YOU ARE AILING.

Not quite sick,—but robbed of ambition to work—find it hard to think clearly. Not ill enough to think of dying, but bad enough for life to be pretty dull. There is a remedy—Ferrozone—that quickly lifts that half dead feeling. Gracious, but Ferrozone makes you feel good; it sharpens the dullest appetite, makes it keen as a razor.

BLOOD? Ferrozone makes lots of it, the rich nourishing kind that vitalizes the whole body. You'll be wonderfully quickened, immensely strengthened, feel hearty and vigorous after using Ferrozone. Buoyant health, surplus vigor and reserve energy all come from this great restorative. Fifty cents buys box of fifty tablets at all dealers.

The annual meeting of Lots 27 and 28 Institute was held at Tryon on Thursday 23rd. inst. The President occupied the chair and there was a very good turn out o farmers in the hall. After the Secretary had read a statement of the past season's business, etc., the members proceeded to elect officers for the coming year as follows:—

Directors—T. H. Smith, Jabez Lea, Tryon; Webster Howatt, G. W. W. Cameron, Augustine Cove; Ephraim Bell, Cape Traverse; Harvey Wright, Searletown; John R. Cameron, Albany; Chas. Craig, Middleton; John M. Shreenan, Kinkora. G. W. W. Cameron was then elected President. Delegates were appointed to attend the Convention to be held at Charlottetown, in December, in connection with the "Short Course in Live Stock Judging"—also delegates t attend the meeting of the Tariff Commission in Charlottetown. A. S. Wright read an excellent paper on "The Salary Grab," strongly condemning it, and expressing the idea that the Institute should move in this matter, and show by thei condemnation their disapproval. Severa members spoke very strongly against this act, but as it was now getting late this subject was ordered to lie over. to be talked up at a future meeting. Quite a large number came forward, paid in the annual fee and were enrolled as members for the coming year. This ended a very interesting and successful Institute meeting.

THE ALBERTON GUARDIAN

Office—Post Office Building—H. Clarke, Mgr.

The death of Mrs Josiah Hamill occurred at Greenmount on Monday of inflammation of the lungs. Deceased was much respected and leaves a sorrowing husband and two daughters to mourn.

A beloved son of Mrs. Thos. Milligan died at Elmsdale on Sunday. Deceased was 10 years of age and for several months had been suffering of brain fever. Interment took place in the family plot at Freeland, Lot 11. The Guardian extends sincere sympathy.

Waterford Lot One—The codfishing industry was the best yet—until the dogfish pest came, which almost ruined it. The mackeral catch was poor.—Lobster fishing was good. Jas. W. Shea's factory, which is rented by the Portland Packing Co., has been much improved within the last few years. At present it is one of the best on the Western Shore.—The barn belonging to John A. Hearn which was burned has been replaced by a new one. The neighbors were so generous as to build a new barn of moderate size and stock it with fodder. —Any person having knowledge of the number of large families in Waterford can easily see one reason why Prince County does not decrease in population proportionately with Queen's and King's. In four houses on adjoining farms, the four families aggregate forty-nine children. If Waterford was under the domain of Uncle Sam every house would be entitled to one of Roosevelt's anti-race suicide medals.—James W. Shea has remodeled his house, Waterford Cottage, and has built a large and commodious kitchen.—The following marriages took place this week—Bridget Knox to Thomas Murphy, Sadie Shea to Peter Knox.

The annual meeting of Union Institute took place at Abram's Village on Saturday 25th inst. It was well attended by the members and others interested. The President's address was an able upholding of the benefits derived from the Institute, and a new feature was the holding of an Exhibition wherein only members were allowed to compete as exhibitors. The financial statement showed that the funds were judiciously expended during the year and in accordance with the Act. A new board of directors was elected and other business matters looked into. From the new board the following were chosen officers for ensuing year:

Stanislaus Wedge, President and L. A. Arsenault, Sec'y Treas.

It is pleasing to learn that the three young ladies from the western part of the Province, referred to in The Guardian of several weeks ago as having secured influential and merited positions in the A. O. R. I. P. of Boston, some time ago decided to remain home, and their decision is considered a decided acquisition to the west. They find that they can fill the responsibilities and duties of office in their native land, and that there is just as much work for them to do in Canada as in the United States. The society is progressing in a remarkable manner, no doubt, owing to the energy of its leaders. The worthy Chief, to whom an honor certificate was issued, although not by any means young in years, adds greatly to the high social standing of his office, and is considered a most worthy and capable official. The private grip of the order is new in this Province, but is none the less interesting. New members are being added from time to time as fast as they can prove themselves thoroughly worthy of examination.

THE MONTAGUE GUARDIAN

Geo. Wightman was in Charlottetown Tuesday via the Murray H. Railway.

The Mission Band social in the Montague Hall Tuesday night was a success. It passed off quietly.

Shipping is dull these days owing to the disagreeable weather. Several vessels are in port. Prices remain unchanged.

The sick in Montague are improving slowly. It is hoped they will soon all be restored to their usual health.

The Electra arrived yesterday morning with the usual supply of goods from Pictou. She left on return immediately with seats for the new Presbyterian Church at Murray H. South, which were manufactured at the Montague Steam factory, also material for the Marconi station at Cape Bear.

The turntable on the Montague Branch Railway will be completed this week. The working men live on board a car and are quite comfortable.

The snow fence back of the Montague Station is twelve feet high. It is built on a twelve foot bank which will give shelter to the station for the winter months, if not otherwise used.

Mr. Ives, proprietor of the Montague sash and door factory is busy these few days loading more flat cars with snow fences for the M. H. Railway. These will be taken by the usual long route.

Coughs, colds, hoarseness, and other throat ailments are quickly relieved by Otticosine tablets, ten cents per box. All druggists.

SYDNEY, November 28.—The Elder-Dempster liner Angola of the Canada Mexico service, was seized at the International pier Saturday by Customs Preventive Officer Gordon, at the instance of the Montreal authorities for an alleged infraction of the Canadian customs laws.
