PRISONER BREAKS JAIL ON SATURDAY

Makes Get-away From Queen's County Jail By Squeezing Be- tween Bars—Was Awaiting Supreme Court Trial.

James Gormley, prisoner in Queen's County jail, who was awaiting trial at the January term of the Supreme Court on a charge of assaulting and robbing Mr. Charles F. Miller, of Victoria, on July 4th last, made his escape on Saturday night between the hours of 7.30 and 8 o'clock.

Mr. Bert Dwyer, head jailer, interviewed by The Guardian last evening stated that Gormley, who occupied a cell on the top floor of the jail went to his supper with the other prisoners at 6 o'clock. After supper he returned to the top floor corridor, Mr. Joseph Shreanan, assistant jailer, who was on duty at the time visited this section of the jail at 7 o'clock and all was well. When he returned sometime after 8 o'clock, Gormley was missing. He made his escape by squeezing his body through the bars and with the aid of a blanket from his bed, lowered himself to the ground.

At a late hour last night there was no trace of the escaped prisoner. The jailer states that a similar escape to that of Gormley's was made several years ago.

Dairy Imports Almost Double

OTTAWA, Ont., August 31—Imports of dairy products almost doubled in the last year. The figures for the twelve months ending July 31 were \$10,914,909 as against \$5,974,410 in the preceding similar period.

The increase was due to heavier imports of butter, which moved up from \$5,331,553 to \$10,236,784. Cheese remained about the same at \$597,974. Imports of eggs were reduced \$359,000. Comparative figures were \$700,000 and \$1,059,000, according to a report issued today at the Dominion Bureau of Statistics.

GLACE BAY BAND IN THE CITY

Splendid Musical Pro- grams Rendered By Glace Bay Citadel

The Glace Bay Citadel Band of the Salvation Army, with Commandant and Mrs. R. Speller, arrived in the city on Saturday afternoon and after luncheon at the Citadel were accorded a civic reception at the Cenotaph by His Worship Mayor Yeo. During this ceremony Band-Sergeant Cameron placed a wreath on the Cenotaph as a mark of love and esteem for those who laid down their lives in the war.

Saturday afternoon was spent at Falconwood, when a programme of vocal and instrumental music was rendered to the patients of both institutions. The band was greeted by an immense crowd of enthusiastic citizens on its first appearance for an open air service on Saturday evening at the square, proceeding afterwards to the Citadel, for a public welcome festival, presided over by Mr. W. Chester S. McLure, M. L. A. A splendid programme was given by the band and male quartette party. During the evening a message of greeting was read from Brigadier Fred Knight of Sydney, B. C., an old Charlottetown son, and also from Ensign Howlett of Kingston, Ont., who accompanied the band last year.

Sunday morning found the band on the march for services of blessing and cheer. Two open air services preceded the Holiness meeting at the Citadel conducted by Commander and Mrs. Speller.

The male quartette party, during the morning visited Trinity and Zion Churches and sang suitable numbers in respective services.

The P. E. I. Hospital was visited early in the afternoon, when suitable singing and playing was rendered for the cheering of the sick. This was followed by a first class musical festival on the band stand in Queen Square Gardens. Hon. R. H. Jenkins, M. P., presided over this event which was opened by singing "Stand up, Stand up for Jesus," led by Adjutant Martin of the local corps, and prayer was offered by Rev. C. N. Brown, and Scriptural reading by Commandant Speller. A very large crowd thronged the gardens and displayed much enthusiastic appreciation.

The Prince Edward Theatre was the scene of activities last evening, when at 7 o'clock a salvation meeting was led by the visiting officers. Commandant Speller delivered an earnest address on the "Feeding of the Five Thousand." Mrs. Speller sang a solo which was warmly received.

At 8.30 p. m. another musical festival was opened with His Honour Lieut. Governor F. R. Hearle in the chair. Rev. Dr. H. H. Ramsay of Trinity Church, supported the chairman and offered the opening and closing prayer. A programme of music and singing of a high order was rendered by the band to a large and enthusiastic audience that packed the Theatre to overflow. A report of last night's festival will appear on Wednesday.

