A garage business in the Town of Summerside which is a going concern. The business includes equipment, stock in trade and goodwill. For further particulars apply, T. LELAND LINKLETTER, Barrister, Summerside.

Anniversary Is Observed

The first anniversary of the opening of the Miscouche Memorial Home was fittingly observed yesterday afternoon and the occasion was honored by the presence of His Honour Lt. Governor J. A. Bernard who upon his arrival inspected a guard of honor composed of personnel from the R. C. A. F. Station, Summerside, under command of Flying Officer Larush.

Lt. Governor Bernard was accompanied by his aide de camp Squadron Leader Publicover, also by his brother W. S. Bernard of Boston, Mass., who is at present visiting Governor Bernard. After the inspection of the guard the Governor and his party were escorted into the Memorial Home and introduced to the Legion members and guests by Comrade Pat Martin who expressed his great pleasure in having Governors likeable Walter Brennan, and a charming miss called Joanne Dru. It is a Monterey Production.

The story begins in Texas just prior to the Civil War and concerns Thomas Dunson (John Wayne), a hardy pioneer who dreams of building the first cattle empire in the Southwest. Years later, Dunson and his adopted son, Matthew Garth (Montgomery Clift) his trusted friend, Groot Nadine (Walter Brennan) and a huge band of trusting cow-boys strike out over the now-famous Chisholm Trail, with Abilene, Kansas as their goal.

The road is long and tough, the dangers many. With over five hundred men on horseback in the caravan, and more than 8,000 cattle, producer-director Howard Hawks has accomplished the major task of keeping his mammoth production in bounds so that none of the subtle characters is ever lost, while at the same time maintaining the wide scope of the exciting trek to the North.

It is difficult in this brief resume to give more than a birds-eye view of the vast panorama of this exciting picture—irradiating the Indian attack, the furious cattle stampede, the amazing crossing of the Red River and then—miracle of miracles—the sight of the railroad train at Abilene, promising a future mark to all the cattlemen of the South west.

Fine New School At St. Eleanors

The people of St. Eleanors have every reason for pride in their magnificent new school, which has just been opened, work having been completed by the general contractors, County Construction Co. Ltd. The new school is probably the finest rural school building in the province. It is striking in design and there is absolutely no waste space.

The building is 70 feet in length and 21 feet wide. It has a total of 32 spacious windows, 24 of which are in the front and all permit of abundant daylight in every room. The windows are six feet in height by four feet in width, the panes of glass being of spacious size. The foundation is cement surmounted by four rows of cement blocks, which give the building a substantial appearance, the structure being finished on the exterior in brick siding.

There are four class rooms, two of which are in the basement and the others on the floor above. These rooms, like all other parts of the building, are heated in cold weather by an air-condition type of furnace neatly installed in a compact chamber, the warm air being conveyed from the furnace in cylindrical overhead shaft-line conductors.

The classroom ceilings are of a soddy height and the walls are finished in a pleasing combination of green and cream colors, which is calculated to be easy on the eyes.

Mr. Bernard and the other distinguished guests present for the occasion. Seated on the platform were also His Worship Mayor J. F. Arnett, Hon. Watson MacNaught, the parliamentary assistant to the Minister of Fisheries, Squadron Leader Publicover and W. S. Bernard.

Big Improvement

Governor Bernard in his opening remarks noted the great improvement in the appearance of the home since he had officially opened it a year ago. He complimented the president and his executive for the splendid work they have done and was high in his praise for the striking appearance of the guard of honor drawn up for his inspection.

He reminded those present that tomorrow would be the anniversary of the day ten years ago when Germany invaded Poland, an action which was followed by a declaration of war on the Hitler regime by Great Britain and hereafter the lives of the people of the world to each one of us the knowledge that only one of two courses was open to us: either to fight to defend the Empire or become engulfed as slaves. "You members of the British Empire Service League responded as manly and as nobly as man had done twenty five years ago and it is to you and yours that credit for our success is due."

Mr. MacNaught in his brief address also congratulated the president and his executive for the progress they had made in one short year. Upon the occasion of the opening of the home Mr. MacNaught said he had predicted that it would prove of inestimable value not only in the lives of the Legion members but in the social life of the community as well. He was glad he said to see that the prediction was more than borne out and that all concerned were to be congratulated on the splendid work being done at the Memorial home.

