much to do with getting the nerves back to normal. The quiet lapping of the water on the beach gives a soothing effect and makes it possible for one to sleep soundly and without trouble.

The consuming of shell fish is another important part of nature's cure. One should walk down the beach for a couple of miles each day at low tide and dig clams or jant under the rocks for lobsters or crabs. These shell fish should be taken home and cooked by ones self and eaten. The mere fact that one has captured the shell fish and has cooked them will make the food taste better and will sharpen the appetite. Sea food builds the body and makes blood and brain.

It is necessary for the body to be exposed to the sun during the cure. The sun-light helps to kill germs in the body. Germs, we are told, thrive in places where no light or fresh air can reach them.

A couple of hours rest on the sand toward the end of the day will facilitate sound, and healthful sleep. Sleeping is one of the most important things toward getting well and keeping well. When the body is resting the tissues of the body have a chance to be remade. When the body exercises these tissues are used up and they have to be replaced by rest and sleep.

Sleeping and living in the open or where fresh air can reach one is a great asset toward keeping well. The salt air is good for unhealthy people because it gives one an appetite and also of many friends elsewhere are body.

## LIVESTOCK REPORT

MONTREAL, Que., August 7.—There were 22 cattle, 55 calves, 16 hogs and 167 sheep and lambs for sale on the two markets including 70 calves and 158 sheep and lambs held over from Monday and Tuesday's market. The cattle market was unchanged. Calves were steady. One lot of good veals and pair fed calves were sold for \$12.50 and calves which were held over from Monday's market were not sold at time of writing. The lamb market was steady for those of good quality. Common lambs were not wanted and about 150 sheep and lambs were not sold at time of writing. Good hogs were steady at \$14.35 to \$14.50 fed and watered flat.

BROADCASTING POSTPONED  
MONCTON, N. B., Aug. 7.—Owing to line interference it has not been possible to arrange for Canadian National Railways chain broadcast through station CNRA at Moncton Thursday night, August 8th. Testing is still in progress and it is hoped that it will be possible to put these outstanding programmes on the air at an early date. Announcement will be made of this later.

MONCTON, N. B., Aug. 7.—A party of Dokeys (Knights of Khorassan) leave St. John Thursday night, August 16th, in a special car via Canadian National Railways to attend a convention of that body in Winnipeg. Others from various points in the Maritimes will also attend.

# Enormous Crowd Witness Races

### Attendance At Montague Yesterday Estimated At Five Thousand Persons—Good Racing In All Classes.

An enormous crowd estimated at between 4500 and 5000 persons attended the Montague races yesterday afternoon. The weather was fine and cool with a strong breeze blowing which made the roads rather dusty and also offset somewhat the measures to keep down the dust at the race-track. Owing to the late arrival of the train with race horses which had to make connections at Royalty to pick up the Summerside horses, the first class did not get under way until nearly three o'clock. Then ensued a tremendous lot of scoring with broken sulkies, broken harness, etc., to make further delays so that it was a quarter to four when this heat was finished. Three races would have made a long enough program under the conditions, but the inclusion of a fourth race meant that it was 7.30 before the final heat of it was decided. This was entirely too late for the majority of the spectators who became somewhat restive, and only for the extraordinary good racing there would have been many grumbings. It looks as though three races are about all that can be properly disposed of in an afternoon. Owing to the late hour the results were received at this office it is impossible to give more than a brief review of what should receive a real good write up.

#### 2.17 Trot and Pace

This was the first race called and had nine starters. There were two or three bad actors in the bunch and the whole field was a difficult one to get away on anything like even terms. They must have scored for at least half an hour and during this time several had-to-go-and-get repairs made to bikes and harness. Finally they got the word and Watts Edition rushed to the front, with Bingen Aubrey and Marge Direct outside. At the first turn Bingen Aubrey had assumed the lead, which he maintained until the wire. In the last quarter Mary Volo came very fast and was at Stegens pad finishing, Marge Direct pacing a beautiful heat finishing a close third, Peter Will Tell, who had a rather bad get away was fourth, Watts Edition fifth, Peter Wilton, Jr., sixth. Time 2.15, equaling the track record made by Major Aubrey last year.