WILL ARRIVE IN CH'TOWN THIS EVENING

Distinguished Visitors From England Will Include This Pro- vince In Their Can- adian Tour.

Lady Penland, daughter of the Marquis and Marchioness of Aberdeen and Temair, accompanied by her son, Lord Penland, and her daughter, the Honorable Marjorie Sinclair, will arrive in the city tonight. They have been making a tour of Western Canada and upon the invitation of Mr. W. Chester S. McLure, have included our fair province in their itinerary. During their brief visit they are the guests of Mr. and Mrs. Chester McLure, Bonnahline and are being shown the various points of interest by Mr. McLure and Lt. Col. D. A. MacKinnon.

EIGHT DEAD IN WINNIPEG FIRE

(Canadian Press)
WINNIPEG, Man., Sept. 1—The greatest toll of life in the history of a fire in Winnipeg was taken this morning when flames swept through the Midway Block, a five storey apartment building on Edmonton St. Eight persons are dead including seven women and children and ten injured, two seriously. Seven died in the apartment house trapped in their upper floor suites, while the eighth succumbed in the hospital a few hours after rescue by firemen.

The property damage is estimated at \$50,000 though this does not include loss to tenants many of whom lost their furniture and personal belongings. The dead: Mrs. Madge Edwards, 48; her daughter Marjorie, 14, and son Gordon, 9. Alfred Applebee, 45 and daughter Irene 11. Ralph Wrighton 55. Mrs. H. L. Outler.

Tragic scenes were witnessed with the flames leaping high above the roof of the apartment, and smoke and fire blasting from the windows. A young girl on the fifth floor called for aid. She was surrounded by the flames, her night clothing was a fire. Before the firemen could place their ladders the girl fell back into the flames and was burned almost beyond recognition. Two bodies were found on what remained of an iron bed, the victims smothered by the smoke as they slept.

Poincaré Has Slight Relapse

PARIS, Aug. 31—Former Premier Raymond Poincaré yesterday experienced what his doctors termed a slight relapse and was ordered to return to his sick bed which he left after a minor operation. The former premier complained of difficulty in breathing and of fits of coughing. Doctors Marion and Gosset were summoned immediately. They diagnosed the case as a slight attack of pulmonary congestion but insisted that the patient take to his bed again.

M. Poincaré's slow recuperation and this setback are causing his friends some anxiety despite the doctors' official assurance that his condition was as satisfactory as possible.

In the face of the former premier's condition the second and major part of an operation which was to have been performed shortly must be postponed.

Rebuilding in the earthquake area of New Zealand actively progressing.

Italy has started its program for the reduction of indirect taxes.

Thought For Labour Day

Consider now, even in the meanest sort of Labour, the whole soul of a man is composed into a kind of real harmony, the instant he sets himself to work! Doubt, Desire, Fear, Remorse, Indignation, Despair, itself, all these like hell-dogs lie beleaguering the soul of the poor day-worker, as of every man, but he bends himself with free valour against his task, and all these are killed, all these shrink murmuring far off into their caves. The man is now a man. The blessed glow of labour in him, is it not as purifying fire, wherein all poison is burnt up, and of our smoke itself there is made bright blessed flame!

—Thomas Carlyle.

PLANS FOR SANATORIUM ABOUT READY

Big Campaign Will Be Put On Sept. 16 to 21 Throughout Pro- vince.

Further details of the progress being made with the Sanatorium Drive in the country districts are now available. Mrs. Wm. Mutch, the President of the Federated Women's Institutes of Prince Edward Island, reports that the organization work among the Institutes is pretty well completed and that canvassers will cover even the most remote sections of the rural communities during the campaign week, September 16th to the 21st. There are approximately 840 School Districts in the Province and over 200 of these contain Women's Institute organizations. These districts which are not so organized will be handled by the nearest Women's Institutes, these having undertaken to appoint local canvassing committees where such are required. In a few instances, individual Institutes have been asked to look after as many as five other School Districts and in every case they have agreed to do so. Mrs. Mutch says the Institutes have entered into the spirit of this campaign most enthusiastically and they are determined to carry it through to a most successful conclusion. The forthcoming Sanatorium Campaign will see the most comprehensive canvass of rural Prince Edward Island ever attempted and this, combined with the popularity of the appeal, will surely result in a splendid response.

