Industrial Shares Close High In N.Y.

(By Frank MacMillen, Associated Press Financial Writer)

(A. P. By Guardian's Special Wire)

NEW YORK, Sept. 8—In the most active Saturday turnover since Feb. 10, 1934, the stock market churned irregularly ahead yesterday, scoring gains of as much as three or more points in a few thinly traded issues.

Measured by the Associated Press average of 60 stocks the market advanced .5 of a point to 49.9 a new high for the year and the highest level reached since Feb. 23, 1934. At the closing prices, the average of industrial shares stood at the highest point since the early autumn of 1931.

The forward progress of equities was held in check to some extent by the weight of profit-taking which appeared following the gains since Wednesday.

Financial circles were impressed with the report on steel production by the American Iron & Steel Institute. It showed output in August 24 percent ahead of July, the first time in several years that the August total had surpassed any preceding months of the year.

Transactions totalled 1,289,960 shares for the two-hour session, compared with 2,155,100 shares in the five-hour trading on Friday.

Although the majority of stocks coasted forward for gains of fractions to a point or more, a few issues bounded up around 3 to 4 or more points on limited transactions. These included: Allied Chemical at 164, American Can at 144 3-4, American Telephone at 143 1-4, Auburn at 38 3-4, and Columbian Carbon at 91.

In the Canadian list Noranda dropped a point. Fractional losers included Canadian Pacific, International Nickel, Ford of Canada "A," Lake Shore and Hiram Walker. Dome Mines, Hollinger and McIntyre-Porcupine were slightly higher.

NEW YORK, Sept. 8—Sterling was lower, the French franc and the Canadian dollar higher, in Saturday's foreign exchange markets.

The Dominion dollar reduced its discount from 9-32 to 7-32 per cent. The franc was up .00⅜ of a cent at 6.59¼ while the pound sterling, closing at $4.92⅜, showed a loss of half a cent.

(Canadian Press)

MONTREAL, Sept. 8—Narrow declines were registered on Montreal foreign exchanges today, the pound sterling and the United States dollar both showing losses. The pound was off ¾ of a cent at $4.94 and the dollar lost 1-16 of one per cent at 7-32 of one per cent premium. The French franc held unchanged at 6.61 cents.

Textile Stocks Hold Strong On Mt'l. Mart

(C. P. By Guardian's Special Wire)

MONTREAL, Sept. 8—The Montreal Stock Exchange closed on an optimistic note Saturday with gains holding a large majority over losses although generally confined to narrow limits. Volume was light as is usual in the short weekend session. Less than 3,600 shares changed hands.

There were few features, interest being fairly evenly divided. Textile stocks were fairly strong in the face of increased buying, Bruck Silk advancing 3-8 to 16 3-8 and Canadian Celanese recording a gain of a full point at 21. Paper stocks also managed to show small gains.

In the interlisted group, leaders in the rally during the latter part of last week, Consolidated Smelters again came in for a large share of support and showed a further gain of half a point at 173. Hollinger firmed 40 cents and Canadian Pacific and International Nickel were unchanged to narrowly higher.

Making its first board lot sale in about a month, Woods Manufacturing preferred lost 7 full points to sell at a new low of 53.

Sales on the stock exchange totalled 3,579 shares and $6,000 in bonds.

BRUIN ATTACKS AND TREES MAN

(Canadian Press)

VICTORIA, B. C., Sept. 8—Bruce McMicking, son of Dr. and Mrs. A. E. McMicking of Victoria, has decided that bear cubs are best left alone, especially when "Mama and Papa" bear are around.

Bruce is placer mining at Squaw Creek in Northern British Columbia and when he was wandering through the woods recently he saw two grizzly bear cubs playing in the bush and walked closer in order to get a better look at them.

The old bears were closer than he thought, however, and when they appeared on the scene he made for the closest tree as fast as he could, believing he would be safer in its upper branches.

The bruin parents pounded on the trunk of the tree in an effort to dislodge him but were unsuccessful and decided to wait until he came down.

He had no idea of doing this, however, and was forced to stay in the tree until long after dark before the bears departed so he could come down and return safely home.

Bruce now believes it is much safer to view grizzly cubs when they are in a cage than it is in the woods.

Five-year-old Rita Burton of London is shown in this picture putting on an impromptu exhibition for some friends in a competition conducted by a British movie studio. Rita won all honors with her comedy dancing and singing. England now hopes she has found an old world counterpart of Shirley Temple.

