## "White Bronze" Monument

When asked how they like it. This is the age of improvements and the time is near when all those grown stone monuments will be replaced with something more durable. All can plainly see by visiting the cemetery the decayed condition of stone grave markers. Thousands have already purchased "WHITE BRONZE" monuments not content to trust their family records to any perishable material. All the inscriptions on "WHITE BRONZE" are in raised letters and do not require paint to keep them legible. "WHITE BRONZE" is a pure metal cast in gold or silver. Write for designs and information or call at my office and see some nice samples of monuments.

Later in the evening two men, Percy Morrissey and Percy Gavin) going along the road found the truck wagon overturned on the road near Mr. McCarthy's home, and Mr. McCarthy lying underneath the wagon. He was picked up still breathing, but died shortly after. It is said that his neck was broken in the fall. He was about seventy-five years old and leaves a number of sons and daughters. One of his sons is Mr. Gerald McCarthy, Principal of the Georgetown School.

Gallant were two of the many scouring the woods recently for foxes, eager to have their share in the spoil which seemed to abound in the vicinity of Richmond Station, two litters having been captured there about. They had not gone very far when they came upon a fox den and upon devastating it found a female fox with her litter, consisting of—just one, a male. However the Messrs. Gallant returned home as if possessing the wealth of the fabled "King Midas" and busied themselves making a laudable record for their captives. May good luck be with them.—Com.