Dr. Creelman announces that the preliminary details of the proposed institution have now been pretty well worked out and everything points to an early start upon the actual construction work. It has been decided that the Provincial Sanatorium will be up-to-date and modern in every respect, the very latest ideas in Sanatorium construction have been investigated and will be incorporated into the institution. Complete X-ray facilities will be included and provision is being made for the storage of the films and other combustible materials in an absolutely fireproof vault.

NO CREDENCE GIVEN THORNTON RUMOR

OTTAWA, Aug. 31—No credence is given here to the report that Sir Henry Thornton may, at Rt. Hon. J. H. Thomas' request, sever his connections with the Canadian National Railways to go to London and coordinate with the British railways.

A renewal contract between Sir Henry and the National Railways has been agreed upon and if not already signed the delay is due to the illness of Hon. G. A. Dunning.

This Thornton report is classed with the proposed sale of Labrador to Canada and the report that Premier King would restrict the issuing of licences for vessels with liquor made by taking care of three classes cargoes for the United States.

POTATO SHOW CREDITED TO NEW BRUNSWICK

Visitor, Admiring Ex- hibit of "Maritime" Potatoes at Toronto, Is Told "From New Brunswick."

The following appears as an editorial in the Halifax Herald of Saturday, 31st:

The Maritime exhibit at the big fair at Toronto is attracting a great deal of attention. The Toronto Globe reports that the expanse of blue lake with its flashing "sea fleas" and trim-sailed yachts is attracting scarcely more interest than the indoor pond of running water featuring the Maritime display. Representing the Atlantic Ocean, its waves lapping the shores of Nova Scotia, New Brunswick and Prince Edward Island, this sheet of water has an especial appeal with real live trout splashing the waters and a gigantic eel swimming contentedly about among the sea plants. "Real Clams" neighbor with star-fish and sea shells.

Motor boats and canoes, dinghies and smart launches ply the water, while steamers suggest a longer Atlantic cruise. "Down Where the Sea Breezes Blow" is the message flaunted above the model of the three provinces and the exhibit displaying apples, potatoes, pears, plums, fillets of fish, maple sugar and maple syrup, as well as "other appetizers."

"Can you tell me where they grow potatoes like these beauties?" queried a woman, pausing before the exhibit.

"Down in New Brunswick," was the ready response of one of the directors of the exhibit.

"My, but they're wonderful," gasped the visitor.

"And where do the potatoes come from that you eat at home, may I ask?" she was asked.

"In Indiana," was the answer, a note of regret in her voice that she couldn't get potatoes like those produced in the Maritimes in her home state.

All this is excellent advertising for the Maritimes, aided in no inconsiderable degree by the efforts of the Maritime Trade Commission in Ontario.

of patients:—(1), Paying patients; the rate per day cannot be decided until the actual construction and maintenance cost is known. (2), Non-paying patients; a considerable percentage of the beds will be earmarked for this type of patient. (3), Great War Veterans afflicted with this disease. It will certainly be a happy day for these returned boys when they may return once more to their native Province and again be in close touch with their relatives, friends and former comrades.

Dr. Creelman speaks very optimistically regarding the proposed drive of September 16th to the 21st. He says that many of our prominent citizens, men who are usually reluctant to engage in work of this nature, are voluntarily offering their assistance in this campaign. They no doubt feel that the Sanatorium is of such outstanding importance, they wish to be actively associated with it. This augurs well for its success.

GRAF ZEPPELIN SAILS FOR GERMANY

Dr. Eckener, Her Pilot, To Stay In America For A Few Days.