Second Heat. There was quite a bit of scoring in this heat but when they finally got away Bingen Aubrey was in the lead with Marge Direct trailing, Peter Will Tell third and Mary Volo fourth, the others strung out. This position was maintained until the last quarter, when Mary Volo moved up into second position and finished with a great burst of speed, beating Bingen Aubrey by a short neck in a very exciting finish. Marge Direct again a nice third, Plate Glass fourth, Hal Tipton fifth, Peter Wilton Jr. sixth.

Third Heat. Mary Volo got away flying and never let any opposition near her, finishing two lengths to the good, Bingen Aubrey second, Marge Direct a close third, Peter Wilton Jr., who trotted a splendid heat, fourth. This heat was in 2.13, which lowers the track record by two seconds. Mary Volo, it may be remarked, is of free-for-all capacity and has a record of 2.08 1-4 over a half mile track.

#### 2.25 PACE

This had another big bunch of starters but was not so difficult to get away as the previous race. Jessica the Great had the pole and although challenged by Golden Peter and others, managed to hang on to the lead winning by a length from Golden Peter, who was second, Dolly Watts third, Peter Keyes, fourth, the others being strung out. Time 2.18.

## STOMACH PAINS?

Get rid of them Permanently with "Fruit-a-tives."

"Fruit-a-tives" will rid you of gas, flatulence, or pain after eating, and make life worth living again. Mrs. Annie Glover, Ottawa, writes:

"A sufferer from indigestion, constipation, dreadful stomach pains, I tried 'Fruit-a-tives'. Soon these ills were a thing of the past."  
"Fruit-a-tives" acts naturally on the system. Gently and quickly it strengthens the whole digestive tract. It awakens liver, bowels and kidneys, soothes the stomach. Get a 25c or 50c box at your druggist's today. End digestive troubles.

Second Heat. They got away on the fifth score. At the quarter pole Golden Peter passed Jessica the Great and won by a length and a half, Jessica second, Worthy Watts, who paced a nice heat, third, Dolly Watts fourth and Peter Keyes a nice fifth.

Third Heat. This was fairly easy for Golden Peter who looks to be a high class pacer. Dolly Watts tried to get near him and entering the home stretch was about a length in rear with Jessica the Great tucked right in behind her. About a hundred yards from the wire Dolly made a stand still break and Jessica smashed into her, her left leg becoming entangled in Dolly's sulky. It looked like a bad crash but Jessica pulled clear and finished third. Worthy Watts second. Worthy Set, who paced a real nice heat in his first start for the money fourth. Peter Keyes fifth. Time 2.18.

#### 2.27 Trot

This was another real good race with a pretty evenly matched bunch of trotters. It was a very pretty race to watch and had many exciting features, which the late hour prevents us from describing.

First Heat. After several scores they got away with Mack Todd in the lead. Peter All Right challenged him at the three quarter pole and it looked as though he would beat Mack to the wire, but he made a little tangle and Mack went right along until Ruby Aubrey came very fast through the stretch and in the last twenty yards headed him. This was a lively finish and created tremendous excitement among the spectators. Captain Jackson—a good fourth—and Johnnie Walker a nice fifth. Time 2.20 1-2.

Second Heat. They got away very nicely on the fourth score with Ruby Aubrey in the lead. In the last quarter Peter All Right trotted up on even terms with her and in the brush to the wire beat her out. Betty Aubrey trotted nicely in this heat and finished third and Johnnie Walker again a good fourth, Mack Todd going back to fifth.

