Dr. Sperry addressed large audiences in the Y. M. C. A. yesterday afternoon and at a mass meeting in First Methodist Church last evening. At the afternoon meeting for men only he took for his subject "Four Fourths of a Man," namely, the fourth that eats, the fourth that works, the fourth that thinks and the fourth that reproduces. In the evening he spoke on "Superstitious Delusions and Fads." With pointed stories and apt allusions he warned the congregation against the silly superstitions, cheap illusions and ridiculous fads of the day. DON'T TRUST TO LUCK.

Even if there is such a thing as luck you cannot afford to trust to it in case of sickness. You know by the experience of others that Dr. Chase's Nerve Food actually forms new blood and tissue and revitalizes the nerves and by using it regularly you can be certain that your system is being built up and that weakness and disease are being overcome.

Much time is saved by the use of the new shorthand text book as used at the Union Commercial College. 6d wtf

Some Dealers Think They Have a Monopoly of Buying Furniture

Let them think so, it does nobody any harm, and it pleases them. But for fear the public might be led away by their extravagant utterances, we humbly rise to remark, that we have been and are still buying from almost every manufacturer in this broad Dominion—and further we are content to sell at a much smaller profit than most people ask. We would like the opportunity of showing you our furniture, and would like you to compare, and we think we can convince you that what we say is true.