(Canadian Press)
LAKEHURST, N. J., Sept. 1.—The Graf Zeppelin sailed for Germany today and Dr. Hugo Eckener, the man who piloted it around the world, stood quietly on the ground and watch it go. It was a curious parting, the first separation of the man and the machine, which have shared so many adventures, for to close observers who watched it, it seemed that of the two it was the machine which showed the greatest reluctance.

Having made up his mind to stay on here for a few days, and send his dirigible back under command of Captain Ernst Lohmann, Dr. Eckener stood in the morning sun by the hangar door and saw the ship depart at 7:18, E. S. T. with scarcely any show of emotion. When the command "up ship" was given the ground crew heaved and the bow rose easily. But the tall dragged close to the ground and even when pulled upward by the mounting prow, hung at a sharp angle below the dirigible's forward section. Then the engines roared and the sluggish ship at last seemed to remember the reputation it had to uphold, straightened out melting then into the east toward the ocean it was to cross for the fifth time in less than a year.

PHILADELPHIA, Pa., Sept. 1. (A. P.)—The radio operator at the Reading railway station here tonight plucked up a message from the Graf Zeppelin giving her position at 38.05 degrees north and 56.15 degrees east. This places the ship about 1,000 east and slightly south of Lakehurst; the operator estimated. The message was plucked up at 7:15 p. m.

REVIEW OF REPARATIONS CONFERENCE

Great Britain Obtained a \$9,000,000 Increase Over The Amount Assigned to Her In The Young Plan.

(Special to The Guardian)
THE HAGUE, Aug. 31.—The delegates of the "Big Six" today closed the final session of the International Reparations Conference at 12.55 p. m. It was reported today that Great Britain has decided to abandon its claim to \$165,000 of its share of the unconditional annuities in favor of Japan and Portugal, providing France makes a similar concession in favor of Yugoslavia and Rumania.

It is total results the conference ends with the triumph of the Young plan and the virtual liquidation of practically all the problems resulting from the Great War, Germany and Britain are the gainers from the final settlement. Germany has obtained not only a substantial reduction in the amount of annuities due for reparations, but also the consent of the Rhineland powers to evacuate the Rhineland within eight months.

Great Britain's gain consisted not so much in obtaining a \$9,000,000 increase over the amount of reparations assigned to her in the Young plan as in the recovery of a dominating position in the European concert. Chancellor Phillip Snowden's insistence that Great Britain get the percentage of the reparations as originally fixed in the Spa agreement and his refusal to accept the Young plan until 80 percent of his demands had been met, marked a definite end to that spirit of acquiescence which had

Price-Cutting War Started

(Special to the Guardian)
NEW YORK, Aug. 31.—What may be the beginning of a state wide gasoline price cutting war has been started in this city by Standard Oil of New York and four other large petroleum distributors. Standard Oil cut to 16 cents a gallon at service stations, a reduction of three cents. Reduction of one cent was made in other places. Standard's reduction was followed by cuts on the part of Texaco, Shell Union, and Gulf, Municipal Gasoline Stations and the Sinclair Refining Company.

RUSSIA AND CHINA REACH AGREEMENT

Proposal of China For Conclusion of a Joint Declaration Settling Their Differences Accepted by Russia.

MOSCOW, U.S.S.R., August 31.—The Soviet Government tonight accepted proposals of China for conclusion of a joint declaration for settlement of all questions arising out of the bitter dispute over control of the Chinese Eastern Railway in Manchuria.

MOSCOW, Aug. 31.—The text of the Soviet-union government's draft declaration for a settlement of the Chinese Eastern railway controversy with China follows:

"Both parties declare they will settle all pending questions between them in conformity with the agreement of 1924 and in particular agree upon conditions for the redemption of the Peking agreement.

"Both parties will appoint immediately properly accredited representatives to a conference to settle all questions mentioned in the previous clause. Both parties believe the position of the Chinese Eastern railway that developed after a dispute may be altered in accordance with the Peking and Mukden agreements of 1924 and the understanding that all such alterations shall be settled by the conference provided for by the previous clauses.