Third Heat  
This was another very interesting heat and was won by Peter All Right who trotted around Betty Aubrey in the home stretch, Betty going to a break, which the driver claimed was caused by interference from Holmes, the driver of Peter All Right. Ruby Aubrey second, Johnnie Walker a close third. This was the fastest heat of the race and was a really good performance considering that the track at that time was cut up. Time 2.18.

#### 2.30 Mixed

This was for King's County and Montague District horses and created lively enthusiasm in that section. There were seven starters. Dixie Marque outclassed the others considerably, winning off by herself in straight heats. In the first heat Eastern Lady finished second, a considerable distance ahead of the others, with Shawnee Rose third, The Flame fourth. In the second and third heats Princess Edna furnished any opposition there was to Dixie Marque, finishing second, The Banker, who had performed badly the first heat, a nice third, Eastern Lady dropping back to fourth and fifth. The best time was 2.25, made in the second heat and equalled in the third.

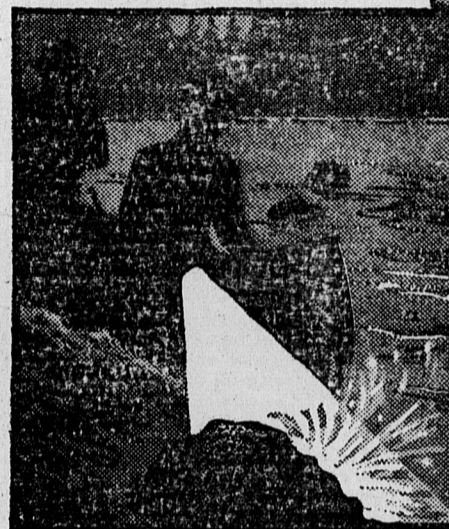

The officials who conducted the races very capably were:  
Starter, F.J.E. Wright, Summerside, Judges, W.S. Brown, Charlottetown; W.B. McArthur, Kensington; H. H. Acorn, Souris.  
Timers, Dr. A.A. Lockhart, Kensington; E.P. Acorn, A.N. Large, Charlottetown.  
Distance Judge, Earle Ings, Mt. Herbert.

#### SUMMARY

2.17 Trot and Pace, Purse \$300  
Mary Volo (Gerow) ..... 2 1 1  
Bingen Aubrey (MacKinnon) .. 1 2 2  
Marge Direct (McKenna) ..... 3 3 3  
Peter Will Tell (Holmes) ..... 4 7 5  
Peter Wilton Jr. (Lowrie) ..... 6 6 4  
Plate Glass (McMillan) ..... 8 4 7  
Watts Edition (Trainor) ..... 5 9 8  
Hal Tipton (Hinton) ..... 7 5 8

"HEY, BILL! Look out for that rock! Head her out, you're too near the shore." And so on for miles. Bass were biting, stayed too long, overtaken by darkness, feeling the way home at half speed.

There is no fun—and no necessity for these dangerous night trips. Always carry an Eveready Flashlight; the focusing types will reach out two hundred to a thousand feet, and you will never fear the darkness. With an Eveready, you can steer a straight course, at full speed. It makes night travelling safe.

#### WHEAT PRICES DECLINE

(Special to the Guardian)  
CHICAGO, Aug. 7.—A sensational wheat market, based on a situation that is equally as sensational as the market action, is giving the grain world more to think about than it has had since the war. Wheat prices in Chicago today dropped 6 1-2 cents for the day while Winnipeg was off 10 to 11 cents as compared with the finish last Saturday. Wheat prices the world over have declined sharply and brought farmers and speculators to the realization that the recent advance of 50 to 60 cents in United States and Canadian markets probably offset the loss of about 50 percent in the spring wheat crop of the American and Canadian northwest and that export buying is necessary to hold prices up.

#### FIRE LOSS RECORD

the previous week, and with \$146,750 for the corresponding week of last year. From Jan. 1, 1928, to Aug. 1, 1928, fire losses totalled \$11,658,200, and from Jan. 1, 1929, to July 31, 1929, they were \$17,154,650.