GRAIN

(Canadian Press)

WINNIPEG, Sept. 8—The new minimum price for wheat but a few hours old, futures values shot abruptly above it in an active Winnipeg Grain Exchange session Saturday, advancing the limit permitted in one day's trading.

Prices soared at the opening, fell off only a fraction and at the close were at the session's highest levels, three to 2⅞ cents advanced, October at 88½, December 88¾ and May 91½ cents.

Announcement of the minimum price for this year's no 1 northern wheat, 87½ cents, was the signal for heavy short-covering that ran prices up smartly. Fair-sized export sale of wheat and outside market strength whetted bullish enthusiasm.

Foreign sales were estimated at 750,000 bushels. Liverpool closed 1¾ higher and Chicago 2¼ cents advanced. Buenos Aires, reflecting insufficient rains over drought-stricken Argentina, closed three cent higher.

Cash grains trading was unsettled, with operators uncertain as to their position. The price of no 1 northern was set at the October future's close, 88½ cents, one cent above the minimum. Coarse grains futures moved higher with wheat but trading was desultory.

CHICAGO, Sept. 8—Canada's newest price-fixing plans brought about sharp upturns of Chicago Board of Trade wheat quotations Saturday, late as well as early.

Topmost prices in Chicago, 2½ cents up for the day, were reached just before trading ended. Keen interest was shown as to whether European countries would now find themselves forced to go to Canada wholesale or breadstuff supplies.

Wheat closed strong, 1¾-2¼ above yesterday's finish, Dec. 94⅝-½, corn ¼-⅜ advanced, Dec. 56½, oats ⅛-½ up, and provisions 5 to 17 cents down.

The four girls now five years and two month old, are Edna A.; Wilma B.; Sarah C.; and Helen D. Their father is a city constable.

THEATRE LEADER GOES TO LONDON

(Canadian Press)

EDMONTON, Sept. 8—A lover of dramatics from his early boyhood and prominent today in the Little Theatre movement in Edmonton, Fred Val Carey will leave here shortly for England to accept a position at the Old Vic Theatre London.

Mr. Carey is a native of Manchester, England and came to Canada 17 years ago after he had considerable experience as an amateur actor. He first resided in Calgary and there threw himself whole heartedly into the theatre work. Later he moved to Edmonton and has been secretary for the Edmonton branch of the Dickens Fellowship for the past seven years.

During his entire career it has always been an ambition to enter the professional field, Mr. Carey stated, and at last his dream has been realized. He expects to play in Shakespearean production at the Old Vic.

"There is very little really good Shakespearean playing today," said Mr. Carey. "This is a pity, for in his plays the actor gets a training that cannot be equalled. I feel there is not nearly enough production of Shakespeare in Canada and it should be fostered."

MINING

(Canadian Press)

TORONTO, Sept. 8—The golds clicked again on the Toronto mining market in the closing session of the week, rising a full point in the index on good volume. Silver stock showed little change at the end of the period and base metals were slightly weak.

For the third succeeding session Hollinger moved ahead and closed at $14, up 35 cents for the day. Wright Hargreaves and McIntyre closed unchanged and minor recessions were posted for Dome, Bralorne, Pioneer and Teck Hughes.

Interest centred in the medium-price golds with buying good on rising prices, supported by a better London price for gold. San Antonio gained 10 cents, Sylvanite 6, Siscoe 6. Prospectors Airways 25 and McWatters 8. Trading was in heavy demand in Little Long Lac with the price moving up 15 cents to 5.40.

Living Policyholders are Receiving 75% of Life Insurance Benefits

Beneficiaries Receive the Balance

YEAR after year, *living* policyholders are receiving by far the greater share of the moneys disbursed in Life Insurance benefits in Canada.

In 1934, for example, these living policyholders received an average of over $400,000 every working day! In that year, their total receipts of over 127 million dollars amounted to 75% of all Life Insurance benefits; the balance of nearly 42 million dollars was distributed among beneficiaries of deceased policyholders.

Through Life Insurance disbursements, thousands of Canadians from coast to coast have been able to realize their earlier ambitions. Men and women have won financial independence in their later years. Young men have obtained a start in business. Children have been educated. Families have been tided over periods of financial stress.

Life Insurance offers a safe, because it is a scientific, plan of saving for future needs. Not only does it provide vital protection for dependents but it enables millions of policyholders to make sure of money when they need it most.

As a Life Insurance policyholder, your savings are held "in trust" for you. They are safely invested on your behalf so that you can look forward to the time when *you* will enjoy the benefits of your own thrift.