"The Soviet government will appoint a manager and assistant manager of the Chinese Eastern railway who will be appointed immediately to the director of that line. The Soviet government will instruct employees of the Chinese Eastern railway who are citizens of the U. S. S. R. and the government will instruct its local authorities and their organizations strictly to observe conditions contained in article six of the 1924 agreement.

"Both parties will release immediately all those arrested in connection with the dispute since May 1, 1929."

characterized Britain's attitude in the international settlements / that have taken place since the end of the war.

When Aristide Briand, the French premier, arrived in Paris from The Hague yesterday, he was met at the station by the entire cabinet and many notables, including the German ambassador, Baron Leopold Von Hoesch, Von Hoesch was among the first to shake hands. Briand replying to the ambassador's greeting said, "You see it did not go so badly."

Political observers were of the opinion today that The Hague agreements will be met with a storm of criticism from the Conservative wing of parliament. M. Briand seeks an early assembly of parliament. The political phases of the question which were not entirely understood in France have already inspired distrust against the British Labor Government and Phillip Snowden in particular.

BOARDS URGE PROV. GOV. TO TAKE ACTION

Request Inauguration of Colonization, Sta- tistical And Publicity Bureau For Pro- vince.

At the recent annual meeting of the Associated Boards of Trade, the following resolution, moved by Mr. J. O. Hyndman, and seconded by Lt.-Col. G. H. Pull, was adopted in addition to those already published in the press

Whereas in the opinion of this Annual Conference of the Associated Boards of Trade, the present time is considered opportune in Prince Edward Island for an aggressive policy of Immigration and Colonization.

And whereas it is generally conceded that in the past other parts of the Dominion have been settled and developed partly at the expense of the Maritime Provinces

And whereas the population in Prince Edward Island has dwindled from 109,078 in 1891 to 88,536 in 1921, or a loss of over 20,000 in 30 years, as a result of her basic industry, Agriculture, having been handicapped through the lack of efficient and adequate transportation, leaving the Province in such a position, that she could not, for over 44 years, participate, on a parity in the traffic facilities available to citizens of the Mainland, and thus debarred from the proper development of her natural resources, mercantile and industrial life.

Be it therefore resolved that the Dominion Government be requested to grant this Province special consideration in the promotion of a Colonization and Publicity policy to offset the incalculable injury and loss sustained in the past, largely through non-fulfillment of the terms of Confederation, and that a copy of this resolution be forwarded to the Honorable the Prime Minister of Canada and the Honorable, the Minister of Immigration, and also to each of our Island representatives and Senators at Ottawa.

Be it further resolved that a copy of this Resolution be presented to the Honorable the Premier of Prince Edward Island, with the recommendation that the Provincial Government inaugurate a Colonization, Statistical and Publicity Department to work in co-operation with the Federal Department of Immigration, in order to comply with the suggestions and recommendations of the Dunnean Report; and further to use every endeavour in promoting a policy that will attract not only suitable settlers from Great Britain and Scandinavia, but also with a view of inducing Islanders residing in the United States, and other parts of Canada, to return to Prince Edward Island; and through the means of scientific education in Agriculture, and a proper campaign of publicity, to persuade our boys and girls to take advantage of the increasing opportunities that are now available to those who have faith in Island resources, and are willing to apply their energies towards greater expansion and increased prosperity.

Be it further resolved that a copy of this Resolution be presented to the Honorable the Premier of Prince Edward Island, with the recommendation that the Provincial Government inaugurate a Colonization, Statistical and Publicity Department to work in co-operation with the Federal Department of Immigration, in order to comply with the suggestions and recommendations of the Dunnean Report; and further to use every endeavour in promoting a policy that will attract not only suitable settlers from Great Britain and Scandinavia, but also with a view of inducing Islanders residing in the United States, and other parts of Canada, to return to Prince Edward Island; and through the means of scientific education in Agriculture, and a proper campaign of publicity, to persuade our boys and girls to take advantage of the increasing opportunities that are now available to those who have faith in Island resources, and are willing to apply their energies towards greater expansion and increased prosperity.