A Pleasure

Mayor J. F. Arnett stated that for him it was always a great pleasure to visit Miscouche. He had been present at the opening of the home and at that time suggested that a plaque be erected containing the names of all those who had served so nobly and well and he said that it was

The rooms measure about 33 by 21 feet, with the floors and each room is equipped with an average of 25 combined desks with seats attached. The desks are of hardwood. In addition to the new desks, those of modern make which were used in the former school are utilized.

There are two very neat wash-rooms, one for boys and one for girls, and also on the second floor is a special room with books etc. for the teachers. Here it is intended to have a radio installed with loud speaker attachment leading into the classrooms, when special subjects of an educational character are being broadcast they can be heard by the pupils. A drinking fountain is also to be installed in the school, which is equipped with electric lighting.

The principal of the school is Mr. Wendell Phillips; the vice-principal is Miss Mary MacLure and the other teachers are Mr. and Mrs. Arthur MacKinnon. Work on the construction of the school started in mid-June and was completed on August 29th.

The building committee of the school district who are responsible for most of the work and planning involved are, Ralph Compton, foreman, Stanley Tanton, Fred Mill, Earle Cannon, James Chappell, Lorne Boston, Mr. Emery Lyle was the committee secretary. The old school building has been sold to the Anglican Church to be used as a hall. — S

WESTERN GUARDIAN

—THE OFFICE of Dr. Henry Moyle, Summerside will be closed on Saturday, Sept. 3rd.

—LADY REQUIRES passage by car to Boston or New York. References. Phone Guardian, Summerside.

—PANTRY SALE. Holman's Hardware, Saturday afternoon 2:30 o'clock. Sponsored by the Knights of Columbus.

—ACCEPTED POSITION IN NEW TERRITORIES — Mr. Joseph Coady of North Wilshire, who had been on the staff of the Summerside High School previous to his teaching for the past year and a half in Hella, B.C., has accepted a position in the North West Territories, within one hundred miles of the Arctic Circle, at Fort Norman, situated at the junction of the Great Bear and MacKenzie Rivers. He and his wife (the former Kay Deigan) have already left for Fort Norman.—S

Personals

—Mrs. Arthur Linell of Malden, Mass., who has been spending her vacation, with her mother, Mrs. Garnet Campbell, Graham's Road, was visiting in Summerside this week.—S

Indeed a great pleasure for him to learn that steps were being taken to have this done. He said that many improvements have been made in the home and the people have benefited greatly by having the home at Miscouche. Not forgetting the Ladies Auxiliary Mayor Arnett gave them great credit for their part in the success of the home making of "here you have a home of which you can be justly proud."

Squadron Leader Publicover and Mr. W. S. Bernard also added their congratulations to those responsible for the erection of the home and the arrangements made to celebrate its first anniversary. A delicious lobster supper was served by the Ladies Auxiliary and the balance of the evening was spent in a most enjoyable dance.—S

COMFORT THAT PAYS FOR ITSELF

The purpose of insulating a house is to minimize the penetration of summer heat through walls and roof, and to help prevent interior heat in winter from escaping to the cold air outside. When this is scientifically done, houses are more comfortable the year round and become healthier and more pleasant places in which to live.

HEAT HELD IN! Scientifically "blown" to prevent "voids", Johns-Manville Rock Wool Home Insulation can save you up to 30% on your fuel year after year; can keep your house up to 15° cooler in summer. That's why Johns-Manville selects only contractors who rate high in skill and integrity!

ISLAND INSULATORS ARE APPROVED CONTRACTORS JOHN'S-MANVILLE (BLOWN) ROCK WOOL.

HOLMAN'S Summerside

BOSTON, Aug. 30 — (AP) — Flying fish played off Cape Cod and rudder fish spotted around Cape Ann, but oceanographers said today their presence in northern waters indicates no change in the course of the gulf stream. It's simply due to the fact that the long hot summer has raised the temperature of New England waters to higher than usual levels, said Jan Han of the Woods Hole Oceanographic Institute.

LONDON — (CP) — Felicity Farquharson is British Overseas Airways Corp.'s first stewardess to do 100 transatlantic trips.

HAMILTON, Ont., Aug. 30 — (CP) — Hamilton police said today they have broken up an alleged automobile theft ring operating between Ontario and Western Canada. Six persons were held

GRAVESEND, England — (CP) — An inscribed dinghy "back board" presented to a winning sculler in Gravesend Regatta in 1846 was found in a builder's yard here.
